

GSSP BASE PROSPECTUS 2

BARCLAYS BANK PLC

(Incorporated with limited liability in England and Wales)

Pursuant to the Global Structured Securities Programme

What is this document?

This document (the "**Base Prospectus**") constitutes a base prospectus for the purposes of Article 5.4 of the Prospectus Directive, and is one of a number of prospectuses which relate to the Global Structured Securities Programme (the "**Programme**"). When used in this document, "**Prospectus Directive**" means Directive 2003/71/EC of the European Parliament and of the Council (as amended or superseded, including by Directive 2010/73/EU) and includes any relevant implementing measures in a relevant member state of the European Economic Area.

This Base Prospectus is valid for one year and may be supplemented from time to time to reflect any significant new factor, material mistake or inaccuracy relating to the information included in it.

What type of Securities does this Base Prospectus relate to?

This particular Base Prospectus ("**GSSP Base Prospectus 2**") relates to the issuance of securities ("**Securities**") which will either bear interest at a fixed rate, a floating rate or at a rate determined by reference to the performance of one or more specified equity indices, shares, depository receipts or exchange traded funds (in which case, the interest amount could be zero), and may automatically redeem early (or 'autocall') if the specified equity indices, shares, depository receipts or exchange traded funds are at or above a certain level on any one of a series of specified dates.

If not redeemed early, the Securities will be redeemed at an amount that is linked to the performance of one or more specified equity indices, shares, depository receipts or exchange traded funds.

Who is the Issuer?

The Securities will be issued by Barclays Bank PLC (the "**Issuer**"). The delivery or payment of any amount due under the Securities is subject to the Issuer's financial position and its ability to meet its obligations. The Registration Document for the Issuer (as defined in *Information Incorporated by Reference* below) which is incorporated by reference into this Base Prospectus, together with other information provided in this Base Prospectus, provides a description of the Issuer's business activities as well as certain financial information and material risks faced by the Issuer.

How do I use this Base Prospectus?

This Base Prospectus, together with certain other documents listed within, is intended to provide you with information necessary to enable you to make an informed investment decision before purchasing any Securities.

The contractual terms of any particular issuance of Securities will be composed of the terms and conditions set out at pages 137 to 274 of this Base Prospectus (the "**General Conditions**"), as completed by a separate Final Terms document, which is specific to that issuance of Securities (the "**Final Terms**").

The General Conditions comprise five Sections (A to E):

- Sections A: INTRODUCTION, B: FORM, TITLE, TRANSFER, CALCULATIONS, PAYMENTS AND SETTLEMENT and E: GENERAL PROVISIONS are generic provisions which apply to issuances of Securities generally;

- Sections C: INTEREST, AUTOMATIC REDEMPTION (AUTOCALL), FINAL REDEMPTION AND NOMINAL CALL EVENT and D: EQUITY LINKED CONDITIONS, DISRUPTION EVENTS AND TAXES AND EXPENSES contain certain optional provisions that will only apply to certain issuances of Securities. The Final Terms document will specify which provisions from Sections C and D apply to your Securities.

The provisions from Section C that are specified to be applicable in the Final Terms will contain the relevant economic terms applicable to your Securities, as follows:

- the relevant sub-paragraph of General Condition 6 (*Interest*) sets out how any interest amounts will be calculated;
- General Condition 7 (*Automatic Redemption (Autocall)*), if specified to apply in the Final Terms, contains details on the calculation of the early redemption amount which is payable following an 'autocall event';
- General Condition 8 (*Final redemption*) sets out how any settlement amount or entitlement will be calculated upon redemption (in the event that the Securities do not redeem early); and
- General Condition 9 (*Nominal Call Event*), will, if specified to apply in the Final Terms, set out the amount payable (if any) if the Securities are redeemed by the Issuer following a Nominal Call Event.

Worked examples of hypothetical Securities are set out in the section called '*How the return on your investment is calculated*' which explains how the calculations in Section C of the General Conditions will be made.

This Base Prospectus also includes other general information such as information about the material risks relating to investing in Securities and information on selling and transfer restrictions. The Registration Document incorporated by reference into this Base Prospectus provides a description of the Issuer's business activities as well as certain financial information and material risks faced by the Issuer.

All capitalised terms used will be defined in this Base Prospectus or the Final Terms and are referenced in the Index to this Base Prospectus.

What other documents do I need to read?

This Base Prospectus (including the Registration Document and the other information which is incorporated by reference) contains all information which is necessary to enable investors to make an informed decision regarding the financial position and prospects of the Issuer and the rights attaching to the Securities. Some of this information is incorporated by reference from other publicly available documents and some of this information is completed in an issue-specific document called the Final Terms. You should read the documents incorporated by reference, as well as the Final Terms in respect of such Securities, together with this Base Prospectus.

Documents will be made available at the registered office of the Issuer and at <https://www.home.barclays.com/barclays-investor-relations/results-and-reports/results.html>, <https://www.home.barclays/prospectuses-and-documentation/structured-securities/prospectuses.html> and at <https://www.home.barclays/prospectuses-and-documentation/structured-securities/final-terms.html> (as applicable).

What information is included in the Final Terms?

While this Base Prospectus includes general information about all Securities, the Final Terms is the document that sets out the specific details of each particular issuance of Securities. For example, the Final Terms will contain:

- the issue date;
- the date(s) on which the Securities may redeem early due to an 'autocall event', if applicable;

- the type of final redemption amount or entitlement payable or deliverable (assuming that the Securities do not redeem early due to an 'autocall event' or for any other reason) and the scheduled final redemption date;
- the type of interest and the interest payment dates;
- whether or not the Securities may be redeemed early at the option of the Issuer following a Nominal Call Event; and
- any other information needed to complete the terms included in this Base Prospectus for the particular Securities (identified by the words 'as specified in the Final Terms' or other equivalent wording).

Wherever the General Conditions provide optional provisions, the Final Terms will specify which of those provisions apply to a specific issuance of Securities.

What type of Underlying Assets may the Securities be linked to?

Securities issued under this Base Prospectus will be 'derivative securities' for the purposes of the Prospectus Directive, reflecting the fact that the interest terms may be, and the repayment terms shall be, linked to one or more of the following types of underlying: equity indices, shares, depository receipts representing shares or exchange traded funds.

IMPORTANT INFORMATION

THE AMOUNT PAYABLE OR DELIVERABLE ON REDEMPTION OF THE SECURITIES MAY BE LESS THAN THE ORIGINAL INVESTED AMOUNT (AND IN SOME CASES MAY BE ZERO), IN WHICH CASE YOU MAY LOSE SOME OR ALL OF YOUR ORIGINAL INVESTMENT.

FOR ALL SECURITIES, IF THE ISSUER BECOMES INSOLVENT OR BANKRUPT OR OTHERWISE FAILS TO MAKE ITS PAYMENT OR DELIVERY OBLIGATIONS ON THE SECURITIES, YOU WILL LOSE SOME OR ALL OF YOUR ORIGINAL INVESTMENT.

INVESTING IN SECURITIES INVOLVES CERTAIN RISKS, AND YOU SHOULD FULLY UNDERSTAND THESE BEFORE YOU INVEST. SEE THE SECTION HEADED 'RISK FACTORS' BELOW.

Responsibility

The Issuer accepts responsibility for the information contained in this Base Prospectus and any Final Terms. To the best of the knowledge of the Issuer (having taken all reasonable care to ensure that such is the case), the information contained in this Base Prospectus and any Final Terms is in accordance with the facts and contains no omission likely to affect the import of such information.

Regulatory approval and passporting for the purposes of the EU Prospectus Directive

This Base Prospectus has been approved by the United Kingdom Financial Conduct Authority (the "FCA") in its capacity as competent authority in the United Kingdom (the "UK Listing Authority") as a base prospectus issued in compliance with the Prospectus Directive and relevant implementing measures in the United Kingdom for the purpose of giving information with regard to the issue of Securities pursuant to the Programme on and during the period of 12 months after the date hereof.

The contents of this Base Prospectus have not been reviewed or approved by any regulatory authority other than the UK Listing Authority.

No compensation arrangements

Any failure by the Issuer to make payments or deliveries due under the Securities would not of itself give rise to any claim for compensation on the grounds of such a failure. You would not have a claim for compensation against the UK's Financial Services Compensation Scheme. For more information regarding Issuer risk, please see 'Risk Factors' – risk factor 1 (*Risks associated with the Issuer's ability to fulfil its obligations under the Securities and status of the Securities*).

No investment advice

Neither this Base Prospectus nor any Final Terms is or purports to be investment advice. Unless expressly agreed otherwise with a particular investor, neither the Issuer nor any Manager is acting as an investment adviser, providing advice of any other nature, or assuming any fiduciary obligation to any investor in Securities.

Independent evaluation

Nothing set out or referred to in this Base Prospectus is intended to provide the basis of any credit or other evaluation (except in respect of any purchase of Securities described herein) or should be considered as a recommendation by the Issuer or any Manager that any recipient of this Base Prospectus (or any document referred to herein) should purchase any Securities.

An investor should not purchase the Securities unless they understand the extent of their exposure to potential loss. Investors are urged to read the factors described in the section headed 'Risk Factors', together with the other information in this Base Prospectus (including any information incorporated by reference), as supplemented from time to time, and the Final Terms, before investing in the Securities.

Investors should note that (i) the risks described in the section headed 'Risk Factors' of this Base Prospectus and (ii) the risks described in the section headed 'Risk Factors' of the Registration

Document (which is incorporated by reference into this Base Prospectus) are not the only risks that the Issuer faces or that may arise because of the nature of the Securities. The Issuer has described only those risks relating to its operations and to the Securities that it considers to be material. There may be additional risks that the Issuer currently considers not to be material or of which it is not currently aware.

Given the nature, complexity and risks inherent in the Securities (and investments relating to any underlying assets), the Securities may not be suitable for an investor's investment objectives in the light of his or her financial circumstances. Investors should consider seeking independent advice to assist them in determining whether the Securities are a suitable investment for them or to assist them in evaluating the information contained or incorporated by reference into this Base Prospectus or set out in the Final Terms.

You have sole responsibility for the management of your tax and legal affairs including making any applicable filings and payments and complying with any applicable laws and regulations. Neither the Issuer, nor any of its Affiliates will provide you with tax or legal advice and you should obtain your own independent tax and legal advice tailored to your individual circumstances. The tax treatment of structured products, such as the Securities, can be complex; the tax treatment applied to an individual depends on their circumstances. The level and basis of taxation may alter during the term of any product.

Amounts due to be paid to you are described on a gross basis, i.e. without calculating any tax liability. The Issuer shall make no deduction for any tax, duty, or other charge unless required by law.

Potential for discretionary determinations by the Issuer or the Determination Agent

Under the terms and conditions of the Securities, following the occurrence of certain events relating to the Issuer, the Issuer's hedging arrangements, the Underlying Asset(s), taxation, the relevant currency or other matters, the Issuer or the Determination Agent may determine to take one of the actions available to it in order to deal with the impact of such event on the Securities or the Issuer or both. These actions may include (i) adjustment to the terms and conditions of the Securities, (ii) substitution of the Underlying Asset(s) or (iii) early redemption of the Securities. Any such discretionary determination by the Issuer or Determination Agent could have a material adverse impact on the value of and return on the Securities. See, in particular, '*Risk Factors*' – risk factor 15 (*Risks associated with discretionary powers of the Issuer and the Determination Agent, including in relation to the Issuer's hedging arrangements*) below.

Distribution

The distribution or delivery of this Base Prospectus or any Final Terms and any offer or sale of Securities in certain jurisdictions may be restricted by law. This document does not constitute, and may not be used for the purposes of, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offering or solicitation. Other than as expressly described in this Base Prospectus, no action is being taken to permit an offering of Securities or the delivery of this Base Prospectus in any jurisdiction. Persons into whose possession this Base Prospectus or any Final Terms come are required by the Issuer to inform themselves about and to observe any such restrictions.

Details of selling restrictions for various jurisdictions are set out in the section headed '*Purchase and Sale*'.

US selling restrictions

The Securities and, as applicable, the Entitlements have not been and will not be registered under the US Securities Act of 1933, as amended (the "**Securities Act**"), or with any securities regulatory authority of any state or other jurisdiction of the United States, and may not be offered or sold within the United States or to, or for the account or benefit of, US persons (as defined in Regulation S under the Securities Act ("**Regulation S**") ("**US persons**"), except in certain transactions exempt from the registration requirements of the Securities Act and applicable state securities laws. Trading in the Securities has not been approved by the US Commodities Futures Trading Commission under the US Commodity Exchange Act of 1936, as amended (the "**Commodity Exchange Act**") and the rules and

regulations promulgated thereunder. The Securities and, as applicable, the Entitlements are being offered and sold outside the United States to non-US persons in reliance on Regulation S.

Securities in bearer form may be subject to US tax law requirements (as described below). Subject to certain exceptions, the Securities may not be offered, sold or delivered within the United States or its possessions or to United States persons (as defined in the US Internal Revenue Code of 1986 (the "**Code**") and the regulations thereunder).

For a description of these and certain further restrictions on offers, sales and transfers of Securities and delivery of this Base Prospectus and any Final Terms, see '*Purchase and Sale*' and '*Clearance and Settlement*' herein.

THE SECURITIES AND, AS APPLICABLE, THE ENTITLEMENTS HAVE NOT BEEN AND WILL NOT BE APPROVED OR DISAPPROVED BY THE US SECURITIES AND EXCHANGE COMMISSION, ANY STATE SECURITIES COMMISSION IN THE UNITED STATES OR ANY OTHER US REGULATORY AUTHORITY, NOR HAVE ANY OF THE FOREGOING AUTHORITIES PASSED UPON OR ENDORSED THE MERITS OF THE OFFERING OF SECURITIES OR ENTITLEMENTS OR THE ACCURACY OR THE ADEQUACY OF THE OFFERING DOCUMENTS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENCE IN THE UNITED STATES.

US foreign account tax compliance withholding

THE FOREIGN ACCOUNT TAX COMPLIANCE ACT IS PARTICULARLY COMPLEX AND ITS CURRENT AND FUTURE APPLICATION TO THE ISSUER, SECURITIES AND THE INVESTORS IS UNCERTAIN AT THIS TIME. YOU SHOULD CONSULT YOUR OWN TAX ADVISERS TO OBTAIN A MORE DETAILED EXPLANATION OF FATCA AND TO LEARN HOW THIS LEGISLATION MIGHT AFFECT YOU IN YOUR PARTICULAR CIRCUMSTANCE, INCLUDING HOW THE FATCA RULES MAY APPLY TO PAYMENTS RECEIVED UNDER THE SECURITIES BOTH CURRENTLY AND IN FUTURE.

Change of circumstances

Neither the delivery of this Base Prospectus or any Final Terms, nor any sale of Securities pursuant thereto, shall create any impression that information therein relating to the Issuer is correct at any time subsequent to the date thereof or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same (the foregoing being without prejudice to the Issuer's obligations under applicable rules and regulations).

Representations

In connection with the issue and sale of Securities, no person has been authorised to give any information or to make any representation not contained in or consistent with the Base Prospectus and Final Terms and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer. The Issuer does not accept responsibility for any information not contained in this Base Prospectus and Final Terms. This document does not constitute, and may not be used for the purposes of, an offer or solicitation by anyone in any jurisdiction in which such offer or solicitation is not authorised or to any person to whom it is unlawful to make such offering or solicitation and no action is being taken to permit an offering of the Securities or the distribution of this Base Prospectus in any jurisdiction where action is required.

Calculations and determinations

Unless otherwise specified, all calculations and determinations in respect of the Securities shall be made by either Barclays Bank PLC or Barclays Capital Securities Limited (acting in such capacity, the "**Determination Agent**").

Use of a benchmark

Amounts payable under the Securities or assets deliverable under the Securities may be calculated or otherwise determined by reference to an index or a combination of indices. Any such index may constitute a benchmark for the purposes of the Benchmarks Regulation (Regulation (EU) 2016/1011)

(as may be amended from time to time, the "**Benchmarks Regulation**"). If any such index does constitute such a benchmark, the Final Terms will indicate whether or not the benchmark is provided by an administrator included in the register of administrators and benchmarks established and maintained by the European Securities and Markets Authority ("**ESMA**") pursuant to article 36 of the Benchmarks Regulation. Not every index will fall within the scope of the Benchmarks Regulation. Furthermore transitional provisions in the Benchmarks Regulation may have the result that the administrator of a particular benchmark is not required to appear in the register of administrators and benchmarks at the date of the applicable Final Terms. The registration status of any administrator under the Benchmarks Regulation is a matter of public record and, save where required by applicable law, the Issuer does not intend to update the Final Terms to reflect any change in the registration status of the administrator.

SUMMARY

Summaries are made up of disclosure requirements known as 'elements'. These elements are numbered in sections A to E (A.1 to E.7).

This summary (the "**Summary**") contains all the elements required to be included in a summary for these types of securities and issuer. Because some elements are not required to be addressed, there may be gaps in the numbering sequence of the elements.

Even though an element may be required to be inserted in the Summary because of the type of securities and issuer, it is possible that no relevant information can be given regarding the element. In this case a short description of the element is included in the Summary after the words 'not applicable'.

Section A – Introduction and warnings		
A.1	Introduction and warnings	<p>This Summary should be read as an introduction to the Base Prospectus. Any decision to invest in Securities should be based on consideration of the Base Prospectus as a whole, including any information incorporated by reference, and read together with the Final Terms.</p> <p>Where a claim relating to the information contained in the Base Prospectus is brought before a court, the plaintiff might, under the national legislation of the relevant Member State of the European Economic Area, have to bear the costs of translating the Base Prospectus before the legal proceedings are initiated.</p> <p>No civil liability shall attach to any responsible person solely on the basis of this Summary, including any translation thereof, unless it is misleading, inaccurate or inconsistent when read together with the other parts of the Base Prospectus or it does not provide, when read together with the other parts of the Base Prospectus, key information in order to aid holders when considering whether to invest in the Securities.</p>
A.2	Consent by the Issuer to the use of prospectus in subsequent resale or final placement of Securities	<p>[The Issuer may provide its consent to the use of the Base Prospectus and Final Terms for subsequent resale or final placement of Securities by financial intermediaries, provided that the subsequent resale or final placement of Securities by such financial intermediaries is made during the offer period specified below. Such consent may be subject to conditions which are relevant for the use of the Base Prospectus.]</p> <p>[The Issuer consents to the use of the Base Prospectus and these Final Terms with respect to the subsequent resale or final placement of Securities (a "Public Offer") which satisfies all of the following conditions:</p> <ul style="list-style-type: none"> (a) the Public Offer is only made in the United Kingdom; [and] (b) the Public Offer is only made during the period from (and including) [●] to (but excluding) [●] (the "Offer Period"); [and] (c) the Public Offer is only made by [●] [and] [each financial intermediary whose name is published on the Issuer's website (https://www.home.barclays/prospectuses-and-documentation/structured-securities/final-terms.html) and who is identified as an authorised offeror for these Securities] [any financial intermediary which (i) is authorised to make such offers under Directive 2014/65/EU of the European Parliament and of Council on markets in financial instruments (as amended from time to time, "MiFID") and (ii) has published on its website that it is using the Base Prospectus in accordance with the Issuer's consent and the conditions

		<p>attached thereto] ([each] an "Authorised Offeror")].]; and]</p> <p>(d) [●]</p> <p>Information on the terms and conditions of an offer by any Authorised Offeror is to be provided at the time of that offer by the Authorised Offeror.]</p> <p>[Not Applicable: the Issuer does not consent to the use of the Base Prospectus for subsequent resales.]</p>
Section B – Issuer		
B.1	Legal and commercial name of the Issuer	The Securities are issued by Barclays Bank PLC (the " Issuer ").
B.2	Domicile and legal form of the Issuer, legislation under which the Issuer operates and country of incorporation of the Issuer	<p>The Issuer is a public limited company registered in England and Wales.</p> <p>The principal laws and legislation under which the Issuer operates are laws of England and Wales including the Companies Act.</p>
B.4b	Known trends affecting the Issuer and industries in which the Issuer operates	<p>The business and earnings of the Issuer and its subsidiary undertakings (together, the "Bank Group" or "Barclays") can be affected by the fiscal or other policies and other actions of various governmental and regulatory authorities in the UK, EU, US and elsewhere, which are all subject to change, as a result, regulatory risk will remain a focus. A more intensive regulatory approach and enhanced requirements together with the uncertainty (particularly in light of the UK's decision to withdraw from the EU) and potential lack of international regulatory coordination as enhanced supervisory standards are developed and implemented may adversely affect the Bank Group's business, capital and risk management strategies and/or may result in the Bank Group deciding to modify its legal entity structure, capital and funding structures and business mix, or to exit certain business activities altogether or not to expand in areas despite otherwise attractive potential.</p> <p>The most significant of the regulatory reforms affecting the Bank Group in 2018 is the creation of the ring-fenced bank under the structural reform programme carried out by the ultimate holding company of the Bank Group (Barclays PLC, together with its subsidiaries, the "Group").</p> <p>There are several other significant pieces of legislation which will require significant management, attention, cost and resource which include:</p> <ul style="list-style-type: none"> • Changes in prudential requirements, including the proposals for amendment of the Capital Requirements Directive (CRD IV) and the EU Bank Recovery and Resolution Directive (BRRD) which may impact minimum requirements for own funds and eligible liabilities (MREL), leverage, liquidity or funding requirements, applicable buffers and/or add-ons to such minimum requirements and risk weighted assets calculation methodologies all as may be set by international, EU or national

		<p>authorities from time to time.</p> <ul style="list-style-type: none"> • The derivatives market has been the subject of particular focus for regulators in recent years across the G20 countries and beyond, with regulations introduced which require the reporting and clearing of standardised over the counter ("OTC") derivatives and the mandatory margining of non-cleared OTC derivatives. Reforms in this area are ongoing with further requirements expected to be implemented in the course of 2018. • The recast Markets in Financial Instruments Directive in Europe, which came into force in January 2018, has fundamentally changed the European regulatory framework, and entails significant operational changes for market participants in a wide range of financial instruments as well as changes in market structures and practices. • The EU Benchmarks Regulation which also came into force in January 2018 regulates the administration and use of benchmarks in the EU. Compliance with this evolving regulatory framework entails significant costs for market participants and is having a significant impact on certain markets in which the Bank Group operates. • Other regulations applicable to swap dealers, including those promulgated by the US Commodity Futures Trading Commission, have imposed significant costs on the Bank Group's derivatives business. These and any future requirements are expected to continue to impact such business.
B.5	Description of the group and the Issuer's position within the group	<p>The Bank Group is a major global financial services provider.</p> <p>The Issuer is a wholly owned direct subsidiary of Barclays PLC, which is the ultimate holding company of the Bank Group.</p>
B.9	Profit forecast or estimate	Not Applicable: the Issuer has chosen not to include a profit forecast or estimate.
B.10	Nature of any qualifications in audit report on historical financial information	Not Applicable: the audit report on the historical financial information contains no such qualifications.
B.12	Selected key financial information; no material adverse change and no significant change statements	<p>Based on the Bank Group's audited financial information for the year ended 31 December 2017, the Bank Group had total assets of £1,129,343 million (2016: £1,213,955 million), total net loans and advances of £401,762 million (2016: £436,417 million), total deposits of £467,332 million (2016: £472,917 million), and total equity of £65,734 million (2016: £70,955 million) (including non-controlling interests of £1 million (2016: £3,522 million)). The profit before tax of the Bank Group for the year ended 31 December 2017 was £3,166 million (2016: £4,383 million) after credit impairment charges and other provisions of £2,336 million (2016: £2,373 million). The financial information in this paragraph is extracted from the audited consolidated financial statements of the Issuer for the year ended 31 December 2017.</p> <p>Based on the Bank Group's unaudited financial information for the six</p>

Summary

		<p>months ended 30 June 2018, the Bank Group had total assets of £903,345 million (30 June 2017: £1,136,867 million), total net loans and advances of £226,369 million (30 June 2017: £427,980 million), total deposits of £279,438 million (30 June 2017: £488,162 million), and total shareholders' equity of £48,192 million (30 June 2017: £66,167 million) (including non-controlling interests of £2 million (30 June 2017: £84 million)). The profit before tax from continuing operations of the Bank Group for the six months ended 30 June 2018 was £725 million (30 June 2017: £1,731 million) after credit impairment charges and other provisions of £156 million (30 June 2017: £656 million). The financial information in this paragraph is extracted from the unaudited condensed consolidated interim financial statements of the Issuer for the six months ended 30 June 2018.</p> <p>Not Applicable: there has been no significant change in the financial or trading position of the Bank Group since 30 June 2018.</p> <p>There has been no material adverse change in the prospects of the Issuer since 31 December 2017.</p>

C.2	Currency	<p>Subject to compliance with all applicable laws, regulations and directives, Securities may be issued in any currency.</p> <p>[The Securities will be denominated in [pounds sterling ("GBP")][Euro ("EUR")][United States dollars ("USD")][●].]</p>
C.5	Description of restrictions on free transferability of the Securities	<p>Securities are offered and sold outside the United States to non-US persons in reliance on Regulation S and must comply with transfer restrictions with respect to the United States.</p> <p>Securities held in a clearing system will be transferred in accordance with the rules, procedures and regulations of that clearing system.</p> <p>Subject to the above, the Securities will be freely transferable.</p>
C.8	Description of rights attached to the Securities, and limitations to those rights and ranking of the Securities	<p>Rights: Each Security includes a right to a potential return of interest and amount payable or deliverable on redemption together with certain ancillary rights such as the right to receive notice of certain determinations and events and to vote on future amendments.</p> <p>Taxation: All payments in respect of the Securities shall be made without withholding or deduction for or on account of any UK taxes unless such withholding or deduction is required by law. In the event that any such withholding or deduction is required by law, the Issuer will, save in limited circumstances, pay additional amounts to cover the amounts so withheld or deducted.</p> <p>Events of default: If the Issuer fails to make any payment due under the Securities or breaches any other term and condition of the Securities in a way that is materially prejudicial to the interests of the holders (and such failure is not remedied within 30 days, or, in the case of interest, 14 days), or the Issuer is subject to a winding-up order, then (subject, in the case of interest, to the Issuer being prevented from payment for a mandatory provision of law) the Securities will become immediately due and payable, upon notice being given by the holder.</p> <p>Ranking: The Securities are direct, unsubordinated and unsecured obligations of the Issuer and rank equally among themselves.</p> <p>Limitations to rights: Notwithstanding that the Securities are linked to the performance of the underlying asset(s), Holders do not have any rights in respect of the underlying assets(s). The terms and conditions of the Securities contain provisions for calling meetings of holders to consider matters affecting their interests generally and these provisions permit defined majorities to bind all holders, including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority. Furthermore, in certain circumstances,</p>

		<p>the Issuer may amend the terms and conditions of the Securities, without the holders' consent. The terms and conditions of the Securities permit the Issuer and the Determination Agent (as the case may be), on the occurrence of certain events and in certain circumstances, without the holders' consent, to make adjustments to the terms and conditions of the Securities, to redeem the Securities prior to maturity, (where applicable) to postpone valuation of the underlying asset(s) or scheduled payments under the Securities, to change the currency in which the Securities are denominated, to substitute the Issuer with another permitted entity subject to certain conditions, and to take certain other actions with regard to the Securities and the underlying asset(s) (if any).</p>
<p>C.11</p>	<p>Admission to trading</p>	<p>[Securities may be admitted to trading on a regulated market in the United Kingdom.]</p> <p>[Application [has been][is expected to be] made by the Issuer (or on its behalf) for the Securities to be admitted to trading on the regulated market of the London Stock Exchange with effect from [●]. Where the Calculation Amount is different from the specified denomination of the Securities, the amount payable will be scaled accordingly.</p> <p>Indicative amounts: If the Securities are being offered by way of a Public Offer and any specified product values are not fixed or determined at the commencement of the Offer Period, these specified product values will specify an indicative amount, indicative minimum amount, an indicative maximum amount or any combination thereof. In such case, the relevant specified product value(s) shall be the value determined based on market conditions by the Issuer on or around the end of the Offer Period. Notice of the relevant specified product value will be published prior to the Issue Date.</p> <p style="text-align: center;">INTEREST</p> <p>[Fixed Interest: Each Security will pay a fixed amount of interest on each date specified below under the heading 'Interest Payment Date' (each, an "Interest Payment Date") calculated by multiplying the fixed rate (being [●]% [per annum]) by the Calculation Amount [and further multiplying by a fraction representing the number of days in the relevant interest calculation period over which interest has accrued].</p> <p>Interest Payment Date</p> <p>[●]</p> <p>][Floating Rate Interest: Each Security will pay a variable amount of interest (based on a floating rate) on the dates specified below under the heading 'Interest Payment Date' (each, an "Interest Payment Date"),</p>

FINAL REDEMPTION

If the Securities have not redeemed early they will redeem on the scheduled redemption date at an amount that is dependent on each of the following:

- the 'Initial Price' of the [Worst Performing] Underlying Asset, which reflects the price or level of that asset near the issue date of the Securities;
- the 'Final Valuation Price' of the [Worst Performing] Underlying Asset, which reflects the price or level of that asset near the scheduled redemption date;
- [the 'Strike Price' of the [Worst Performing] Underlying Asset, which is calculated as [●] multiplied by the Initial Price of that asset;]

Section D – Risks						
D.2	Key information on the key risks that are specific to the Issuer	<p>The risks described below are material risks that senior management has identified with respect to the Group. In connection with the planned implementation in the first half of 2018 of ring-fencing certain of the Group’s UK businesses, the Issuer will transfer what are materially the assets and business of the Barclays UK division to another subsidiary of the Group, Barclays Bank UK PLC (the "UK Ring-fenced Bank"). Senior management expects that upon this transfer the material risks with respect to the Bank Group will be the same in all material respects as those risks with respect to the Group (save in relation to certain potential differences in risks as described in "Certain potential consequences of ring-fencing to the Issuer" below).</p> <p>The Issuer classifies eight risks as "Principal Risks": (1) Credit Risk; (2) Market Risk; (3) Treasury and Capital Risk; (4) Operational Risk; (5) Model Risk; (6) Conduct Risk; (7) Reputation Risk and (8) Legal Risk</p>				

	<p>(each a "Principal Risk"). Material risks to the Group and their impact are described below in the sections (i) material existing and emerging risks potentially impacting more than one Principal Risk and (ii) material existing and emerging risks impacting individual Principal Risks.</p> <p>(i) Material existing and emerging risks potentially impacting more than one Principal Risk</p> <p>Business conditions, general economy and geopolitical issues</p> <p>The Group offers a broad range of services, including to retail, institutional and government customers, in a large number of countries. The breadth of these operations means that deterioration in the economic environment, or an increase in political instability in countries where the Group is active, or in any systemically important economy, could adversely affect the Group's operating performance, financial condition and prospects.</p> <p>Interest rate rises adversely impacting credit conditions</p> <p>To the extent that central banks increase interest rates particularly in the Group's main markets, in the UK and the US, there could be an impact on consumer debt affordability and corporate profitability. While interest rate rises could positively impact the Group's profitability, as retail and corporate business income may increase due to margin de-compression, future interest rate increases, if larger or more frequent than expectations, could cause stress in the loan portfolio and underwriting activity of the Group. Higher credit losses driving an increased impairment allowance would most notably impact retail unsecured portfolios and wholesale non- investment grade lending.</p> <p>Interest rates rising faster than expected could also have an adverse impact on the value of high quality liquid assets which are part of the Group Treasury function's investment activity that could consequently create more volatility through the Group's available for sale reserves than expected.</p> <p>Process of UK withdrawal from the European Union</p> <p>The uncertainty and increased market volatility following the UK's decision to leave the EU in 2019 is likely to continue until the exact nature of the future trading relationship with the EU becomes clear. The potential risks associated with an exit from the EU include:</p> <ul style="list-style-type: none"> • Increased market risk with the impact on the value of trading book positions; • Potential for credit spread widening for UK institutions which could lead to reduced investor appetite for the Group's debt securities, which could negatively impact the cost of and/or access to funding; • Changes in the long-term outlook for UK interest rates which may adversely affect International Accounting Standards 19 pension liabilities and the market value of equity investments funding those liabilities; • Increased risk of a UK recession with lower growth, higher unemployment and falling UK house prices. This would negatively impact a number of the Group's portfolios; • Changes to current EU "Passporting" rights which will likely

		<p>require adjustments to the current model for the Group's cross-border banking operation which could increase operational complexity and/or costs;</p> <ul style="list-style-type: none"> • The ability to attract, or prevent the departure of, qualified and skilled employees may be impacted by the UK's future approach to the EU freedom of movement and immigration from the EU countries; and • The legal framework within which the Group operates could change and become more uncertain as the UK takes steps to replace or repeal certain laws currently in force, which are based on EU legislation and regulation. <p>Regulatory change agenda and impact on business model</p> <p>The Group remains subject to ongoing significant levels of regulatory change and scrutiny in many of the countries in which it operates (including, in particular, the UK and the US). A more intensive regulatory approach and enhanced requirements together with the uncertainty (particularly in light of the UK's decision to withdraw from the EU) and potential lack of international regulatory coordination as enhanced supervisory standards are developed and implemented may adversely affect the Group's business, capital and risk management strategies and/or may result in the Group deciding to modify its legal entity structure, capital and funding structures and business mix, or to exit certain business activities altogether or not to expand in areas despite otherwise attractive potential.</p> <p>Certain potential consequences of ring-fencing to the Issuer</p> <p>In connection with the planned implementation in the first half of 2018 of ring-fencing certain of the Group's businesses, the Issuer will transfer what are materially the assets and business of the Barclays UK division to another subsidiary of the Group, the UK Ring-fenced Bank. Senior management expects that upon this transfer, the material risks with respect to the Bank Group will be the same in all material respects as those risks with respect to the Group. However, senior management has identified certain potential differences in risks with respect to the Bank Group as compared to risks to the Group.</p> <ul style="list-style-type: none"> • The transfer of the assets and liabilities of the Barclays UK division from the Issuer will mean that the Bank Group will be less diversified than the Group as a whole. • The Issuer will not be the parent of the UK Ring-fenced Bank and thus will not have recourse to the assets of the UK Ring-fenced Bank. • Relative to the Group, the Bank Group will be, among other things, more focused on businesses outside the UK, particularly in the US; exposed to the US economy and more affected by movements in the US Dollar (and other non-Sterling currencies) relative to Sterling, with a relatively larger portion of its business exposed to US regulation; more focused on wholesale businesses, such as corporate and investment banking and capital markets; more dependent on wholesale funding sources; and potentially subject to different regulatory obligations. <p>Accordingly, the implementation of ring-fencing may adversely affect the market value and/or liquidity of the Securities.</p>

	<p>(ii) Material existing and emerging risks impacting individual Principal Risks</p> <p>Credit risk: The risk of loss to the Group from the failure of clients, customers or counterparties, including sovereigns, to fully honour their obligations to the Group, including the whole and timely payment of principal, interest, collateral and other receivables. The Group may suffer financial loss if any of its customers, clients or counterparties fails to fulfil their contractual obligations to the Group.</p> <p>Market risk: The risk of a loss arising from potential adverse changes in the value of the Group's assets and liabilities from fluctuation in market variables including, but not limited to, interest rates, foreign exchange, equity prices, commodity prices, credit spreads, implied volatilities and asset correlations. The Group's trading business is generally exposed to a prolonged period of elevated asset price volatility, particularly if it negatively affects the depth of marketplace liquidity.</p> <p>Treasury and capital risk: The risk that the Group (i) is unable to meet its contractual or contingent obligations or that it does not have the appropriate amount, tenor and composition of funding and liquidity to support its assets, (ii) has an insufficient level or composition of capital to support its normal business activities and to meet its regulatory capital requirements, or (iii) is exposed to capital or income volatility because of a mismatch between the interest rate exposures of its assets and liabilities. The Group may not be able to achieve its business plans due to, among other things: a) being unable to maintain appropriate capital ratios; b) being unable to meet its obligations as they fall due; c) rating agency downgrades; d) adverse changes in foreign exchange rates on capital ratios; e) adverse movements in the pension fund; and f) non-traded market risk/interest rate risk in the banking book.</p> <p>Operational risk: The Group is exposed to many types of operational risk. These include: (i) the risk of failing to adequately manage the threat of cyber attacks and to continually evolve enterprise security and provide an active cyber security response capability could result in increased fraud losses, inability to perform critical economic functions, customer detriment, potential regulatory censure and penalty, legal liability, reduction in shareholder value and reputational damage; (ii) the risk of loss of or disruption to the Group's business processing, whether arising through impacts on technology systems, real estate services, personnel availability or the support of major suppliers, and which may result in significant customer detriment, cost to reimburse losses incurred by the Group's customers, potential regulatory censure or penalty, and reputational damage; (iii) to the extent that the Group depends on suppliers for the provision of many of its services and the development of future technology driven product propositions, there is a risk that client information or critical infrastructures is not adequately protected, the potential for a negative impact on the Group's ability to continue to provide services that are material to the Group following a failure by any such supplier and the potential for increased losses, inability to perform critical economic functions, customer detriment, potential regulatory censure and penalty, legal liability and reputational damages upon a failure to adequately manage outsourcing risk; (iv) the risk of material errors in operational processes, including payments, which could disadvantage the Group's customers, clients or counterparties and could result in regulatory censure and penalties, legal liability, reputational damage and financial loss by the Group; (v) the risk of a failure to closely monitor risk exposure to new and emergent technology, which could lead to customer detriment, loss of business, regulatory censure, missed</p>

	<p>business opportunity and reputational damage; (vi) the risk of fraudulent and other internal and external criminal activities, which could result in high profile material losses together with regulatory censure, penalties and significant reputational damage; (vii) the risk of the inability to hire and retain appropriately qualified employees, which could negatively impact the Group's financial performance, control environment and level of employee engagement as well as the disenfranchisement of certain customer groups, customer detriment and reputational damage; (viii) the risk that the Group failing to comply with tax laws and practices or managing its tax affairs in an appropriate manner, which could lead to losses due to additional tax charges, other financial costs or reputational damage; (ix) the risk that of incorrect judgements being exercised, or incorrect estimates or assumptions being used, in relation to International Financial Reporting Standards, which could result in significant loss to the Group, beyond what was anticipated or provided for; and (x) the risk of failing to accurately collect and maintain the large volumes of data (including personally identifiable information, intellectual property, and financial data) that the Group holds and to protect it from breaches of confidentiality and interference with its availability, which could lead to loss or unavailability of data and data integrity issues and could result in regulatory censure, legal liability and reputational damage.</p> <p>Model risk: The risk of the potential adverse consequences from financial assessments or decisions based on incorrect or misused model outputs and reports. Models are, by their nature, imperfect and incomplete representations of reality because they rely on assumptions and inputs, and so they may be subject to errors affecting the accuracy of their outputs. Models may also be misused. Model errors or misuse may result in the Group making inappropriate business decisions and being subject to financial loss, regulatory risk, reputational risk and/or inadequate capital reporting.</p> <p>Conduct risk: The risk of detriment to customers, clients, market integrity, competition or the Group from the inappropriate supply of financial services, including instances of wilful or negligent misconduct. Ineffective product governance, could lead to poor customer outcomes, as well as regulatory sanctions, financial loss and reputational damage. The Group may be adversely affected if it fails to effectively mitigate the risk that its employees or third parties facilitate, or that its products and services are used to facilitate financial crime (money laundering, terrorist financing, bribery and corruption and sanctions evasion). Failure to protect personal data can lead to potential detriment to the Group's customers and clients, reputational damage, regulatory sanctions and financial loss, which under the new EU Data Protection Regulation may be substantial. Failure to meet the requirements and expectations of the UK Senior Managers Regime, Certification Regime and Conduct Rules may lead to regulatory sanctions, both for the individuals and the Group.</p> <p>Reputation risk: The risk that an action, transaction, investment or event will reduce trust in the Group's integrity and competence by clients, counterparties, investors, regulators, employees or the public.</p> <p>Legal risk and legal, competition and regulatory matters: The risk of loss or imposition of penalties, damages or fines from the failure of the Group to meet its legal obligations including regulatory or contractual requirements. Legal disputes, regulatory investigations, fines and other sanctions relating to conduct of business and breaches of legislation and/or regulations may negatively affect the Group's results, reputation and ability to conduct its business. Legal outcomes can arise as a consequence of legal risk or because of past and future actions,</p>

D.6	<p>Key information on the key risks that are specific to the Securities; and risk warning that investors may lose some or all of the value of their investment</p>	<p>You may lose some or all of your investment.</p> <p>The terms of the Securities do not provide for scheduled minimum payment of the face value or issue price of the Securities at maturity: depending on the performance of the Underlying Asset(s), you may lose some or all of your investment.</p> <p>The payment of any amount or delivery of any property due under the Securities is dependent upon the Issuer's ability to fulfil its obligations when they fall due. The Securities are unsecured obligations. They are not deposits and they are not protected under the UK's Financial Services Compensation Scheme or any other deposit protection insurance scheme. Therefore, if the Issuer fails or is otherwise unable to meet its payment or delivery obligations under the Securities, you will lose some or all of your investment.</p> <p>You will lose up to the entire value of your investment if the Issuer fails or is otherwise unable to meet its payment obligations.</p> <p>You may also lose some or all of your entire investment if:</p> <ul style="list-style-type: none"> • you sell your Securities prior to maturity in the secondary market (if any) at an amount that is less than the initial purchase price; • the Securities are redeemed early following the occurrence of an extraordinary event in relation to the Underlying Asset(s), the Issuer, the Issuer's hedging arrangement, the relevant currencies or taxation (such as following an additional disruption event) and the amount you receive on such redemption is less than the initial purchase price; and/or • the terms and conditions of the Securities are adjusted (in accordance with the terms and conditions of the Securities) with the result that the redemption amount payable to you and/or the value of the Securities is reduced. <p>Return linked to performance of Underlying Asset[s]: The return payable on the Securities is linked to the change in value of the Underlying Asset[s] over the life of the Securities. Any information about the past performance of any Underlying Asset should not be taken as an indication of how prices will change in the future. You will not have any rights of ownership, including, without limitation, any voting rights or rights to receive dividends, in respect of any Underlying Asset.</p> <p>[Risk of withdrawal of the public offering: In case of a public offer, the Issuer may provide in the Final Terms that it is a condition of the offer that the Issuer may withdraw the offer for reasons beyond its control, such as extraordinary events that in the determination of the Issuer may be prejudicial to the offer. In such circumstances, the offer will be deemed to be null and void. In such case, where you have already paid or delivered subscription monies for the relevant Securities, you will be entitled to reimbursement of such amounts, but will not receive any remuneration that may have accrued in the period between their payment or delivery of subscription monies and the reimbursement of the Securities.]</p> <p>Reinvestment risk/loss of yield: Following an early redemption of the Securities for any reason, you may be unable to reinvest the redemption</p>

	<p>proceeds at a rate of return as high as the return on the Securities being redeemed. You should consider such reinvestment risk in light of other available opportunities before you purchase the Securities.</p> <p>[Physical delivery instead of cash payment: In certain circumstances the Issuer may redeem the Securities by applying the cash amount otherwise payable to you to purchase and deliver to you [shares][depository receipts][shares in the ETF] which will leave you exposed to the issuer of such delivered assets. You may not be able to sell such delivered assets for a specific price and the delivered assets may have a very low value or may in fact be worthless. You may also be subject to documentary or stamp taxes and/or other charges in relation to the delivery and/or disposal of such assets. Settlement is subject to satisfaction of all conditions to settlement by the holder.]</p> <p>[Shares: The performance of shares is dependent upon numerous economic factors, such as interest and price levels in capital markets, currency developments, political factors as well as company-specific factors such as earnings, market position, risk situation, shareholder structure and distribution policy. Any relevant share issuer may take actions without regard to the interests of any holders of the Securities, which could have a negative effect on the value of the Securities.]</p> <p>[American Depository Receipts ("ADRs") or Global Depository Receipts ("GDRs"): Where you purchase Securities linked to ADRs or GDRs, you may receive a lower payment than you would have received if you had invested in the underlying shares directly (for example, because the holder of the relevant ADR or GDR may not receive any dividends paid on the underlying shares). The legal owner of the shares underlying the relevant ADRs or GDRs is a custodian bank and, in the event that the custodian bank becomes insolvent, it is possible that a purchaser of any such ADR or GDR may lose its rights in respect of the underlying shares. This could have an adverse effect on the value of the Securities.]</p> <p>[US withholding on dividend equivalent amounts: Certain actual or deemed payments on the securities held by non-US investors generally may be subject to a US withholding tax of 30 per cent. No additional amounts will be payable in respect of such withholding taxes.]</p> <p>[Equity Index risks: Securities linked to the performance of equity indices provide investment diversification opportunities, but will be subject to the risk of fluctuations in both equity prices and the value and volatility of the relevant equity index. Securities linked to equity indices may not participate in dividends or any other distributions paid on the shares which make up such indices, accordingly, you may receive a lower return on the Securities than you would have received if you had invested directly in those shares.</p> <p>The relevant index sponsor can add, delete or substitute the components of an equity index at its discretion, and may also alter the methodology used to calculate the level of such index. These events may have a detrimental impact on the level of that index, which in turn could have a negative impact on the value of and return on the Securities.]</p> <p>[Exchange Traded Funds ("ETFs"): Where you purchase Securities that are linked to any ETF, you may receive a lower payment upon redemption of your Securities than you would have received if you had invested directly in the share or index which is 'tracked' or invested in by the relevant ETF.</p> <p>The management company, trustee or sponsor of an ETF will have no</p>

If the calculation and publication of the relevant reference rate is permanently discontinued, the determination of the floating rate in accordance with any specified alternative methodologies may result in the replacement of the relevant reference rate with another or the redemption of the Securities.]</p> <p>[Substitution: Where any [Share][ADR][GDR][equity index][unit in the ETF] is affected by certain disruption events, [provided a pre-nominated equity index is specified in the Final Terms,] the Issuer may substitute such [asset/equity index] with a [substitute [Share][ADR][GDR]][equity index][unit in the ETF] similar to the original asset/[the pre-nominated equity index]. The subsequent performance or perceived value of [this substitute asset]/[the pre-nominated equity index] may cause the value of the Securities to drop and/or may result in holders receiving less than expected on settlement.]</p> <p>[Averaging: The amount payable or property deliverable on your Securities will be calculated based on an [initial price] [and] [final price] which is the arithmetic average of the applicable levels, prices or other applicable values of the Underlying Asset(s) on the specified averaging dates, rather than on one initial valuation date or final valuation date. This means that if the applicable level, price or value of the Underlying Asset(s) dramatically changes on one or more of the averaging dates, the amount payable or property deliverable on your Securities may be significantly less than it would have been if the amount payable or property deliverable had been calculated by reference to a single value taken on an initial valuation date or final valuation date.]</p> <p>[Capped return: As the redemption amount is subject to a cap, the return holders may receive is limited.]</p> <p>[Leverage: The Securities have a disproportionate exposure to the performance of the Underlying Asset. Due to this leverage effect the Securities may represent a very speculative and risky form of investment, since any loss in the value of and return on the Underlying Asset carries the risk of a disproportionately higher loss in the value of and return on the Securities.]</p> <p>[Worst-of: You are exposed to the performance of every Underlying Asset. Irrespective of how the other Underlying Assets perform, <i>if any one or more</i> Underlying Assets fail to meet a relevant threshold or barrier for the payment of interest or the calculation of any redemption amount, you might receive no interest payments and/or could lose some or all of your initial investment.]</p> <p>Volatile market prices: The market value of the Securities is unpredictable and may be highly volatile, as it can be affected by many unpredictable factors, including: market interest and yield rates; fluctuations in currency exchange rates; exchange controls; the time remaining until the Securities mature; economic, financial, regulatory, political, terrorist, military or other events in one or more jurisdictions; changes in laws or regulations; and the Issuer's creditworthiness or perceived creditworthiness.</p> <p>[Memory interest: The interest amount is conditional on the performance of the Underlying Asset(s) and no interest may be payable</p>

RISK FACTORS

You should only invest in the Securities after assessing these principal risks, including any risks applicable to the relevant Underlying Asset(s). The risks described in this section can be cumulative and apply simultaneously which may unpredictably affect the Securities. Specifically, no assurance can be given as to the effect that any combination of Risk Factors may have on the value of and return on the Securities. The effect of any one factor may be offset or magnified by the effect of another factor. The risks below are not exhaustive and there may be additional risks and uncertainties that are not presently known to the Issuer or that the Issuer currently believes to be immaterial but that could have a material impact on the business, operations, financial condition or prospects of the Issuer or the value of and return on the Securities.

You should consider carefully the following discussion of risks to help you decide whether or not the Securities are suitable for you.

CONTENTS OF 'RISK FACTORS'		Page
RISK WARNING		41
FACTORS THAT MAY AFFECT THE ISSUER'S ABILITY TO FULFIL ITS OBLIGATIONS UNDER THE SECURITIES		41
1. Risks associated with the Issuer's ability to fulfil its obligations under the Securities and status of the Securities		41
2. Regulatory bank resolution framework		41
3. Regulatory action in the event a bank or investment firm in the Group (such as the Issuer) is failing or likely to fail could materially adversely affect the value of the Securities		42
4. A downgrade of the credit rating assigned by any credit rating agency to the Issuer or, if applicable, to the Securities could adversely affect the liquidity or market value of the Securities. Credit ratings downgrades could occur as a result of, among other causes, changes in the ratings methodologies used by credit rating agencies		44
FACTORS WHICH ARE MATERIAL FOR THE PURPOSES OF ASSESSING THE MARKET RISKS IN RELATION TO THE SECURITIES		45
5. Risks associated with the valuation of Securities		45
6. Risks associated with the liquidity of Securities and availability during an offer period		47
7. Risks associated with certain features in relation to the calculation of the interest or principal amount or the delivery of entitlements under the Securities		49
8. Risk Factors relating to Securities linked to one or more Underlying Assets		53
9. Risks associated with early redemption (including autocall features) or adjustment of the Securities		54
10. Risks associated with certain other miscellaneous features and terms of the Securities, including discretions, Issuer substitution and amendments, amongst others		58
11. Risks associated with foreign exchange		62
12. Risks associated with Securities linked to common shares, ADRs, GDRs and ETFs as Underlying Asset(s)		63
13. Risks associated with Securities linked to equity indices as Underlying Asset(s)		66
14. Risks associated with Securities linked to dividends of shares comprised in an equity index that is a dividend index		68
15. Risks associated with discretionary powers of the Issuer and the Determination Agent, including in relation to the Issuer's hedging arrangements		68
16. Risks associated with the regulation and reform of LIBOR, EURIBOR and other interest rate index and equity, commodity and foreign exchange rate index 'benchmarks'		69
17. Risks associated with taxation		71
18. Risks associated with the ability to enforce under the Securities		74
19. Risks associated with conflicts of interest		74

RISK WARNING

There are a number of circumstances in which you may lose some or all of your investment in the Securities.

The terms of the Securities do not provide for scheduled minimum payment of the face value or issue price of the Securities at maturity: depending on the performance of the Underlying Asset(s), you may lose some or all of your investment.

The payment of any amount or delivery of any property due under the Securities is dependent upon the Issuer's ability to fulfil its obligations when they fall due. The Securities are unsecured obligations. They are not deposits and they are not protected under the UK's Financial Services Compensation Scheme or any other deposit protection insurance scheme. Therefore, if the Issuer fails or is otherwise unable to meet its payment or delivery obligations under the Securities, you will lose some or all of your investment.

You may also lose some or all of your investment in the following circumstances:

- The market price of your Securities prior to maturity may be significantly lower than the purchase price you paid for them. Consequently, if you sell your Securities before their scheduled maturity, you may receive far less than your original invested amount.
- Your Securities may be redeemed in certain extraordinary circumstances prior to their scheduled maturity and, in such case, the early redemption amount paid to you may be less than what you paid for the Securities.
- The terms and conditions of your Securities may be adjusted by the Issuer or Determination Agent in certain circumstances with the effect that the amount payable or property deliverable to you is less than your initial investment.

FACTORS THAT MAY AFFECT THE ISSUER'S ABILITY TO FULFIL ITS OBLIGATIONS UNDER THE SECURITIES

1. Risks associated with the Issuer's ability to fulfil its obligations under the Securities and status of the Securities

The Issuer is a major, global financial services company and, as such, faces a variety of risks that are substantial and inherent in its businesses, and which may affect its ability to fulfil its payment, delivery or other obligations under the relevant Securities as they fall due. These risks include liquidity risk, market risk, credit risk, operational risk, reputational risk, legal, regulatory and compliance risks, litigation and other contingent liabilities, competition risks, the financial condition of clients, customers and counterparties, adverse economic, monetary, political or legal developments, cross-border and foreign exchange risk, catastrophic events, risks from estimates and valuations and risks relating to strategy.

The Securities are direct, unsecured and unsubordinated obligations of the Issuer and will rank equally among themselves. The Securities are unsecured obligations, are not deposits and are not protected under the UK's Financial Services Compensation Scheme or any other deposit protection insurance scheme. You are therefore exposed to the creditworthiness of the Issuer and any deterioration in the Issuer's creditworthiness or perceived creditworthiness (whether measured by actual or anticipated changes in the credit ratings of the Issuer) may adversely affect the value of the Securities.

These risks are described in the section '*Risk Factors*' in the Registration Document incorporated by reference into this document – see '*Information Incorporated by Reference*'.

2. Regulatory bank resolution framework

The Banking Act provides for a regime to allow the Bank of England (or, in certain circumstances, HM Treasury) to resolve failing banks in the U.K. – see 'Regulatory action in

the event a bank or investment firm in the Group (such as the Issuer) is failing or likely to fail could materially adversely affect the value of the Securities.

3. **Regulatory action in the event a bank or investment firm in the Group (such as the Issuer) is failing or likely to fail could materially adversely affect the value of the Securities**

This risk factor provides an overview of current risks and consequences associated with the power of regulatory agencies in the UK to take action to save failing institutions.

The majority of the requirements of the European Union Directive 2014/59/EU of the European Parliament and of the Council establishing a framework for the recovery and resolution of credit institutions and investment firms of 15 May 2014, as amended ("**BRRD**") (including the bail-in tool) were implemented in the UK by way of amendments to the Banking Act. For more information on the bail-in tool, see '*The relevant UK resolution authority may exercise the bail-in tool in respect of the Issuer and the Securities, which may result in you losing some or all of your investment*' below.

On 23 November 2016, the European Commission published, among other proposals, proposals to amend the BRRD. The majority of these proposals are in draft form and are still subject to the EU legislative process and national implementation. Therefore, it is unclear what the effect of such proposals may be on the Group, the Issuer or the Securities.

The Banking Act confers substantial powers on a number of UK authorities designed to enable them to take a range of actions in relation to UK banks or investment firms and certain of their Affiliates in the event a bank or investment firm in the same group is considered to be failing or likely to fail. The exercise of any of these actions in relation to the Issuer could materially adversely affect the value of the Securities.

Under the Banking Act, substantial powers are granted to the Bank of England (or, in certain circumstances, HM Treasury), in consultation with the PRA, the FCA and HM Treasury, as appropriate as part of a special resolution regime (the "**SRR**"). These powers enable the relevant UK resolution authority to implement resolution measures with respect to a UK bank (such as the Issuer) or investment firm and certain of its Affiliates (each a 'relevant entity') in circumstances in which the relevant UK resolution authority is satisfied that the resolution conditions are met. Such conditions include that a UK bank or investment firm is failing or is likely to fail to satisfy the FSMA threshold conditions for authorisation to carry on certain regulated activities (within the meaning of section 55B of the FSMA) or, in the case of a UK banking group company that is an European Economic Area ("**EEA**") or third country institution or investment firm, that the relevant EEA or third country relevant authority is satisfied that the resolution conditions are met in respect of such entity.

The SRR consists of five stabilisation options:

- (a) private sector transfer of all or part of the business or shares of the relevant entity;
- (b) transfer of all or part of the business of the relevant entity to a 'bridge bank' established by the Bank of England;
- (c) transfer to an asset management vehicle wholly or partly owned by HM Treasury or the Bank of England;
- (d) the bail-in tool (as described below); and
- (e) temporary public ownership (nationalisation).

The Banking Act also provides for two new insolvency and administration procedures for relevant entities. Certain ancillary powers include the power to modify contractual arrangements in certain circumstances (which could include a variation of the terms of the Securities), powers to impose temporary suspension of payments, powers to suspend enforcement or termination rights that might be invoked as a result of the exercise of the resolution powers and powers for the relevant UK resolution authority to disapply or modify

laws in the UK (with possible retrospective effect) to enable the powers under the Banking Act to be used effectively.

You should assume that, in a resolution situation, financial public support will only be available to a relevant entity as a last resort after the relevant UK resolution authorities have assessed and used, to the maximum extent practicable, the resolution tools, including the bail-in tool (as described below).

The exercise of any resolution power or any suggestion of any such exercise could materially adversely affect the value of any Securities and could lead to you losing some or all of the value of your investment in the Securities.

The SRR is designed to be triggered prior to insolvency of the Issuer, and you may not be able to anticipate the exercise of any resolution power (including the UK bail-in tool) by the relevant UK resolution authority.

The stabilisation options are intended to be used prior to the point at which any insolvency proceedings with respect to the relevant entity could have been initiated. The purpose of the stabilisation options is to address the situation where all or part of a business of a relevant entity has encountered, or is likely to encounter, financial difficulties, giving rise to wider public interest concerns.

Although the Banking Act provides specific conditions to the exercise of any resolution powers and, furthermore, the European Banking Authority (the "EBA") guidelines published in May 2015 set out the objective elements for the resolution authorities to apply in determining whether an institution is failing or likely to fail, it is uncertain how the relevant UK resolution authority would assess such conditions in any particular pre-insolvency scenario affecting the Issuer and/or other members of the Group and in deciding whether to exercise a resolution power.

The relevant UK resolution authority is also not required to provide any advance notice to you of its decision to exercise any resolution power. Therefore, you may not be able to anticipate a potential exercise of any such powers nor the potential effect of any exercise of such powers on the Issuer, the Group and the Securities.

You may have only very limited rights to challenge the exercise of any resolution powers (including the UK bail-in tool) by the relevant UK resolution authority.

You as a holder of the Securities may have only very limited rights to challenge and/or seek a suspension of any decision of the relevant UK resolution authority to exercise its resolution powers (including the UK bail-in tool) or to have that decision reviewed by a judicial or administrative process or otherwise.

The relevant UK resolution authority may exercise the bail-in tool in respect of the Issuer and the Securities, which may result in you losing some or all of your investment.

Where the relevant statutory conditions for use of the bail-in tool have been met, the relevant UK resolution authority would be expected to exercise these powers without your consent. Subject to certain exemptions set out in the BRRD (including secured liabilities, bank deposits guaranteed under an EU member state's deposit guarantee scheme, liabilities arising by virtue of the holding of client money, liabilities to other non-group banks or investment firms that have an original maturity of fewer than seven days and certain other exceptions), it is intended that all liabilities of institutions and/or their EEA parent holding companies should potentially be within scope of the bail-in tool. Accordingly, any such exercise of the bail-in tool in respect of the Issuer and the Securities may result in the cancellation of all, or a portion, of the principal amount of, interest on, or any other amounts payable on, the Securities and/or the conversion of the Securities into shares or other securities or other obligations of the Issuer or another person, or any other modification or variation to the terms of the Securities.

The Banking Act specifies the order in which the bail-in tool should be applied, reflecting the hierarchy of capital instruments under the Capital Requirements Directive ("CRD IV") and otherwise respecting the hierarchy of claims in an ordinary insolvency. In addition, the bail-in

tool contains an express safeguard (known as 'no creditor worse off') with the aim that shareholders and creditors do not receive a less favourable treatment than they would have received in ordinary insolvency proceedings of the relevant entity. Among other proposals, the amendments to BRRD and CRD IV proposed by the European Commission on 23 November 2016 have amended the creditor hierarchy in respect of certain unsecured debt instruments, although such amendments remain subject to national implementation. The other amendments to BRRD and CRD IV, such as the amendments in relation to minimum requirements for own funds and eligible liabilities ("MREL"), are still in draft form and subject to the EU legislative process, therefore it is unclear what the effect of such amendments may be on the Group, the Issuer or the Securities.

The exercise of the bail-in tool in respect of the Issuer and the Securities or any suggestion of any such exercise could materially adversely affect your rights in respect of the Securities, the price or value of your investment in the Securities and/or the ability of the Issuer to satisfy its obligations under the Securities and could lead to you losing some or all of the value of your investment in such Securities. In addition, even in circumstances where a claim for compensation is established under the 'no creditor worse off' safeguard in accordance with a valuation performed after the resolution action has been taken, it is unlikely that such compensation would be equivalent to the full losses incurred by you in the resolution and there can be no assurance that you would recover such compensation promptly.

As insured deposits are excluded from the scope of the bail-in tool and other preferred deposits (and insured deposits) rank ahead of any Securities issued by the Issuer, such Securities would be more likely to be bailed-in than certain other unsubordinated liabilities of the Issuer (such as other preferred deposits).

As part of the reforms required by the BRRD, amendments have been made to relevant legislation in the UK (including the UK Insolvency Act 1986) to establish in the insolvency hierarchy a statutory preference (i) firstly, for deposits that are insured under the UK Financial Services Compensation Scheme ('insured deposits') to rank with existing preferred claims as 'ordinary' preferred claims and (ii) secondly, for all other deposits of individuals and micro, small and medium sized enterprises held in EEA or non-EEA branches of an EEA bank ('other preferred deposits'), to rank as 'secondary' preferred claims only after the 'ordinary' preferred claims. In addition, the UK implementation of the EU Deposit Guarantee Scheme Directive increased, from July 2015, the nature and quantum of insured deposits to cover a wide range of deposits, including corporate deposits (unless the depositor is a public sector body or financial institution) and some temporary high value deposits. The effect of these changes is to increase the size of the class of preferred creditors. All such preferred deposits will rank in the insolvency hierarchy ahead of all other unsecured senior creditors of the Issuer, including you as a holder of the Securities. Furthermore, insured deposits are excluded from the scope of the bail-in tool. As a result, if the UK bail-in tool were exercised by the relevant UK resolution authority, the Securities would be more likely to be bailed-in than certain other unsubordinated liabilities of the Issuer such as other preferred deposits.

4. **A downgrade of the credit rating assigned by any credit rating agency to the Issuer or, if applicable, to the Securities could adversely affect the liquidity or market value of the Securities. Credit ratings downgrades could occur as a result of, among other causes, changes in the ratings methodologies used by credit rating agencies**

Tranches of Securities issued under the Programme may be rated by credit rating agencies and may in the future be rated by additional credit rating agencies, although the Issuer is under no obligation to ensure that any Securities issued by it under the Programme are rated by any credit rating agency. Credit ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed in these Risk Factors and other factors that may affect the liquidity or market value of the Securities. A credit rating is not a recommendation to buy, sell or hold securities and may be revised, suspended or withdrawn by the credit rating agency at any time.

Any rating assigned to the Issuer and/or, if applicable, the Securities may be withdrawn entirely by a credit rating agency, may be suspended or may be lowered, if, in that credit rating agency's judgment, circumstances relating to the basis of the rating so warrant. Ratings

may be impacted by a number of factors which can change over time, including the credit rating agency's assessment of: the issuer's strategy and management's capability; the issuer's financial condition including in respect of capital, funding and liquidity; competitive and economic conditions in the issuer's key markets; the level of political support for the industries in which the issuer operates; the implementation of structural reform; and legal and regulatory frameworks affecting the issuer's legal structure, business activities and the rights of its creditors. The credit rating agencies may also revise the ratings methodologies applicable to issuers within a particular industry or political or economic region. If credit rating agencies perceive there to be adverse changes in the factors affecting an issuer's credit rating, including by virtue of changes to applicable ratings methodologies, the credit rating agencies may downgrade, suspend or withdraw the ratings assigned to an issuer and/or its securities. Revisions to ratings methodologies and actions on the Issuer's ratings or the ratings of Barclays PLC by the credit rating agencies may occur in the future.

If the Issuer determines to no longer maintain one or more ratings, or if any credit rating agency withdraws, suspends or downgrades the credit ratings of the Issuer or the Securities, or if such a withdrawal, suspension or downgrade is anticipated (or any credit rating agency places the credit ratings of the Issuer or, if applicable, the Securities on 'credit watch' status in contemplation of a downgrade, suspension or withdrawal), whether as a result of the factors described above or otherwise, such event could adversely affect the liquidity or market value of the Securities (whether or not the Securities had an assigned rating prior to such event).

FACTORS WHICH ARE MATERIAL FOR THE PURPOSES OF ASSESSING THE MARKET RISKS IN RELATION TO THE SECURITIES

5. Risks associated with the valuation of Securities

5.1 The initial market value of the Securities is likely to be lower, and may be significantly lower, than the issue or initial purchase price of the Securities

The market value of the Securities is likely to be lower, and may be significantly lower, than the issue price of the Securities. In particular, the difference between the issue price and the initial market value may be a result of:

- (a) where permitted by applicable law, amounts with respect to commissions relating to the issue and sale of the Securities;
- (b) the estimated profit that the Bank Group expects to earn in connection with structuring the Securities;
- (c) the estimated cost which Barclays may incur in hedging its obligations under the Securities; and
- (d) development and other costs which Barclays may incur in connection with the Securities.

In relation to (a) above, if not already disclosed, information with respect to the amount of any such inducements, commissions and fees may be obtained from the Issuer or distributor upon request.

5.2 The secondary market value of the Securities will likely be lower than the original issue price of the Securities

Any secondary market prices of the Securities will likely be lower than the original issue price of the Securities because, among other things, secondary market prices (as described in risk factor 5.1 (*The initial market value of the Securities is likely to be lower, and may be significantly lower, than the issue or initial purchase price of the Securities*) above) will likely be reduced by selling commissions, profits and hedging and other costs that are accounted for in the original issue price of the Securities. As a result, the price, if any, at which the Manager or any other person would be willing to buy Securities from you in secondary market transactions, if at all, is likely to be lower than the original issue price. Any sale by you prior to the scheduled redemption date could result in a substantial loss to you. See the immediately

following risk factor for information about additional factors that may impact any secondary market prices of the Securities.

5.3 The Securities are designed to be buy-to-hold instruments and the value and quoted price of your Securities (if any) at any time prior to redemption will reflect many factors and cannot be predicted

Generally, the market value of your Securities will be affected by the volatility, level, value or price of the Underlying Asset(s) at the time, changes in interest rates, the financial condition of the Issuer (whether such changes are actual or perceived) and credit ratings, the supply of and demand for the Securities, the time remaining until the maturity of the Securities and a number of other factors. Some of these factors are interrelated in complex ways; as a result, the effect of any one factor may be offset or magnified by the effect of another factor.

The Securities are designed to be buy-to-hold investments. The price, if any, at which you will be able to sell your Securities prior to maturity, may be substantially less than the amount you originally invested. The following paragraphs describe the manner in which the market value of the Securities may be affected in the event of a change in a specific factor, assuming all other conditions remain constant.

- Performance of the Underlying Asset(s). The market value of the Securities prior to maturity or prior to the relevant exercise date or period, as applicable, will likely depend substantially on the current level of the Underlying Asset(s) relative to its initial level, value or price. If you decide to sell your Securities prior to maturity, when the current level, price or value of the Underlying Asset(s) at the time of sale is favourable relative to its initial level, value or price, you may nonetheless receive substantially less than the amount that would be payable at maturity based on that level, value or price because of expectations that the level, value or price will continue to fluctuate until the final level, value or price is determined.

The value of and return on your Securities will depend on the performance of the Underlying Asset(s). The performance of the Underlying Asset(s) may be subject to unpredictable change over time, which may depend on many factors, including financial, political, military or economic events, government actions and the actions of market participants. Any of these events could have a negative effect on the value of the Underlying Asset(s) which in turn could adversely affect the value of and return on your Securities.

See also risk factor 8 (*Risk Factors relating to Securities linked to one or more Underlying Assets*).

- Volatility of the Underlying Asset(s). Volatility is the term used to describe the size and frequency of market fluctuations. If the volatility or the expectation of volatility of the Underlying Asset(s) or its or their components changes, the market value of the Securities may be adversely affected. A higher potential coupon rate or yield may be associated with a higher expected volatility in the Underlying Asset(s) which may also be associated with a greater risk of losing some or all of your investment.
- Interest rates. The market value of the Securities will likely be affected by changes in interest rates. Interest rates also may affect the economy and, in turn, the value of the Underlying Asset(s) (if any) (or its components, if any), which would affect the market value of the Securities.
- Supply and demand for the Securities. In general, if the supply of the Securities increases and/or the demand for the Securities decreases, the market value of the Securities may be adversely affected. The supply of the Securities, and therefore the market value of the Securities, may be affected by inventory positions held by Barclays.
- The Issuer's or the Bank Group's financial condition, credit ratings and results of operations. Actual or anticipated changes in the financial condition of the Issuer or the

Bank Group, current credit ratings or results of operations may significantly affect the market value of the Securities. The significant difficulties experienced in the global financial system in recent periods and resulting lack of credit, lack of confidence in the financial sector, increased volatility in the financial markets and reduced business activity could materially and adversely affect Barclays' business, financial condition, credit ratings and results of operations. However, because the return on the Securities is dependent upon factors in addition to the Issuer's ability to pay or settle its obligations under the Securities (such as the final level, value or price of the Underlying Asset(s)), an improvement in the Issuer's financial condition, credit ratings or results of operations is not expected to have a positive effect on the proceeds paid under the Securities. These credit ratings relate only to the Issuer's creditworthiness, do not affect or enhance amounts payable under the terms of the Securities and are not indicative of the risks associated with the Securities or an investment in the Underlying Asset(s). A rating is not a recommendation to buy, sell or hold Securities and may be subject to suspension, change or withdrawal at any time by the assigning rating agency.

- Time remaining to maturity. A 'time premium' results from uncertainty concerning the future level, value or price of the Underlying Asset(s) during the period prior to the maturity of the Securities. As the time remaining to the maturity of the Securities decreases, this time premium will likely decrease, potentially adversely affecting the market value of the Securities. As the time remaining to maturity decreases, the market value of the Securities may be less sensitive to the expected volatility in the Underlying Asset(s) – see risk factor 6.2 (*Conditions of a secondary market and pricing implications associated with terminating a buy-to-hold investment early*).
- Events affecting or involving the Underlying Asset(s). Economic, financial, regulatory, geographic, judicial, political and other developments that affect the level, value or price of the Underlying Asset(s), and real or anticipated changes in those factors, also may affect the market value of the Securities. For example, for Underlying Asset(s) composed of equity securities, the financial condition and earnings results of the share issuer, and real or anticipated changes in those conditions or results, may affect the market value of the Securities. In addition, speculative trading by third parties in the Underlying Asset(s) could significantly increase or decrease the level, value or price of the Underlying Asset(s), thereby exposing the Underlying Asset(s) to additional volatility which could affect the market value of the Securities.
- Exchange rates. Depending on the terms of the Securities, movements in exchange rates and the volatility of the exchange rates between the currency of denomination of the Securities and the currency of the Underlying Asset(s) (if different) may adversely affect the market value of the Securities.
- Issuer call right. During any period when the Issuer may elect to redeem the Securities, and potentially prior to this period, the market value of the Securities will generally not rise above the price at which they can be redeemed.

The effect of any one or more of the factors specified above may offset the effect of the change in the market value of the Securities attributable to another factor.

These factors may affect the market price of the Securities, including any market price which you receive in any secondary market transaction, and may be: (i) different from the value of the Securities as determined by reference to Barclays' pricing models; and (ii) less than the issue price. As a result, if you sell your Securities prior to scheduled maturity, you may receive back less than your initial investment or even zero.

6. Risks associated with the liquidity of Securities and availability during an offer period

6.1 Your Securities may not have an active trading market and the Issuer may not be under any obligation to make a market or repurchase the Securities prior to redemption

You must be prepared to hold the Securities until their scheduled maturity.

The Securities may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid and you may not be able to find a buyer. Therefore, you may not be able to sell your Securities or, if you can, you may only be able to sell them at a price which is substantially less than the original purchase price.

The Issuer may list the Securities on a stock exchange but, in such case, the fact that such Securities are listed will not necessarily lead to greater liquidity. If Securities are not listed or traded on any exchange, pricing information for such Securities may be more difficult to obtain and they may be more difficult to sell.

The Issuer is under no obligation to make a market or to repurchase the Securities (subject to the next paragraph). The Issuer and any Manager may, but are not obliged to, at any time purchase Securities at any price in the open market or by tender or private agreement. Any Securities so purchased may be held or resold or surrendered for cancellation. If any Securities are redeemed in part, then the number of Securities outstanding will decrease. Any of these activities may have an adverse effect on the liquidity and/or price of the outstanding Securities in the secondary market.

Any of the Issuer or a Manager or other party may, as part of its activities as a broker and dealer in fixed income and equity securities and related products or pursuant to stock exchange listing requirements, make a secondary market in relation to any Securities and may provide an indicative bid price on a daily basis. Any indicative prices so provided shall be determined by the relevant party in its sole discretion taking into account prevailing market conditions and shall not be a representation by such party that any Securities can be purchased or sold at such prices (or at all).

However, any of these parties may suspend or terminate making a market and providing indicative prices without notice, at any time and for any reason. Consequently, there may be no market for the Securities and you should not assume that such a market will exist.

6.2 Conditions of a secondary market and pricing implications associated with terminating a buy-to-hold investment early

Where the Issuer does quote an indicative bid price for the Securities, the Issuer may determine the price in a significantly different manner than other market participants. Any price will depend on an assortment of factors including, but not limited to, (i) the creditworthiness of the Issuer, (ii) the time to maturity or expiry of the Securities, (iii) the then current funding levels of the Issuer taking into account market conditions, including the cost to replace a funding amount represented by the Securities being repurchased for a term equivalent to the time to maturity or expiry, and (iv) the value of the Underlying Asset(s) – see risk factor 5.2 (*The secondary market value of the Securities will likely be lower than the original issue price of the Securities*). For example, without taking into account the value of the Underlying Asset, if the Securities are due to mature in five years' time and a Holder wanted the Issuer to repurchase its holdings in those Securities, the Issuer may, among other matters, calculate what it would cost to replace the funding amount represented by the Holder's repurchase request for the remaining term of the Securities (in this example, five years). The then current market conditions affecting the Issuer's ability to borrow funds for a five year term would influence the level of the secondary market price. The higher the current funding levels for the Issuer as compared to funding levels for a comparable term on the Issue Date, the more likely the secondary market price of the Securities would be negatively affected (without taking into consideration changes to other factors that impact the price). The lower the current funding levels for the Issuer as compared to funding levels for a similar term on the Issue Date, the more likely the secondary market price of the Securities would be positively affected (without taking into consideration changes to other factors that impact the price).

If the Issuer or Manager elects to make a secondary market, it may suspend or terminate such market at any time and impose other conditions and quote prices that may vary substantially from other market participants. For these reasons, you should not assume that a secondary market will exist, and you should be prepared to hold your Securities until their scheduled

maturity. Where the Issuer or Manager elects to offer such secondary market, conditions imposed may include, but are not limited to:

- (a) providing a bid/offer spread determined by the Issuer in its commercially reasonable discretion;
- (b) providing the timing that any secondary market quotation will remain open, or in any event, not longer than what the Issuer considers a reasonable time;
- (c) requiring that normal market and funding conditions prevail at such date; and
- (d) limiting the number of Securities in respect of which it is prepared to offer such secondary market.

Any of these conditions may severely limit the availability of any such secondary market and may result in you receiving significantly less than you would otherwise receive by holding the Securities to their scheduled maturity.

6.3 **Over-issuance**

As part of its issuing, market-making and/or trading arrangements, the Issuer may issue more Securities than those which are to be initially subscribed or purchased by third party investors. The Issuer (or the Issuer's Affiliates) may hold such Securities for the purpose of meeting any future investor interest or to satisfy market-making requirements. You should therefore not regard the issue size of any Securities as indicative of the depth or liquidity of the market for such Securities, or of the demand for such Securities.

6.4 **The Issuer may withdraw the public offer at any time**

In the case of public offers, the Issuer may provide that it is a condition to the offer that the Issuer reserves the right to withdraw the offer in whole or in part at any time at the discretion of the Issuer, including for reasons beyond its control, such as extraordinary events, substantial change of the political, financial, economic, legal, monetary or market conditions at national or international level and/or adverse events regarding the financial or commercial position of the Issuer and/or other relevant events that in the determination of the Issuer may be prejudicial to the offer. In such circumstances, the offer will be deemed to be null and void. In such case, where you have already paid or delivered subscription monies for the relevant Securities, you will be entitled to reimbursement of such amounts, but will not receive any remuneration that may have accrued in the period between their payment or delivery of subscription monies and the reimbursement of the Securities.

7. **Risks associated with certain features in relation to the calculation of the interest or principal amount or the delivery of entitlements under the Securities**

7.1 **There are risks relating to floating rates of interest**

The performance of floating interest rates is dependent upon a number of factors, including supply and demand on the international money markets, which are influenced by measures taken by governments and central banks, as well as speculations and other macroeconomic factors. This means that the interest amount payable over the term of the Securities may vary and any of these factors could affect the performance of the floating interest rate and therefore could adversely affect the value and return on your Securities.

(a) **Determination of a floating rate following a floating rate disruption**

If, on any day on which a valuation or determination in respect of a reference rate is to be made, the relevant reference rate is not available, the Determination Agent shall determine the floating rate using one of a pre-determined set of methodologies to determine a substitute rate, which will vary depending on the designated maturity of the relevant reference rate and whether the reference rate is EONIA. See General Condition 6.2 (*Floating*).

There is a risk that the determination of the floating rate using any of these methodologies may result in a lower interest amount payable to you than the use of other methodologies.

(b) Reference rate discontinuance

If the calculation and publication of the relevant reference rate is permanently discontinued, the Determination Agent shall determine the floating rate using alternative arrangements which will vary depending on the reference rate. In such case, it is possible that the reference rate may be replaced with a substitute rate or that the Securities may be redeemed. See General Condition 6.2 (*Floating*).

The discontinuance of the relevant reference rate may adversely affect the market value of the Securities.

(c) Bank of England Base Rate fallbacks

If on the interest determination date the Reuters screen page UKBASE is not available, the floating rate for the relevant interest payment date shall be determined by reference to a replacement page as selected by the Determination Agent.

If the Determination Agent determines that no suitable replacement page exists, the Determination Agent shall adjust, redeem, cancel and/or take any other necessary action.

The determination of the floating rate in accordance with the above alternative methodologies may result in a lower amount of interest being payable to you than if the floating rate had been determined using the original methodology.

7.2 There are risks relating to interest linked to one or more Underlying Asset(s)

The Securities may bear interest at a rate that is contingent upon the performance of one or more Underlying Asset(s) and may vary from one interest payment date to the next. The interest rate reflected by any given interest payment may be less than the rate that the Issuer (or any other bank or deposit-taking institution) may pay in respect of fixed rate Securities for an equivalent period and the relevant interest payment may be as low as zero. If interest payments are contingent upon the performance of one or more Underlying Asset(s), you should be aware of the risk that you may not receive any interest payments if the Underlying Asset(s) do not meet the performance criteria. See also risk factor 5.3 *'The Securities are designed to be buy-to-hold instruments and the value and quoted price of your Securities (if any) at any time prior to redemption will reflect many factors and cannot be predicted'*.

7.3 There are risks where your Securities have a 'memory' interest feature

If the Securities include a 'memory' feature, the payment of interest will be conditional on the value or performance of the Underlying Asset. The interest amount payable will be zero on an interest payment date if the Underlying Asset does not perform in accordance with the terms of the Securities. If the Underlying Asset meets the performance criteria on a future date, the interest payable will be an amount for the current interest payment date plus any amounts from previous interest payment dates where interest was not paid. You will not be paid any interest or other allowance for the deferred payments of interest and it is possible that the Underlying Asset never meets the performance criteria, meaning that you will not receive any interest at all for the lifetime of the Securities.

7.4 There are risks where your Securities have a 'digital' interest feature

If the Securities include a 'digital' feature, the higher pre-determined interest amount is only paid if the level, price or other applicable value of the Underlying Asset(s) on the relevant valuation date(s) meets the performance criteria; otherwise the lower pre-determined interest amount (which may be zero) will be paid. It may be possible that you will not receive any interest at all for the lifetime of the Securities.

7.5 There are risks where your Securities have a 'range accrual' feature

If the Securities include a 'range accrual' feature, then interest will only be paid if the level, price or other applicable value of the Underlying Asset(s) on the relevant valuation date(s) is at or above one or more specific lower barrier(s) and, if applicable, also at or below one or more specific upper barrier(s). It is possible that such level, price or other applicable value of the Underlying Asset(s) on the relevant valuation date(s) will not be at or above the lower barrier(s) or, if applicable, not be within the range during the relevant interest determination period, and therefore, no interest will be payable on the relevant interest payment date. This means that the amount of interest payable to you over the term of the Securities may vary and may be zero.

7.6 There are risks where your Securities have a 'leverage' feature

'Leverage' refers to the use of financial techniques to gain additional exposure to the Underlying Asset(s). A leverage feature will magnify the impact of the performance of the Underlying Asset(s) to cause a greater or lower return on the Securities than would otherwise be the case in the absence of leverage. As such, a leverage feature can magnify losses in adverse market conditions. In the terms of the Securities, the leverage feature may be referred to variously as 'Participation', 'Leverage', 'Variable', 'Factor' and 'Multiplier', or other term and the Securities will have 'leverage' where any of these factors is equal to more than 100 per cent (or 1.00). The inclusion of such a leverage feature in the Securities means that the Securities will be more speculative and riskier than in the absence of such feature, since smaller changes in the performance of the Underlying Asset(s) can reduce (or increase) the return on the Securities by more than if the Securities did not contain a leverage feature. You should be aware that a small movement in the value of the Underlying Asset(s) can have a significant effect on the value of the Securities.

7.7 There are risks where your Securities have an 'averaging' feature (averaging over a series of valuation dates)

Where the terms and conditions of your Securities include an averaging feature, the return on your Securities will depend on an initial price and/or final price which is the arithmetic average of the applicable levels, prices or other applicable values of the Underlying Asset(s) on the specified averaging dates, rather than on one initial valuation date and/or final valuation date. This means that if the applicable level, price or value of the Underlying Asset(s) dramatically changes on one or more of the averaging dates, the return on your Securities may be significantly less than it would have been if the amount payable or property deliverable had been calculated by reference to a single value taken on an initial valuation date or final valuation date.

7.8 There are risks where your Securities have a 'lookback' feature

Where the terms and conditions of your Securities provide that 'max lookback-out' applies, the return on your Securities will depend on the maximum of the applicable levels, prices or other applicable values of the Underlying Asset(s) on the specified 'lookback-out' dates, rather than a single final valuation date. This means that if the applicable level, price or value of the Underlying Asset(s) dramatically surges on one of the 'max lookback-out' dates, and the return on your Security is proportional to the negative performance of the Underlying Asset(s), the return on your Securities may be significantly less than it would have been if the amount payable or property deliverable had been calculated by reference to a single value taken on a single valuation date or another method.

Where the terms and conditions of your Securities provide that 'min lookback-out' applies, the return on your Securities will depend on the lowest of the applicable levels, prices or other applicable values of the Underlying Asset(s) on the specified 'lookback-out' dates, rather than a single final valuation date. This means that if the applicable level, price or value of the Underlying Asset(s) dramatically falls on one of the 'min lookback-out' dates, the return on your Securities may be significantly less than it would have been if the amount payable or property deliverable had been calculated by reference to a single value taken on a single valuation date or another method.

Where the terms and conditions of your Securities provide that 'max lookback-in' applies, the return on your Securities will depend on the maximum of the applicable levels, prices or other applicable values of the Underlying Asset(s) on the specified 'lookback-in' dates, rather than a single initial valuation date. This means that if the applicable level, price or value of the Underlying Asset(s) dramatically surges on one of the 'lookback-in' dates, the return on your Securities may be significantly less than it would have been if the amount payable or property deliverable had been calculated by reference to a single value taken on a single valuation date or another method.

Where the terms and conditions of your Securities provide that 'min lookback-in' applies, the return on your Securities will depend on the lowest of the applicable levels, prices or other applicable values of the Underlying Asset(s) on the specified 'lookback-in' dates, rather than a single initial valuation date. This means that if the applicable level, price or value of the Underlying Asset(s) dramatically falls on one of the 'min lookback-in' dates, and the return on your Security is proportional to the negative performance of the Underlying Asset(s), the return on your Securities may be significantly less than it would have been if the amount payable or property deliverable had been calculated by reference to a single value taken on a single valuation date or another method.

7.9 There are risks where your Securities include a 'cap'

Where the terms and conditions of your Securities provide that the amount payable or property deliverable is subject to a pre-defined cap, your ability to participate in any positive change in the value of the Underlying Asset(s) (or any positive change in floating interest rates) will be limited, no matter how much the level, price or other value of the Underlying Asset(s) (or floating interest rates) rises above the cap level over the life of the Securities. Accordingly, the value of or return on your Securities may be significantly less than if you had purchased the Underlying Asset(s) (or invested in instruments which pay an uncapped floating rate of interest) directly.

7.10 There are risks where your Securities reference a basket of Underlying Asset(s)

Where Securities reference a basket of assets as Underlying Asset(s), you will be exposed to the performance of each Underlying Asset in the basket and you should refer to the relevant risk factors in this section relating to each of the asset classes represented. You should also consider the level of interdependence or 'correlation' between each of the basket constituents with respect to the performance of the basket. If the Underlying Asset(s) are correlated, the performance of the Underlying Asset(s) in the basket can be expected to move in the same direction.

You should be aware that the performance of a basket with fewer constituents will be more affected by changes in the values of any particular basket constituent than a basket with a greater number of basket constituents. Additionally, you should note that the performance of a basket that gives a greater 'weight' to a basket constituent, as compared to other basket constituents, will be more affected by changes in the value of that particular basket constituent than a basket which apportions an equal weight to each basket constituent.

The performance of basket constituents may be moderated or offset by one another. This means that, even in the case of a positive performance of one or more constituents, the performance of the basket as a whole may be negative if the performance of the other constituents is negative to a greater extent.

7.11 There are risks where your Securities have a 'worst-of' feature

Where the terms and conditions of your Securities include a 'worst-of' feature, you will be exposed to the performance of the Underlying Asset(s) which has the worst performance, rather than the basket as a whole.

This means that, regardless of how the other Underlying Asset(s) perform, if the worst performing Underlying Asset in the basket fails to meet a relevant threshold or barrier for the payment of interest or the calculation of any redemption amount, you might receive no interest

payments or return on your initial investment and you could lose some or all of your investment.

7.12 There are risks where your Securities have a 'barrier' feature

If the calculation of interest or the calculation of any redemption amount depends on the level, value or price of the Underlying Asset(s) reaching or crossing a 'barrier' during a specified period or specified dates during the term of the Securities, such interest or redemption amount may alter dramatically depending on whether the barrier is reached or crossed (as applicable). This means you may receive less (or, in certain cases, more) if the level, value or price of the Underlying Asset(s) crosses or reaches (as applicable) a barrier, than if it comes close to the barrier but does not reach or cross it (as applicable), and in certain cases you might receive no interest payments and/or could lose some or all of your investment.

7.13 There are risks where the redemption of your Securities depends only on the final performance

If your Securities determine the redemption amount based on the performance of the Underlying Asset(s) as at the final valuation date only (rather than in respect of multiple periods throughout the term of the Securities) then you may not benefit from any movement in level, value or price of the Underlying Asset(s) during the term of the Securities that is not maintained in the final performance.

7.14 There are risks where your Securities have high coupons which may indicate a higher risk of capital loss

A higher coupon rate indicates a higher likelihood of capital risk. This means there is a greater likelihood that the barrier (if any) will be breached and/or the final price of the Underlying Asset(s) will be below a specified level which would mean the amount you receive at maturity is worth considerably less than the full return of principal.

7.15 There are risks where your Securities have a limited maximum return

Investors will not benefit from any appreciation in the Underlying Asset(s) during the term of the product. The maximum return is limited to the coupon amounts payable and a direct investment in the Underlying Asset(s) may provide a higher return over the term of the product.

8. Risk Factors relating to Securities linked to one or more Underlying Assets

Securities linked to one or more Underlying Asset(s) have a different risk profile to other unsecured debt securities and a particular issue of Securities may have features which contain particular risks. This section describes the most common features and related additional factors which you should take into account when considering an investment in such Securities.

8.1 Past performance of an Underlying Asset(s) is not indicative of future performance

Any information about the past performance of an Underlying Asset(s) should not be regarded as indicative of any future performance of such Underlying Asset, or as an indication of the range of, or trends or fluctuations in, the price or value of such Underlying Asset(s) that may occur in the future. It is not possible to predict the future value of the Securities based on such past performance. Actual results will be different, and such differences may be material.

8.2 You will have no claim against or interest in any Underlying Asset(s)

The Securities are unsecured, and the Issuer has no obligation to hold the Underlying Asset(s). You will not have any legal or beneficial rights of ownership in the Underlying Asset(s). For example, where the Underlying Asset(s) is a share, you will have no voting rights, no rights to receive dividends or other distributions or any other rights with respect to the Underlying Asset(s). In addition, you will have no claim against any share issuer, index sponsor, fund issuer, fund sponsor or any other third party in relation to an Underlying Asset(s); such parties

have no obligation to act in your interests. Accordingly, you may receive a lower return on the Securities than you would have received had you invested directly in the Underlying Asset(s).

8.3 There are certain risks if you are purchasing Securities for hedging purposes

If you are intending to purchase Securities as a hedge instrument, you should recognise the complexities of utilising Securities in this manner. Due to fluctuating supply and demand for the Securities and various other factors, there is a risk that the value of the Securities may not correlate with movements of the Underlying Asset(s), and the Securities may not be a perfect hedge for the Underlying Asset(s) or a portfolio containing the Underlying Asset(s). In addition, it may not be possible to liquidate the Securities at a level reflective of the price, level or value of the Underlying Asset(s).

8.4 Non-trading days or market disruption events may adversely affect the value of and return on your Securities

If the Determination Agent determines that a scheduled valuation date falls on a day which is not a scheduled trading day or any other day which is subject to adjustment in accordance with the terms and conditions of the Securities, then the relevant valuation date may be postponed until the next scheduled trading day.

The Determination Agent may determine that the markets have been affected in a manner that prevents it from properly determining the value of an Underlying Asset(s) on a scheduled valuation date. These events may include disruptions or suspensions of trading in the markets as a whole. In such case, the valuation date will be postponed and the value of and return on the Securities could be adversely affected.

If any valuation date is postponed to the last possible day and the market disruption event is still occurring on that day or such day is not a trading day, the Determination Agent will nevertheless determine the value of that Underlying Asset(s) on such last possible day. Any such determination may negatively impact the value of and return on the Securities.

8.5 There are particular risks where your Securities are linked, directly or indirectly, to Underlying Asset(s) located in or otherwise exposed to emerging markets

If your Securities are linked, directly or indirectly, to Underlying Asset(s) issued by issuers in, or comprised of assets or constituents located in emerging market jurisdictions, you should be aware that investments linked to emerging markets involve additional risks to those typically seen in more developed markets, including generally increased volatility, higher likelihood of governmental intervention and the lack of a developed system of law.

Such Securities may also be exposed to the risks of economic, social, political, financial and military conditions in such jurisdictions, including, in particular, political uncertainty and financial instability; the increased likelihood of restrictions on export or currency conversion; the greater potential for an inflationary environment; the possibility of nationalisation or confiscation of assets; the greater likelihood of regulation by national, provincial and local governments, including the imposition of currency exchange laws and taxes; less liquidity in emerging market currency markets as compared to the liquidity in developed markets and less favourable growth prospects, capital reinvestment, resources and self-sufficiency.

There is generally less publicly available information about emerging market issuers and potentially less developed accounting, auditing and financial reporting standards and requirements and securities trading rules. Furthermore, the small size of the securities markets and relative inexperience of local market participants in certain emerging market countries and the limited volume of trading in Securities may make the Underlying Asset(s) illiquid and more volatile than investments in more established markets.

Any or all of these risks may have a negative impact on the value of and return on Securities with exposure to emerging markets.

9. Risks associated with early redemption (including autocall features) or adjustment of the Securities

9.1 If your Securities are redeemed early, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk

The Securities may be redeemed prior to their scheduled redemption date, and you are therefore subject to the following risks:

- risk of loss of investment: depending on the circumstance in which your Securities are redeemed prior to their scheduled redemption date, the amount of redemption proceeds you receive may be less than your original investment (see below and, in particular, risk factor 9.5 (*There are costs associated with any early redemption of Securities (other than an automatic (autocall) redemption) that will reduce the amount otherwise payable or deliverable*));
- risk of loss of opportunity: in the event that your Securities are redeemed prior to their scheduled redemption date, you will lose the opportunity to participate in any subsequent positive performance of the Underlying Asset(s) and be unable to realise any potential gains in value of the Securities; and
- reinvestment risk: following such early redemption, you may not be able to reinvest the proceeds from an investment at a comparable return and/or with a comparable interest rate for a similar level of risk. You should consider such reinvestment risk in light of other available investments before you purchase the Securities.

The circumstances in which your Securities may be redeemed prior to their scheduled redemption date and the amount you can expect to receive in such cases are described below.

Also, in certain circumstances, the terms of your Securities may be adjusted by the Issuer or the Determination Agent. Such adjustment could have an adverse effect on the value of and return on your Securities. These circumstances include, but are not limited to, following an Additional Disruption Event (as described below), a redenomination, an index correction, a manifest error in index calculation and a potential adjustment event in relation to shares.

9.2 Your Securities may redeem early following an automatic redemption (autocall) event

The terms of your Securities may provide that they will be automatically redeemed prior to the scheduled redemption date if an automatic redemption (autocall) event occurs. An automatic redemption (autocall) event will occur if the level, price, value or performance of the Underlying Asset(s) breaches one or more specified thresholds on one or more specified dates. In the event that such an automatic redemption (autocall) event occurs, you will be paid an early redemption amount equal to the Calculation Amount or such other amount specified in the terms and conditions. In such case, you may not be able to reinvest the proceeds from an investment at a comparable return and/or with a comparable interest rate for a similar level of risk. You should consider such reinvestment risk in light of other available investments before you purchase the Securities. In the event that an automatic redemption (autocall) event does not occur during the term of your Securities, you may lose some or all of your investment at maturity, depending on the performance of the Underlying Asset(s) and the specific terms and conditions of your Securities.

9.3 Your Securities may redeem early or may be adjusted by the Determination Agent following an Additional Disruption Event, FX Disruption Event, or early redemption for unlawfulness or impracticability

There are certain events – relating to the Issuer, its hedging arrangements, the Underlying Asset(s), taxation or the relevant currency – the occurrence of which may cause the Securities to be redeemed prior to their scheduled redemption date:

(a) **Additional Disruption Events**

Additional Disruption Events include:

- unless specified to be not applicable to the Securities, a tax event causing the Issuer to pay additional amounts under the terms and conditions of the Securities;
- unless specified to be not applicable to the Securities, an extraordinary market disruption event preventing the Issuer's performance of its obligations under the Securities;
- unless specified to be not applicable to the Securities, an event impacting one or more currencies that the Issuer determines would materially disrupt or impair its ability to meet its obligations or otherwise settle, clear or hedge the Securities;
- unless specified to be not applicable to the Securities, the Issuer's ability to source or unwind related transactions put in place to provide the returns on the Securities (Hedge Positions) is adversely affected in any material respect;
- unless specified to be not applicable to the Securities, a change in law that means it has become, or is likely to become, illegal for the Issuer to hold Hedge Positions or it will incur a materially increased cost in dealing with Hedge Positions; and
- if the Securities are CREST Securities, loss of CREST eligibility of such Securities.

If any of these events occurs, the Issuer shall:

- adjust the terms and conditions of the Securities (without the consent of Holders); or
- if the Determination Agent determines that no adjustment that could be made would produce a commercially reasonable result and preserve substantially the economic effect to the holders of a holding of the relevant Security, redeem the Securities prior to their scheduled redemption date.

Any adjustment made to the terms and conditions of the Securities (which may include a reduction in the amount otherwise payable or deliverable under the Securities in order to reflect increased costs or otherwise to the Issuer) may have a negative effect on the value of and return on the Securities.

In the event of early redemption of your Securities due to the occurrence of any of the above events, unless 'par' is specified in the terms and conditions of the Securities, the early redemption amount you will receive will be equal to the fair market value of your Securities following the event triggering the early redemption. The market value may include allowances for costs associated with the early redemption, such as those incurred by the Issuer in unwinding any related transactions which were put in place to provide the returns on the Securities. In any case, **the early redemption amount you will receive may be less than your original investment and you could lose some or all of your investment.**

See also risk factor 9.1 (*If your Securities are redeemed early, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk*) and risk factor 9.5 (*There are costs associated with any early redemption of Securities (other than an automatic (autocall) redemption) that will reduce the amount otherwise payable or deliverable*).

(b) **Unlawfulness or impracticability**

If the Issuer determines that the performance of any of its absolute or contingent obligations under the Securities has become unlawful or a physical impracticability, in whole or in part, the Issuer may redeem the Securities prior to their scheduled redemption date.

In the event of early redemption of your Securities due to the occurrence of any of the above events, unless 'par' is specified in the terms and conditions of the Securities, the early redemption amount you will receive will be equal to the fair market value of your Securities prior to redemption. The market value may include allowances for costs associated with the early redemption, such as those incurred by the Issuer in unwinding any related transactions which were put in place to provide the returns on the Securities. In any case, **the early redemption amount you will receive may be less than your original investment and you could lose some or all of your money.**

See also risk factor 9.1 (*If your Securities are redeemed early, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk*) and risk factor 9.5 (*There are costs associated with any early redemption of Securities (other than an automatic (autocall) redemption) that will reduce the amount otherwise payable or deliverable*).

(c) **FX Disruption Event**

An FX Disruption Event is an event occurring on or prior to a payment date that prevents or delays the conversion into the settlement currency of the Securities, including capital controls or other restrictions in the relevant jurisdiction. If 'FX Disruption Event' is applicable in the terms and conditions of your Securities, the Issuer may, following the occurrence of an FX Disruption Event, deduct costs, expenses or charges in connection with such FX Disruption Event, pay in another currency, postpone the relevant valuation or payment date, designate an alternative fallback or price source or treat the FX Disruption Event as an Additional Disruption Event and apply the corresponding adjustments or early redemption – see also risk factor 9.1 (*If your Securities are redeemed early, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk*) above.

9.4 **The Securities may be redeemed early following a Nominal Call Event**

Where the terms and conditions of your Securities provide that Nominal Call Event applies, the Issuer may redeem your Securities prior to their scheduled redemption date if the aggregate nominal amount or the number of Securities outstanding drops below a specified threshold (being 10 per cent, or, if applicable, such lesser percentage as specified in the Final Terms, of the aggregate nominal amount or number of Securities as at the first Issue Date of the Securities). In such case, you will receive an early redemption amount equal to the fair market value of your Securities on the call date less (save where 'Unwind Costs' is specified to be not applicable), costs associated with the Issuer's hedging arrangements. **The early redemption amount you will receive may be less than your original investment and you could lose some or all of your investment.**

See also risk factor 9.1 (*If your Securities are redeemed early, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk*) and risk factor 9.5 (*There are costs associated with any early redemption of Securities (other than an automatic (autocall) redemption) that will reduce the amount otherwise payable or deliverable*).

9.5 **There are costs associated with any early redemption of Securities (other than an automatic (autocall) redemption) that will reduce the amount otherwise payable or deliverable**

If the Securities are redeemed prior to their scheduled maturity (other than due to an automatic (autocall) redemption), the amount payable or deliverable (unless 'par' is specified in the terms and conditions of the Securities) determined by the Determination Agent as equal to the market value of the Securities as soon as reasonably practicable on the relevant date and by reference to such factors as the Determination Agent considers to be appropriate. The amount may also be adjusted (save where 'Unwind Costs' is specified to be not applicable) to take into account any costs, charges, fees, accruals, losses, withholdings and expenses in connection with hedging unwind and funding breakage costs, Local Jurisdiction Taxes and Expenses and certain other taxes, prices or expenses paid (in each case, if any and as applicable as set out in the terms and conditions of the Securities). Such costs, losses and expenses will reduce the

amount you will receive on such early redemption and may reduce such amount to zero. The Issuer is not under any duty to hedge itself at all or in any particular manner, and is not required to hedge itself in a manner that would (or may be expected to) result in the lowest costs, losses and expenses.

10. Risks associated with certain other miscellaneous features and terms of the Securities, including discretions, Issuer substitution and amendments, amongst others

10.1 Discretionary determinations made by the Determination Agent may have a negative impact on the Securities

Any determination made by the Determination Agent will be made in good faith and in a commercially reasonable manner and, in the absence of manifest or proven error, shall be conclusive and binding on all persons (including, without limitation, the Holders), notwithstanding the disagreement of such persons or other financial institutions, rating agencies or commentators. Any such determination could adversely affect the value of and return on the Securities. See also risk factor 15 (*Risks associated with discretionary powers of the Issuer and the Determination Agent, including in relation to the Issuer's hedging arrangements*).

10.2 The Issuer may be substituted for another entity without your consent

The Issuer may substitute itself as the principal obligor under the Securities for any other company which has an equivalent or better rating of long-term unsecured, unsubordinated and unguaranteed debt obligations from an internationally recognised rating agency. Following such a substitution, the original Issuer entity will be released from all payment and delivery obligations under the Securities, and you will become subject to the credit risk of the substitute issuer under your Securities. You will have no right of claim against the original Issuer or the substituted Issuer in the event that such substitution has adverse tax consequences for you. A substitution of the Issuer may affect any listing of the Securities and, in particular, it may be necessary for the substituted issuer to reapply for listing on the relevant market or stock exchange on which the Securities are listed.

10.3 If you have not fully satisfied each of the conditions to settlement, delivery of any property deliverable to you and/or payment under the Securities shall be postponed and may ultimately be forfeit

If the Issuer determines that you have not satisfied each of the conditions to settlement in full, payment of the amount payable or delivery of the property deliverable to you will not take place until all such conditions to settlement have been satisfied in full. No additional amounts will be payable to you by the Issuer because of any resulting delay or postponement. Furthermore, if you have not fully satisfied each of the conditions to settlement by the 180th calendar day (or such other period as specified in the terms and conditions of the Securities) following the final settlement cut-off date, you will lose your right to claim the delivery entitlement under your Securities or any cash payment, and you shall have no further claim against the Issuer under your Securities.

If the Securities are to be settled by way of physical settlement, the Issuer's obligation to deliver the relevant property is subject to various additional conditions, including, without limitation, your obligation to deliver to the Issuer a delivery entitlement instruction within the prescribed time frame. No delivery will be made in respect of a physically settled Security unless the Issuer has received the required instructions, certifications and information and, where applicable, the relevant Security has been delivered and surrendered in accordance with the terms of the Master Agency Agreement, the terms and conditions of the Securities and the terms of any relevant Global Security.

10.4 Settlement disruption risk

Certain settlement disruption events may occur which could restrict the Issuer's ability to make payments and/or deliver entitlements (in the case of Securities which provide for settlement by way of physical delivery), and the date of delivery of payments and/or entitlements could be

delayed accordingly. In the case of a Security in respect of which physical delivery applies, where the delivery of the relevant entitlement using the method of delivery specified in the terms and conditions of the Securities is or is likely to become impossible or impracticable by reason of a settlement disruption event having occurred and continuing on the physical delivery date, such date will first be postponed and the Issuer also has the right to either (i) deliver some or all of the entitlement using such other commercially reasonable manner as it may select, or (ii) pay an amount in lieu of delivering the relevant entitlement. Such a disruption event and related determinations may have an adverse effect on the value of the relevant Security.

10.5 There are certain risks where your Securities provide for settlement by way of physical delivery of the relevant Underlying Asset(s)

The following risks apply where your Securities provide for settlement by way of the cash amount otherwise payable being applied by the Issuer to purchase and then physically deliver the relevant Underlying Asset(s) to you. Any of these features could have a negative effect on the value of and return on the Securities.

(a) Conditions to settlement

See risk factor 10.3 (*If you have not fully satisfied each of the conditions to settlement, delivery of any property deliverable to you and/or payment under the Securities shall be postponed and may ultimately be forfeit*).

(b) Settlement disruption risk

See risk factor 10.4 (*Settlement disruption risk*).

(c) Entitlement Substitution

If the terms and conditions of your Securities provide that 'Entitlement Substitution' applies, where the Issuer determines that the relevant property to be delivered is not freely transferable, it is unable to acquire the relevant property or the price has been significantly affected by illiquidity, the Issuer may elect to not deliver the affected entitlement components and to pay an amount in lieu thereof to Holders. This may result in you being exposed to the issuer of the substituted assets (as well as any custodian holding such assets). Also, if the substituted assets are physically delivered upon redemption of the Securities, you may not be able to sell such substituted assets for a specific price and, under certain circumstances, the delivered assets may have a very low value and may be worth zero. You may also be subject to documentary or stamp taxes and/or other charges in relation to the delivery and/or disposal of such assets.

10.6 The terms and conditions of your Securities may be amended by the Issuer without your consent in certain circumstances

The terms and conditions of the Securities may be amended by the Issuer without the consent of the Holders in any of the following circumstances:

- to cure a manifest or proven error or omission;
- where such amendment will not materially and adversely affect the interests of Holders;
- to correct or supplement any defective provision;
- where the amendment is of a formal, minor or technical nature; and/or
- to comply with mandatory provisions of law or (in the case of CREST Securities) any change in CREST Requirements.

In certain other circumstances, the consent of a defined majority of Holders is required.

The terms and conditions of the Securities contain provisions for Holders to call and attend meetings to vote upon such matters or to pass a written resolution in the absence of such a meeting. Resolutions passed at such a meeting, or passed in writing, can bind all Holders, including investors that did not attend or vote, or who do not consent to the amendment.

10.7 Risks in relation to Minimum Tradable Amounts and minimum Specified Denomination where specified to be applicable

Where the terms and conditions of your Securities provide for a Minimum Tradable Amount or Specified Denomination consisting of a nominal amount plus one or more integral multiples of another smaller amount, if you hold an amount which is less than the Minimum Tradable Amount or minimum Specified Denomination at the relevant time:

- you will not be able to transfer or sell your holding;
- you may not receive a Definitive Bearer Security in respect of such holding (should Definitive Bearer Securities be printed); and
- you would need to purchase a nominal amount of Securities such that your holding amounts to such Minimum Tradable Amount or minimum Specified Denomination in order to be able to sell or transfer Securities or receive a Definitive Bearer Security.

If Definitive Bearer Securities are issued, you should be aware that those Securities which have a denomination that is not an integral multiple of any minimum denomination may be illiquid and difficult to trade.

Notwithstanding the foregoing, such Securities will only be transferable in accordance with the rules of the relevant clearing system.

You should be aware that Temporary Global Securities will not be exchangeable for Definitive Bearer Securities, unless there is a default of the relevant clearing system and no alternative clearing system is found.

10.8 There are risks where your Securities are Book-Entry Securities

If you hold your Securities in dematerialised and/or uncertificated form ("**Book-Entry Securities**"), you will not be the legal owner of the Book-Entry Securities. Rights in the Book-Entry Securities will be held through custodial and depositary links through the relevant clearing systems. This means that holders of Book-Entry Securities will only be able to enforce rights in respect of the Book-Entry Securities indirectly through the intermediary depositaries and custodians.

10.9 There are risks if you hold your Securities in the form of CREST Depository Interests

If you hold your Securities in the form of CREST Depository Interests ("**CDIs**"), you will not be the legal owner of the Securities to which such CDIs relate (the "**Underlying Securities**"). CDIs are separate legal instruments from the Underlying Securities and represent indirect interests in the interests of the CREST nominee in such Underlying Securities. CDIs will be issued by the CREST Depository to investors and will be governed by English law.

The Underlying Securities (as distinct from the CDIs representing indirect interests in such Underlying Securities) will be held in an account with a custodian. The custodian will hold the Underlying Securities through the Relevant Clearing System. Rights in the Underlying Securities will be held through custodial and depositary links through the Relevant Clearing System. The legal title to the Underlying Securities or to interests in the Underlying Securities will depend on the rules of the Relevant Clearing System in or through which the Underlying Securities are held.

Rights in respect of the Underlying Securities cannot be enforced by holders of CDIs except indirectly through the CREST Depository and CREST nominee who in turn can enforce rights indirectly through the intermediary depositaries and custodians described above. The enforcement of rights in respect of the Underlying Securities will therefore be subject to the

local law of the relevant intermediary. These arrangements could result in an elimination or reduction in the payments that otherwise would have been made in respect of the Underlying Securities in the event of any insolvency or liquidation of the relevant intermediary, in particular where the Underlying Securities held in clearing systems are not held in special purpose accounts and are fungible with other securities held in the same accounts on behalf of other customers of the relevant intermediaries.

If a matter arises that requires a vote of Holders, the Issuer may make arrangements to permit the holders of CDIs to instruct the CREST Depository to exercise the voting rights of the CREST nominee in respect of the Underlying Securities. However, there is no guarantee that it will be possible to put such voting arrangements in place for holders of CDIs.

Holders of CDIs will be bound by all provisions of the CREST Deed Poll and by all provisions of or prescribed pursuant to the CREST International Manual (April 2008) issued by Euroclear UK & Ireland Limited and as amended, modified, varied or supplemented from time to time (the "**CREST Manual**") and the CREST Rules (contained in the CREST Manual) applicable to the CREST International Settlement Links Service. Holders of CDIs must comply in full with all obligations imposed on them by such provisions, including in relation to (i) indemnities, warranties, representations and undertakings to be given by holders of CDIs and limitations on the liability of the CREST Depository as issuer of the CDIs and (ii) fees, charges, costs and expenses to the CREST Depository in connection with the use of the CREST International Settlement Links Service. These will include the fees and expenses charged by the CREST Depository in respect of the provision of services by it under the CREST Deed Poll and any taxes, duties, charges, costs or expenses which may be or become payable in connection with the holding of the Underlying Securities through the CREST International Settlement Links Service.

None of the Issuer or any Manager or Agent makes any representation or warranty as to the tax consequences of an investment in CDIs and/or the tax consequences of the acquisition, holding, transfer or disposal of CDIs by any investor (including, without limitation, whether any stamp duty, stamp duty reserve tax, excise, severance, sales, use, transfer, documentary or any other similar tax, duty or charge may be imposed, levied, collected, withheld or assessed by any government, applicable tax authority or jurisdiction on the acquisition, holding, transfer or disposal of CDIs by any investor). Whilst your attention is drawn to the section entitled '*Taxation*', the tax consequences for each investor in CDIs can be different. Therefore, you should consider consulting with a tax adviser as to their specific consequences, including, in particular, whether United Kingdom stamp duty reserve tax will be payable on transfers of CDIs in uncertificated form within CREST.

10.10 There are risks if you hold your Securities through nominee arrangements

Where a distributor and/or a nominee service provider is used by you to invest in the Securities, you will only receive payments and/or deliveries of Underlying Asset(s) on the basis of arrangements entered into by you with the distributor or nominee service provider, as the case may be. In such case, you must look exclusively to the distributor or nominee service provider for all payments and/or deliveries attributable to the Securities. Neither the Issuer, Manager(s) nor Determination Agent nor any other person will be responsible for the acts or omissions of the distributor or nominee service provider, nor make any representation or warranty, express or implied, as to the services provided by the distributor or nominee service provider.

10.11 You should be aware that certain specific information in relation to the Securities may not be known at the beginning of an offer period

In relation to Securities which are being offered by way of a public offer, certain specific information relating to the Securities (such as certain amounts, levels, percentages, prices, rates or values (as applicable) used to determine or calculate amounts payable or assets deliverable in respect of the Securities) may not be fixed or determined by the start of the offer. In such case, the terms and conditions of your Securities will provide an indicative amount, an indicative minimum amount, or an indicative maximum amount, or any combination of the foregoing.

The actual amounts, levels, percentages, prices, rates or values (as applicable) will be determined based on market conditions by the Issuer on or around the end of the offer period and may be the same as or different from any indicative amount specified in the terms and conditions of your Securities, provided that such actual amounts will not be less than any indicative minimum amount provided in the terms and conditions of your Securities and will not be more than any indicative maximum amount provided in the terms and conditions of your Securities. Notice of the actual amounts, levels, percentages, prices, rates or values (as applicable) will be published prior to the Issue Date in accordance with the Conditions.

You must make your investment decision in relation to the Securities based on the indicative amounts provided rather than the actual amounts, levels, percentages, prices, rates or values (as applicable), which will only be fixed or determined at the end of the offer period after your investment decision has been made. As there is a risk that the indicative amounts will not be the actual amounts, levels, percentages, prices, rates or values (as applicable), you should assume, for the purposes of evaluating the risks and benefits of an investment in the Securities, that the actual amounts, levels, percentages, prices, rates or values (as applicable) which are fixed or determined at the end of the offer period will be (i) lower than the indicative amount and equal to the minimum amount (where provided and where a higher amount, level, percentage, price, rate or value (as applicable) may lead to a greater return on the Securities) or (ii) higher than the indicative amount and equal to the maximum amount (where provided and where a lower amount, level, percentage, price, rate or value (as applicable) may lead to a greater return on the Securities).

11. Risks associated with foreign exchange

11.1 **There are foreign exchange risks where the terms and conditions of your Securities provide that payment under the Securities will be made in a currency which is different from the currency of the Underlying Asset(s) and/or different from your home currency, or are subject to a foreign exchange conversion**

If the terms and conditions of your Securities provide that payment under the Securities will be made in a currency which is different from the currency of the Underlying Asset(s) and/or different from your home currency then, depending on the particular payout terms of your Securities, you may be exposed to the adverse movement of the settlement currency of the Securities relative to the currency of the Underlying Asset(s) and/or your home currency.

If the terms and conditions of your Securities provide for application of the cash amount to purchase Underlying Asset(s) and physically deliver such to you and if the currency of the Underlying Asset(s) is different from the settlement currency of the Securities and/or your home currency then, following the date on which the entitlement to delivery of the relevant property is determined, you will (i) not benefit from the positive movement of the settlement currency of the Securities relative to the currency of the Underlying Asset(s) (if any) and (ii) be exposed to the volatility and fluctuations of such currency of the Underlying Asset(s) relative to the settlement currency of the Securities and/or your home currency. Further, where the currency of the Underlying Asset(s) is different from the settlement currency of your Securities, you may be exposed to similar foreign exchange risk in respect of any fraction of the Underlying Asset(s) which is not delivered to you but for which you are entitled to a cash amount.

Foreign exchange rates can be highly volatile and are determined by various factors, including supply and demand for currencies in the international foreign exchange markets, economic factors including inflation rates in the countries concerned, interest rate differences between the respective countries, economic forecasts, international political factors, currency convertibility, safety of making financial investments in the currency concerned, speculation and measures taken by governments and central banks.

A foreign exchange rate can be fixed by the sovereign government, allowed to float within a range of exchange rates set by the government or left to float freely. Exchange rates of most economically developed nations are permitted to fluctuate in value relative to each other. However, from time to time governments may use a variety of techniques, such as intervention by a country's central bank, the imposition of regulatory controls or taxes or

changes in interest rates to influence the exchange rates of their currencies. In addition, governments around the world, including the governments of other major world currencies, have recently made, and may be expected to continue to make, very significant interventions in their economies, and sometimes directly in their currencies. Governments may also issue a new currency to replace an existing currency or alter the exchange rate or relative exchange characteristics by a devaluation or revaluation of a currency. These governmental actions could change or interfere with currency valuations and may cause foreign exchange rates to fluctuate more than would otherwise occur in response to economic forces, as well as in response to the movement of currencies across borders.

Foreign exchange fluctuations between your home currency and the currency in which payment under the Securities is due may affect you where you intend to convert gains or losses from the exercise or sale of Securities into your home currency and may eventually cause a partial or total loss of your initial investment.

11.2 **'Dual Currency' Securities**

In the case of any Securities having a settlement currency that is different from the issue currency, the amount of interest and/or any redemption amount payable will be determined by reference to an exchange rate, the method of calculation of which will be determined by the Determination Agent.

Where you purchase 'Dual Currency' Securities, you will be exposed to currency risks in addition to the currency risks relating to the Underlying Asset(s) because the value of your Securities may increase or decrease as a result of fluctuations between the issue currency (or your home currency) and the settlement currency. Foreign exchange fluctuations between your home currency or the issue currency and the relevant currency in which the repayment amount of your Securities is denominated may affect you where you intend to convert gains or losses from the exercise or sale of your Securities into your home currency.

Foreign exchange fluctuations between an investor's home currency (or the issue currency) and the Settlement Currency may affect investors who intend to convert gains or losses from the exercise or sale of Securities into their home currency and may eventually cause a partial or total loss of the investor's initial investment.

12. **Risks associated with Securities linked to common shares, ADRs, GDRs and ETFs as Underlying Asset(s)**

If the Underlying Asset(s) of your Securities is or includes any one or more of a common share, ADR, GDR or ETF, you should consider the following risks:

12.1 **Risks associated with common shares, ADRs, GDRs and ETFs**

(a) **The performance of the Underlying Asset(s) depends on many diverse and unpredictable factors**

The performance of common shares, American Depositary Receipts ("ADRs"), Global Depositary Receipts ("GDRs") and exchange traded funds ("ETFs") is dependent upon (i) macroeconomic factors, such as interest and price levels on the capital markets, currency developments and political factors as well as (ii) company-specific factors such as earnings, market position, risk situation, shareholder structure and distribution policy. Any one or a combination of such factors could adversely affect the performance of the Underlying Asset(s) which, in turn, would have an adverse effect on the value of and return on your Securities.

(b) **Holders of Securities linked to common shares, ADRs, GDRs or ETFs will not participate in dividends or any other distributions (unless otherwise specified to be applicable in the terms and conditions) and the return on the Securities may therefore be lower than holding such Underlying Asset(s) directly**

Unless otherwise specified to be applicable in the terms and conditions, you (as an investor of Securities linked to common shares, ADRs, GDRs or ETFs) will not

participate in dividends or any other distributions paid on those common shares, ADRs, GDRs or ETFs. Therefore, the return on the Securities may be lower than holding such Underlying Asset(s) directly.

(c) The occurrence of an Additional Disruption Event or certain other events in relation to the Underlying Asset(s) may lead to the adjustment or early redemption of your Securities or substitution of the Underlying Asset(s)

If a Merger Event, Tender Offer, Nationalisation, Insolvency or Delisting (all as defined in the terms and conditions of the Securities) occurs in relation to the underlying shares or the issuer of the relevant underlying shares, this will constitute an Additional Disruption Event leading to the adjustment by the Determination Agent of the terms and conditions of the Securities (without the consent of Holders) or the early redemption of the Securities, and for an amount which may be less than you paid for the Securities – see risk factor 9.3 (*Your Securities may redeem early or may be adjusted by the Determination Agent following an Additional Disruption Event, FX Disruption Event, or early redemption for unlawfulness or impracticability*).

If the terms and conditions of your Securities provide that 'Substitution of Shares' applies, the occurrence of any of the events described in the above paragraph or an insolvency filing, delisting, fund disruption event (in the case of an ETF) or share cancellation in relation to the underlying shares or the issuer of the relevant underlying shares (all as set out in the terms and conditions of the Securities) may cause the replacement of the deliverable shares for substitute shares (as selected by the Determination Agent in accordance with the terms and conditions of the Securities). If there is a substitution of shares, you will be exposed to the issuer of the substituted assets (as well as any custodian holding such assets). If the substituted assets are physically delivered upon redemption of the Securities, you may not be able to sell such substituted assets for a specific price and, under certain circumstances, the delivered assets may have a very low value and may be worth zero. You may also be subject to documentary or stamp taxes and/or other charges in relation to the delivery and/or disposal of such assets.

(d) The occurrence of a 'potential adjustment event' could trigger an adjustment to the terms and conditions of the Securities which may have a negative effect on the value of and return on the Securities

A 'potential adjustment event' is an event which has a diluting or concentrating effect on the theoretical value of the Underlying Asset. If a 'potential adjustment event' occurs, the Issuer may elect to amend the terms and conditions of the Securities (such amendment to be determined by the Determination Agent without the consent of Holders) or to deliver additional Securities or cash to the Holders to account for the diluting or concentrative effect of the event.

Any adjustment made to the terms and conditions of the Securities may have a negative effect on the value of and return on the Securities. Any amount received from the Issuer following an amendment of the terms and conditions of the Securities may be less than your initial investment and could be zero.

(e) There are particular risks in relation to Securities which provide for physical delivery

The Securities may include the right of the Issuer, subject to the fulfilment of certain conditions by you as the Holder, to redeem the Securities by applying the cash amount otherwise payable to purchase and then deliver common shares, ADRs, GDRs or shares in the ETF (as applicable) to you rather than pay the cash amount to you. You will therefore be exposed to the issuer of such common shares or shares underlying the ADRs or GDRs (as well as the custodian holding such shares) or the ETF and the risks associated with such assets to be delivered. You may not be able to sell such delivered assets for a specific price after the redemption of the Securities and, under certain circumstances, the delivered assets may have a very low value and may be worth zero.

You may also be subject to documentary or stamp taxes and/or other charges in relation to the delivery and/or disposal of such assets.

Additionally, where the property due to be delivered to you would include a fraction of any component comprising the property, you will be entitled to receive an amount in cash in lieu of such fraction as determined by the Determination Agent.

See also risk factor 10.4 (*Settlement disruption risk*).

12.2 Additional risks associated with common shares

The issuer of common shares of a company will not have participated in the offering and issuance of the Securities and none of the Issuer or the Manager(s) will have made any investigation or enquiry in relation to the share issuer for the purposes of the Securities. Therefore, there can be no assurance that all events occurring prior to the Issue Date of the Securities that would affect the trading price of the relevant share(s) will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning the share issuer could affect the trading price of the share and therefore the trading price of the Securities. Also, you should be aware that the issuer of any common shares may or may not take actions in respect of common shares without regard to the interests of Holders and any of these actions could have a negative effect on the value of the Securities.

12.3 Additional risks associated with depository receipts

(a) **There is a risk of realising a lower return than the shares underlying the depository receipt**

ADRs are instruments issued in the US in the form of share certificates representing a number of shares held outside the US, in the country where the share issuer is domiciled. GDRs are instruments in the form of share certificates representing a number of shares held in the country of domicile of the share issuer and are usually offered or issued in a country other than the US. The amount you receive on Securities linked to ADRs or GDRs may not reflect the return that you would obtain if you actually owned the shares underlying such ADRs or GDRs because the price of the ADR or GDR may not take into account the value of any dividends or other distributions paid on the underlying shares. Therefore, you may receive a lower return on the Securities than you would have had you invested in the shares underlying such ADRs or GDRs directly.

(b) **There is a risk of non-recognition of beneficial ownership**

The legal owner of the shares underlying the ADRs or GDRs is the custodian bank which is also the issuing agent of the depository receipts. Depending on the jurisdiction under which the depository receipts have been issued, there is a risk that such jurisdiction does not legally recognise the purchaser of the ADR or GDR as the beneficial owner of the underlying shares. In the event the custodian becomes insolvent or that enforcement measures are taken against the custodian it is possible that an order restricting the free disposition of the underlying shares is issued. In this event the purchaser of an ADR or GDR may lose its rights to the underlying shares under the ADR or GDR and the ADR or GDR could become worthless. As a result, the value of Securities linked to the ADRs or GDRs may be negatively affected and could become worthless.

12.4 Additional risks associated with exchange traded funds ("ETFs")

(a) **There is a risk of tracking error**

Where your Securities are linked to an interest in an ETF (being a fund, pooled investment vehicle, collective investment scheme, partnership, trust or other similar legal arrangement holding assets, such as shares, indices, bonds, commodities and/or other securities such as financial derivative instruments (for the purposes of this sub-

paragraph, "**Reference Asset(s)**") and listed on a recognised exchange) and the investment objective of such ETF is to track the performance of such Reference Asset(s), you are exposed to the performance of such ETF rather than the Reference Asset(s). There is a risk that the ETF may not reflect the actual return you would obtain if you actually owned the Reference Asset(s) underlying the ETF. Accordingly, you may receive a lower return than you would have received had you invested in the Reference Asset(s) underlying such ETF directly.

(b) **There are risks relating to the ETF managers, analytical tools and investments of the ETF**

There is a risk that the ETF managers will not succeed in meeting the investment objectives of the ETF, that any analytical model used thereby will prove to be incorrect and that any assessments of the short-term or long-term prospects, volatility and correlation of the types of investments in which such ETF has or may invest will prove inaccurate, any of which may have a negative effect on the value of and return on the Securities.

(c) **There is a risk of adverse actions by the management company, trustee or sponsor**

The management company, trustee or sponsor of an ETF will have no involvement in the offer and sale of the Securities and accordingly will have no obligation to you as Holder and could take any actions without regard to the interests of Holders. Any such action may have a negative effect on the value of and return on the Securities.

(d) **There is a risk that where the relevant ETF invests in financial derivative instruments**

An ETF may invest in financial derivative instruments which expose the ETF and an investor to the credit, liquidity and concentration risks of the counterparties to such financial derivative instruments. This means that, if the relevant counterparties default under any of these financial derivative instruments, the value of the ETF may decline. As a result, the value of and return on the Securities could be adversely affected.

13. **Risks associated with Securities linked to equity indices as Underlying Asset(s)**

If the Underlying Asset(s) of your Securities is or includes an equity index, you should consider the following risks:

(a) **There are risks of fluctuations and volatility**

Securities linked to the performance of one or more equity indices provide investment diversification opportunities, but will be subject to the risk of fluctuations in both equity prices and the value and volatility of the relevant equity index or indices.

(b) **There are risks of shares and indices**

Equity indices are composed of a synthetic portfolio of shares, and, as such, the performance of an equity index is in turn subject to the risks associated with indices, as outlined in this risk factor 13 (*Risks associated with Securities linked to equity indices as Underlying Asset(s)*) and with shares as specified above in risk factor 12 (*Risks associated with Securities linked to common shares, ADRs, GDRs and ETFs as Underlying Asset(s)*).

(c) **You may receive a potentially lower return than if you held the underlying shares directly**

The amount payable or property deliverable on any Securities linked to one or more equity indices (which are not dividend indices or which do not otherwise include dividend distributions in their level) may not reflect the return that you would realise if you actually owned the relevant shares of the companies comprising that equity index. This is because the closing index level of such index on any specified valuation date

may reflect the prices of such index components without taking into account any dividend payments on those component shares. Accordingly, you may receive a lower return on Securities linked to one or more equity indices than you would have received had you invested directly in those shares.

(d) There are risks in relation to a change in composition, methodology or policy used in compiling the index

The Index Sponsor can add, delete or substitute the components of an index at its discretion, and may also alter the methodology used to calculate the level of the index. These events may have a detrimental impact on the level of the index, which in turn could have a negative impact on the value of and return on your Securities.

(e) There are risks in relation to index adjustments events, successor indices, corrections and manifest errors

If an Index Sponsor makes a material alteration to an index or cancels an index and no successor exists, or fails to calculate and announce the index, the Determination Agent may, if it deems the event to have a material effect on the Securities, calculate the level of the Index as per the previous formula and method (or, in the case of Index Cancellation, replace the Index with a Pre-nominated Index in respect of the cancelled Index, if a Pre-nominated Index is specified) or redeem the Securities prior to their scheduled redemption date in accordance with the terms and conditions of the Securities, and for an amount which may be less than you paid for the Securities – see risk factor 9.3 (*Your Securities may redeem early or may be adjusted by the Determination Agent following an Additional Disruption Event, FX Disruption Event, or early redemption for unlawfulness or impracticability*).

If an index is calculated by a successor index sponsor, or is replaced by a successor index, the successor index or index as calculated by the successor index sponsor will be deemed to be the index if approved by the Determination Agent. Any such successor index may perform poorly and may result in you receiving less than you otherwise expected.

If a correction to the relevant index is published not less than two exchange business days prior to the next payment date, the Determination Agent will recalculate the amount payable based on the corrected level of the relevant index. If there is a manifest error in the calculation of an index in the opinion of the Determination Agent, the Determination Agent may recalculate the Index based on the formula and method used prior to the manifest error occurring.

Any of these events may have an adverse effect on the value of and return on the Securities.

(f) The index or any of its underlying components may trade around the clock; however, the Securities may trade only during regular trading hours in Europe

If the market for the relevant index or any of its underlying components is a global, around-the-clock market, the hours of trading for the Securities may not conform to the hours during which the relevant index or any of its underlying components are traded. Significant movements may take place in the levels, values or prices of the relevant index or any of its underlying components that will not be reflected immediately in the price of the relevant Securities. There may not be any systematic reporting of last-sale or similar information for the relevant index or any of its underlying components. The absence of last-sale or similar information and the limited availability of quotations would make it difficult to obtain timely, accurate data about the state of the market for the relevant index or any of its underlying components.

(g) There are data sourcing and calculation risks

The composition of indices is typically recalculated in reliance upon historical price, liquidity and production data that are subject to potential errors in data sources or other

errors that may affect the weighting of the index components. Any discrepancies that require revision are not applied retroactively but will be reflected in the weighting calculations of the index for the following year. Index sponsors may not discover every discrepancy. Any such errors or discrepancies may result in the Securities performing less well than they theoretically might have (if all such errors and discrepancies had been discovered earlier).

14. Risks associated with Securities linked to dividends of shares comprised in an equity index that is a dividend index

Where the Securities are linked to dividends of shares comprised in an equity index, you will be exposed to the declaration and payment of such dividends (if any) by the issuers of such shares, and such declaration and payment of dividends (if any) may be subject to the following risks:

- the value of the dividends paid by the individual constituent members of the equity index may be influenced by many factors: Payments of cash dividends by constituent members of the equity index may be reduced or not made at all due to a variety of independent factors, such as earnings and dividend policy, which could result in a reduction in the value of and return on the Securities.
- changes to the regulatory and tax environment: Tax and regulatory decisions may result in reductions in the amount of dividends paid by individual constituent members of the equity index.
- constituent members of the equity index may not pay dividends in the relevant dividend period at all: If no dividends are paid by constituent members of the equity index during the relevant dividend period to which the Securities are linked, you could receive no return on your investment and, in some instances, the Securities may be worth zero.
- not all dividends paid by constituent members may be reflected in the level of the equity index: The equity index may only reflect certain types of dividends, such as ordinary unadjusted gross cash dividends and/or withholding taxes on special cash dividends and capital returns as applied to the constituent members and may exclude extraordinary dividends which may, in turn, result in a lower return on the Securities.

15. Risks associated with discretionary powers of the Issuer and the Determination Agent, including in relation to the Issuer's hedging arrangements

There are certain events – relating to the Issuer, the Issuer's hedging arrangements, the Underlying Asset(s), taxation, the relevant currency or other matters – the occurrence of which may give rise to discretionary powers of the Issuer or the Determination Agent under the terms and conditions of the Securities. For example, see risk factor 9.3 (*Your Securities may redeem early or may be adjusted by the Determination Agent following an Additional Disruption Event, FX Disruption Event, or early redemption for unlawfulness or impracticability*).

In relation to the Underlying Asset(s), a key investment objective of the Securities is to allow Holders to gain an economic exposure to the Underlying Asset(s). If an Underlying Asset is materially impacted by an unexpected event (for example, a company merges and the original stock that formed an Underlying Asset is restructured or changed, or the rules of an index that is an Underlying Asset are materially modified) or the relevant price, level or value can no longer be calculated, then it may not be possible to achieve the investment objective of the Securities based on their original terms. In that case, the Determination Agent may have discretionary powers under the terms and conditions of the Securities to (i) adjust the terms and conditions of the Securities to preserve the original economic terms and rationale, (ii) in certain cases, substitute the Underlying Asset(s) for another, (iii) calculate the relevant price, level or value itself, (iv) postpone payment (v) redeem the Securities early or (vi) apply some combination thereof.

In relation to the Issuer's hedging arrangements, you should be aware that (i) in exercising its discretionary powers under the terms and conditions of the Securities, each of the Issuer and the Determination Agent may take into account such factors as it determines appropriate in each case, which may include, in particular, any circumstances or events which have or may have a material impact on the Issuer's hedging arrangements in respect of the Securities; and (ii) unless the terms and conditions of your Securities provide that certain hedge disruption events do not apply, certain events which affect the Issuer's hedging arrangements can give rise to discretionary powers on the part of the Issuer and the Determination Agent. For example, see risk factor 9.3 (*Your Securities may redeem early or may be adjusted by the Determination Agent following an Additional Disruption Event, FX Disruption Event, or early redemption for unlawfulness or impracticability*).

Hedging arrangements are the transactions (if any) entered into by the Issuer or one or more of its Affiliates to seek to cover the Issuer's exposure to the relevant cash amounts to be paid or assets to be delivered under the Securities as these fall due. This may involve investing directly in the Underlying Asset(s) or entering into derivative contracts referencing the Underlying Asset(s) or other techniques. The particular hedging arrangements (if any) undertaken by the Issuer, and their cost, will likely be a significant determinant of the issue price and/or economic terms of the Securities. Accordingly, if an event occurs which negatively impacts the Issuer's hedging arrangements, the Issuer or the Determination Agent on the Issuer's behalf may have options available to it under the terms and conditions of the Securities which it may select in its discretion in order to deal with the impact of the event on the Issuer's hedging arrangements. These options may include adjustment of the terms and conditions of the Securities or early redemption of the Securities. In the event of early redemption, the early redemption amount you may receive will be equal to: (i) where the Final Terms specifies 'Early Cash Settlement Amount' to be 'Par', the Calculation Amount of each Security or (ii) where the Final Terms specifies 'Early Cash Settlement Amount' to be 'Market Value', the fair market value of your Securities prior to redemption and in each case other than where the Final Terms provides that 'Unwind Costs' is not applicable, the costs associated with the Issuer's hedging arrangements will be deducted from the early redemption amount described above. **This amount may be less than your original investment and, therefore, you could lose some or all of your money.** See risk factor 9.1 (*If your Securities are redeemed early, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk*)

16. **Risks associated with the regulation and reform of LIBOR, EURIBOR and other interest rate index and equity, commodity and foreign exchange rate index 'benchmarks'**

Interbank Offered Rates (including the London Interbank Offered Rate ("**LIBOR**"), the Euro Interbank Offered Rate ("**EURIBOR**")) and other interest rate, equity, commodity, foreign exchange rate and other types of rates and indices which are deemed to be "benchmarks" are the subject of ongoing national and international regulatory reform. Following any such reforms, benchmarks may perform differently than in the past or disappear entirely, or there could be other consequences which cannot be predicted. Any such consequence could have a material adverse effect on any Securities linked to such a benchmark.

Key regulatory proposals and initiatives in this area include (amongst others) IOSCO's Principles for Financial Market Benchmarks (the "**IOSCO Benchmark Principles**"), the EU Regulation on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds (the "**Benchmark Regulation**"), and the transition proposed by the United Kingdom's FCA, away from LIBOR to one or more alternative benchmarks (each, as discussed below).

The IOSCO Benchmark Principles aim to create an overarching framework of principles for benchmarks to be used in financial markets, specifically covering governance and accountability as well as the quality and transparency of benchmark design and methodologies. Subsequent implementation reviews have found that widespread efforts are being made to implement the IOSCO Benchmark Principles by the majority of administrators surveyed. However, the reviews also note that, as the "benchmarks industry" is in a state of flux, IOSCO may need to take further steps in the future - although it is not yet clear what these steps might be. On 16 December 2016, IOSCO published a report setting out guidance

to improve the consistency and quality of reporting on compliance with IOSCO Benchmark Principles.

The Benchmark Regulation entered into force in June 2016 and became fully applicable in the EU on 1 January 2018 (save that certain provisions, including those related to "critical benchmarks", took effect on 30 June 2016), subject to certain transitional provisions. The Benchmark Regulation applies to the contribution of input data to a "benchmark", the provision or administration of a "benchmark" and the use of a "benchmark" in the EU. Among other things, it (a) requires EU benchmark administrators to be authorised or registered as such and to comply with extensive requirements relating to the administration of "benchmarks" and (b) prohibits certain uses by EU supervised entities of "benchmarks" provided by EU administrators which are not authorised or registered in accordance with the Benchmark Regulation (or, if located outside of the EU, deemed equivalent or recognised or endorsed). The scope of the Benchmark Regulation is wide and, in addition to so-called "critical benchmark" indices such as EURIBOR, applies to many other interest rate indices, as well as equity, commodity and foreign exchange rate indices and other indices. This will include "proprietary" indices or strategies where these are used to (i) determine the amount payable under, or the value of, certain financial instruments (including securities or OTC derivatives listed on an EU regulated market, EU multilateral trading facility (MTF), EU organised trading facility (OTF) or "traded via a systematic internaliser"), (ii) determine the amount payable under certain financial contracts, or (iii) measure the performance of an investment fund.

The Benchmark Regulation could have a material impact on Securities linked to a "benchmark". For example:

- a rate or index which is a "benchmark" may not be used in certain ways by an EU supervised entity if (subject to applicable transitional provisions) its administrator does not obtain authorisation or registration (or, if a non-EU entity, does not satisfy the "equivalence" conditions and is not "recognised" pending an equivalence decision or is not "endorsed" by an EU supervised entity). If the benchmark administrator does not obtain or maintain (as applicable) such authorisation or registration (or, if a non-EU entity, "equivalence" is not available and it is not recognised or endorsed), then (unless a Pre-nominated Index has been specified in the Final Terms to replace the relevant Underlying Asset) an Additional Disruption Event will occur and the Securities may be redeemed prior to maturity; and
- the methodology or other terms of the benchmark could be changed in order to comply with the terms of the Benchmark Regulation, and such changes could reduce or increase the rate or level or affect the volatility of the published rate or level, and (depending on the type of Underlying Asset) could lead to adjustments to the terms of the Securities, including potentially determination by the Determination Agent of the rate or level in its discretion.

In a speech in July 2017, the Chief Executive of the FCA committed the FCA to begin planning a transition away from LIBOR to alternative reference rates that are based on actual transactions, such as SONIA (the Sterling Over Night Index Average). The speech envisaged the current LIBOR arrangements continuing until at least the end of 2021. The Bank of England's Working Group on Sterling Risk-Free Reference Rates has been considering risk free rates for use as alternatives to LIBOR and has chosen a reformed Sterling Overnight Index Average ("**SONIA**"). The reforms to SONIA became effective on 23 April 2018 and it is expected that there will be a transition to SONIA over the next four years across sterling bond, loan and derivatives related markets, so that SONIA is established as the primary sterling interest rate benchmark by the end of 2021.

Ongoing international and/or national reform initiatives and the increased regulatory scrutiny of benchmarks generally could increase the costs and risks of administering or otherwise participating in the setting of a benchmark and complying with any applicable regulations or requirements. Such factors may discourage market participants from continuing to administer or contribute to benchmarks, trigger changes in the rules or methodologies used in respect of benchmarks, and/or lead to the disappearance of benchmarks, including LIBOR. This could

result in (i) adjustments to the terms and conditions and/or early redemption provisions and/or provisions relating to discretionary valuation by the Determination Agent, (ii) delisting, and/or (iii) other consequences for Securities linked to any such benchmarks. Any such consequence could have a material adverse effect on the value of and return on any such Securities.

17. **Risks associated with taxation**

17.1 **General**

Investors should be aware that duties and other taxes and/or expenses, including any applicable depository charges, transaction charges, stamp duty and other charges, may be levied in accordance with the laws and practices in the countries where the Securities are transferred and that it is the obligation of an investor to pay all such taxes and/or expenses.

All payments made under the Securities shall be made free and clear of, and without withholding or deduction for, any present or future taxes imposed by the Issuer's country of incorporation (or any authority or political subdivision thereof or therein), unless such withholding or deduction is imposed or required by law. If any such withholding or deduction is imposed and required by law, the Issuer will, save in limited circumstances, be required to pay additional amounts to cover the amounts so withheld or deducted, and such event may result in the Securities being redeemed early as this would be an Issuer Tax Event which is an Additional Disruption Event. In no event will additional amounts be payable in respect of FATCA (as defined below) or any US withholding tax, including without limitation, in respect of dividends, dividend equivalent payments, and direct and indirect interests in US real property.

17.2 **Change in tax law**

You should be aware that tax regulations and their application by the relevant taxation authorities are subject to change and differing interpretations, possibly with retrospective effect, and this could negatively affect the value of the Securities. Any such change may cause the tax treatment of the Securities to change from the tax position at the time of purchase and may cause the statements in this Base Prospectus concerning the relevant tax law and practice to be inaccurate or insufficient to cover the material tax considerations in respect of the Securities. It is not possible to predict the precise tax treatment which will apply at any given time and changes in tax law may give the Issuer the right to amend the terms and conditions of the Securities, or redeem the Securities.

17.3 **US foreign account tax compliance withholding**

Under FATCA (as defined below) the Issuer (and any intermediary in the chain of payment) may require each holder of a Security to provide certifications and identifying information about itself and certain of its owners. The failure to provide such information, or the failure of certain non-US financial institutions to comply with FATCA, may compel the Issuer (or an intermediary) to withhold a 30 per cent tax on payments (including redemption payments and gross proceeds) to such holders and neither the Issuer nor any other person will pay any additional amounts with respect to such withholding. Any such withholding would not begin earlier than 1 January 2019 except in the case of US-source payments, which are currently subject to FATCA withholding. US-source payments generally should be limited to dividend equivalent payments and interests in 'US real property interests' (although there can be no assurance the IRS may not seek to treat other payments that reference US securities as US source income). "FATCA" means sections 1471 through 1474 of the US Internal Revenue Code of 1986, as amended (the "Code"), any final current or future regulations or official interpretations thereof, any agreement entered into pursuant to section 1471(b) of the Code, or any US or non-US fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such sections of the Code.

The Issuer will not make any additional payments to holders of Securities to compensate them for any taxes withheld in respect of FATCA or any US withholding tax, including without

limitation, in respect of dividends, dividend equivalent payments, and direct and indirect interests in US real property.

17.4 You may be subject to withholding on dividend equivalent payments and 'US real property interests'

In the case of Securities that are linked to one or more assets characterised as 'US real property interests' (as such term is defined in section 897(c) of the Code), non-US holders of Securities may be subject to special rules governing the ownership and disposition of US real property interests. Prospective non-US holders of Securities should consult their own tax advisers regarding the potential treatment of the Securities as US real property interests.

Under section 871(m) of the Code and regulations thereunder ("**Section 871(m)**"), actual or deemed payments on financial instruments that reference one or more US corporations may be treated as 'dividend equivalent' payments that are subject to US withholding tax at a rate of 30 per cent. Generally, a 'dividend equivalent' is a payment that is directly or indirectly contingent upon a US source dividend or is determined by reference to a US source dividend, including a payment that implicitly takes into account such a dividend. For financial instruments issued on or after 1 January 2017 but prior to 1 January 2021, regulations and guidance under Section 871(m) provide that dividend equivalent payments will be subject to withholding if the instrument has a 'delta' of one with respect to either an underlying US stock or a US stock component of an underlying index or basket. For financial instruments issued on or after 1 January 2021, regulations and guidance under Section 871(m) provide that, dividend equivalent payments on (1) a 'simple' financial instrument that has a delta of 0.8 or greater with respect to an underlying US stock or a US stock component of an underlying index or basket and (2) a 'complex' financial instrument that meets the 'substantial equivalence' test with respect to an underlying US stock or a US stock component of an underlying index or basket, will be subject to withholding tax under Section 871(m). An issue of Securities that references an index or basket that is treated as a 'qualified index' will not be subject to withholding under Section 871(m), even if such Securities meet, as applicable, the delta or substantial equivalence test. In general, a qualified index is a diverse, passive, and widely used index that satisfies the technical requirements prescribed by regulations.

The delta of a financial instrument generally is defined as the ratio of the change in the fair market value of the instrument to a small change in the fair market value of the number of shares of the underlying US corporation, determined either as of the pricing or issue date of the instrument, in accordance with applicable regulations. A financial instrument generally will be treated as having a delta of one if it provides for 100 per cent participation in all of the appreciation and depreciation of one or more underlying US stocks. Very broadly, the substantial equivalence test analyses whether a financial instrument has a correlation to the applicable underlying US stock that is at least as great as that of a simple financial instrument with a delta of at least 0.8.

The Final Terms will indicate if the Issuer has determined that the particular issue of Securities is expected to be subject to withholding under Section 871(m). Any determination by the Issuer on the application of Section 871(m) to a particular Security generally is binding on you, but is not binding on the US Internal Revenue Service ("**IRS**"). The Section 871(m) regulations require complex calculations to be made with respect to Securities referencing shares of US corporations and their application to a specific issue of Securities may be uncertain. Accordingly, even if the Issuer determines that a Security is not subject to Section 871(m), the IRS could assert that the Holder is liable for Section 871(m) tax in respect of such Security, including where the IRS concludes that the delta or substantial equivalence with respect to the Security was determined more than 14 days prior to the Security's issue date.

In addition, a Security may be treated as reissued for purposes of Section 871(m) upon a significant modification of the terms of the Security. In certain circumstances, a rebalancing or adjustment to the components of an underlying index or basket may result in the deemed reissuance of the Security, in particular where the rebalancing or adjustment is made other than pursuant to certain defined rules, or involves the exercise of discretion. In that case, a Security that was not subject to withholding under Section 871(m) at issuance may become subject to withholding at the time of the deemed reissuance. In addition, a Security that in

isolation is not subject to Section 871(m) may nonetheless be subject to Section 871(m) if you, the Holder, have engaged, or engage, in other transactions in respect of an underlying US stock or component of an underlying index or basket. In such situations, you could be subject to Section 871(m) tax even if the Issuer does not withhold in respect of the Security. Further, you may be required, including by custodians and other withholding agents with respect to the Security, to make representations regarding the nature of any other positions with respect to US stock directly or indirectly referenced (including components of any index or basket) by such Security. If you enter, or have entered, into other transactions in respect of a US stock, component of an underlying index or basket, or the Securities, you should consult your own tax advisor regarding the application of Section 871(m) to the Securities and such other transactions.

If an issue of Securities is determined to be subject to US withholding tax under Section 871(m), information regarding the amount of each dividend equivalent, the delta of the Securities, the amount of any tax withheld and deposited, the estimated dividend amount (if applicable), and any other information required under Section 871(m), will be provided, communicated, or made available to Holders in a manner permitted by applicable regulations. Withholding on payments will be based on actual dividends on the underlying US stock or, if otherwise notified by the Issuer in accordance with applicable regulations, on estimated dividends used in pricing the Securities. Where an issue of Securities that references estimated dividend amounts also provides for any additional payments to reflect actual dividends on the underlying US stock, withholding tax will also apply to any additional payments.

If the Issuer determines that a Security is subject to withholding under Section 871(m), it will withhold tax in respect of the actual (or estimated, as described above) dividends that are paid on the underlying US stock. In addition, US tax may be withheld on any portion of a payment or deemed payment (including, if appropriate, the payment of the purchase price) that is a dividend equivalent. Such withholding may occur at the time a dividend is paid on the relevant US stock (or, in certain cases, at the close of the quarter upon which the dividend is paid). Upon remitting the taxes withheld to the IRS, any increase in value of the relevant asset, index or basket or distributions to you in respect of a dividend equivalent will reflect the amount of the dividend net of the withholding described above.

Other than in very limited circumstances described below, the rate of any withholding generally will not be reduced even if you are otherwise eligible for a reduction under an applicable treaty, although you may be able to claim a refund for any excess amounts withheld by filing a US tax return. However, you may not receive the necessary information to properly claim a refund for any withholding in excess of the applicable treaty-based amount. In addition, the IRS may not credit you with withholding taxes remitted in respect of your Security for purposes of claiming a refund. Finally, your resident tax jurisdiction may not permit you to take a credit for US withholding taxes related to the dividend equivalent amount. For certain issues of Securities that are subject to withholding under Section 871(m), if the Issuer determines in its sole discretion that it is able to make payments at a reduced rate of withholding under an applicable treaty, if you are eligible for treaty benefits, then you may be able to claim such a reduced rate. To claim a reduced treaty rate for withholding, you generally must provide a valid IRS Form W-8BEN, IRS Form W-8BEN-E, or an acceptable substitute form on which you certify, under penalty of perjury, your status as a non-US person and your entitlement to the lower treaty rate. However, there can be no assurances that the Issuer will be able to make payments on a Security at a reduced rate of withholding, even where you furnish the appropriate certification. Where the Issuer has determined that an issue of Securities is subject to withholding under Section 871(m), the Final Terms will indicate whether the Issuer intends to withhold at the rate of 30 per cent without regard to any reduced rate that may apply under a treaty or if the rate of withholding tax may be subject to reduction under an applicable treaty. In any case where withholding applies, the Issuer will not pay any additional amounts with respect to amounts withheld. You should consult with your tax advisors regarding the application of Section 871(m) to your Securities.

In addition, the Issuer will not make any additional payments to you to compensate you for any taxes withheld in respect of FATCA or any US withholding tax, including without limitation, in respect of direct and indirect interests in US real property, dividends, or, as discussed above, dividend equivalent payments. If any amount were to be deducted or

withheld from payments on the Securities as a result of the above, the return on the Securities may be significantly less than expected.

17.5 The proposed European Financial Transaction Tax ("FTT")

The European Commission has published a proposal (the "**Commission's Proposal**") for a Directive for a common FTT which is being considered by Belgium, Germany, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the "**participating Member States**").

The Commission's Proposal has very broad scope and could, if introduced, apply to certain dealings in the Securities (including secondary market transactions) in certain circumstances. Primary market transactions referred to in Article 5(c) of Regulation (EC) No 1287/2006 are expected to be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in the Securities where at least one party is a financial institution and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, 'established' in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

The FTT proposal remains subject to negotiation between the participating Member States and the scope and implementation of any such tax is uncertain. Additional EU Member States may decide to participate.

Prospective holders of the Securities are advised to seek their own professional advice in relation to the FTT.

18. Risks associated with the ability to enforce under the Securities

Following an event of default by the Issuer (such as a failure to pay interest or return capital, or, if the Issuer is subject to a winding-up order), including expiry of an applicable grace period, you may (i) determine to keep your Securities outstanding (in which case, the market value of those Securities may decline significantly) or (ii) by giving notice to the Issuer and (if not a CREST Security) the Issue and Paying Agent require immediate redemption of your Securities at the early cash settlement amount. **This amount may be less than your original investment and, therefore, you could lose some or all of your money.** See also risk factor 9.1 (*If your Securities are redeemed early, you may suffer potential loss of some or all of your investment, loss of opportunity and reinvestment risk*).

See also risk factor 10.8 (*There are risks where your Securities are Book-Entry Securities*).

19. Risks associated with conflicts of interest

19.1 As Issuer or as Determination Agent, Barclays has certain discretionary powers under the terms and conditions of the Securities that it could exercise in a way which is contrary to the interests of Holders

See risk factor 15 (*Risks associated with discretionary powers of the Issuer and the Determination Agent, including in relation to the Issuer's hedging arrangements*).

19.2 Trading and other transactions by the Issuer or its Affiliates could affect the levels, values or prices of Underlying Asset(s) and their components

In connection with Barclays' normal business practices or in connection with hedging its obligations under the Securities, Barclays may from time to time buy or sell the Underlying Asset(s) and its or their components, or similar instruments, or derivative instruments relating to the Underlying Asset(s) or its or their components. These trading activities may present a conflict of interest between your interest in the Securities and the interests which Barclays may have in its proprietary accounts, in facilitating transactions, including block trades, for

Barclays' other customers and in accounts under management. These trading activities also could affect the levels, values or prices of the Underlying Asset(s) in a manner that would decrease the market value of the Securities prior to maturity, or the amount you would receive at maturity or at the payment or settlement date. To the extent that Barclays has a hedge position in the Underlying Asset(s) or its or their components, or in a derivative or synthetic instrument related to the Underlying Asset(s) or its or their components, Barclays may increase or liquidate a portion of those holdings at any time before, during or after the term of the Securities. This activity may affect the amount payable at maturity, any amount of money or property payable or deliverable at the payment or settlement date, or the market value of the Securities in a manner that would be adverse to your investment in the Securities. Depending on, among other things, future market conditions, the aggregate amount and the composition of those hedge positions are likely to vary over time. In addition, Barclays may purchase or otherwise acquire a long or short position in the Securities. Barclays may hold or resell any such position in the Securities.

19.3 Research reports and other transactions may create conflicts of interest between you and Barclays

Barclays may have previously published, and may in the future publish, research reports relating to the Underlying Asset(s) or its or their components. The views expressed in this research may be modified from time to time without notice and may express opinions or provide recommendations that are inconsistent with purchasing or holding the Securities. Any of these activities may affect the levels, values or prices of the Underlying Asset(s) or its or their components and, therefore, the market value of the Securities. Moreover, other professionals who deal in these markets may at any time have views that differ significantly from Barclays. In connection with your purchase of the Securities, you should investigate the Underlying Asset(s) and not rely on Barclays' views with respect to future movements in the Underlying Asset(s) and its or their components.

Barclays also may issue, underwrite or assist unaffiliated entities in the issuance or underwriting of other securities or financial instruments with returns indexed to the Underlying Asset(s). By introducing competing products into the marketplace in this manner, Barclays could adversely affect the market value of the Securities.

19.4 Barclays may have confidential information relating to the Underlying Asset(s) or components

Barclays, at present or in the future, may engage in business relating to the person or organisation responsible for calculating, publishing or maintaining the Underlying Asset(s), referred to as the 'sponsor' of the Underlying Asset(s). In addition, Barclays may engage in business relating to any components of the Underlying Asset(s), including making loans to, equity investments in, or providing investment banking, asset management or other advisory services to the respective sponsor or issuer. In connection with these activities, Barclays may receive information pertinent to the Underlying Asset(s) or its or their components that Barclays will not divulge to you.

19.5 Distributor(s) and conflicts of interest

Potential conflicts of interest may arise in relation to Securities offered through distribution, as the appointed manager(s) and/or distributor(s) will act pursuant to a mandate granted by the Issuer and may (to the extent permitted by law) receive commissions and/or fees on the basis of the services performed and the outcome of the placement of the Securities.

Exhibit 99.1 – Dismissal of SFO charges against Barclays PLC and Barclays Bank PLC	Page 4
-------------------------------------------------------------------------------------------	--------

*Save as provided in the paragraph entitled '*Fungible issuances*' of the section of this Base Prospectus below entitled '*Important Legal Information*'.

The above documents may be inspected: (i) during normal business hours at the registered office of the Issuer; (ii) at <https://www.home.barclays.com/barclays-investor-relations/results-and-reports/results.html> and <https://www.home.barclays.com/prospectuses-and-documentation/structured-securities/prospectuses.html> (as applicable); and (iii) at the specified office of the Issue and Paying Agent as described in the section entitled '*General Information*' below.

Disclosures relating to Barclays PLC

You should note that the 2017 Joint Annual Report is incorporated by reference into this Base Prospectus for the purpose of presenting a comprehensive view of the Issuer's business operations, financial standing and strategies during the year ended 31 December 2017. During the reported period, there was substantial overlap between the Issuer's business and that of its parent company, Barclays PLC which means the 2017 Joint Annual Report contains relevant information for you.

On 1 April 2018, the Group established Barclays Bank UK PLC (the "**Ring-Fenced Bank**"), an entity established using a legal process called a Ring-Fencing Transfer Scheme (the "**Scheme**") under Part VII of the Financial Services and Markets Act 2000 (see paragraph (v) of the section entitled 'The Issuer and the Group' on pages 3 to 4 of Supplement 1/2018). The Ring-Fenced Bank was established in order to separate the day-to-day banking services of the Group from those of the Issuer. The Ring-Fenced Bank will operate alongside, but have the ability to take decisions independently from, the Issuer as part of the Barclays Group under Barclays PLC.

You should be aware that the Issuer is a separate legal person from Barclays PLC, and that none of the Issuer's obligations under the Securities will be guaranteed or otherwise supported by Barclays PLC.

HOW THE RETURN ON YOUR INVESTMENT IS CALCULATED

THE WORKED EXAMPLES PRESENTED BELOW ARE HYPOTHETICAL SCENARIOS WHICH ARE PROVIDED FOR ILLUSTRATIVE PURPOSES ONLY AND ARE IN NO WAY REPRESENTATIVE OF ACTUAL PRICING TERMS. THE EXAMPLES ARE INTENDED TO DEMONSTRATE HOW AMOUNTS PAYABLE UNDER THE SECURITIES ARE CALCULATED UNDER A VARIETY OF SCENARIOS. THE ACTUAL AMOUNTS PAYABLE (IF ANY) WILL BE CALCULATED IN ACCORDANCE WITH THE TERMS OF YOUR SECURITIES AS SET OUT IN SECTION C: INTEREST, AUTOMATIC REDEMPTION (AUTOCALL), FINAL REDEMPTION AND NOMINAL CALL EVENT OF THE 'TERMS AND CONDITIONS' SECTION OF THIS BASE PROSPECTUS.

Interest: For worked examples showing how the type of interest specified to apply to your Securities is calculated, please see the following:

Automatic redemption (autocall) following an 'Automatic Redemption (Autocall) Event': All Securities issued under this Base Prospectus for which the Final Terms specifies 'Automatic Redemption (Autocall)' to be 'Applicable' will redeem early upon the occurrence of an Automatic Redemption (Autocall) Event (also called an 'autocall event'), following which the nominal amount (or 'face value') of the Securities will be paid to the holder. See page 187.

Final redemption: For worked examples showing how the type of redemption specified to apply to your Securities is calculated, please see the following:

- Vanilla Barrier redemption..... page 117
- European Barrier redemption..... page 119
- American Barrier redemption..... page 121

Types of Securities: each Series issued under this Base Prospectus will have one of the above types of interests and one of the above types of final redemption. For example, a Series may be structured as 'Fixed' interest with 'Vanilla Barrier' redemption or alternatively 'Snowball' interest with 'European Barrier', etc.

Key terminology and assumptions

Key terminology for each of the worked examples below:

- **Calculation Amount:** all amounts of interest or redemption payable under the Securities are calculated by reference to a Calculation Amount which is assumed to be GBP 1,000 in the worked examples. Each Security of a particular series will have the same Calculation Amount.
- **Underlying asset(s):** The 'underlying asset(s)' referred to in these worked examples will be one or more equity indices, shares, depository receipts or funds (as specified in the Final Terms).
- **Initial price of an underlying asset:** the 'initial price' of an underlying asset reflects the price or level of the underlying asset near the issue date of the Securities and is used as the reference point for determining the performance of your investment. The 'initial price' may be determined in several ways:
 - (a) it may be specified in the Final Terms;
 - (b) it may be determined on a particular date (which will be specified in the Final Terms);
or
 - (c) it may be determined on the basis of several days' worth of specific prices (for example, by taking the average, or the highest or lowest of those prices).
- **Final valuation price of an underlying asset:** the 'final valuation price' of an underlying asset reflects the price or level of the underlying asset near the final redemption date of the Securities. Like the 'initial price', the 'final valuation price' may be determined in several ways:
 - (a) it may be determined on a particular date (which will be specified in the Final Terms);
or
 - (b) it may be determined on the basis of several days' worth of specific prices (for example, by taking the average of those prices, or the highest or lowest of those prices).
- **Closing price or level of an underlying asset:** the closing price or level of an asset is the price or level of that asset at the end of a relevant trading day.
- **Barrier:** a barrier is a threshold price or level which is used to determine: (i) whether or not interest on certain types of Securities will be payable; (ii) whether or not securities will be automatically redeemed early; and/or (iii) the redemption amount payable upon final redemption of the Securities.

For example, where applicable, the price or level of the underlying asset(s) must be at or above the relevant interest barrier on the relevant date(s) in order for interest to be payable.

- **Single Asset or Worst-of:** Securities may be linked to a single underlying asset or multiple underlying assets (which may be one or more shares, depository receipts, funds, equity indices, or a mixture).

If there are multiple underlying assets, investors are exposed to the performance of every underlying asset and, in particular, to the worst-performing underlying asset. The performance of an asset is determined by dividing its final valuation price by its initial price. The asset with the lowest performance will be the 'worst-performing underlying asset'.

Key assumptions made for each of the worked examples below:

- the Calculation Amount of each Security is GBP 1,000;
- you hold one note (with a Specified Denomination (or 'face value') of GBP 1,000 and a Calculation Amount of GBP 1,000);

- the Settlement Currency is GBP, so interest and redemption payments will be in GBP; and
- the Securities are not redeemed or purchased and cancelled prior to the relevant interest payment date or redemption date (as applicable) and no relevant disruption event occurs.

Fixed interest

Fixed interest products pay a periodic and predetermined fixed rate of interest over the life of the product.

Interest calculation:

- (i) If the Final Terms specifies the 'Fixed Interest Type' to be 'Fixed Amount', on each interest payment date you will receive an amount calculated by multiplying the relevant fixed interest rate by the Calculation Amount.
- (ii) If the Final Terms specifies the 'Fixed Interest Type' to be 'Per Annum', on each interest payment date you will receive an amount calculated by multiplying the relevant fixed interest rate by the Calculation Amount and further multiplying by the applicable day count fraction.

The day count fraction, if applicable, represents the number of days in the relevant interest calculation period. For example, if the interest calculation period contains 181 days and the day count fraction 'rule' is Actual/365 (Fixed), the day count fraction will be calculated as 181/365.

Impact of an Automatic Redemption (Autocall) Event:

If the Securities are automatically redeemed early (i.e. an Automatic Redemption (Autocall) Event occurs), no further interest will be paid after the date on which the securities are redeemed.

WORKED EXAMPLE 1

Assumptions:

- the Final Terms specifies the 'Fixed Interest Type' to be 'Fixed Amount';
- the fixed interest rate is 4 per cent (4%) (per interest calculation period); and
- there are two interest payment dates in each year over the life of the Securities.

Interest amount payable:

The interest payable amount on each interest payment date will be GBP 40.

This figure is calculated as the fixed interest rate of 4% multiplied by the Calculation Amount of GBP 1,000 (i.e. $4\% \times \text{GBP } 1,000$).

WORKED EXAMPLE 2

Assumptions:

- the Final Terms specifies the 'Fixed Interest Type' to be 'Per Annum';
- the fixed interest rate is 4 per cent (4%) (per interest calculation period);
- the day count fraction is 'Actual/365 (Fixed)', being the actual number of calendar days in the interest calculation period, divided by 365 days; and
- the actual number of calendar days in the interest calculation period is 181.

Interest amount payable:

The interest payable amount on each interest payment date will be GBP 19.84 (rounded to two decimal places).

This figure is calculated as the fixed interest rate of 4% multiplied by the Calculation Amount of GBP 1,000 and further multiplied by the day count fraction of 181/365 (i.e. $4\% \times \text{GBP } 1,000 \times 181/365 = 19.84$).

Floating rate interest

Floating rate interest products pay a variable amount of interest on each interest payment date.

The rate of interest for each interest calculation period will be determined on the basis of a particular 'floating rate', which will be one of the following:

- (a) *a rate (or the mean of several rates) which appear(s) on a particular screen page of an information services provider (e.g. Bloomberg or Reuters) on or around the date when interest is calculated;*
- (b) *a swap rate for swap transactions in the specified currency with a designated maturity which appears on a particular screen page on or around the date when interest is calculated; or*
- (c) *the most recently published Bank of England rate for short-term deposits which is published by Reuters on the relevant screen page on the relevant interest determination date.*

The relevant floating rate is determined on a fixed date in relation to an interest calculation period and is fixed for the duration of that period. This rate determines how much interest is paid on the interest payment date at the end of that interest calculation period. The floating rate is then recalculated in the same manner for the next interest calculation period.

This floating rate is added to a Margin (which, if applicable, will be a percentage specified in the Final Terms) to provide the applicable 'rate of interest'. For example, if the Margin is 1% and the floating rate for a particular interest calculation period is 5%, the rate of interest will be 6%.

This resulting rate of interest may be subject to a maximum or minimum rate of interest, if specified in the Final Terms.

Interest calculation:

On each interest payment date, you will receive an interest amount calculated by:

- (a) adding any specified Margin to the floating rate for the particular interest calculation period (determined as above), which will be subject to any specified maximum or minimum rate of interest; and then
- (b) multiplying the result of (a) above by the Calculation Amount and then by the applicable day count fraction.

The day count fraction represents the number of days in the relevant interest calculation period. For example, if the interest calculation period contains 181 days and the day count fraction 'rule' is Actual/365 (Fixed), the day count fraction will be calculated as 181/365.

WORKED EXAMPLE

Assumptions:

- **the floating rate is six-month GBP LIBOR displayed on the corresponding page of the Reuters Screen Page;**
- **the margin (used to upsize or downsize the floating rate) is plus 1.00%;**
- **the rate of interest is subject to a minimum rate of 0% and a maximum rate of 7% per annum;**
- **the day count fraction is 'Actual/365 (Fixed)', being the actual number of calendar days in the interest calculation period, divided by 365 days; and**
- **the actual number of calendar days in the interest calculation period is 181.**

Interest amount payable:

- (a) **if the floating rate for a given interest calculation period is set at 2.6% per annum:**

The interest amount payable on the interest payment date will be equal to GBP 17.85 (rounded to

two decimal places).

This figure is calculated as $\text{GBP } 1,000 \times \text{rate of interest of } 3.6\% \times \text{day count fraction of } 181/365$ (i.e. $\text{GBP } 1,000 \times 3.6\% \times 181/365 = \text{GBP } 17.85$). The rate of interest (3.6%) is calculated as the floating rate of 2.6% + Margin of 1.00%. It is not affected by the minimum or maximum rate of interest; **OR**

(b) **if the floating rate for a given interest calculation period is set at 6.5% per annum:**

The interest amount payable on the interest payment date will be equal to GBP 34.71 (rounded to two decimal places).

This figure is calculated as $\text{GBP } 1,000 \times \text{rate of interest } 7\% \times \text{day count fraction of } 181/365$ (i.e. $\text{GBP } 1,000 \times 7\% \times 181/365 = \text{GBP } 34.71$). The maximum rate of interest (7%) is used because the sum of the floating rate (6.5%) and the Margin (being 1%) is 7.5%, which is greater than the maximum rate of interest of 7%. In this scenario the rate of interest is capped at 7%.

Digital (Bullish with dual barrier and memory feature)

Digital (Bullish with dual barrier and memory feature) interest products only pay a specified fixed rate of interest if the underlying asset performs in a particular way.

The official closing price or level of the underlying asset(s) is considered on multiple 'interest valuation dates', which are a given set of dates that will be specified in the Final Terms.

There are three potential scenarios on each Interest Payment Date:

Scenario one: Interest is payable if (a) the official closing price or level of the underlying asset(s) on the relevant interest valuation date is at or above the applicable interest barrier(2) (being the product of the initial price of the underlying asset(s) multiplied by the interest barrier percentage(2) specified in the Final Terms) and (b) the official closing price or level of the underlying asset(s) on the relevant interest valuation date is at or above the applicable interest barrier(1) (being the product of the initial price of such underlying asset(s) multiplied by the interest barrier percentage(1) specified in the Final Terms). If this occurs, the amount of interest you will receive is calculated by adding (i) (A) the product of the fixed interest rate(1) multiplied by (B) the Calculation Amount to the product of (ii) (A) the fixed interest rate(1) multiplied by (B) Y(1) and multiplied by (C) the Calculation Amount PLUS the sum of (i) (A) the product of the fixed interest rate(2) multiplied by (B) the Calculation Amount to the product of (ii) (A) the fixed interest rate(2) multiplied by (B) Y(2) and further multiplied by (C) the Calculation Amount. You will receive this amount on the interest payment date corresponding to the interest valuation date when the threshold test is satisfied.

Scenario two: Interest is payable if the official closing price or level of the underlying asset(s) on the relevant interest valuation date is at or above the applicable interest barrier(1) (being the product of the initial price of such underlying asset(s) multiplied by the interest barrier percentage(1) specified in the Final Terms) but is less than the applicable interest barrier(2) (being the product of the initial price of such underlying asset(s) multiplied by the interest barrier percentage(2) specified in the Final Terms). If this occurs, the amount of interest you will receive is calculated by adding (i) (A) the product of the fixed interest rate(1) multiplied by (B) the Calculation Amount to the product of (ii) (A) the fixed interest rate(1) multiplied by (B) Y(1) and further multiplied by (C) the Calculation Amount. You will receive this amount on the interest payment date corresponding to the interest valuation date when the threshold test is satisfied.

*Scenario three: If the official closing price or level of the underlying asset(s) on the relevant interest valuation date is less than the applicable interest barrier(1) (being the product of the initial price of such underlying asset(s) multiplied by the interest barrier percentage(1) as specified in the Final Terms) and the applicable interest barrier(2) (being the product of the initial price of such underlying asset(s) multiplied by the interest barrier percentage(2) specified in the Final Terms), **then you will receive no interest payment on the relevant interest payment date.***

WORKED EXAMPLES

Assumptions:

- the scheduled term (or 'life') of the Securities is three years;
- there is only one underlying asset and the initial price of the underlying asset is GBP 10;
- the interest barrier(1) is 70% of the initial price of the underlying asset (i.e. GBP 7);
- the interest barrier(2) is 100% of the initial price of the underlying asset (i.e. GBP 10);
- there is one interest valuation date in each year, falling immediately prior to the corresponding interest payment date;
- the fixed interest rate(1) is 3% (per interest calculation period);
- the fixed interest rate(2) is 2% (per interest calculation period);
- there is one interest payment date in each; and
- the Calculation Amount is GBP100

Interest amount payable:

First interest payment date:

- **underlying asset performance assumption**: the official closing price or level of the underlying asset on the interest valuation date corresponding to the first interest payment date is 65% of the initial price of the underlying asset (i.e. GBP 6.50)
- **interest payout**: the official closing price or level of the underlying asset is below interest barrier(1) and interest barrier(2). Therefore, no interest would be payable on the first interest payment date.

Second interest payment date:

- **underlying asset performance assumption**: the official closing price or level of the underlying asset on the interest valuation date corresponding to the first interest payment date is 80% of the initial price of the underlying asset (i.e. GBP 8).
- **interest payout**: the official closing price or level of the underlying asset is above interest barrier(1) but below interest barrier(2). Therefore, interest is payable on the second interest payment date, and the amount payable equals GBP 6. This figure is calculated as the *sum* of (A) fixed interest rate(1) of 3% *multiplied by* the Calculation Amount of GBP 100 and (B) 1 (being the number of previous interest valuation dates under which no interest was payable as a result of the official closing price or level of the underlying asset(s) falling below interest barrier(1)) *multiplied by* the fixed interest rate(1) of 3% and *further multiplied by* the Calculation Amount of GBP 100.

Third (and final) interest payment date:

- **underlying asset performance assumption**: the official closing price or level of the underlying asset on the interest valuation date corresponding to the first interest payment date is 110% of the initial price of the underlying asset (i.e. GBP 11).
- **interest payout**: the official closing price or level of the underlying asset is above both interest barrier(1) and interest barrier(2). Therefore, interest is payable on the second interest payment date, and the amount payable equals GBP 9. This figure is calculated as the *sum* of (A) fixed interest rate(1) of 3% *multiplied by* the Calculation Amount of GBP 100, (B) zero (being the number of previous interest valuation dates under which no interest was payable as a result of the official closing price or level of the underlying asset(s) falling below interest barrier(1)), (C) fixed interest rate(2) of 2% *multiplied by* the Calculation Amount of GBP 100 and (D) 2 (being the number of previous interest valuation dates under which no interest was payable as a result of reaching interest barrier(2)) *multiplied by* the fixed interest rate(2) of 2% and *further multiplied by* the Calculation Amount of GBP 100.

Definitions

"Y(1)" means the number of previous interest valuation dates in respect of which no interest was payable as a result of the official closing price or level of the underlying asset being above the interest barrier(1).

"Y(2)" means the number of previous interest valuation dates in respect of which no interest was payable as a result of the official closing price or level of the underlying asset being above the interest barrier(2) on the relevant interest valuation date.

IF THE OFFICIAL CLOSING PRICE OR LEVEL OF THE UNDERLYING ASSET IS BELOW THE RELEVANT INTEREST BARRIER ON AN INTEREST VALUATION DATE, NO INTEREST WILL BE PAID IN RESPECT OF THAT INTEREST CALCULATION PERIOD. IF THE OFFICIAL CLOSING PRICE OR LEVEL OF THE UNDERLYING ASSET IS BELOW THE RELEVANT INTEREST BARRIER ON EACH INTEREST VALUATION DATE, NO INTEREST WILL BE PAID DURING THE LIFE OF THE SECURITIES.

IF THE FINAL TERMS SPECIFIES THE 'UNDERLYING PERFORMANCE TYPE' TO BE 'WORST-OF': THE OFFICIAL CLOSING PRICE OR LEVEL OF EACH UNDERLYING ASSET MUST BE AT OR ABOVE ITS INTEREST BARRIER ON THE RELEVANT INTEREST VALUATION DATE IN ORDER FOR INTEREST TO BE PAYABLE.

Snowball interest

Interest calculation:

Snowball interest products pay a specified fixed rate of interest if the underlying asset(s) perform in a particular way.

Interest is payable if the closing price or level of the underlying asset(s) on the date on which interest is calculated (the 'interest valuation date') is/are at or above the corresponding interest threshold(s) (each threshold, an 'interest barrier').

If this occurs, the amount of interest you will receive is calculated by:

- (1) *multiplying the fixed interest rate by the Calculation Amount; and then*
- (2) *multiplying the result of step (1) by the number corresponding to the interest valuation date on which the threshold test is satisfied (which will be specified in the Final Terms).*

You will receive this amount on the interest payment date corresponding to the interest valuation date when the threshold test is satisfied.

Impact of an Automatic Redemption (Autocall) Event:

An interest barrier will always be the same as the corresponding 'autocall barrier', which is a threshold price or level that determines whether or not the Securities will be automatically redeemed early (an Automatic Redemption (Autocall) Event). If an Automatic Redemption (Autocall) Event occurs, each Security will be redeemed at an amount equal to the Calculation Amount.

This means that, if the interest becomes payable, the Securities will be automatically redeemed at the same time as the relevant interest amount is paid to you.

WORKED EXAMPLE

Assumptions:

- the scheduled term (or 'life') of the Securities is two years;
- there is only one underlying asset and the initial price of the underlying asset is GBP 10;
- the interest barrier in respect of each interest valuation date is 110% of the initial price of the underlying asset (i.e. GBP 11);
- the fixed interest rate is 6% (per interest calculation period);
- there is one interest valuation date and one interest payment date in each year; and
- the 'number' corresponding to the first interest valuation date is 1 and the 'number' corresponding to the second interest valuation date is 2.

Interest amount payable:

(a) First interest payment date (in year 1):

- (i) if the closing price or level of the underlying asset is at or above the interest barrier (i.e. GBP 11) on the first interest valuation date, the interest amount payable on the first interest payment date will be GBP 60.

This figure is calculated as 1 (i.e. the number corresponding to the first interest valuation date) × the fixed interest rate of 6% × the Calculation Amount of GBP 1,000. As the interest barrier is always equal to the autocall barrier, this means that each Security will redeem at the same time as interest is paid and no further interest will be paid in respect of the Securities; **OR**

- (ii) if the closing price or level of the underlying asset is below the interest barrier (i.e. GBP 11) on the first interest valuation date, no interest will be paid on the first interest payment date and the Securities will not be redeemed early.

(b) **Second (and final) interest payment date (in year 2) assuming that no interest was paid on the first interest payment date (as described in (a)(ii) above):**

- (i) if the closing price or level of the underlying asset is at or above the interest barrier (i.e. GBP 11) on the second interest valuation date, the interest amount payable on the second interest payment date will be GBP 120. This figure is calculated as 2 (i.e. the number corresponding to the second interest valuation date) \times the fixed interest rate of 6% \times the Calculation Amount of GBP 1,000; **OR**
- (ii) if the closing price or level of the underlying asset is below the interest barrier (i.e. GBP 11) on the second interest valuation date, no interest will be paid on the second interest payment date.

IF THE CLOSING PRICE OR LEVEL OF THE UNDERLYING ASSET IS BELOW THE CORRESPONDING INTEREST BARRIER ON AN INTEREST VALUATION DATE, NO INTEREST WILL BE PAID IN RESPECT OF THAT INTEREST CALCULATION PERIOD. IF THE CLOSING PRICE OR LEVEL OF THE UNDERLYING ASSET IS BELOW THE CORRESPONDING INTEREST BARRIER ON EACH INTEREST VALUATION DATE, NO INTEREST WILL BE PAID DURING THE LIFE OF THE SECURITIES.

IF THE FINAL TERMS SPECIFIES THE 'UNDERLYING PERFORMANCE TYPE' TO BE 'WORST-OF': THE CLOSING PRICE OR LEVEL OF EVERY UNDERLYING ASSET MUST BE AT OR ABOVE ITS CORRESPONDING INTEREST BARRIER ON THE RELEVANT INTEREST VALUATION DATE IN ORDER FOR INTEREST TO BE PAYABLE.

Phoenix without memory interest

Interest calculation:

Phoenix without memory interest products pay a specified fixed rate of interest if the underlying asset(s) perform in a particular way.

Interest is payable if the closing price or level of the underlying asset(s) on the date on which interest is calculated (the 'interest valuation date') is/are at or above the corresponding interest threshold(s) (each threshold, an 'interest barrier').

If this occurs, the amount of interest that you will receive in respect of that interest valuation date is calculated by multiplying the fixed interest rate by the Calculation Amount.

You will receive this amount either: (a) on a specific interest payment date set out in the Final Terms; or (b) if the Interest Payment Date is specified to be 'Actual Redemption Date' in the Final Terms, on the date on which the Securities are redeemed.

Impact of an Automatic Redemption (Autocall) Event:

If the securities are automatically redeemed early (i.e. an Automatic Redemption (Autocall) Event occurs), no further interest will be paid after the date on which the securities are redeemed.

WORKED EXAMPLE

Assumptions:

- the scheduled term (or 'life') of the Securities is two years;
- there is only one underlying asset and the initial price of the underlying asset is GBP 10;
- the interest barrier in respect of each interest valuation date is 90% of the initial price of the underlying asset (i.e. GBP 9);
- the fixed interest rate is 6% (per interest calculation period); and
- there is one interest valuation date and one interest payment date in each year (and the interest payment date is not specified to be 'Actual Redemption Date').

Interest amount payable:

(a) First interest payment date (in year 1):

- (i) if the closing price or level of the underlying asset is at or above the interest barrier (i.e. GBP 9) on the first interest valuation date, the interest amount payable on the first interest payment date will be GBP 60.

This figure is calculated as the fixed interest rate of 6% × the Calculation Amount of GBP 1,000; **OR**

- (ii) if the closing price or level of the underlying asset is below the interest barrier (i.e. GBP 9) on the first interest valuation date, no interest will be paid on the first interest payment date.

(b) Second (and final) interest payment date (in year 2):

- (i) if the closing price or level of the underlying asset is at or above the interest barrier (i.e. GBP 9) on the second interest valuation date, the interest amount payable on the second interest payment date will be GBP 60. This figure is calculated as the fixed interest rate of 6% × the Calculation Amount of GBP 1,000; **OR**

- (ii) if the closing price or level of the underlying asset is below the interest barrier (i.e. GBP 9) on the second interest valuation date, no interest will be paid on the second interest payment date.

IF THE CLOSING PRICE OR LEVEL OF THE UNDERLYING ASSET IS BELOW THE CORRESPONDING INTEREST BARRIER ON AN INTEREST VALUATION DATE, NO INTEREST WILL BE PAID IN RESPECT OF THAT INTEREST CALCULATION PERIOD. IF THE CLOSING PRICE OR LEVEL OF THE UNDERLYING ASSET IS BELOW THE CORRESPONDING INTEREST BARRIER ON EACH INTEREST VALUATION DATE, NO INTEREST WILL BE PAID DURING THE LIFE OF THE SECURITIES.

IF THE FINAL TERMS SPECIFIES 'UNDERLYING PERFORMANCE TYPE' TO BE 'WORST-OF': THE CLOSING PRICE OR LEVEL OF EVERY UNDERLYING ASSET MUST BE AT OR ABOVE ITS CORRESPONDING INTEREST BARRIER ON THE RELEVANT INTEREST VALUATION DATE IN ORDER FOR INTEREST TO BE PAYABLE.

Phoenix with memory interest

Interest calculation:

Phoenix with memory interest products pay a specified fixed rate of interest if the underlying asset(s) perform in a particular way.

Interest is payable if the closing price or level of the underlying asset(s) on the date on which interest is calculated (the 'interest valuation date') is/are at or above the corresponding interest threshold(s) (each threshold, an 'interest barrier').

If this occurs, the amount of interest that you will receive in respect of that interest valuation date is calculated by adding the sum of (1) and (2) below:

- (1) *the fixed interest rate multiplied by the Calculation Amount; and*
- (2) *the number of previous interest valuation dates in respect of which no interest was payable (since the last time interest was payable) multiplied by the fixed interest rate and then multiplied by the Calculation Amount.*

You will receive this amount either: (a) on a specific interest payment date set out in the Final Terms; or (b) if the Interest Payment Date is specified to be 'Actual Redemption Date' in the Final Terms, on the date on which the Securities are redeemed.

Impact of an Automatic Redemption (Autocall) Event:

If the securities are automatically redeemed early, i.e. an Automatic Redemption (Autocall) Event occurs, no further interest will be paid after the date on which the securities are redeemed.

WORKED EXAMPLE

Assumptions:

- the scheduled term (or 'life') of the Securities is two years;
- there is only one underlying asset and the initial price of the underlying asset is GBP 10;
- the interest barrier in respect of each interest valuation date is 90% of the initial price of the underlying asset (i.e. GBP 9);
- the fixed interest rate is 6% (per interest calculation period); and
- there is one interest valuation date and one interest payment date in each year (and the interest payment date is not specified to be 'Actual Redemption Date').

Interest amount payable:

(a) First interest valuation date (in year 1):

- (i) if the closing price or level of the underlying asset is at or above the interest barrier (i.e. GBP 9) on the first interest valuation date, the interest amount payable on the first interest payment date will be GBP 60.

This figure is calculated as:

- the fixed interest rate of 6% × the Calculation Amount of GBP 1,000, PLUS
- 0 (i.e. the number of previous interest valuation dates in respect of which no interest was payable) × the fixed interest rate of 6% × the Calculation Amount of GBP 1,000.

OR

- (ii) if the closing price or level of the underlying asset is below the interest barrier (i.e. GBP 9) on the first interest valuation date, no interest will be paid on the first interest payment date.

(b) **Second (and final) interest valuation date (in year 2), assuming that no interest was paid on the first interest payment date (as described in (a)(ii) above):**

- (i) if the closing price or level of the underlying asset is at or above the interest barrier (i.e. GBP 9) on the second interest valuation date, the interest amount payable on the second interest payment date will be GBP 120.

This figure is calculated as:

- the fixed interest rate of $6\% \times$ the Calculation Amount of GBP 1,000, PLUS
- 1 (i.e. the number of previous interest valuation dates in respect of which no interest was payable) \times the fixed interest rate of $6\% \times$ the Calculation Amount of GBP 1,000.

OR

- (ii) if the closing price or level of the underlying asset is below the interest barrier (i.e. GBP 9) on the second interest valuation date, no interest will be paid on the second interest payment date.

IF THE CLOSING PRICE OR LEVEL OF THE UNDERLYING ASSET IS BELOW THE CORRESPONDING INTEREST BARRIER ON AN INTEREST VALUATION DATE, NO INTEREST WILL BE PAID IN RESPECT OF THAT INTEREST CALCULATION PERIOD. IF THE CLOSING PRICE OR LEVEL OF THE UNDERLYING ASSET IS BELOW THE CORRESPONDING INTEREST BARRIER ON EACH INTEREST VALUATION DATE, NO INTEREST WILL BE PAID DURING THE LIFE OF THE SECURITIES.

IF THE FINAL TERMS SPECIFIES THE 'UNDERLYING PERFORMANCE TYPE' TO BE 'WORST-OF': THE CLOSING PRICE OR LEVEL OF EVERY UNDERLYING ASSET MUST BE AT OR ABOVE ITS CORRESPONDING INTEREST BARRIER ON AT LEAST ONE INTEREST VALUATION DATE IN ORDER FOR INTEREST TO BE PAYABLE.

Phoenix One Touch – Daily without memory interest

Interest calculation:

Phoenix One Touch – Daily without memory interest products pay a specified fixed rate of interest if the underlying asset(s) perform in a particular way.

The performance of the underlying asset(s) is considered on multiple 'observation dates', which are simply a given set of dates that will be specified in the Final Terms.

Interest is payable if the closing price or level of the underlying asset(s) on at least one observation date during a particular period of time (an 'observation period') is/are at or above the corresponding interest threshold(s) (each threshold, an 'interest barrier').

If this occurs, the amount of interest you will receive is calculated by multiplying the fixed interest rate by the Calculation Amount. You will receive this amount on the interest payment date corresponding to the observation period when the threshold test is satisfied.

Impact of an Automatic Redemption (Autocall) Event:

If the securities are automatically redeemed early (i.e. an Automatic Redemption (Autocall) Event occurs), no further interest will be paid after the date on which the securities are redeemed.

WORKED EXAMPLE

Assumptions:

- the scheduled term (or 'life') of the Securities is two years;
- there is only one underlying asset and the initial price of the underlying asset is GBP 10;
- the interest barrier in respect of each interest valuation date is 110% of the initial price of the underlying asset (i.e. GBP 11);
- there is one interest observation period in each year (each of which lasts for a full year) and every scheduled trading day in an observation period is an observation date;
- the fixed interest rate is 6% (per interest calculation period); and
- there is one interest payment date in each year.

Interest amount payable:

(a) First interest payment date (in year 1):

- (i) if the closing price or level of the underlying asset is at or above the interest barrier (i.e. GBP 11) on any one or more observation dates during the first interest observation period, the interest amount payable on the first interest payment date will be GBP 60. This figure is calculated as the fixed interest rate of 6% × the Calculation Amount of GBP 1,000; OR
- (ii) if the closing price or level of the underlying asset is below the interest barrier (i.e. GBP 11) on every observation date during the first interest observation period, no interest will be paid on the first interest payment date.

(b) Second (and final) interest payment date (in year 2):

IF THE CLOSING PRICE OR LEVEL OF THE UNDERLYING ASSET IS BELOW THE CORRESPONDING INTEREST BARRIER ON EVERY OBSERVATION DATE DURING THE RELEVANT INTEREST OBSERVATION PERIOD, NO INTEREST WILL BE PAID IN RESPECT OF THAT INTEREST OBSERVATION PERIOD. IF THE CLOSING PRICE OR LEVEL OF THE UNDERLYING ASSET IS BELOW THE CORRESPONDING INTEREST BARRIER ON EVERY OBSERVATION DATE DURING EACH INTEREST OBSERVATION PERIOD, NO INTEREST WILL BE PAID DURING THE LIFE OF THE SECURITIES.

- (ii) if the market price or level of the underlying asset does drop below the interest barrier (i.e. GBP 9) at any time on any scheduled trading day during the first interest observation period, no interest will be paid on the first interest payment date.

(b) **Second (and final) interest payment date (in year 2), assuming that no interest was paid on the first interest payment date (as described in (a)(ii) above):**

- (i) if the closing price or level of the underlying asset does not drop below the interest barrier (i.e. GBP 9) at any time on any scheduled trading day during the second interest observation period, the interest amount payable on the second interest payment date will be GBP 120.

This figure is calculated as:

- the fixed interest rate of 6% × the Calculation Amount of GBP 1,000, PLUS
- 1 (i.e. the number of previous interest valuation dates in respect of which no interest was payable) × the fixed interest rate of 6% × the Calculation Amount of GBP 1,000.

OR

- (ii) if the market price or level of the underlying asset does drop below the interest barrier (i.e. GBP 9) at any time on any scheduled trading day during the second interest observation period, no interest will be paid on the second interest payment date.

IF THE MARKET PRICE OR LEVEL OF THE UNDERLYING ASSET IS BELOW THE CORRESPONDING INTEREST BARRIER AT ANY TIME ON ANY SCHEDULED TRADING DAY DURING THE RELEVANT INTEREST OBSERVATION PERIOD, NO INTEREST WILL BE PAID IN RESPECT OF THAT INTEREST OBSERVATION PERIOD. IF THE MARKET PRICE OR LEVEL OF THE UNDERLYING ASSET DROPS BELOW THE CORRESPONDING INTEREST BARRIER DURING EACH INTEREST OBSERVATION PERIOD, NO INTEREST WILL BE PAID DURING THE LIFE OF THE SECURITIES.

IF THE FINAL TERMS SPECIFIES THE 'UNDERLYING PERFORMANCE TYPE' TO BE 'WORST-OF' AND THE MARKET PRICE OR LEVEL OF ANY UNDERLYING ASSET DROPS BELOW ITS CORRESPONDING INTEREST BARRIER AT ANY TIME ON ANY SCHEDULED TRADING DAY DURING THE RELEVANT INTEREST OBSERVATION PERIOD, NO INTEREST WILL BE PAYABLE.

Range accrual interest

Interest calculation:

Range accrual interest products pay a specified fixed rate of interest if the underlying asset(s) perform in a particular way.

The performance of the underlying asset(s) is considered on multiple 'observation dates', which are simply a given set of dates that will be specified in the Final Terms.

Interest is payable depending on the number of specific dates during a particular period of time (an 'observation period') that the closing price or level of the underlying asset(s) is/are:

- (a) at or above the corresponding lower interest threshold(s) (each, a 'lower barrier'); and*
- (b) if 'upper barrier' is applicable, at or below the corresponding upper interest threshold(s) (each, an 'upper barrier').*

The amount of interest you will receive (if any) is calculated by:

- (1) adding up the number of observation dates during the relevant observation period that the closing price or level of the underlying asset(s) is/are at or above the corresponding lower barrier(s) and (if 'upper barrier' is applicable) at or below the corresponding upper barrier(s); and then*
- (2) dividing the result of (1) by the total number of observation dates in the observation period; and then*
- (3) multiplying the result of (2) by the fixed interest rate and then multiplying by the Calculation Amount.*

You will receive this amount on the interest payment date corresponding to the relevant observation period.

Impact of an Automatic Redemption (Autocall) Event:

If the securities are automatically redeemed early (i.e. an Automatic Redemption (Autocall) Event occurs), no further interest will be paid after the date on which the securities are redeemed.

WORKED EXAMPLE

Assumptions:

- the scheduled term (or 'life') of the Securities is one year;
- there is only one underlying asset and the initial price of the underlying asset is GBP 10;
- the lower barrier is 90% of the initial price of the underlying asset (i.e. GBP 9);
- Upper Barrier is applicable and the upper barrier is 110% of the initial price of the underlying asset (i.e. GBP 11);
- the fixed interest rate is 6% (per interest calculation period);
- there is only one interest observation period, which includes 250 observation dates; and
- there is one interest payment date.

Interest amount payable:

- (i) if, on none of the observation dates during the interest observation period, the closing price or level of the underlying asset is both (A) greater than or equal to the lower barrier (i.e. GBP 9) and (B) less than or equal to the upper barrier (i.e. GBP 11), the interest amount payable on the interest payment date will be zero.*

*This is calculated as $0/250 \times$ fixed interest rate of 6% \times the Calculation Amount of GBP 1,000; **OR***

- (ii) if, on 50 of the observation dates during the interest observation period, the closing price or level of the underlying asset is both (A) greater than or equal to the lower barrier (i.e. GBP 9) and (B) less than or equal to the upper barrier (i.e. GBP 11), the interest amount payable on the interest payment date will be GBP 12.

This is calculated as $50/250 \times \text{fixed interest rate of } 6\% \times \text{the Calculation Amount of GBP } 1,000$; **OR**

- (iii) if, on 125 of the observation dates during the interest observation period, the closing price or level of the underlying asset is both (A) greater than or equal to the lower barrier (i.e. GBP 9) and (B) less than or equal to the upper barrier (i.e. GBP 11), the interest amount payable on the interest payment date will be GBP 30.

This is calculated as $125/250 \times \text{fixed interest rate of } 6\% \times \text{the Calculation Amount of GBP } 1,000$; **OR**

- (iv) if, on 200 of the observation dates during the interest observation period, the closing price or level of the underlying asset is both (A) greater than or equal to the lower barrier (i.e. GBP 9) and (B) less than or equal to the upper barrier (i.e. GBP 11), the interest amount payable on the interest payment date will be GBP 48.

This is calculated as $200/250 \times \text{fixed interest rate of } 6\% \times \text{the Calculation Amount of GBP } 1,000$.

IF THE CLOSING PRICE OR LEVEL OF THE UNDERLYING ASSET IS BELOW THE CORRESPONDING LOWER BARRIER (OR, IF APPLICABLE, ABOVE THE CORRESPONDING UPPER BARRIER) ON EVERY OBSERVATION DATE DURING THE RELEVANT INTEREST OBSERVATION PERIOD, NO INTEREST WILL BE PAID IN RESPECT OF THAT INTEREST OBSERVATION PERIOD. IF THE CLOSING PRICE OR LEVEL OF THE UNDERLYING ASSET IS BELOW THE CORRESPONDING LOWER BARRIER (OR, IF APPLICABLE, ABOVE THE CORRESPONDING UPPER BARRIER) ON EVERY OBSERVATION DATE DURING EACH INTEREST OBSERVATION PERIOD, NO INTEREST WILL BE PAID DURING THE LIFE OF THE SECURITIES.

IF THE FINAL TERMS SPECIFIES THE 'UNDERLYING PERFORMANCE TYPE' TO BE 'WORST-OF': THE MARKET PRICE OR LEVEL OF EVERY UNDERLYING ASSET MUST BE AT OR ABOVE ITS CORRESPONDING LOWER BARRIER (AND, IF APPLICABLE, AT OR BELOW ITS CORRESPONDING UPPER BARRIER) ON AN OBSERVATION DATE IN ORDER FOR INTEREST TO BE PAYABLE IN RESPECT OF THAT DATE.

Knock-out interest

Interest calculation:

Knock-out interest products pay a specified fixed rate of interest if the underlying asset(s) perform in a particular way.

The performance of the underlying asset(s) is considered on multiple 'interest valuation dates', which are simply a given set of dates that will be specified in the Final Terms.

Interest is payable if the closing price or level of any underlying asset on every scheduled trading day from (but excluding) the initial valuation date specified in the Final Terms to (and including) such interest valuation date is never below its knock-out barrier. A scheduled trading day is a day on which the exchange(s) on which an underlying asset is quoted or traded is/are scheduled to be open for trading.

If this occurs, the amount of interest you will receive is calculated by multiplying the fixed interest rate by the Calculation Amount. You will receive this amount on the interest payment date corresponding to the interest valuation date when the threshold test is satisfied.

Impact of an Automatic Redemption (Autocall) Event:

If the securities are automatically redeemed early (i.e. an Automatic Redemption (Autocall) Event occurs), no further interest will be paid after the date on which the securities are redeemed.

WORKED EXAMPLE

Assumptions:

- the scheduled term (or 'life') of the Securities is two years;
- there is only one underlying asset and the initial price of the underlying asset is GBP 10;
- the knock-out barrier is 80% of the initial price of the underlying asset (i.e. GBP 8);
- there is one interest valuation date in each year;
- the fixed interest rate is 6% (per interest calculation period); and
- there is one interest payment date in each year.

Interest amount payable:

(a) First interest payment date (in year 1):

- (i) if the closing price or level of the underlying asset is never below the knock-out barrier (i.e. GBP 8) on every scheduled trading day from (but excluding) the initial valuation date to (and including) the first interest valuation date, the interest amount payable on the first interest payment date will be GBP 60. This figure is calculated as the fixed interest rate of 6% × the Calculation Amount of GBP 1,000; **OR**
- (ii) if the closing price or level of the underlying asset is below the knock-out barrier (i.e. GBP 8) on any scheduled trading day from (but excluding) the initial valuation date to (and including) the first interest valuation date, no interest will be paid on the first interest payment date. In such circumstances, the Securities will not pay interest on any future interest payment dates as the 'observation period' in relation to each interest valuation date always runs from the initial valuation date of the Securities. Thus, once this test is failed, it will be failed for all future interest valuation dates.

(b) Second (and final) interest payment date (in year 2):

- (i) if the closing price or level of the underlying asset is never below the knock-out barrier (i.e. GBP 8) on every scheduled trading day from (but excluding) the initial valuation date to (and including) the second interest valuation date, the interest amount payable on the second interest payment date will be GBP 60. This figure is calculated as the fixed interest rate of 6% × the Calculation Amount of GBP 1,000; **OR**

- (ii) if the closing price or level of the underlying asset is below the knock-out barrier (i.e. GBP 8) on any scheduled trading day from (but excluding) the initial valuation date to (and including) the second interest valuation date, no interest will be paid on the second interest payment date.

IF THE CLOSING PRICE OR LEVEL OF THE UNDERLYING ASSET IS BELOW THE CORRESPONDING KNOCK-OUT BARRIER ON ANY SCHEDULED TRADING DAY DURING THE PERIOD FROM (BUT EXCLUDING) THE INITIAL VALUATION DATE TO (AND INCLUDING) THE RELEVANT INTEREST VALUATION DATE, NO INTEREST WILL BE PAID IN RESPECT OF THAT INTEREST VALUATION DATE AND NO INTEREST WILL BE PAID IN RESPECT OF ANY FUTURE INTEREST VALUATION DATES.

IF THE FINAL TERMS SPECIFIES THE 'UNDERLYING PERFORMANCE TYPE' TO BE 'WORST-OF', THE CLOSING PRICE OR LEVEL OF EACH UNDERLYING ASSET MUST NEVER BE BELOW ITS KNOCK-OUT BARRIER ON EVERY SCHEDULED TRADING DAY DURING THE PERIOD FROM (BUT EXCLUDING) THE INITIAL VALUATION DATE TO (AND INCLUDING) THE RELEVANT INTEREST VALUATION DATE IN ORDER FOR INTEREST TO BE PAYABLE.

Automatic Redemption (Autocall) ('Autocall')

Securities may automatically redeem ('autocall') if the underlying asset(s) perform in a particular way.

Securities for which the Final Terms specifies 'Automatic Redemption (Autocall)' to be 'Applicable' will automatically redeem early if the closing price or level of the underlying asset(s) on a specified date (each, an 'autocall valuation date') is/are at or above the corresponding autocall threshold(s) (each threshold, an 'autocall barrier').

If this occurs, the Securities will automatically redeem early and you will receive a redemption amount equal to the Calculation Amount of the Security. You will receive this amount on the autocall redemption date corresponding to the autocall valuation date when the threshold test is satisfied.

WORKED EXAMPLE

Assumptions:

- the Securities are issued on 1 August 2014 and are scheduled to redeem on 1 August 2018;
- the first autocall valuation date is 3 August 2015 and the corresponding autocall redemption date is 5 August 2015;
- there is only one underlying asset;
- the initial price of the underlying asset is GBP 10; and
- the autocall barrier in respect of the first autocall valuation date is 110% of the initial price of the underlying asset (i.e. GBP 11).

Automatic Redemption (Autocall):

- (a) if the closing price or level of the underlying asset on 3 August 2015 is GBP 11 (or higher), your Security will automatically redeem and you will receive GBP 1,000 (i.e. the Calculation Amount of your Security) on 5 August 2015; **OR**
- (b) if the closing price or level of the underlying asset on 3 August 2015 is less than GBP 11, your Security will not automatically redeem at that time

(and this same test will be applied on each subsequent autocall valuation date up until the scheduled redemption date).

Vanilla Barrier redemption

Overview of Vanilla Barrier redemption:

The Securities may upon maturity either pay a redemption amount or (if applicable) involve the application of the cash amount otherwise payable by the Issuer to purchase and then deliver to you a fixed number of units of the underlying asset (an 'entitlement').

The final redemption amount or entitlement that you receive will depend on whether the final valuation price of the underlying asset is above or below certain threshold levels: the final barrier (if applicable) and/or the strike price.

The strike price and the final barrier (if applicable) are each calculated by taking a particular fixed percentage of the initial price of the underlying asset. For example, the strike price might be 100% of the initial price and the final barrier might be 90% of the initial price.

Therefore, whether or not the final valuation price of the underlying asset is at or above either (or both) of the final barrier (if applicable) and the strike price is an indication of how the underlying asset has performed over the life of the Securities.

Calculation of the final redemption amount or entitlement:

For Securities where the 'Vanilla Barrier Type' is 'Autocall', if the final valuation price of the underlying asset is at or above either: (1) the final barrier; or (2) the strike price, you will receive a cash amount equal to the Calculation Amount. You will receive this cash amount whether the settlement method is specified to be 'cash' or 'cash or physical'.

For Securities where the 'Vanilla Barrier Type' is 'Reverse Convertible', if the final valuation price of the underlying asset is at or above the strike price you will receive a cash amount equal to the Calculation Amount. You will receive this cash amount whether the settlement method is specified to be 'cash' or 'cash or physical'.

In all other cases:

- (1) if the settlement method is 'cash', you will receive a cash amount equal to the final valuation price divided by the strike price and multiplied by the Calculation Amount; or*
- (2) if the settlement method is 'cash or physical', the Issuer will apply the cash amount otherwise payable to you to purchase and deliver to you a whole number of units of the underlying asset plus a cash amount (in place of any fractional amount of the underlying asset).*

Accordingly, please note that 'cash or physical' does not mean that you have an option to select cash or physical settlement. Rather, it means that you will either receive a cash amount or a delivery of physical securities depending on how the underlying asset performs.

WORKED EXAMPLE

Assumptions:

- the 'Vanilla Barrier Type' is 'Autocall';
- there is one underlying asset and the initial price of the underlying asset is GBP 10;
- the strike price is 100% of the initial price (i.e. GBP 10);
- the final barrier is 90% of the initial price (i.e. GBP 9); and
- 'cash or physical' settlement is selected (rather than 'cash').

Final redemption amount payable:

- (a) If the final valuation price of the underlying asset is GBP 11:**

THEN: because the final valuation price is above the strike price and the final barrier, you will receive GBP 1,000 (i.e. the Calculation Amount).

OR

(b) **If the final valuation price of the underlying asset is GBP 9.50:**

THEN: because the final valuation price is above the final barrier (and even though it is below the strike price), you will receive GBP 1,000 (i.e. the Calculation Amount).

OR

(c) **If the final valuation price of the underlying asset is GBP 6:**

THEN: because the final valuation price is below both the strike price and the final barrier, you will receive 100 shares (which as at the final valuation date have a total market value of approximately GBP 600, being GBP 6 per share multiplied by 100). This number of shares is calculated as the Calculation Amount of GBP 1,000 divided by the strike price of GBP 10.

IF THE FINAL VALUATION PRICE OF THE UNDERLYING ASSET IS LESS THAN (A) BOTH THE STRIKE PRICE AND THE FINAL BARRIER, IN THE CASE WHERE THE 'VANILLA BARRIER TYPE' IS SPECIFIED TO BE 'AUTOCALL', OR (B) THE STRIKE PRICE, IN THE CASE WHERE THE 'VANILLA BARRIER TYPE' IS SPECIFIED TO BE 'REVERSE CONVERTIBLE', YOU WILL RECEIVE PHYSICAL DELIVERY OF SHARES WHOSE TOTAL MARKET VALUE MAY BE LESS THAN YOUR INVESTMENT AND COULD BE WORTHLESS.

IF THE FINAL TERMS SPECIFIES THE 'UNDERLYING PERFORMANCE TYPE' TO BE 'WORST-OF': THE INITIAL PRICE, STRIKE PRICE, FINAL VALUATION PRICE AND FINAL BARRIER (IF APPLICABLE) FOR THE WORST PERFORMING UNDERLYING ASSET WILL BE CONSIDERED FOR THE PURPOSES OF THE CALCULATIONS ABOVE. THIS MEANS THAT, IRRESPECTIVE OF HOW THE OTHER UNDERLYING ASSETS PERFORM, IF ANY ONE OR MORE UNDERLYING ASSETS DO NOT MEET THE THRESHOLD TESTS SET OUT ABOVE, YOU WILL RECEIVE PHYSICAL DELIVERY OF SHARES WHOSE TOTAL MARKET VALUE MAY BE LESS THAN YOUR INVESTMENT AND COULD BE WORTHLESS.

European Barrier redemption

Overview of European Barrier redemption:

The Securities may upon maturity either pay a redemption amount or (if applicable) involve the application of the cash amount otherwise payable by the Issuer to purchase and then deliver to you a fixed number of units of the underlying asset (an 'entitlement').

The final redemption amount or entitlement that you receive will depend on whether the final valuation price of the underlying asset is above or below a certain threshold level: the knock-in barrier price.

The knock-in barrier price is calculated by taking a particular fixed percentage of the initial price of the underlying asset. For example, the knock-in barrier price might be 90% of the initial price.

Therefore, whether or not the final valuation price of the underlying asset is at or above the knock-in barrier price is an indication of how the underlying asset has performed over the life of the Securities.

Calculation of the final redemption amount or entitlement:

If the final valuation price of the underlying asset is at or above the knock-in barrier price, you will receive a cash amount equal to the Calculation Amount. You will receive this cash amount whether the settlement method is specified to be 'cash' or 'cash or physical'.

In all other cases:

- (1) if the settlement method is 'cash', you will receive a cash amount equal to the final valuation price divided by the strike price and multiplied by the Calculation Amount; or*
- (2) if the settlement method is 'cash or physical', the Issuer will apply the cash amount otherwise payable to you to purchase and deliver to you a whole number of units of the underlying asset plus a cash amount (in place of any fractional amount of the underlying asset).*

Accordingly, please note that 'cash or physical' does not mean that you have an option to select cash or physical settlement. Rather, it means that you will either receive a cash amount or a delivery of physical securities depending on how the underlying asset performs.

WORKED EXAMPLE

Assumptions:

- there is only one underlying asset and the initial price of the underlying asset is GBP 10;
- the strike price is 100% of the initial price (i.e. GBP 10);
- the knock-in barrier price is 90% of the initial price (i.e. GBP 9); and
- 'cash' settlement is selected (rather than 'cash or physical').

Final redemption amount payable:

- (a) **If the final valuation price of the underlying asset is GBP 11:**

THEN: because the final valuation price is above the knock-in barrier price, you will receive GBP 1,000 (i.e. the Calculation Amount).

OR

- (b) **If the final valuation price of the underlying asset is GBP 6:**

THEN: because the final valuation price is below the knock-in barrier price, you will only receive GBP 600. This figure is calculated as the final valuation price of GBP 6 divided by the strike price of GBP 10 and multiplied by the Calculation Amount of GBP 1,000.

IF THE FINAL VALUATION PRICE OF THE UNDERLYING ASSET IS LESS THAN THE KNOCK-IN BARRIER PRICE, YOU WILL LOSE SOME OR ALL OF YOUR INVESTMENT. THE FINAL VALUATION PRICE OF THE UNDERLYING ASSET COULD BE ZERO, IN WHICH CASE YOU WOULD LOSE ALL OF YOUR INVESTMENT.

IF THE FINAL TERMS SPECIFIES THE 'UNDERLYING PERFORMANCE TYPE' TO BE 'WORST-OF': THE INITIAL PRICE, STRIKE PRICE, FINAL VALUATION PRICE AND KNOCK-IN BARRIER PRICE FOR THE WORST PERFORMING UNDERLYING ASSET WILL BE CONSIDERED FOR THE PURPOSES OF THE CALCULATIONS ABOVE. THIS MEANS THAT, IRRESPECTIVE OF HOW THE OTHER UNDERLYING ASSETS PERFORM, IF ANY ONE OR MORE UNDERLYING ASSETS DO NOT MEET THE THRESHOLD TESTS SET OUT ABOVE, YOU WILL LOSE SOME OR ALL OF YOUR INVESTMENT.

American Barrier redemption

Overview of American Barrier redemption:

The Securities may upon maturity either pay a redemption amount or (if applicable) involve the application of the cash amount otherwise payable by the Issuer to purchase and then deliver to you a fixed number of units of the underlying asset (an 'entitlement').

The final redemption amount or entitlement that you receive will depend on:

- (1) whether the final valuation price of the underlying asset is above or below certain threshold levels: the final barrier (if applicable) and/or the strike price; and/or*
- (2) whether the price or level of the underlying asset falls below a different threshold (the knock-in barrier price) on any trading day within a specific period of time (a 'trigger event'). The period of time runs from the 'knock-in barrier period start date' and ends on the 'knock-in barrier period end date', and these dates will be set out in the Final Terms.*

The strike price, the knock-in barrier price and the final barrier (if applicable) are each calculated by taking a particular fixed percentage of the initial price of the underlying asset. For example, the strike price might be 100% of the initial price, the final barrier might be 95% of the initial price and the knock-in barrier price might be 85% of the initial price.

Therefore, whether or not: (i) the final valuation price of the underlying asset is at or above either (or both) of the final barrier (if applicable) and the strike price; and (ii) a trigger event occurs (i.e. whether or not the price or level of the underlying asset falls below the knock-in barrier price on any relevant trading day) provides an indication of how the underlying asset has performed over the life of the Securities.

Calculation of the final redemption amount or entitlement:

For Securities where the American Barrier Type is 'Autocall', if: (a) the final valuation price of the underlying asset is at or above either: (1) the final barrier; or (2) the strike price; OR (b) a trigger event has not occurred (i.e. the price or level of the underlying asset has not fallen below the knock-in barrier price on any relevant trading day), you will receive a cash amount equal to the Calculation Amount. You will receive this cash amount whether the settlement method is specified to be 'cash' or 'cash or physical'.

For Securities where the American Barrier Type is 'Reverse Convertible', if: (a) the final valuation price of the underlying asset is at or above the strike price; OR (b) a trigger event has not occurred (i.e. the price or level of the underlying asset has not fallen below the knock-in barrier price on any relevant trading day), you will receive a cash amount equal to the Calculation Amount. You will receive this cash amount whether the settlement method is specified to be 'cash' or 'cash or physical'.

In all other cases:

- (1) if the settlement method is 'cash', you will receive a cash amount equal to the final valuation price divided by the strike price and multiplied by the Calculation Amount; or*
- (2) if the settlement method is 'cash or physical', the Issuer will apply the cash amount otherwise payable to you to purchase and deliver to you a whole number of units of the underlying asset plus a cash amount (in place of any fractional amount of the underlying asset).*

Accordingly, please note that 'cash or physical' does not mean that you have an option to select cash or physical settlement. Rather, it means that you will either receive a cash amount or a delivery of physical securities depending on how the underlying asset performs.

WORKED EXAMPLE

Assumptions:

- the American Barrier Type is 'Autocall';
- there is only one underlying asset and the initial price of the underlying asset is GBP 10;
- the strike price is 100% of the initial price (i.e. GBP 10);
- the final barrier is 95% of the initial price (i.e. GBP 9.50);
- the knock-in barrier price is 85% of the initial price (i.e. GBP 8.50);
- the knock-in barrier period start date is 1 August 2014 and the knock-in barrier period end date is 31 July 2015; and
- 'cash' settlement is selected (rather than 'cash or physical').

Final redemption amount payable:

- (a) **If the final valuation price of the underlying asset is GBP 11:**

THEN: because the final valuation price is above the final barrier and the strike price, you will receive GBP 1,000 (i.e. the Calculation Amount).

OR

- (b) **If the final valuation price of the underlying asset is GBP 9.80:**

THEN: because the final valuation price is above the final barrier (and even though it is below the strike price), you will receive GBP 1,000 (i.e. the Calculation Amount).

OR

- (c) **If the final valuation price of the underlying asset is GBP 9 and the price or level of the underlying asset has not fallen below GBP 8.50 on any trading day within the period from 1 August 2014 to 31 July 2015:**

THEN: because a trigger event has not occurred (and even though the final valuation price is below both the final barrier and the strike price), you will receive GBP 1,000 (i.e. the Calculation Amount).

OR

- (d) **If the final valuation price of the underlying asset is GBP 9 and the price or level of the underlying asset has fallen below GBP 8.50 on at least one trading day within the period from 1 August 2014 to 31 July 2015:**

THEN: because a trigger event has occurred (and the final valuation price is below the strike price and the final barrier), you will only receive GBP 900. This figure is calculated as the final valuation price of GBP 9 divided by the strike price of GBP 10 and multiplied by the Calculation Amount of GBP 1,000.

OR

- (e) **If the final valuation price of the underlying asset is GBP 6:**

THEN: because a trigger event has occurred (and the final valuation price is below the strike price and the final barrier), you will only receive GBP 600. This figure is calculated as the final valuation price of GBP 6 divided by the strike price of GBP 10 and multiplied by the Calculation Amount of GBP 1,000.

IF THE FINAL VALUATION PRICE OF THE UNDERLYING ASSET IS LESS THAN (A) BOTH THE STRIKE PRICE AND THE FINAL BARRIER, IN THE CASE WHERE THE 'AMERICAN BARRIER' TYPE IS SPECIFIED TO BE 'AUTOCALL', OR (B) THE STRIKE PRICE, IN THE CASE WHERE THE 'AMERICAN BARRIER TYPE' IS SPECIFIED TO BE 'REVERSE CONVERTIBLE', AND/OR A TRIGGER EVENT OCCURS, YOU WILL LOSE

SOME OR ALL OF YOUR INVESTMENT. THE FINAL VALUATION PRICE OF THE UNDERLYING ASSET COULD BE ZERO, IN WHICH CASE YOU WOULD LOSE ALL OF YOUR INVESTMENT.

IF THE FINAL TERMS SPECIFIES THE 'UNDERLYING PERFORMANCE TYPE' TO BE 'WORST-OF' THEN THE INITIAL PRICE, STRIKE PRICE, FINAL VALUATION PRICE, FINAL BARRIER (IF APPLICABLE) FOR THE WORST PERFORMING UNDERLYING ASSET AND THE KNOCK-IN BARRIER PRICE FOR ALL UNDERLYING ASSETS WILL BE CONSIDERED FOR THE PURPOSES OF THE CALCULATIONS ABOVE. THIS MEANS THAT, IRRESPECTIVE OF HOW THE OTHER UNDERLYING ASSETS PERFORM, IF ANY ONE OR MORE UNDERLYING ASSETS DO NOT MEET THE THRESHOLD TESTS SET OUT ABOVE (AND/OR IF A TRIGGER EVENT OCCURS IN RESPECT OF ANY ONE OR MORE UNDERLYING ASSETS), YOU WILL LOSE SOME OR ALL OF YOUR INVESTMENT.

Call redemption

Overview of Call redemption:

The Securities may upon maturity either pay a redemption amount or (if applicable) involve the application of the cash amount otherwise payable by the Issuer to purchase and then deliver to you a fixed number of units of the underlying asset (an 'entitlement').

The final redemption amount or entitlement that you receive will depend on:

- (1) whether the final valuation price of the underlying asset is above or below certain threshold levels: the strike price and the initial price of that underlying asset;*
- (2) whether or not the redemption amount is 'capped' at a maximum figure. This will be the case if the Final Terms specifies 'Cap' to be 'Applicable'; and*
- (3) the 'participation' specified in the Final Terms. A 'participation' is a percentage which determines your exposure to the performance of the underlying asset(s).*

The strike price is calculated by taking a particular fixed percentage of the initial price of the underlying asset. For example, the strike price might be 90% of the initial price.

Therefore, whether or not the final valuation price of the underlying asset is at or above either (or both) of the initial price and the strike price is an indication of how the underlying asset has performed over the life of the Securities.

Calculation of the final redemption amount or entitlement:

- (A) If the final valuation price of the underlying asset is at or above the initial price of the underlying asset, you will receive a cash amount equal to:*
 - (1) if the redemption amount is not capped: (a) the Calculation Amount PLUS (b) the Calculation Amount multiplied by the participation and then multiplied by the performance of the underlying asset; or*
 - (2) if the redemption amount is capped: (a) the Calculation Amount PLUS (b) the Calculation Amount multiplied by the LESSER of: (i) the participation multiplied by the performance of the underlying asset; and (ii) the Cap percentage, which will be specified in the Final Terms.*

In (1) and (2) above, the 'performance of the underlying asset' is calculated by dividing final valuation price by the initial price of the underlying asset, and then subtracting 1. For example, if the final valuation price is GBP 11 and the initial price is GBP 10, the performance of the underlying asset is

$$\frac{\text{GBP}11}{\text{GBP}10} - 1 = 0.1 \text{ (or 10\%)}$$

You will receive this cash amount whether the settlement method is specified to be 'cash' or 'cash or physical'.

- (B) If the final valuation price of the underlying asset is below the initial price of the underlying asset but at or above the strike price, you will receive a cash amount equal to the Calculation Amount. You will receive this cash amount whether the settlement method is specified to be 'cash' or 'cash or physical'.*
- (C) In all other cases:*
 - (1) if the settlement method is 'cash', you will receive a cash amount equal to the final valuation price divided by the strike price and multiplied by the Calculation Amount; or*

- (2) *if the settlement method is 'cash or physical', the Issuer will apply the cash amount otherwise payable to you to purchase and deliver to you a whole number of units of the underlying asset plus a cash amount (in place of any fractional amount of the underlying asset).*

Accordingly, please note that 'cash or physical' does not mean that you have an option to select cash or physical settlement. Rather, it means that you will either receive a cash amount or a delivery of physical securities depending on how the underlying asset performs.

WORKED EXAMPLE

Assumptions:

- there is only one underlying asset and the initial price of the underlying asset is GBP 20;
- the strike price is 80% of the initial price (i.e. GBP 16);
- the participation percentage is 140%;
- 'cap' is specified as applicable and the cap percentage is 30%; and
- 'cash or physical' settlement is selected (rather than 'cash').

Final redemption amount payable:

(a) **If the final valuation price of the underlying asset is GBP 25:**

THEN: because the final valuation price is above the initial price, limb (A) in the italicised summary above is applicable. It is necessary to make the following calculations:

- (i) The performance of the underlying asset is 25%. This figure is calculated as

$$\frac{\text{GBP 25 (i. e. the final valuation price)}}{\text{GBP 20 (i. e. the initial price)}} - 1 = 0.25 \text{ (or 25\%)}$$

- (ii) The participation (i.e. 140%) multiplied by the performance of the underlying asset (i.e. 25%) is equal to 35%. This percentage is greater than the cap percentage (i.e. 30%). Therefore, the 35% figure is disregarded and only the cap percentage (i.e. 30%) is considered.

Accordingly, in this scenario (a), you will receive GBP 1,300. This figure is calculated as the sum of:

- (1) GBP 1,000 (i.e. the Calculation Amount); and
- (2) GBP 300, which is calculated as GBP 1,000 (i.e. the Calculation Amount) multiplied by 30% (i.e. the cap percentage).

OR

(b) **If the final valuation price of the underlying asset is GBP 21:**

THEN: because the final valuation price is above the initial price, limb (A) in the italicised summary above is applicable. It is necessary to make the following calculations:

- (i) The performance of the underlying asset is 5%. This figure is calculated as

$$\frac{\text{GBP 21 (i. e. the final valuation price)}}{\text{GBP 20 (i. e. the initial price)}} - 1 = 0.05 \text{ (or 5\%)}$$

- (ii) The participation (i.e. 140%) multiplied by the performance of the underlying asset (i.e. 5%) is equal to 7%. This percentage is less than the cap percentage (i.e. 30%). Therefore, the 7% figure is relevant and the cap percentage (i.e. 30%) is disregarded.

Accordingly, in this scenario (b), you will receive GBP 1,070. This figure is calculated as the sum of:

- (1) GBP 1,000 (i.e. the Calculation Amount); and
- (2) GBP 70, which is calculated as GBP 1,000 (i.e. the Calculation Amount) multiplied by 7% (i.e. the participation multiplied by the performance of the underlying asset, as calculated above).

OR

- (c) **If the final valuation price of the underlying asset is GBP 17:**

THEN: because the final valuation price is below the initial price but above the strike price, you will receive GBP 1,000 (i.e. the Calculation Amount).

OR

- (d) **If the final valuation price of the underlying asset is GBP 6:**

THEN: because the final valuation price is below both the initial price and the strike price, you will receive 62 shares (which as at the final valuation date have a total market value of GBP 372, being GBP 6 per share multiplied by 62) and GBP 3 in cash. This figure is calculated as the Calculation Amount of GBP 1,000 divided by the strike price of GBP 16, giving a value of 62.5. This value is then rounded down to 62, which is the number of shares you receive. The fractional remainder of 0.5 shares is converted into cash using the final valuation price of the underlying asset (being GBP 6 per share) and therefore you receive $0.5 \times \text{GBP } 6 = \text{GBP } 3$ in cash.

IF THE FINAL VALUATION PRICE OF THE UNDERLYING ASSET IS LESS THAN THE STRIKE PRICE, YOU WILL RECEIVE PHYSICAL DELIVERY OF SHARES WHOSE TOTAL MARKET VALUE MAY BE LESS THAN YOUR INVESTMENT AND COULD BE WORTHLESS.

IF THE FINAL TERMS SPECIFIES THE 'UNDERLYING PERFORMANCE TYPE' TO BE 'WORST-OF': THE INITIAL PRICE, STRIKE PRICE AND FINAL VALUATION PRICE FOR THE WORST PERFORMING UNDERLYING ASSET WILL BE CONSIDERED FOR THE PURPOSES OF THE CALCULATIONS ABOVE. THIS MEANS THAT, IRRESPECTIVE OF HOW THE OTHER UNDERLYING ASSETS PERFORM, IF ANY ONE OR MORE UNDERLYING ASSETS DO NOT MEET THE THRESHOLD TESTS SET OUT ABOVE, YOU WILL RECEIVE PHYSICAL DELIVERY OF SHARES WHOSE TOTAL MARKET VALUE MAY BE LESS THAN YOUR INVESTMENT AND COULD BE WORTHLESS.

Bull-Bear – European Barrier redemption

Overview of Bull-Bear – European Barrier redemption:

The Securities may upon maturity either pay a redemption amount or (if applicable) involve the application of the cash amount otherwise payable by the Issuer to purchase and then deliver to you a fixed number of units of the underlying asset (an 'entitlement').

The final redemption amount or entitlement that you receive will depend on:

- (1) *whether the final valuation price of the underlying asset is above or below certain threshold levels: the strike price and the knock-in barrier price;*
- (2) *whether or not the redemption amount is 'capped' at a maximum figure. This will be the case if the Final Terms specifies 'Cap' to be 'Applicable'; and*
- (3) *the 'participation' specified in the Final Terms. A 'participation' is a percentage which determines your exposure to the performance of the underlying asset(s).*

The strike price and the knock-in barrier price are each calculated by taking a particular fixed percentage of the initial price of the underlying asset. For example, the strike price might be 100% of the initial price and the knock-in barrier price might be 85% of the initial price.

Therefore, whether or not the final valuation price of the underlying asset is at or above either (or both) of the strike price and the knock-in barrier price is an indication of how the underlying asset has performed over the life of the Securities.

Calculation of the final redemption amount or entitlement:

- (A) *If the final valuation price of the underlying asset is at or above the strike price, you will receive a cash amount equal to:*
 - (1) *if the redemption amount is not capped: (a) the Calculation Amount PLUS (b) the Calculation Amount multiplied by the participation and then multiplied by the performance of the underlying asset; or*
 - (2) *if the redemption amount is capped: (a) the Calculation Amount PLUS (b) the Calculation Amount multiplied by the LESSER of: (i) the participation multiplied by the performance of the underlying asset; and (ii) the Cap percentage, which will be specified in the Final Terms.*

In (1) and (2) above, the 'performance of the underlying asset' is calculated by subtracting the strike price from the final valuation price and then dividing by the initial price of the underlying asset. For example, if the final valuation price is GBP 10.50, the strike price is GBP 10 and the initial price is GBP 10, the performance of the underlying asset is

$$\frac{\text{GBP } 10.50 - \text{GBP } 10}{\text{GBP } 10} = 0.05 \text{ (or 5\%)}$$

You will receive this cash amount whether the settlement method is specified to be 'cash' or 'cash or physical'.

- (B) *If the final valuation price of the underlying asset is below the strike price but at or above the knock-in barrier price, you will receive a cash amount equal to the Calculation Amount PLUS the Calculation Amount multiplied by the 'negative performance' of the underlying asset.*

The 'negative performance' of the underlying asset is calculated by subtracting the final valuation price from the strike price and then dividing by the initial price of the underlying asset. For example, if the final valuation price is GBP 9, the strike price is GBP 10 and the initial price is GBP 10, the 'negative performance' of the underlying asset is

$$\frac{\text{GBP } 10 - \text{GBP } 9}{\text{GBP } 10} = 0.1 \text{ (or 10\%)}$$

You will receive this cash amount whether the settlement method is specified to be 'cash' or 'cash or physical'.

(C) *In all other cases:*

- (1) *if the settlement method is 'cash', you will receive a cash amount equal to the final valuation price divided by the strike price and multiplied by the Calculation Amount; or*
- (2) *if the settlement method is 'cash or physical', the Issuer will apply the cash amount otherwise payable to you to purchase and deliver to you a whole number of units of the underlying asset plus a cash amount (in place of any fractional amount of the underlying asset).*

Accordingly, please note that 'cash or physical' does not mean that you have an option to select cash or physical settlement. Rather, it means that you will either receive a cash amount or a delivery of physical securities depending on how the underlying asset performs.

WORKED EXAMPLE

Assumptions:

- there is only one underlying asset and the initial price of the underlying asset is GBP 10;
- the strike price is 100% of the initial price (i.e. GBP 10);
- the knock-in barrier price is 85% of the initial price (i.e. GBP 8.50);
- the participation percentage is 140%;
- 'Cap' is specified as applicable and the Cap percentage is 30%; and
- 'cash' settlement is selected (rather than 'cash or physical').

Final redemption amount payable:

(a) **If the final valuation price of the underlying asset is GBP 12.50:**

THEN: because the final valuation price is above the strike price, limb (A) in the italicised summary above is applicable. It is necessary to make the following calculations:

(i) The performance of the underlying asset is 25%. This figure is calculated as

$$\frac{\text{GBP 12.50 (the final valuation price)} - \text{GBP 10 (the strike price)}}{\text{GBP 10 (the initial price)}} = 0.25 \text{ (or 25\%).}$$

(ii) The participation (i.e. 140%) multiplied by the performance of the underlying asset (i.e. 25%) is equal to 35%. This percentage is greater than the cap percentage (i.e. 30%). Therefore, the 35% figure is disregarded and only the cap percentage (i.e. 30%) is considered.

Accordingly, in this scenario (a), you will receive GBP 1,300. This figure is calculated as the sum of:

- (1) GBP 1,000 (i.e. the Calculation Amount); and
- (2) GBP 300, which is calculated as GBP 1,000 (i.e. the Calculation Amount) multiplied by 30% (i.e. the Cap percentage).

OR

(b) **If the final valuation price of the underlying asset is GBP 10.50:**

THEN: because the final valuation price is above the strike price, limb (A) in the italicised summary above is applicable. Therefore, it is necessary to make the following calculations:

- (i) The performance of the underlying asset is 5%. This figure is calculated as

$$\frac{\text{GBP } 10.50 \text{ (the final valuation price - GBP } 10 \text{ (the strike price))}}{\text{GBP } 10 \text{ (the initial price)}} = 0.05 \text{ (or 5\%)}$$

- (ii) The participation (i.e. 140%) multiplied by the performance of the underlying asset (i.e. 5%) is equal to 7%. This percentage is less than the cap percentage (i.e. 30%). Therefore, the 7% figure is relevant and the cap percentage (i.e. 30%) is disregarded.

Accordingly, in this scenario (b), you will receive GBP 1,070. This figure is calculated as the sum of:

- (1) GBP 1,000 (i.e. the Calculation Amount); and
- (2) GBP 70, which is calculated as GBP 1,000 (i.e. the Calculation Amount) multiplied by 7% (i.e. the participation multiplied by the performance of the underlying asset, as calculated above).

OR

- (c) **If the final valuation price of the underlying asset is GBP 9:**

THEN: because the final valuation price is below the strike price but above the knock-in barrier price, limb (B) in the italicised summary above is applicable. Therefore, it is necessary to calculate the 'negative performance' of the underlying asset, as follows:

$$\frac{\text{GBP } 10 \text{ (the strike price) - GBP } 9 \text{ (the final valuation price)}}{\text{GBP } 10 \text{ (the initial price)}} = 0.1 \text{ (or 10\%)}$$

Accordingly, in this scenario (c), you will receive GBP 1,100. This figure is calculated as the sum of:

- GBP 1,000 (i.e. the Calculation Amount); and
- GBP 100, which is calculated as GBP 1,000 (i.e. the Calculation Amount) multiplied by 10% (i.e. the 'negative performance' of the underlying asset, as calculated above).

OR

- (d) **If the final valuation price of the underlying asset is GBP 6:**

THEN: because the final valuation price is below both the strike price and the knock-in barrier price, you will only receive GBP 600. This figure is calculated as the final valuation price of GBP 6 divided by the strike price of GBP 10 and multiplied by the Calculation Amount of GBP 1,000.

IF THE FINAL VALUATION PRICE OF THE UNDERLYING ASSET IS LESS THAN THE KNOCK-IN BARRIER PRICE, YOU WILL LOSE SOME OR ALL OF YOUR INVESTMENT. THE FINAL VALUATION PRICE OF THE UNDERLYING ASSET COULD BE ZERO, IN WHICH CASE YOU WOULD LOSE ALL OF YOUR INVESTMENT.

IF THE FINAL TERMS SPECIFIES THE 'UNDERLYING PERFORMANCE TYPE' TO BE 'WORST-OF': THE INITIAL PRICE, STRIKE PRICE, KNOCK-IN BARRIER PRICE AND FINAL VALUATION PRICE FOR THE WORST PERFORMING UNDERLYING ASSET WILL BE CONSIDERED FOR THE PURPOSES OF THE CALCULATIONS ABOVE. THIS MEANS THAT, IRRESPECTIVE OF HOW THE OTHER UNDERLYING ASSETS PERFORM, IF ANY ONE OR MORE UNDERLYING ASSETS DO NOT MEET THE THRESHOLD TESTS SET OUT ABOVE, YOU WILL LOSE SOME OR ALL OF YOUR INVESTMENT.

Bull-Bear – American Barrier redemption

Overview of Bull-Bear – American Barrier redemption:

The Securities may upon maturity either pay a redemption amount or (if applicable) involve the application of the cash amount otherwise payable by the Issuer to purchase and then deliver to you a fixed number of units of the underlying asset (an 'entitlement').

The final redemption amount or entitlement that you receive will depend on:

- (1) *whether the final valuation price of the underlying asset is above or below a certain threshold level: the strike price;*
- (2) *whether the price or level of the underlying asset falls below a different threshold (the knock-in barrier price) on any trading day within a specific period of time (a 'trigger event'). The period of time runs from the 'knock-in barrier period start date' and ends on the 'knock-in barrier period end date', and these dates will be set out in the Final Terms;*
- (3) *whether or not the redemption amount is 'capped' at a maximum figure. This will be the case if the Final Terms specifies 'Cap' to be applicable;*
- (4) *the 'participation' specified in the Final Terms. A 'participation' is a percentage which determines your exposure to the performance of the underlying asset(s).*

The strike price and the knock-in barrier price are each calculated by taking a particular fixed percentage of the initial price of the underlying asset. For example, the strike price might be 100% of the initial price and the knock-in barrier price might be 85% of the initial price.

Therefore, whether or not: (i) the final valuation price of the underlying asset is at or above the strike price; and (ii) a trigger event occurs (i.e. whether or not the price or level of the underlying asset falls below the knock-in barrier price on any relevant trading day) provides an indication of how the underlying asset has performed over the life of the Securities.

Calculation of the final redemption amount or entitlement:

- (A) *If the final valuation price of the underlying asset is at or above the strike price, you will receive a cash amount equal to:*
 - (1) *if the redemption amount is not capped: (a) the Calculation Amount PLUS (b) the Calculation Amount multiplied by the participation and then multiplied by the performance of the underlying asset; or*
 - (2) *if the redemption amount is capped: (a) the Calculation Amount PLUS (b) the Calculation Amount multiplied by the LESSER of: (i) the participation multiplied by the performance of the underlying asset; and (ii) the Cap percentage, which will be specified in the Final Terms.*

In (1) and (2) above, the 'performance of the underlying asset' is calculated by subtracting the strike price from the final valuation price and then dividing by the initial price of the underlying asset. For example, if the final valuation price is GBP 10.50, the strike price is GBP 10 and the initial price is GBP 10, the performance of the underlying asset is

$$\frac{\text{GBP } 10.50 - \text{GBP } 10}{\text{GBP } 10} = 0.05 \text{ (or 5\%)}$$

You will receive this cash amount whether the settlement method is specified to be 'cash' or 'cash or physical'.

- (B) *If the final valuation price of the underlying asset is below the strike price but a trigger event has not occurred (i.e. the market price or level of the underlying asset has not fallen below the knock-in barrier price on any relevant trading day), you will receive a cash amount equal to*

the Calculation Amount PLUS the Calculation Amount multiplied by the 'negative performance' of the underlying asset).

The 'negative performance' of the underlying asset is calculated by subtracting the final valuation price from the strike price and then dividing by the initial price of the underlying asset. For example, if the final valuation price is GBP 9, the strike price is GBP 10 and the initial price is GBP 10, the 'negative performance' of the underlying asset is

$$\frac{\text{GBP } 10 - \text{GBP } 9}{\text{GBP } 10} = 0.1 \text{ (or 10\%)}$$

You will receive this cash amount whether the settlement method is specified to the 'cash' or 'cash or physical'.

(C) *In all other cases:*

- (1) *if the settlement method is 'cash', you will receive a cash amount equal to the final valuation price divided by the strike price and multiplied by the Calculation Amount; or*
- (2) *if the settlement method is 'cash or physical', the Issuer will apply the cash amount otherwise payable to you to purchase and deliver to you a whole number of units of the underlying asset plus a cash amount (in place of any fractional amount of the underlying asset).*

Accordingly, please note that 'cash or physical' does not mean that you have an option to select cash or physical settlement. Rather, it means that you will either receive a cash amount or a delivery of physical securities depending on how the underlying asset performs.

Final redemption amount payable:

- (ii) The participation (i.e. 140%) multiplied by the performance of the underlying asset (i.e. 25%) is equal to 35%. This percentage is greater than the cap percentage (i.e. 30%). Therefore, the 35% figure is disregarded and only the cap percentage (i.e. 30%) is considered.

OR

(b) If the final valuation price of the underlying asset is GBP 10.50:

THEN: because the final valuation price is above the strike price, limb (A) in the italicised summary above is applicable. It is necessary to make the following calculations:

- (i) The performance of the underlying asset is 5%. This figure is calculated as

$$\frac{\text{GBP 10.50 (the final valuation price)} - \text{GBP 10 (the strike price)}}{\text{GBP 10 (the initial price)}} = 0.05 \text{ (or 5\%).}$$

- (ii) The participation (i.e. 140%) multiplied by the performance of the underlying asset (i.e. 5%) is equal to 7%. This percentage is less than the cap percentage (i.e. 30%). Therefore, the 7% figure is relevant and the cap percentage (i.e. 30%) is disregarded.

Accordingly, in this scenario (b), you will receive GBP 1,070. This figure is calculated as the sum of:

- (1) GBP 1,000 (i.e. the Calculation Amount); and
- (2) GBP 70, which is calculated as GBP 1,000 (i.e. the Calculation Amount) multiplied by 7% (i.e. the participation multiplied by the performance of the underlying asset, as calculated above).

OR

(c) If the final valuation price of the underlying asset is GBP 9 and the market price or level of the underlying asset has not fallen below GBP 8.50 on any trading day within the period from 1 August 2014 to 31 July 2015:

THEN: because a trigger event has not occurred, limb (B) in the italicised summary above is applicable. Therefore, it is necessary to calculate the 'negative performance' of the underlying asset, as follows:

$$\frac{\text{GBP 10 (the strike price)} - \text{GBP 9 (the final valuation price)}}{\text{GBP 10 (the initial price)}} = 0.1 \text{ (or 10\%).}$$

Accordingly, in this scenario (c), you will receive GBP 1,100. This figure is calculated as the sum of:

- (1) GBP 1,000 (i.e. the Calculation Amount); and
- (2) GBP 100, which is calculated as GBP 1,000 (i.e. the Calculation Amount) multiplied by 10% (i.e. the 'negative performance' of the underlying asset, as calculated above).

(d) If the final valuation price of the underlying asset is GBP 9 and the market price or level of the underlying asset has fallen below GBP 8.50 on at least one trading day within the period from 1 August 2014 to 31 July 2015:

THEN: because a trigger event has occurred (and the final valuation price is below the strike price), you will receive 100 shares (which as at the final valuation date have a total market value of approximately GBP 900, being GBP 9 per share multiplied by 100). This number of shares is calculated as the Calculation Amount of GBP 1,000 divided by the strike price of

GBP 10.

OR

(e) **If the final valuation price of the underlying asset is GBP 6:**

THEN: because a trigger event has occurred (and the final valuation price is below the strike price), you will receive 100 shares (which as at the final valuation date have a total market value of approximately GBP 600, being GBP 6 per share multiplied by 100). This number of shares is calculated as the Calculation Amount of GBP 1,000 divided by the strike price of GBP 10.

IF THE FINAL VALUATION PRICE OF THE UNDERLYING ASSET IS LESS THAN THE STRIKE PRICE AND A TRIGGER EVENT OCCURS, YOU WILL RECEIVE PHYSICAL DELIVERY OF SHARES WHOSE TOTAL MARKET VALUE MAY BE LESS THAN YOUR INVESTMENT AND COULD BE WORTHLESS.

IF THE FINAL TERMS SPECIFIES THE 'UNDERLYING PERFORMANCE TYPE' TO BE 'WORST-OF': THE INITIAL PRICE, STRIKE PRICE AND FINAL VALUATION PRICE FOR THE WORST PERFORMING UNDERLYING ASSET AND THE KNOCK-IN BARRIER PRICE FOR ALL UNDERLYING ASSETS WILL BE CONSIDERED FOR THE PURPOSES OF THE CALCULATIONS ABOVE. THIS MEANS THAT, IRRESPECTIVE OF HOW THE OTHER UNDERLYING ASSETS PERFORM, IF ANY ONE OR MORE UNDERLYING ASSETS DO NOT MEET THE THRESHOLD TESTS SET OUT ABOVE (AND IF A TRIGGER EVENT OCCURS IN RESPECT OF ANY ONE OR MORE UNDERLYING ASSETS), YOU WILL RECEIVE PHYSICAL DELIVERY OF SHARES WHOSE TOTAL MARKET VALUE MAY BE LESS THAN YOUR INVESTMENT AND COULD BE WORTHLESS.

Put Spread redemption

Overview of put spread redemption:

The Securities may upon maturity either pay a redemption amount or (if applicable) involve the application of the cash amount otherwise payable by the Issuer to purchase and then deliver to you a fixed number of units of the underlying asset (an 'entitlement').

The final redemption amount or entitlement that you receive will depend on whether the final valuation price of the underlying asset is above or below certain threshold levels: the final barrier, the strike price and the lower strike price.

The final barrier, the strike price and the lower strike price are each calculated by taking a particular fixed percentage of the initial price of the underlying asset. For example, the final barrier might be 90% of the initial price, the strike price might be 100% of the initial price and the lower strike price might be 70% of the initial price.

Therefore, whether or not the final valuation price of the underlying asset is at or above any (or all) of the final barrier, the strike price and the lower strike price is an indication of how the underlying asset has performed over the life of the Securities.

Calculation of the final redemption amount or entitlement:

If the final valuation price of the underlying asset is at or above either: (1) the final barrier; or (2) the strike price, you will receive a cash amount equal to the Calculation Amount. You will receive this cash amount whether the settlement method is specified to be 'cash' or 'cash or physical'.

If the final valuation price of the underlying asset is below the strike price and the final barrier but at or above the lower strike price:

- (1) if the settlement method is 'cash', you will receive a cash amount equal to the final valuation price divided by the strike price and multiplied by the Calculation Amount; or*
- (2) if the settlement method is 'cash or physical', the Issuer will apply the cash amount otherwise payable to you to purchase and deliver to you a whole number of units of the underlying asset plus a cash amount (in place of any fractional amount of the underlying asset).*

In all other cases, you will receive a cash amount equal to the lower strike price percentage multiplied by the Calculation Amount. You will receive this cash amount whether the settlement method is specified to be 'cash' or 'cash or physical'.

Accordingly, please note that 'cash or physical' does not mean that you have an option to select cash or physical settlement. Rather, it means that you will either receive a cash amount or a delivery of physical securities depending on how the underlying asset performs.

WORKED EXAMPLE

Assumptions:

- there is only one underlying asset and the initial price of the underlying asset is GBP 10;
- the strike price is 100% of the initial price (i.e. GBP 10);
- the final barrier is 90% of the initial price (i.e. GBP 9);
- the lower strike price percentage is 70%, so the lower strike price is 70% of the initial price (i.e. GBP 7); and
- 'cash' settlement is selected (rather than 'cash or physical').

Final redemption amount payable:

- (a) **If the final valuation price of the underlying asset is GBP 11:**

THEN: because the final valuation price is above the strike price and the final barrier, you will

receive GBP 1,000 (i.e. the Calculation Amount).

OR

(b) **If the final valuation price of the underlying asset is GBP 9.50:**

THEN: because the final valuation price is above the final barrier (and even though it is below the strike price), you will receive GBP 1,000 (i.e. the Calculation Amount).

OR

(c) **If the final valuation price of the underlying asset is GBP 8:**

THEN: because the final valuation price is below the strike price and the final barrier (but above the lower strike price), you will only receive GBP 800. This figure is calculated as the final valuation price of GBP 8 divided by the strike price of GBP 10 and multiplied by the Calculation Amount of GBP 1,000.

OR

(d) **If the final valuation price of the underlying asset is GBP 6:**

THEN: because the final valuation price is below the lower strike price, you will only receive GBP 700. This figure is calculated as the lower strike price percentage of 70% multiplied by the Calculation Amount of GBP 1,000.

IF THE FINAL VALUATION PRICE OF THE UNDERLYING ASSET IS LESS THAN BOTH THE STRIKE PRICE AND THE FINAL BARRIER, YOU WILL LOSE SOME OF YOUR INVESTMENT.

IF THE FINAL TERMS SPECIFIES THE 'UNDERLYING PERFORMANCE TYPE' TO BE 'WORST-OF': THE INITIAL PRICE, STRIKE PRICE, LOWER STRIKE PRICE, FINAL VALUATION PRICE AND FINAL BARRIER FOR THE WORST PERFORMING UNDERLYING ASSET WILL BE CONSIDERED FOR THE PURPOSES OF THE CALCULATIONS ABOVE. THIS MEANS THAT, IRRESPECTIVE OF HOW THE OTHER UNDERLYING ASSETS PERFORM, IF ANY ONE OR MORE UNDERLYING ASSETS DO NOT MEET THE THRESHOLD TESTS SET OUT ABOVE, YOU WILL LOSE SOME OF YOUR INVESTMENT.

TERMS AND CONDITIONS OF THE SECURITIES

*The following text comprises the terms and conditions of the Securities (the "**General Conditions**") that, subject to completion or election in the Final Terms (together, the "**Conditions**"), shall be applicable to each Series.*

Calculations and determinations: unless otherwise specified, all calculations and determinations in the conditions shall be made by the Determination Agent. In respect of each such calculation and determination, General Condition 22.2 (Determinations by the Determination Agent) shall apply.

Section C: INTEREST, AUTOMATIC REDEMPTION (AUTOCALL), FINAL REDEMPTION AND NOMINAL CALL EVENT and Section D: EQUITY LINKED CONDITIONS, DISRUPTION EVENTS AND TAXES AND EXPENSES contain certain optional provisions that will only apply to certain issuances of Securities. The Final Terms document will specify which provisions from Sections C and D apply to your Securities.

In particular, the Final Terms will indicate:

- the type of interest payable under the Securities;*
- the dates on which the Securities may redeem due to an Automatic Redemption (Autocall) Event (if applicable);*
- the type of redemption amount due on the Securities upon final redemption (if not redeemed earlier); and*
- whether or not the Securities may be redeemed early at the option of the Issuer following a 'nominal call event' and, if so, the conditions for the exercise of such option,*

in each case in accordance with the relevant provisions of General Condition 6 (Interest); General Condition 7 (Automatic Redemption (Autocall)), General Condition 8 (Final redemption) and General Condition 9 (Nominal Call Event), as are specified to apply in the Final Terms.

All capitalised terms that are not defined in these General Conditions have the meanings given to them in the Final Terms.

References in these General Conditions to 'Securities' are to the Securities of one Series only, not to all Securities that may be issued pursuant to the Programme.

A. INTRODUCTION

The Securities are issued as a Series of notes ("**Notes**") or certificates ("**Certificates**") by the Issuer and references to 'Securities' shall be construed as a reference to each Series accordingly. Securities are issued pursuant to the Master Agency Agreement dated 6 June 2018 (as further amended and/or supplemented and/or restated and/or replaced as at the relevant Issue Date, the "**Master Agency Agreement**") and, other than CREST Securities, with the benefit of a Deed of Covenant dated 6 June 2018 (as further amended and/or supplemented and/or restated and/or replaced as at the relevant Issue Date, the "**Deed of Covenant**") executed by the Issuer.

Copies of the Master Agency Agreement and the Deed of Covenant are available for inspection at the registered office of the Issuer, the Issue and Paying Agent and the specified offices of the Paying Agents, the Transfer Agents and the Registrar.

The determination agent (the "**Determination Agent**"), the issue and paying agent (the "**Issue and Paying Agent**"), the registrar (the "**Registrar**"), the paying agents (the "**Paying Agents**"), the transfer agents (the "**Transfer Agents**") and, in respect of any issue of CREST Securities, the agent providing certain issuing, registry and paying agency services to the Issuer (the "**CREST Agent**") (together, the "**Agents**") shall be as specified below or in the Final Terms, as applicable. The Issue and Paying Agent shall be The Bank of New York Mellon, London Branch, of One Canada Place, London E14 5AL.

In respect of any issue of CREST Securities, the CREST Agent shall be Computershare Investor Services PLC, unless otherwise specified in the Final Terms. For the purpose of CREST Securities, any reference in the Conditions to a calculation or determination being made by the Determination Agent or the Issue and Paying Agent shall be deemed to be a reference to the Issuer making such calculation or determination.

Each Series may be issued in tranches (each a "**Tranche**") on the same or different issue dates. The specific terms of each Tranche will be identical to the terms of other Tranches of the same Series (save in respect of the Issue Date, Issue Price, first payment of interest, if applicable, and Aggregate Nominal Amount of the Tranche) and will be set out in the Final Terms.

Unless otherwise expressly indicated, capitalised terms used in these Conditions have the meanings given in General Condition 35 (*Definitions and Interpretation*).

B. FORM, TITLE, TRANSFER, CALCULATIONS, PAYMENTS AND SETTLEMENT

1. Form, title and transfer

1.1 Form of Securities

(a) Form of Securities (other than CREST Securities)

Securities will be issued in bearer form ("**Bearer Securities**"), with or without coupons (the "**Coupons**") or talons (the "**Talons**") or in registered form ("**Registered Securities**") as specified in the Final Terms. Securities in one form may not be exchanged for Securities in any other form except as provided below.

Bearer Securities will initially be issued in global form (each a "**Global Bearer Security**" and, if more than one, the "**Global Bearer Securities**"), and may only be exchanged for Securities in definitive form (each a "**Definitive Bearer Security**" and, if more than one, the "**Definitive Bearer Securities**") (i) in the case of Bearer Securities with a single Specified Denomination, if specified in the Final Terms or (ii) in the case of all Bearer Securities, upon an Exchange Event occurring, and in each case in accordance with the terms of the relevant Global Bearer Security. Registered Securities may initially be issued in global form (each a "**Global Registered Security**" and, if more than one, the "**Global Registered Securities**" and, together with a Global Bearer Security, each a "**Global Security**" and, if more than one, the "**Global Securities**") if specified in the Final Terms, which may only be exchanged for Securities in definitive form (each a "**Definitive Registered Security**" and, if more than one, the "**Definitive Registered Securities**" and, together with Definitive Bearer Securities, "**Definitive Securities**"), if specified in the Final Terms, or upon an Exchange Event occurring, and in each case in accordance with the terms of the relevant Global Registered Security. Registered Securities may initially be issued as Definitive Registered Securities if specified in the Final Terms. The Issuer will promptly give notice to Holders if an Exchange Event occurs.

(b) Form of CREST Securities

CREST Securities will be issued in dematerialised uncertificated registered form and will be held in accordance with the United Kingdom Uncertificated Securities Regulations 2001 (SI 2001/3755) including any modification or re-enactment thereof from time to time in force (the "**Uncertificated Regulations**"), and not constituted by any physical document of title. CREST Securities will be cleared through CREST and will be participating securities for the purposes of the Uncertificated Regulations.

(c) Initial issue of Global Securities

If the Final Terms specifies 'NGN Form' to be 'Applicable' with respect to a Global Bearer Security or if the Final Terms specifies 'Held under the NSS' to be 'Applicable' with respect to a Global Registered Security to be held under the New Safekeeping Structure ("**NSS**") ("**NGN Form**"), such Global Bearer Security or Global Registered Security will be delivered on or prior to the original issue date of the Series or Tranche

to a common safekeeper (a "**Common Safekeeper**"). The Aggregate Nominal Amount or aggregate Number of Securities, as applicable, of the Global Security shall be that which is from time to time entered in the records of the Relevant Clearing System. Securities should only be issued in NGN Form where they are intended to be held in a manner which would allow Eurosystem eligibility but such recognition will depend upon the satisfaction of the Eurosystem eligibility criteria.

If the Final Terms specifies 'CGN Form' to be 'Applicable' ("**CGN Form**"), the Global Security may be delivered on or prior to the original issue date of the Series or Tranche to a Common Depository for the Relevant Clearing System (and, in the case of Registered Securities, registered in the name of any nominee for the Relevant Clearing System). The Relevant Clearing System will then credit each subscriber with an Aggregate Nominal Amount or aggregate Number of Securities, as applicable, of the Global Security equal to the nominal amount or number thereof for which it has subscribed and paid.

1.2 Exchange of Securities

(a) Exchange of Global Securities

Each Series of Bearer Securities issued in compliance with the D Rules will be initially issued in the form of a temporary global security in bearer form (a "**Temporary Global Security**") and will be exchangeable for a permanent bearer global security (a "**Permanent Global Security**"), free of charge, on and after its Exchange Date, upon certification as to non-US beneficial ownership in the form set out in the Master Agency Agreement.

Each Series of Bearer Securities issued in compliance with the C Rules or in respect of which TEFRA does not apply will be initially issued in the form of a Permanent Global Security.

Upon the occurrence of an Exchange Event on or after its Exchange Date each Permanent Global Security will be exchangeable, in whole but not in part, free of charge, for Definitive Securities. Temporary Global Securities will not be exchangeable for Definitive Securities.

If the Global Security is in CGN Form, on or after any due date for exchange, the Holder may surrender it or, in the case of a partial exchange, present it for endorsement to or to the order of the Issue and Paying Agent and in exchange the Issuer will deliver, or procure the delivery of (i) in the case of a Temporary Global Security, a Permanent Global Security in an Aggregate Nominal Amount or aggregate Number of Securities, as applicable, equal to that of the Temporary Global Security that is being exchanged, or (ii) in the case of a Permanent Global Security exchangeable for Definitive Securities, an equal aggregate nominal amount or aggregate number, as applicable, of duly executed and authenticated Definitive Securities.

If the Global Security is in NGN Form, the Issuer will procure that details of such exchange be entered *pro rata* in the records of the Relevant Clearing System. On exchange in full of each Permanent Global Security, the Issuer will, if the Holder so requests, procure that it is cancelled and returned to the Holder together with the relevant Definitive Securities.

(b) Exchange of Registered Securities

Registered Securities of each Series which are sold in an 'offshore transaction' within the meaning of Regulation S under the Securities Act will be represented by interests in a Global Security, without Coupons or Talons, or deposited with, and registered in the name of, a Common Depository or a Common Safekeeper on behalf of the Relevant Clearing System on its issue date.

1.3 **Denomination and Number**

(a) **Notes**

The Final Terms in respect of Securities that are Notes will specify the denomination or denominations (each a "**Specified Denomination**") in which such Securities are issued, the Aggregate Nominal Amount, the Issue Price per Security, the Settlement Currency and the Calculation Amount. In the case of a Series with more than one Specified Denomination, Bearer Securities of one Specified Denomination will not be exchangeable for Bearer Securities of another Specified Denomination.

(b) **Certificates**

The Final Terms in respect of Securities that are Certificates will specify the Settlement Currency of such Securities, the Issue Price per Security, the number of Securities being issued and the Calculation Amount. All Certificates of a Series shall have the same Calculation Amount.

(c) **Redenomination**

If the Securities are Notes denominated in sterling and the Issuer determines that a Redenomination Date will occur, the Notes shall, without requiring the consent of the Holders, be redenominated into euro with effect from the Redenomination Date (provided that the Issuer has given prior notice thereof to the Issue and Paying Agent and the Relevant Clearing Systems and at least 30 days' prior notice thereof to the Holders).

Following such redenomination:

- (i) all payments under the Securities (other than payments of interest in respect of periods commencing before the Redenomination Date) will be made in euro and not in sterling; and
- (ii) the Determination Agent shall make such adjustments to the Conditions or any other provisions relating to the Securities to account for the redenomination and to preserve substantially the economic effect to the Holders of holding the relevant Securities.

1.4 **Title**

(a) **Title to Securities (other than CREST Securities)**

Title to Bearer Securities and any Coupons or Talons, as the case may be, passes by delivery. Title to Registered Securities passes by registration in the Register which the Issuer shall procure is kept by the Registrar in accordance with the provisions of the Master Agency Agreement.

The Issuer and the relevant Agents shall (except as otherwise required by law or ordered by a court of competent jurisdiction) deem and treat the Holder (as defined below) of any Bearer Security, Coupon, Talon or Registered Security as its absolute owner for all purposes (whether or not such Security is overdue and regardless of any notice of ownership, trust or any interest in it, any writing on it (or on the Global Security representing it) or its theft or loss) and no person shall be liable for so treating the Holder.

In these General Conditions, except in respect of CREST Securities, "**Holder**" means the bearer of any Bearer Security or the person in whose name a Registered Security is registered, except that, in respect of any Global Securities, the person appearing as the accountholder for the Relevant Clearing System (the "**Accountholder**") shall be treated as the Holder for all purposes other than with respect to the payment or delivery of any amount due under the Securities (for which purpose the Common Depository or

Common Safekeeper (or their respective nominee, as applicable), as the case may be, shall be treated by the Issuer and any Agent as the relevant Holder).

(b) **Title to CREST Securities**

The CREST Agent on behalf of the Issuer shall maintain a record of uncertificated corporate securities (the "**Record**") in relation to CREST Securities and each person who is for the time being shown in the Record shall be treated by the Issuer and the Agents as the Holder of the particular nominal amount or number of CREST Securities, as the case may be, for all purposes (and the expression "**Holder**" and related expressions shall be construed accordingly for the purposes of the Conditions).

No provision of the Conditions shall apply or have effect to the extent that it is in any respect inconsistent with (i) the holding of title to CREST Securities in uncertificated form, (ii) the transfer of title to CREST Securities by means of a relevant system or (iii) the Uncertificated Regulations. Without prejudice to the generality of the preceding sentence, so long as the CREST Securities are participating securities, (A) the Record shall be maintained at all times in the United Kingdom, (B) the CREST Securities will be issued in uncertificated form in accordance with and subject as provided in the Uncertificated Regulations and (C) the Conditions shall remain applicable notwithstanding that they are not endorsed on any certificate or document of title for such CREST Securities.

As used in these General Conditions, each of "**Operator**", "**Operator register of corporate securities**", "**participating security**", "**record of uncertificated corporate securities**" and "**relevant system**" is as defined in the Uncertificated Regulations (and the relevant Operator is Euroclear UK & Ireland Limited or any additional or alternative Operator from time to time and notified to the Holders of CREST Securities).

(c) **Title to CREST Depository Interests**

Where the Final Terms specifies 'CDIs' to be 'Applicable' for a Series, investors may hold CREST Depository Interests ("**CDIs**") constituted and issued by the CREST Depository and representing indirect interests in such Securities. CDIs will be issued and settled through CREST.

Neither the Securities nor any rights with respect thereto will be issued, held, transferred or settled within CREST otherwise than through the issue, holding, transfer and settlement of CDIs. Holders of CDIs will not be entitled to deal directly in the Securities to which such CDIs relate (the "**Underlying Securities**"). Accordingly, all dealings in Securities represented by a holding of CDIs will be effected through CREST.

CDIs will be constituted and governed by the terms of the CREST Deed Poll. Holders of CDIs will have no rights against the Issuer, any Manager or any Agent in respect of the Underlying Securities, interests therein or the CDIs representing them.

1.5 **Transfers**

(a) **Transfers of Cleared Securities**

(i) *Cleared Securities (other than CREST Securities)*

Subject to General Condition 1.5(d) (*Minimum Tradable Amount*) below, transfers of Securities which are held in a Relevant Clearing System may be effected only through the Relevant Clearing System in which the Securities to be transferred are held and only in accordance with the Relevant Rules. Title will pass upon registration of the transfer in the books of Euroclear or Clearstream, as the case may be.

(ii) *Transfers of CREST Securities*

Transfers of CREST Securities are effected upon registration of the transfer in the Operator register of corporate securities and subject to and in accordance with the Uncertificated Regulations and the rules, procedures and practices in effect of the Operator (the "**CREST Requirements**").

Transfers of CREST Securities will be effected without charge by or on behalf of the Issuer, the Operator or the CREST Agent, but upon payment of any Taxes that may be imposed in relation to them (or the giving of such indemnity as the Issuer, the Operator or the CREST Agent may require).

(b) **Transfers of non-cleared Securities**

(i) *Non-cleared Bearer Securities*

Bearer Securities which are not Cleared Securities, Coupons and Talons will be transferred by delivery.

(ii) *Non-cleared Registered Securities*

Registered Securities which are not Cleared Securities may be transferred only through the Register by delivery in writing to the Registrar or any Transfer Agent of (A) the relevant Definitive Registered Security or Global Registered Security representing such Registered Securities to be transferred, (B) the duly completed form of transfer, or notice of redemption and surrender and (C) any other evidence as the Registrar or Transfer Agent may reasonably require. In the case of a transfer of part only of a holding of Registered Securities, a new Definitive Registered Security shall be issued to the transferee in respect of the part transferred and a further new Definitive Registered Security or Global Registered Security in respect of the balance of the holding not transferred shall be issued to the transferor. Transfers of part only of a holding of Registered Securities represented by a non-cleared Global Registered Security may only be made in part (aa) if an Exchange Event occurs, or (bb) with the consent of the Issuer, provided that, the registered Holder has given the Registrar not less than ten Business Days' notice at its specified office of the registered Holder's intention to effect such transfer. All transfers of Securities and entries on the Register will be made subject to the detailed regulations concerning transfers of Securities scheduled to the Master Agency Agreement. The regulations may be changed by the Issuer, with the prior written approval of the Registrar and each Holder. A copy of the current regulations will be made available by the Registrar to any Holder upon request.

Transfers of Registered Securities will be effected without charge by or on behalf of the Issuer, the Registrar or the Transfer Agents, but upon payment of any Taxes that may be imposed in relation to it (or the giving of an indemnity as the Issuer, Registrar or the relevant Transfer Agent may require).

(c) **Registered Security closed periods**

No Holder may require the transfer of a Definitive Registered Security (i) on any day after the date any Delivery Entitlement Instruction (if earlier) is delivered by such Holder, (ii) after any such Definitive Registered Security has been called for redemption or (iii) during the period of seven calendar days ending on (and including) any Record Date.

(d) **Minimum Tradable Amount**

Transactions in the Securities may, if specified in the Final Terms, be subject to a Minimum Tradable Amount, in which case such Securities will be transferable only in a nominal amount, in the case of Notes, or in a number, in the case of Certificates, of not less than such Minimum Tradable Amount and, in the case of Cleared Securities, in accordance with the Relevant Rules.

2. **Status**

The Securities constitute direct, unsecured and unsubordinated obligations of the Issuer and rank equally among themselves. The payment obligations of the Issuer under the Securities will rank equally with all other present and future unsecured and unsubordinated obligations of the Issuer (except for such obligations as may be preferred by provisions of law that are both mandatory and of general application). The Securities do not evidence deposits of the Issuer. The Securities are not insured or guaranteed by any government or government agency.

3. **Calculations and publication**

3.1 **Rounding**

For the purposes of any calculations required pursuant to the Conditions, unless otherwise specified, all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with half a unit being rounded up), save in the case of Japanese yen, which shall be rounded down to the nearest Japanese yen. For these purposes, "**unit**" means the lowest amount of such currency that is available as legal tender in the country of such currency.

3.2 **Determination and publication of interest rates, Interest Amounts and amounts in respect of settlement**

As soon as practicable on such date as the Issue and Paying Agent or, as applicable, the Determination Agent may be required to calculate any rate or amount, obtain any quotation or make any determination or calculation in respect of or in connection with any Security, such Agent shall determine such rate, obtain any required quotation or make such determination or calculation, as the case may be, and cause the relevant payment amount to be notified to the Issuer, each of the Paying Agents, the Holders, any other Agent in respect of the Securities that is to make a payment, delivery or further calculation or determination upon receipt of such information and, if the Securities are listed and the rules of the relevant stock exchange or other relevant authority so require, such exchange or relevant authority, as soon as possible after their determination.

3.3 **Calculation Amount**

(a) **Calculations in respect of Securities**

- (i) Notwithstanding anything to the contrary in the Conditions or the Master Agency Agreement:
 - (A) in respect of a Security for which a Specified Denomination is stated, each calculation of a physical amount deliverable in respect of such Security hereunder shall be made on the basis of the relevant Calculation Amount and the amount payable on any particular Security shall be equal to the product of (i) the amount produced by such calculation (after applying any applicable rounding in accordance with the Conditions) and (ii) a number equal to the Specified Denomination of the relevant Security divided by the relevant Calculation Amount; and
 - (B) each calculation of an amount payable in cash in respect of each Security (other than Definitive Securities) shall be based on the Aggregate Nominal Amount or Number of all such Securities outstanding on such date (or the relevant affected portion thereof), rounded in accordance with the method provided in General Condition 3.1 (*Rounding*) above and distributed in accordance with the Relevant Rules.
- (ii) For the avoidance of doubt, in relation to any amount or Entitlement which is payable or deliverable under the Conditions in respect of a Security and which is calculated by reference to a Calculation Amount, references to (A) 'Security', in the case of Securities that are Notes, shall mean a Security having a nominal

amount (or face value) equal to the Calculation Amount and (B) an amount 'per Calculation Amount', in the case of Certificates, shall mean per Security.

3.4 **Business Day Convention**

If any date specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a Business Day and where in each case the Final Terms specifies the 'Business Day Convention' to be:

- (a) 'Floating Rate', such date shall be postponed to the next day which is a Business Day unless it would thereby fall in the next calendar month, in which event (A) such date shall be brought forward to the immediately preceding Business Day and (B) each subsequent such date shall be the last Business Day in the month in which such date would have fallen had it not been subject to adjustment;
- (b) 'Following', such date shall be postponed to the next day that is a Business Day;
- (c) 'Modified Following', such date shall be postponed to the next day that is a Business Day unless it would fall in the next calendar month, in which case such date shall be brought forward to the immediately preceding Business Day;
- (d) 'Nearest', such date shall be brought forward to the first preceding day that is a Business Day if the relevant date otherwise falls on a day other than a Sunday or a Monday and shall be postponed to the first following day that is a Business Day if the relevant date otherwise falls on a Sunday or a Monday; or
- (e) 'Preceding', such date shall be brought forward to the immediately preceding Business Day.

4. **Payments and deliveries**

4.1 **Payments and deliveries in respect of Definitive Bearer Securities**

In respect of any Definitive Bearer Security, payments of principal will be made against and subject to the presentation and surrender (or, in the case of part payment, endorsement) of the relevant Definitive Bearer Security at the specified office of any Paying Agent outside the United States, by a cheque drawn in the currency in which payment is due, or by transfer to an account with an Account Bank denominated in such currency, as applicable. Payments of interest will be made as set out above but against and subject to the presentation and surrender of the relevant Coupon. Deliveries of any Entitlement shall be made in the manner notified to Holders.

Notwithstanding the foregoing, payments of principal or interest may be made in United States dollars at the specified office of any Paying Agent in New York City if (a) the Issuer has appointed Paying Agents with offices outside of the United States with the reasonable expectation that such Paying Agents would be able to make payment in United States dollars, (b) payment of the full amount of such interest or principal in United States dollars at the offices of such Paying Agents is illegal or effectively precluded by exchange controls or other similar restrictions and (c) payment is permitted by applicable United States law, without involving, in the determination of the Issuer, any adverse tax consequences to the Issuer.

4.2 **Payments and Deliveries in respect of Definitive Registered Securities**

Payments of principal and deliveries of any Entitlement in respect of each Definitive Registered Security will be made against and subject to the condition to settlement, presentation and surrender of the relevant Definitive Registered Security at the specified office of the Registrar or any of the Transfer Agents and in the manner provided in the immediately following paragraph below.

Payments of interest in respect of each Definitive Registered Security will be made on the relevant due date to the Holder, or the first-named of any joint Holders appearing in the Register at the close of business on the relevant Record Date, by cheque drawn on an Account

Bank and mailed to such Holder at the address in the Register, or by electronic transfer to an account in the relevant currency maintained by the payee with an Account Bank. Delivery of any Entitlement will be made in the manner notified to Holders.

4.3 **Payments and Deliveries in respect of Global Securities**

(a) **Global Bearer Securities**

No payment or delivery falling due after the Exchange Date will be made on any Global Bearer Securities unless exchange for an interest in a Permanent Global Security or for Definitive Bearer Securities is improperly withheld or refused. Payments on any Temporary Global Security issued in compliance with the D Rules before the Exchange Date will only be made against presentation of certification as to non-US beneficial ownership in the form set out in the Master Agency Agreement.

(b) **CGNs**

All payments and deliveries in respect of Bearer Securities in CGN Form will be made against and subject to presentation for endorsement and, if no further payment or delivery falls to be made in respect of the Global Bearer Securities, surrender of that Global Bearer Security to or to the order of the Issue and Paying Agent or such other Paying Agent as shall have been notified to the Holders for such purpose.

(c) **NGNs and Global Securities held under NSS**

If a Global Bearer Security is a Cleared Security in NGN Form or a Global Registered Security is a Cleared Security held under the NSS, the Issuer shall procure that details of each such payment and delivery shall be entered in the records of the Relevant Clearing System. Payments and deliveries in respect of Securities in NGN Form will be made to its Holder. Each payment and delivery so made will discharge the Issuer's obligations in respect thereof. Any failure to make the entries in the records of the Relevant Clearing System shall not affect such discharge.

(d) **Global Registered Securities that are Cleared Securities**

All payments and deliveries in respect of Cleared Securities that are represented by a Global Registered Security will be made to, or to the order of, the person whose name is entered on the Register at the close of business on the Record Date.

(e) **Relationship of Accountholders and Relevant Clearing Systems**

Each of the persons shown in the records of the Relevant Clearing System as the Holder represented by a Global Security must look solely to the Relevant Clearing System for his share of each payment or delivery made by the Issuer to the bearer of such Global Bearer Security or the Holder of the underlying Registered Securities. The obligations of the Issuer will be discharged by payment or delivery to the bearer of such Global Bearer Security or the Holder of the underlying Registered Security, as the case may be, in respect of each amount so paid or delivered.

4.4 **Payments and Deliveries in respect of CREST Securities**

The Issuer shall procure that all payments in respect of CREST Securities are made to the relevant Holder's cash memorandum account for value on the Relevant Date, such payment to be made in accordance with the CREST Requirements.

Each of the persons shown in the Record as the Holder of a particular nominal amount or number of CREST Securities must look solely to the settlement bank or institution at which its cash memorandum account is held for its share of each such payment so made by or on behalf of the Issuer.

4.5 **Unmatured Coupons and unexchanged Talons**

(a) **Unmatured Coupons and unexchanged Talons void**

Upon the due date for redemption of any Definitive Bearer Security, unexpired Coupons and unexchanged Talons relating to such Security (whether or not attached) shall become void and no payment shall be made in respect of them.

(b) **Requirement for indemnity**

Where any Definitive Bearer Security is presented for redemption without all unexpired Coupons or any unexchanged Talon relating to it, redemption shall be made only against the provision of such indemnity as the Issuer may require.

4.6 **Taxes, Settlement Expenses and conditions to settlement**

Payment of any Settlement Amount and delivery of any Entitlement shall be subject to deduction, or conditional upon payment by the relevant Holder(s), of any applicable Taxes and (unless specified to be 'Not Applicable' in the Final Terms) Settlement Expenses and any other amounts payable as specified in the Conditions. The Issuer shall notify the Holder(s) of (a) such applicable Taxes, Settlement Expenses and other amounts payable and (b) the manner in which such amounts shall be paid by the Holder(s).

4.7 **Payments on Business Days**

Subject to the application of any Business Day Convention, if the date on which any amount is payable is not (i) a Business Day and (ii) in the case of Definitive Securities only, a day other than a Saturday or Sunday on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the relevant place of presentation, then payment will not be made until the next succeeding day which is (A) a Business Day and (B) in the case of Definitive Securities only, also a day other than a Saturday or Sunday on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in the relevant place of presentation, and the Holder thereof shall not be entitled to any further payment in respect of such delay.

5. **Settlement**

5.1 **Physical Settlement by Delivery of the Entitlement**

(a) **Delivery of Entitlement**

The following provisions apply to the delivery of all Entitlements in respect of Securities:

- (i) The Issuer shall, subject to this General Condition 5, General Condition 3 (*Calculations and publication*) and General Condition 4 (*Payments and deliveries*), on any relevant Physical Delivery Date, deliver or procure the delivery of the relevant Entitlement in respect of each Security to such account in respect of Cleared Securities in the Relevant Clearing System in accordance with the Relevant Rules and, in respect of all other Securities, such account as may be notified by the relevant Holder to the Issuer in the relevant Delivery Entitlement Instruction at the risk and expense of the relevant Holder. If a Holder does not provide the Issuer with sufficient instructions in a timely manner to enable the Issuer and/or the Relevant Clearing System, if applicable, to effect any required delivery of the Entitlement, the due date for such delivery shall be postponed accordingly. The Issuer and the Relevant Clearing System, if applicable, shall determine whether any instructions received by it are sufficient and whether they have been received in time to enable delivery on any given date. As used herein, "**delivery**" means, in relation to any Entitlement, the carrying out of the steps required of the Issuer (or such person as it may procure to make the relevant delivery) in order to effect the transfer of the relevant Entitlement and "**deliver**" shall be construed accordingly. The Issuer shall not be responsible for any delay or failure in the transfer of any Entitlement once

such steps have been carried out, whether resulting from settlement periods of clearing systems, acts or omissions of registrars or otherwise and shall have no responsibility for the lawfulness of the acquisition or transfer of the Entitlement or any interest therein by any Holder or any other person.

- (ii) No Holder will be entitled to receive dividends declared or paid in respect of any Underlying Asset or to any other rights relating to or arising out of any such component of the Entitlement if the record date for the relevant dividend or relevant right in respect of such components and Entitlement falls before the relevant Physical Delivery Date.
- (iii) Delivery of any Entitlement shall be subject to the condition to settlement in General Condition 4.6 (*Taxes, Settlement Expenses and conditions to settlement*).
- (iv) The Issuer will endeavour to deliver (or procure delivery of) the relevant Entitlement to the Holder on the relevant Physical Delivery Date. In the event that a Holder requests that delivery of the Entitlement be made at a location or in a method that is different from that specified in the Conditions, the Issuer may (but is not obliged to) seek to deliver the Entitlement to such location and/or by such method, provided that no additional unreimbursed costs are incurred. The Issuer shall, subject as provided below, on the relevant Physical Delivery Date, deliver or procure the delivery of the Transfer Documentation relating to the Entitlement (or, in the case of an Underlying Asset that is an equity unit, the Transfer Documentation in respect of such equity unit) to or to the order of the Holder or to such bank or broker as the Holder has specified in the relevant Delivery Entitlement Instruction.
- (v) All Entitlements will be delivered at the risk of the relevant Holder.

(b) **Settlement Disruption Event**

Subject to General Condition 5.1(c) (*Alternate Cash Amount*), if, in the opinion of the Determination Agent, delivery of an Entitlement or any portion thereof is (or is likely to become) impossible or impracticable by reason of a Settlement Disruption Event having occurred and continuing on the relevant Physical Delivery Date (the assets constituting such Entitlement or portions thereof (the "**Affected Assets**")), then such Physical Delivery Date shall be postponed to the first following Relevant Settlement Day in respect of which there is no such Settlement Disruption Event, provided that:

- (i) the Issuer shall attempt to deliver any portion of the Entitlement which does not comprise Affected Assets, on the originally designated Physical Delivery Date;
- (ii) the Issuer may elect to satisfy its obligations in respect of the relevant Security by delivering some or all of the Affected Assets in such manner as it may determine and in such event the relevant Physical Delivery Date shall be such day as the Issuer deems appropriate in connection with delivery of the Entitlement in such other commercially reasonable manner; and
- (iii) in respect of any Affected Assets, in lieu of physical settlement and notwithstanding any other provision hereof, the Issuer may elect to satisfy its obligations in respect of the relevant Security by payment to the relevant Holder of the Disruption Cash Settlement Price on the Disruption Cash Settlement Date.

The Determination Agent shall give notice as soon as practicable to the Holders that a Settlement Disruption Event has occurred and payment of the Disruption Cash Settlement Price will be made, subject to this General Condition 5 (*Settlement*) and General Condition 3 (*Calculations and publication*) and General Condition 4 (*Payments and deliveries*), in such manner as shall be notified. No Holder shall be entitled to any additional amount in the event of any delay in the delivery of the

Entitlement or payment of the Disruption Cash Settlement Price due to the occurrence of a Settlement Disruption Event and no liability in respect thereof shall attach to the Issuer and/or the Determination Agent.

(c) **Alternate Cash Amount**

Notwithstanding any provisions set out in General Condition 11.2 (*Merger Events, Nationalisation, Insolvency, Insolvency Filing, Delisting and Tender Offers*), where the Final Terms specifies 'Entitlement Substitution' to be 'Applicable', if the Issuer determines that (i) all or part of the Entitlement comprises securities, instruments or obligations that are not freely transferable, and/or (ii) it is not able to (or reasonably expects not to be able to) acquire all or part of the Entitlement in the secondary market in time to deliver the Entitlement when due under the Securities as a result of illiquidity, and/or (iii) the price of all or part of the Entitlement has been materially affected as a result of illiquidity (each an "**Entitlement Substitution Event**"), (in each case, such components of the Entitlement constituting the "**Affected Entitlement Components**"), the Issuer may elect to not deliver or procure the delivery of the Affected Entitlement Components to the relevant Holders, but, subject to this General Condition 5 (*Settlement*) and General Condition 3 (*Calculations and publication*) and General Condition 4 (*Payments and deliveries*), in lieu thereof to make payment of the Alternate Cash Amount to the relevant Holders on the Alternate Cash Amount Settlement Date.

Notification of the determination of an Entitlement Substitution Event and any Alternate Cash Amount and Alternate Cash Amount Settlement Date will be given to Holders by the Issuer as soon as reasonably practicable.

(d) **Liability**

Redemption of the Securities, payments by the Issuer and any Agent and any delivery of an Entitlement, in whole or in part, by or on behalf of the Issuer and/or any Agent will be subject in all cases to all applicable fiscal and other laws, regulations and practices in force at such time (including, without limitation, any relevant exchange control laws or regulations and the Relevant Rules) and none of the Issuer, the Relevant Clearing System or any Agent shall incur any liability whatsoever if it is unable to effect any payments or deliveries contemplated, after using all reasonable efforts, as a result of any such laws, regulations and practices. Neither the Issuer nor any Agent shall under any circumstances be liable for any acts or defaults of the Relevant Clearing System in the performance of their respective duties in relation to the Securities or, in relation to the delivery of the Entitlement, the acts or defaults of any relevant Exchange.

5.2 **Conditions to settlement**

If the Issuer determines that any condition to settlement to be satisfied by a Holder has not been satisfied in respect of the Securities on or prior to the date on which settlement would otherwise have been scheduled to occur, payment or delivery of the relevant Settlement Amount or Entitlement shall not become due until the date on which all conditions to settlement have been satisfied in full (such Settlement Amount or Entitlement, the "**Conditional Settlement Amount**"). No additional amounts shall be payable or deliverable as a result of any such delay or postponement.

The conditions to settlement to be satisfied by a Holder include, without limitation, (a) receipt of all instructions, certifications (including pursuant to General Condition 4.5 (*Unmatured Coupons and unexchanged Talons*)) and information by the Issuer, the Issue and Paying Agent and the Relevant Clearing System, as applicable, required by the Issuer, the Issue and Paying Agent and/or the Relevant Clearing System to effect payment or delivery of the relevant Settlement Amount or Entitlement to the Holder (or to its order) within the required time period, (b) the conditions to settlement in General Condition 4.6 (*Taxes, Settlement Expenses and conditions to settlement*), (c) the deposit of a duly completed Delivery Entitlement

Instruction or any other applicable notice in accordance with the Conditions, as applicable, and (d) the deposit, presentation or surrender of the relevant Security, as applicable.

If the conditions to settlement to be satisfied by a Holder have not been satisfied by (i) 10:00 a.m., London time, if the Securities are not Cleared Securities or (ii) 10:00 a.m., Luxembourg or Brussels time, or such other time as determined by the Determination Agent as appropriate for the Relevant Clearing System, on the day that is the number of calendar days equal to the Settlement Number following the applicable Final Settlement Cut-off Date (the "**Security Settlement Cut-off Date**"), the relevant conditions to settlement will not be capable of being satisfied. With effect from the Security Settlement Cut-off Date, the relevant Holder shall have no right to receive any payment or delivery of the Conditional Settlement Amount and shall have no claim against the Issuer in relation thereto.

5.3 Postponement of payments and settlement

If the determination of a price or level used to calculate any amount payable or deliverable on any Payment Date or Physical Delivery Date is delayed or postponed pursuant to the Conditions, payment or settlement will occur on the later of (a) the scheduled Payment Date or Physical Delivery Date (as applicable), or (b) the third Business Day following the latest Valuation Date, Averaging Date or Lookback Date to occur, as the case may be. No additional amounts shall be payable or deliverable by the Issuer because of such postponement.

C. INTEREST, AUTOMATIC REDEMPTION (AUTOCALL), FINAL REDEMPTION AND NOMINAL CALL EVENT

6. Interest

(a) Interest Type

The Final Terms will specify whether the type of interest which the Securities pay is:

- Fixed;
- Floating;
- Digital (Bullish with dual barrier and memory feature);
- Snowball;
- Phoenix without memory;
- Phoenix with memory;
- Phoenix One Touch – Daily without memory;
- Phoenix One Touch – Daily with memory;
- Phoenix One Touch – Continuous without memory;
- Phoenix One Touch – Continuous with memory;
- Phoenix No Touch – Daily without memory;
- Phoenix No Touch – Daily with memory;
- Phoenix No Touch – Continuous without memory;
- Phoenix No Touch – Continuous with memory;
- Range accrual; or
- Knock-out.

(b) Certain information to be found in the Final Terms

The Final Terms will contain provisions applicable to the determination of interest (if any) and must be read in conjunction with this General Condition 6 for full information on the manner in which interest is calculated on the Securities. In particular, the Final Terms will specify the following items where relevant to the particular Securities:

- the Fixed Interest Rate(s);
- information relating to the Floating Rate;
- the Interest Payment Date(s);
- the Calculation Amount;
- the Interest Barrier Percentage(s);

- the Interest Valuation Date(s);
- the Fixed Interest Determination Date(s);
- the Interest Determination Date(s);
- the Lower Barrier Percentage;
- the Upper Barrier Percentage;
- the Knock-out Barrier Percentage;
- the Day Count Fraction;
- the Margin;
- the Maximum Interest Rate;
- the Minimum Interest Rate; and
- the Observation Date(s).

6.1 **Fixed**

(a) **Interest Type and Application**

Where the Final Terms specifies 'Interest Type' to be 'Fixed', then this General Condition 6.1 will apply to the Securities.

(b) **Accrual of interest and when paid**

Where the Final Terms specifies 'Fixed Interest Type' to be 'Per Annum', each such Security bears interest from (and including) the Interest Commencement Date at the per annum Fixed Interest Rate. Provided that the Securities have not been redeemed or purchased and cancelled prior to the relevant Interest Payment Date, interest will be payable in respect of each Interest Calculation Period on the Interest Payment Date falling on or about the end of each such Interest Calculation Period.

(c) **Interest Amount**

The "**Interest Amount**" per Calculation Amount payable on an Interest Payment Date shall be calculated as follows:

- (i) where the Final Terms specifies 'Fixed Interest Type' to be 'Per Annum':

$$\text{Fixed Interest Rate} \times \text{Calculation Amount} \times \text{Day Count Fraction}$$

- (ii) where the Final Terms specifies 'Fixed Interest Type' to be 'Fixed Amount':

$$\text{Fixed Interest Rate} \times \text{Calculation Amount}$$

The Interest Amount payable on an Interest Payment Date shall be subject to neither of the following having occurred prior to the corresponding Fixed Interest Determination Date: (i) an Automatic Redemption (Autocall) Event, or (ii) any other redemption or purchase and cancellation of the Securities.

(d) **Relevant defined terms**

The following terms as used above have the following meanings:

- "**Calculation Amount**" means the amount specified as such in the Final Terms.
- "**Day Count Fraction**" means the fraction equal to the number of days of the relevant Interest Calculation Period divided by the number of days of the year, in each case as determined by the applicable convention, which may be any of 'Actual/Actual(ICMA)', 'Act/Act(ICMA)', 'Actual/Actual', 'Actual/Actual (ISDA)', 'Actual/365 (Fixed)', 'Actual/360', '30/360', '360/360', 'Bond Basis', '30E/360', 'Eurobond Basis', '30E/360 (ISDA)' (each as defined in General Condition 35.1 (*Definitions*) in the definition 'Day Count Fraction Conventions'), as specified in the Final Terms.

- **"Fixed Interest Determination Date"** means each date specified as such in the Final Terms.
- **"Fixed Interest Rate"** means the percentage specified as such in the Final Terms.
- **"Interest Calculation Period"** means the period beginning on (and including) the Interest Commencement Date and ending on (but excluding) the next succeeding Interest Period End Date and each successive period beginning on (and including) an Interest Period End Date and ending on (but excluding) the next succeeding Interest Period End Date, as applicable.
- **"Interest Payment Date"** means, in relation to a Fixed Interest Determination Date, the corresponding date specified in the Final Terms, subject to adjustment in accordance with the Business Day Convention (if applicable).

6.2 Floating

(a) Interest Type and application

Where the Final Terms specifies 'Interest Type' to be 'Floating', then this General Condition 6.2 will apply to the Securities.

(b) Accrual of interest and when paid

Each Security bears interest from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate of Interest applicable for that Interest Calculation Period, as determined below. Provided that the Securities have not been redeemed or purchased and cancelled prior to the relevant Interest Payment Date, interest will be payable on the Interest Payment Date falling on or about the end of each such Interest Calculation Period.

(c) Interest Amount

(i) Calculation of Interest Amount

The **"Interest Amount"** per Calculation Amount payable on an Interest Payment Date shall be calculated by the Determination Agent by multiplying the Rate of Interest for the corresponding Interest Calculation Period by the Calculation Amount, and then further multiplying such amount by the applicable Day Count Fraction.

The Interest Amount calculation can also be expressed formulaically as:

$$\text{Rate of Interest} \times \text{Calculation Amount} \times \text{Day Count Fraction}$$

(ii) Determination of Rate of Interest

Subject to paragraph (iii) immediately below, the rate of interest (the **"Rate of Interest"**) for an Interest Payment Date will be calculated as the sum of (1) the Floating Rate determined for such Interest Payment Date in accordance with paragraph (d) (Floating Rate) immediately below, and (2) the 'Margin' rate specified in the Final Terms (which may be negative) (the **"Margin"**).

The Rate of Interest calculation can also be expressed formulaically as:

$$(\text{Floating Rate} + \text{Margin})$$

(iii) Maximum and Minimum Rate

If the Final Terms specifies a Maximum Interest Rate percentage (**"Maximum Interest Rate"**) and/or a Minimum Interest Rate percentage (**"Minimum Interest Rate"**), then the Rate of Interest shall not exceed the Maximum Interest Rate and shall not be less than the Minimum Interest Rate.

Interest Rate"), then the Rate of Interest shall be no higher than the Maximum Interest Rate and/or lower than the Minimum Interest Rate (and in no event shall any Rate of Interest be lower than zero).

(d) **Floating Rate**

The Final Terms will specify whether the Floating Rate for each Interest Payment Date shall be determined in accordance with either: (1) 'Floating Rate Determination' (in which case paragraph (i) below will apply); (2) 'CMS Rate Determination' (in which case paragraph (ii) below will apply); or (3) 'Bank of England Base Rate Determination' (in which case paragraph (iii) below will apply).

In each case, if the Final Terms specifies 'Linear Interpolation' to be 'Applicable', and in respect of any Interest Calculation Period as specified in the Final Terms, the Determination Agent will determine the relevant Floating Rate using Linear Interpolation.

(i) **Floating Rate Determination**

Where the Final Terms specifies 'Floating Rate Determination' to be 'Applicable' ("**Floating Rate Determination**"), the Floating Rate of interest for each Interest Calculation Period ending on or about an Interest Payment Date will be as follows:

(A) If the Reference Rate is a floating rate other than EONIA, the relevant Floating Rate of interest will, subject as provided below, be either:

- (1) the offered quotation (where the Final Terms specifies 'Offered Quotation' to be 'Applicable'); or
- (2) the arithmetic mean of the offered quotations (where the Final Terms specifies 'Arithmetic Mean' to be 'Applicable'),

in each case expressed as a percentage rate per annum, for the Reference Rate of the relevant Designated Maturity which appear(s) on the Relevant Screen Page as at the Relevant Screen Time on the Interest Determination Date relating to such Interest Payment Date. In the case of (2) above only, if five or more of such offered quotations are available on the Relevant Screen Page, the highest (or, if there is more than one such highest quotation, one only of such quotations) and the lowest (or, if there is more than one such lowest quotation, one only of such quotations) shall be disregarded by the Determination Agent for the purpose of determining the arithmetic mean of such offered quotations.

(B) If the Final Terms specifies 'Reference Rate' to be 'EONIA', the relevant Floating Rate of interest will be the rate of return of a daily compound interest investment with the arithmetic mean of the daily rates of the day-to-day Eurozone interbank euro money market as reference rate and which will be calculated by the Determination Agent on the Interest Determination Date, as follows, and the resulting percentage will be rounded, if necessary, to the nearest one ten-thousandth of a percentage point, with 0.00005 being rounded upwards ("**EONIA**"):

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{EONIA_i \times n_i}{360} \right) - 1 \right] \times \frac{360}{d}$$

where:

"**d**₀", for any Interest Calculation Period, is the number of TARGET Business Days in the relevant Interest Calculation Period;

"**i**" is a series of whole numbers from one to do, each representing the relevant TARGET Business Day in chronological order from, and including, the first TARGET Business Day, in the relevant Interest Calculation Period;

"**EONIA_i**", for any day 'i' in the relevant Interest Calculation Period, is a reference rate equal to the overnight rate as calculated by the European Central Bank and appearing on the Relevant Screen Page in respect of that day;

"**n_i**" is the number of calendar days in the relevant Interest Calculation Period on which the rate is EONIA_i; and

"**d**" is the number of calendar days in the relevant Interest Calculation Period.

(ii) **CMS Rate Determination**

Where the Final Terms specifies 'CMS Rate Determination' to be 'Applicable' ("**CMS Rate Determination**"), the Floating Rate of interest for each Interest Calculation Period ending on or about an Interest Payment Date will be the relevant CMS Reference Rate for such Interest Calculation Period.

The CMS Reference Rate in respect of an Interest Calculation Period or any relevant day (as applicable) will be the Specified Swap Rate for swap transactions in the Reference Currency with a maturity of the Designated Maturity (expressed as a percentage rate per annum) which appears on the Relevant Screen Page as at the Relevant Screen Time on the Interest Determination Date in respect of such Interest Calculation Period or such relevant day.

(iii) **Bank of England Base Rate Determination**

Where the Final Terms specifies 'Bank of England Base Rate Determination' to be 'Applicable' ("**Bank of England Base Rate Determination**"), the Floating Rate for an Interest Payment Date will be the most recently published rate for deposits for a period equal to the Designated Maturity which appears on the Reuters Screen Page UKBASE as of 5:00 p.m., London time, on the relevant Interest Determination Date.

(iv) **Floating Rate Disruption**

With respect to the determination of a Floating Rate of interest in accordance with (i) or (ii) above, as applicable, and unless a Reference Rate Discontinuance (as defined below) has occurred, in which case General Condition 6.2(d)(v) (*Reference Rate Discontinuance*) shall apply, if, on any Interest Determination Date, the Relevant Screen Page for the Reference Rate (or EONIA_i) is not available, or (in the case of General Condition 6.2(d)(i)(A)(1) above) no such offered quotation appears on the Relevant Screen Page or (in the case of General Condition 6.2(d)(i)(A)(2) above), fewer than three such offered quotations appear on the Relevant Screen Page, in each case as of the Relevant Time, or on any TARGET Business Day pursuant to Condition 6.2(d)(i)(B) above EONIA_i is not available on the Relevant Screen Page (such Reference Rate, a "**Disrupted Reference Rate**" and each such event, a "**Floating Rate Disruption**"), the Determination Agent shall determine the Floating Rate of interest in respect of such Interest Determination Date (or EONIA_i, in respect of the relevant TARGET Business Day, as applicable) in accordance with the following methodologies, as applicable depending on the Designated Maturity of the relevant Reference Rate or whether the Disrupted Reference Rate is EONIA:

- (A) If the Designated Maturity of the relevant Reference Rate is 12 months or less:
- (1) the Determination Agent shall determine the Floating Rate in respect of such Interest Determination Date using Linear Interpolation;
 - (2) if the Determination Agent determines that one or both of the rates to be used for the purposes of Linear Interpolation in accordance with sub-paragraph (1) immediately above are unavailable, the Floating Rate in respect of such Interest Determination Date shall be the last published offered quotation(s) for the Reference Rate that appeared on the Relevant Screen Page, provided that the last published quotation(s) may not be earlier than the fifth Business Day prior to the Interest Determination Date;
 - (3) if the Determination Agent determines that no offered quotation was published (or in the case of General Condition 6.2(d)(i)(A)(2) above, fewer than three such offered quotations were published) for the Reference Rate in accordance with and during the period provided in sub-paragraph (2) immediately above, the Floating Rate in respect of the relevant Interest Determination Date shall be determined using Linear Interpolation save that the Interest Determination Date for such purpose will be deemed to be the immediately preceding Business Day on which the rates to be used for Linear Interpolation are both available on the Relevant Screen Page, provided that the last published rate for such purpose may not be earlier than the fifth Business Day prior to the Interest Determination Date;
 - (4) if the Determination Agent determines that the rates to be used for the purposes of Linear Interpolation in accordance with and during the period provided in sub-paragraph (3) immediately above are unavailable, the Floating Rate for such Interest Payment Date shall be such other rate as determined by the Determination Agent.
- (B) If the Designated Maturity of the relevant Reference Rate is more than 12 months:
- (1) the Determination Agent shall request each of the Reference Banks to provide the Determination Agent with its offered quotation (expressed as a percentage rate per annum) for the Reference Rate of the relevant Designated Maturity as soon as practicable after the Relevant Time on the Interest Determination Date in question. If two or more of the Reference Banks provide the Determination Agent with such offered quotations, the Floating Rate in respect of such Interest Payment Date shall be the arithmetic mean of such offered quotations;
 - (2) if the Determination Agent determines that fewer than two Reference Banks are providing offered quotations in accordance with sub-paragraph (1) immediately above, the Floating Rate in respect of such Interest Determination Date shall be determined by postponing the relevant Interest Determination Date to the first succeeding Business Day on which the Floating Rate Disruption ceases to exist, provided that for such purpose the Interest Determination Date shall not be postponed for more than two Business Days after the date on which the Interest Determination Date was originally scheduled to fall;

- (3) if the Determination Agent determines that it is unable to determine the Floating Rate in accordance with and during the period provided in sub-paragraph (2) immediately above, the Floating Rate in respect of such Interest Determination Date shall be such other rate as determined by the Determination Agent.
 - (C) If the Disrupted Reference Rate is EONIA_i
 - (1) EONIA_i in respect of the relevant TARGET Business Day shall be the last published offered quotation for EONIA_i that appeared on the Relevant Screen Page, provided that the last published quotation may not be earlier than the fifth Business Day prior to the relevant TARGET Business Day;
 - (2) if the Determination Agent determines that no offered quotation was published for EONIA_i in accordance with and during the period provided in sub-paragraph (1) immediately above, EONIA_i in respect of the relevant TARGET Business Day shall be such other rate as determined by the Determination Agent.
- (v) **Reference Rate Discontinuance**

With respect to the determination of a Floating Rate of interest in accordance with (i) or (ii) above, if on (or prior to) any Interest Determination Date, the Determination Agent determines that the relevant Reference Rate has been discontinued or has otherwise ceased to exist (such Reference Rate, a "**Discontinued Reference Rate**" and such event, a "**Reference Rate Discontinuance**"), the Determination Agent shall determine the Floating Rate of interest for the relevant Interest Payment Date in accordance with the following methodologies, as applicable:

- (A) If a Pre-nominated Index has been specified in the Final Terms in respect of the relevant Reference Rate (or EONIA_i), the relevant Reference Rate (or EONIA_i) shall be replaced by such Pre-nominated Index with effect from the date as determined by the Determination Agent and the Pre-nominated Index will be deemed to be the Reference Rate (or EONIA_i) with effect from such date. The Determination Agent may make such adjustments that it determines to be appropriate, if any, to any one or more of the Conditions or other terms of the Securities, including without limitation, any Condition or term relevant to the settlement or payment under the Securities, as the Determination Agent determines appropriate to account for such replacement (including, without limitation, any adjustment which the Determination Agent determines is appropriate in order to reduce or eliminate to the extent reasonably practicable any transfer of economic value from the Issuer to the Securityholders or vice versa as a result of such replacement, including as a result of a different term structure or methodology);
- (B) Otherwise, if a Pre-nominated Index has not been specified in the Final Terms and if the Discontinued Reference Rate is not EONIA_i
 - (1) the Determination Agent shall select a substitute or successor rate of interest that it determines is comparable to the Discontinued Reference Rate to replace such Discontinued Reference Rate, and shall replace the Discontinued Reference Rate by such substitute or successor rate of interest with effect from the date as determined by the Determination Agent and such substitute or successor reference rate will be deemed to be the Reference Rate with effect from such date. The Determination Agent may make such adjustments that it determines to be appropriate, if any, to any one or more of the Conditions or other terms of the Securities,

including without limitation, any condition or term relevant to the settlement or payment under the Securities, as the Determination Agent determines appropriate to account for such replacement (including, without limitation, any adjustment which the Determination Agent determines is appropriate in order to reduce or eliminate to the extent reasonably practicable any transfer of economic value from the Issuer to the Securityholders or vice versa as a result of such replacement, including as a result of a different term structure or methodology);

- (2) if the Determination Agent determines that no substitute or successor rate is available for the purpose of sub-paragraph (1) immediately above, then, with effect from and including the date on which the relevant Reference Rate has been discontinued or has otherwise ceased to exist, the Floating Rate in respect of such Interest Determination Date, and any subsequent Interest Determination Date, shall be determined using Linear Interpolation;
 - (3) if the Determination Agent determines that one or both of the rates to be used for the purpose of Linear Interpolation in accordance with (2) immediately above are unavailable, or otherwise does not determine the Floating Rate of interest in accordance with the foregoing, an Additional Disruption Event shall be deemed to have occurred for the purposes of these provisions and the Determination Agent shall adjust, redeem, cancel and/or take any other necessary action in accordance with the applicable provisions of General Condition 14 (*Adjustment or early redemption following an Additional Disruption Event*), as the case may be, in respect of the Securities.
- (C) Otherwise, if a Pre-nominated Index has not been specified in the Final Terms and if the Discontinued Reference Rate is EONIA,
- (1) the Determination Agent shall select a substitute or successor reference rate that it determines is comparable to the Discontinued Reference Rate to replace such Discontinued Reference Rate, and shall replace the Discontinued Reference Rate by such substitute or successor reference rate with effect from the date as determined by the Determination Agent and such substitute or successor reference rate will be deemed to be the Reference Rate with effect from such date. The Determination Agent may make such adjustments that it determines to be appropriate, if any, to any one or more of the Conditions or other terms of the Securities, including without limitation, any condition or term relevant to the settlement or payment under the Securities, as the Determination Agent determines appropriate to account for such replacement (including, without limitation, any adjustment which the Determination Agent determines is appropriate in order to reduce or eliminate to the extent reasonably practicable any transfer of economic value from the Issuer to the Securityholders or vice versa as a result of such replacement, including as a result of a different term structure or methodology);
 - (2) if the Determination Agent determines that no substitute or successor reference rate is available for the purpose of sub-paragraph (1) immediately above or otherwise does not determine the Floating Rate of interest in accordance with the foregoing, an Additional Disruption Event shall be deemed to have occurred for the purposes of these provisions and the Determination Agent shall adjust, redeem, cancel and/or take any other necessary action

in accordance with the applicable provisions of General Condition General Condition 14 (*Adjustment or early redemption following an Additional Disruption Event*), as the case may be, in respect of the Securities.

(vi) **Bank of England Base Rate fallbacks**

With respect to the determination of a Floating Rate of interest in accordance with (iii) above, if the Reuters Screen Page UKBASE is not available, the Floating Rate for the relevant Interest Payment Date shall be determined by reference to a replacement page as selected by the Determination Agent.

If the Determination Agent determines that no suitable replacement page exists, an Additional Disruption Event shall be deemed to have occurred for the purposes of these provisions and the Determination Agent shall adjust, redeem or cancel and/or take any other necessary action in accordance with the applicable provisions of General Condition 14 (*Adjustment or early redemption following an Additional Disruption Event*), as the case may be, in respect of the Securities.

(vii) **Change in Reference Rate**

If the methodology or formula for the rate comprising the Reference Rate (the "**Original Reference Rate**") in respect of any Securities or any other means of calculating the Reference Rate is changed (irrespective of the materiality of any such change or changes), then for the avoidance of doubt references to the Reference Rate in respect of such Securities shall remain as the Original Reference Rate notwithstanding such changes.

(e) **Relevant defined terms**

For the purposes of this General Condition 6.2, the following terms shall have the following meanings (and any other defined terms shall have the meaning set out in General Condition 35.1 (*Definitions*)):

- "**Calculation Amount**" means the amount specified as such in the Final Terms.
- "**Day Count Fraction**" means the fraction equal to the number of days of the relevant Interest Calculation Period divided by the number of days of the year, in each case as determined by the applicable convention, which may be any of 'Actual/Actual(ICMA)', 'Act/Act(ICMA)', 'Actual/Actual', 'Actual/Actual (ISDA)', 'Actual/365 (Fixed)', 'Actual/360', '30/360', '360/360', 'Bond Basis', '30E/360', 'Eurobond Basis', '30E/360 (ISDA)' (each as defined in General Condition 35.1 (*Definitions*) in the definition 'Day Count Fraction Conventions'), as specified in the Final Terms.
- "**Designated Maturity**" means, in respect of:
 - (i) each of the CMS Rate Determination or Floating Rate Determination, as applicable, the period of time specified in respect of each such rate in the Final Terms; and
 - (ii) Bank of England Base Rate Determination, daily, or as otherwise specified in the Final Terms.
- "**Floating Rate**" means, in respect of an Interest Calculation Period, the percentage rate of interest per annum for the relevant Interest Calculation Period calculated in accordance with paragraph (d) (Floating Rate) above.
- "**Interest Calculation Period**" means the period beginning on (and including) the Interest Commencement Date and ending on (but excluding) the next succeeding Interest Period End Date and each successive period beginning on

(and including) an Interest Period End Date and ending on (but excluding) the next succeeding Interest Period End Date, as applicable.

- **"Interest Determination Date"** means each date specified as such in the Final Terms.
- **"Interest Payment Date"** means, in relation to an Interest Valuation Date:
 - (i) each date specified as such in the Final Terms (provided that, if the Interest Determination Date is postponed pursuant to Condition 6.2(d)(iv)(B)(2), such date shall be postponed by an equal number of Business Days); or
 - (ii) each date falling the number of Business Days specified in the Final Terms after the Interest Determination Date (after adjustment due to postponement pursuant to Condition 6.2(d)(iv)(B)(2), if applicable),subject in each case to an adjustment in accordance with the Business Day Convention.
- **"Margin"** means the rate specified as such in the Final Terms or, if no such rate is so specified, zero.
- **"Maximum Interest Rate"** means, if applicable, the rate specified as such in the Final Terms.
- **"Minimum Interest Rate"** means, if applicable, the rate specified as such in the Final Terms.
- **"Reference Currency"** means the currency specified as such in the Final Terms;
- **"Reference Banks"** means the principal office of four major banks in the Relevant Interbank Market, in each case selected by the Determination Agent.
- **"Reference Rate"** means the rate specified as such in the Final Terms. Where the Final Terms specifies 'CMS Rate Determination' to be 'Applicable' (where applicable, in relation to the relevant Reference Rate), 'Reference Rate' includes a CMS Reference Rate. If more than one Reference Rate is specified, 'Reference Rate' shall refer to each rate defined or specified as such, or determined, in respect of the relevant period or day as specified in the Final Terms.
- **"Relevant Interbank Market"** means:
 - (i) in respect of LIBOR, the London interbank market;
 - (ii) in respect of EURIBOR or the European Central Bank Refinancing Rate, the Eurozone interbank market; or
 - (iii) in respect of any other Reference Rate, the interbank market set out in the Final Terms.
- **"Relevant Screen Page"** means such screen page as specified in the Final Terms (or the relevant screen page of such other service or services as may be nominated as the information vendor for the purpose of displaying comparable rates in succession thereto) or such other equivalent information vending service as is so specified.
- **"Relevant Screen Time"** means:
 - (i) in respect of LIBOR, 11:00 a.m. (London time) or any other time set out in the Final Terms;

- (ii) in respect of EURIBOR, 11:00 a.m. (Brussels time) or any other time set out in the Final Terms; or
- (iii) in respect of any other Reference Rate, the time set out in the Final Terms.
- **"Specified Swap Rate"** means any of the following as specified in the Final Terms: (i) the swap rate, (ii) the annual swap rate, (iii) the semi-annual swap rate, (iv) the quarterly swap rate, (v) the quarterly-annual swap rate, or (vi) the quarterly-quarterly swap rate.

6.3 Digital (Bullish with dual barrier and memory feature)

(a) Interest Type and application

In relation to an Interest Valuation Date where the Final Terms specifies 'Interest Type' to be 'Digital (Bullish with dual barrier and memory feature)', then this General Condition 6.3 will apply on such Interest Valuation Date. The Underlying Performance Type shall be 'Single Asset' or 'Worst-of', as specified in the Final Terms.

(b) Interest Amount

The **"Interest Amount"** per Calculation Amount shall be calculated on each Interest Valuation Date and payable on the corresponding Interest Payment Date. The Interest Amount shall be calculated as follows:

- (i) If:
 - (A) the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset', the Interest Valuation Price of the Underlying Asset on the relevant Interest Valuation Date divided by its Initial Price; or
 - (B) the the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of', the Interest Valuation Price of every Underlying Asset on the relevant Interest Valuation Date divided by the respective Initial Prices of the Underlying Assets,

is at or above the relevant Interest Barrier Percentage(2):

$$(\text{Fixed Interest Rate}(2) \times \text{CA}) + (\text{Y}(2) \times \text{Fixed Interest Rate}(2) \times \text{CA})$$

(which, for the avoidance of doubt, is payable together with the amount payable pursuant to paragraph b(ii) below);

- (ii) if:
 - (A) the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset', the Interest Valuation Price of the Underlying Asset on the relevant Interest Valuation Date divided by its Initial Price; or
 - (B) the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of', the Interest Valuation Price of every Underlying Asset on the relevant Interest Valuation Date divided by the respective Initial Prices of the Underlying Assets,

is at or above the relevant Interest Barrier Percentage(1):

$$(\text{Fixed Interest Rate}(1) \times \text{CA}) + (\text{Y}(1) \times \text{Fixed Interest Rate}(1) \times \text{CA})$$

- (iii) otherwise, the Interest Amount shall be zero.

The Interest Amount payable shall be subject to any redemption, purchase or cancellation of the Securities prior to the corresponding Interest Payment Date having not occurred.

(c) **Relevant defined terms**

The following terms as used above have the following meanings:

- **"Averaging-in Dates"** means, if the Final Terms specifies 'Averaging-in' to be 'Applicable', each of the dates specified as such and corresponding to an Interest Valuation Date in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Averaging-out Dates"** means, if the Final Terms specifies 'Averaging-out_(Interest)' to be 'Applicable', each of the dates specified as such and corresponding to an Interest Valuation Date in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"CA" or "Calculation Amount"** means the amount specified as such in the Final Terms.
- **"Fixed Interest Rate(1)"** means, in relation to an Interest Valuation Date, the percentage as specified in the Final Terms.
- **"Fixed Interest Rate(2)"** means, in relation to an Interest Valuation Date, the percentage as specified in the Final Terms.
- **"Initial Price"** means, in respect of an Underlying Asset:
 - (i) if the Final Terms specifies 'Averaging-in' to be 'Applicable', the arithmetic average of the Valuation Prices of such Underlying Asset on each of the Averaging-in Dates; or
 - (ii) if the Final Terms specifies 'Min Lookback-in' to be 'Applicable', the minimum Valuation Price of such Underlying Asset observed on each of the Lookback-in Dates; or
 - (iii) if the Final Terms specifies 'Max Lookback-in' to be 'Applicable', the maximum Valuation Price of such Underlying Asset observed on each of the Lookback-in Dates; or
 - (iv) if the Final Terms specifies a price or level for such Underlying Asset, such price or level; or
 - (v) if none of items (i) to (iv) applies, the Valuation Price of such Underlying Asset on the Initial Valuation Date.
- **"Initial Valuation Date"** means, in respect of an Underlying Asset, the date specified for such Underlying Asset in the Final Terms, provided that:
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset' and such date is not a Scheduled Trading Day, the Initial Valuation Date shall be the next following Scheduled Trading Day; or

- (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of' and (A) 'Initial Valuation Date: Individual Pricing', if such date is not a Scheduled Trading Day in respect of that Underlying Asset, the Initial Valuation Date in respect of that Underlying Asset shall be the next following Scheduled Trading Day in respect of that Underlying Asset, or (B) 'Initial Valuation Date: Common Pricing', if such day is not also a Common Scheduled Trading Day, the Initial Valuation Date in respect of each Underlying Asset shall be the next following Common Scheduled Trading Day.
- **"Interest Barrier Percentage(1)"** means, in relation to an Interest Valuation Date, the relevant percentage as specified in the Final Terms.
- **"Interest Barrier Percentage(2)"** means, in relation to an Interest Valuation Date, the relevant percentage as specified in the Final Terms.
- **"Interest Payment Date"** means, in relation to an Interest Valuation Date, the date as specified in the Final Terms, subject to adjustment in accordance with the Business Day Convention (if applicable).
- **"Interest Valuation Date"** means each date specified as such in the Final Terms, or, if such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Interest Valuation Price"** means, in relation to an Underlying Asset and an Interest Valuation Date:
 - (i) if the Final Terms specifies 'Averaging-out_(Interest)' to be 'Applicable', the arithmetic average of the Valuation Prices on each of the Averaging-out Dates corresponding to the Interest Valuation Date; or
 - (ii) if the Final Terms specifies 'Min Lookback-out_(Interest)' to be 'Applicable', the lowest Valuation Price observed on each of the Lookback-out Dates corresponding to the Interest Valuation Date; or
 - (iii) if the Final Terms specifies 'Max Lookback-out_(Interest)' to be 'Applicable', the maximum Valuation Price observed on each of the Lookback-out Dates corresponding to the Interest Valuation Date; or
 - (iv) if none of items (i) to (iii) applies, the Valuation Price of the Underlying Asset on the Interest Valuation Date.
- **"Lookback-in Dates"** means, if either 'Max Lookback-in' or 'Min Lookback-in' is applicable, each of the dates specified as such and corresponding to an Interest Valuation Date in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Lookback-out Dates"** means, if either 'Max Lookback-out_(Interest)' or 'Min Lookback-out_(Interest)' is applicable, each of the dates specified as such and corresponding to an Interest Valuation Date in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.

be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.

- **"Valuation Price"** means, in respect of any relevant Scheduled Trading Day and an Underlying Asset, the price or level of such Underlying Asset at the Valuation Time on such day.
- **"Valuation Time"** means, in respect of an Underlying Asset, the time specified as such in the Final Terms or, if no such time is specified,
 - (i) if the Underlying Asset is not specified to be a Multi-exchange Index in the Final Terms, the Scheduled Closing Time on the relevant Exchange on the Interest Valuation Date, in relation to such Underlying Asset. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.
 - (ii) if the Underlying Asset is specified to be a Multi-exchange Index in the Final Terms (a) for the purposes of determining whether a Market Disruption Event has occurred: (i) in respect of any Component, the Scheduled Closing Time on the Exchange in respect of such Component, and (ii) in respect of any options contracts or future contracts on the relevant Index, the close of trading on the Related Exchange; and (b) in all other circumstances, the time at which the official closing level of the relevant Index is calculated and published by the Index Sponsor.
- **"Y(1)"** means the number of previous Interest Valuation Dates in respect of which no interest was payable pursuant to paragraph (b)(ii) (after which interest shall be considered to have been payable pursuant to paragraph (b)(ii) in respect of such previous Interest Valuation Date(s)).
- **"Y(2)"** means the number of previous Interest Valuation Dates in respect of which no interest was payable pursuant to paragraph (b)(i) (after which interest shall be considered to have been payable pursuant to paragraph (b)(i) in respect of such previous Interest Valuation Date(s)).

6.4 Snowball

(a) Interest Type and application

Where the Final Terms specifies 'Interest Type' to be 'Snowball', then this General Condition 6.3 will apply to the Securities.

(b) Interest Amount

- (i) If the Interest Payment Condition is satisfied on the relevant Interest Valuation Date, the **"Interest Amount"** per Calculation Amount payable on the related Interest Payment Date shall be calculated on such Interest Valuation Date as follows:

$$T \times \text{Fixed Interest Rate} \times \text{Calculation Amount}$$

- (ii) Otherwise no interest amount is payable on such Interest Payment Date.

The Interest Amount payable on an Interest Payment Date (if any) shall be subject to neither of the following having occurred prior to the corresponding Interest Valuation Date: (i) an Automatic Redemption (Autocall) Event, or (ii) any other redemption or purchase and cancellation of the Securities.

(c) Relevant defined terms

- **"Fixed Interest Rate"** means the percentage specified as such in the Final Terms.
- **"Interest Barrier"** means, in respect of an Underlying Asset and an Interest Valuation Date, the Interest Barrier Percentage applicable in respect of such Interest Valuation Date multiplied by the Initial Price of such Underlying Asset.
- **"Interest Barrier Percentage"** means, in relation to an Interest Valuation Date, the relevant percentage specified as such in the Final Terms.
- **"Interest Payment Condition"** means, in respect of an Interest Valuation Date:
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset', the Valuation Price of the Underlying Asset on such Interest Valuation Date is at or above the corresponding Interest Barrier;
or
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of', the Valuation Price of every Underlying Asset on such Interest Valuation Date is at or above its corresponding Interest Barrier.
- **"Interest Payment Date"** means, in relation to an Interest Valuation Date, the corresponding date specified in the Final Terms, subject to adjustment in accordance with the Business Day Convention (if applicable).
- **"Interest Valuation Date"** means each date specified as such in the Final Terms, or, if such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"T"** means the integer corresponding to the relevant Interest Valuation Date as specified in the Final Terms.
- **"Valuation Price"** means, in respect of any relevant Scheduled Trading Day and an Underlying Asset, the price or level of such Underlying Asset at the Valuation Time on such day.
- **"Valuation Time"** means, in respect of an Underlying Asset, the time specified as such in the Final Terms or, if no such time is specified,
 - (i) if the Underlying Asset is not specified to be a Multi-exchange Index in the Final Terms, the Scheduled Closing Time on the relevant Exchange on the Interest Valuation Date, in relation to such Underlying Asset. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.
 - (ii) if the Underlying Asset is specified to be a Multi-exchange Index in the Final Terms (a) for the purposes of determining whether a Market Disruption Event has occurred: (i) in respect of any Component, the Scheduled Closing Time on the Exchange in respect of such Component, and (ii) in respect of any options contracts or future contracts on the relevant Index, the close of trading on the Related Exchange; and (b) in

all other circumstances, the time at which the official closing level of the relevant Index is calculated and published by the Index Sponsor.

6.5 **Phoenix without memory**

(a) **Interest Type and Application**

Where the Final Terms specifies 'Interest Type' to be 'Phoenix without memory', then this General Condition 6.5 will apply to the Securities.

(b) **Interest Amount**

- (i) If the Interest Payment Condition is satisfied on the relevant Interest Valuation Date, the "**Interest Amount**" per Calculation Amount payable on the related Interest Payment Date shall be calculated as follows:

$$\text{Fixed Interest Rate} \times \text{Calculation Amount}$$

- (ii) Otherwise, no interest amount is payable on such Interest Payment Date.

The Interest Amount payable with respect to an Interest Valuation Date (if any) shall be subject to neither of the following having occurred prior to such Interest Valuation Date: (i) an Automatic Redemption (Autocall) Event, or (ii) any other redemption or purchase and cancellation of the Securities.

(c) **Payment of the Interest Amount**

Any Interest Amount payable with respect to an Interest Valuation Date shall be paid:

- (i) if 'Actual Redemption Date' is not specified in the Final Terms, on the corresponding Interest Payment Date, which is a date that will be specified in the Final Terms; or
- (ii) if the Final Terms specifies the 'Interest Payment Date' to be 'Actual Redemption Date', on the earlier to occur of the Scheduled Redemption Date, the Optional Cash Redemption Date, the Early Cash Redemption Date or the Autocall Redemption Date.

(d) **Relevant defined terms**

The following terms as used above have the following meanings:

- "**Calculation Amount**" means the amount specified as such in the Final Terms.
- "**Fixed Interest Rate**" means the percentage specified as such in the Final Terms.
- "**Interest Barrier**" means, in respect of an Underlying Asset and an Interest Valuation Date, the Interest Barrier Percentage applicable in respect of such Interest Valuation Date multiplied by the Initial Price of such Underlying Asset.
- "**Interest Barrier Percentage**" means, in relation to an Interest Valuation Date, the relevant percentage specified as such in the Final Terms.
- "**Interest Payment Condition**" means, in respect of an Interest Valuation Date:
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset', the Valuation Price of the Underlying Asset on such Interest Valuation Date is at or above the corresponding Interest Barrier;
or

- (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of', the Valuation Price of every Underlying Asset on such Interest Valuation Date is at or above its corresponding Interest Barrier.
- **"Interest Payment Date"** means, in relation to an Interest Valuation Date, the corresponding date specified in the Final Terms, subject to adjustment in accordance with the Business Day Convention (if applicable).
- **"Interest Valuation Date"** means each date specified as such in the Final Terms, or, if such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Valuation Price"** means, in respect of any relevant Scheduled Trading Day and an Underlying Asset, the price or level of such Underlying Asset at the Valuation Time on such day.
- **"Valuation Time"** means, in respect of an Underlying Asset, the time specified as such in the Final Terms or, if no such time is specified,
 - (i) if the Underlying Asset is not specified to be a Multi-exchange Index in the Final Terms, the Scheduled Closing Time on the relevant Exchange on the Interest Valuation Date, in relation to such Underlying Asset. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.
 - (ii) if the Underlying Asset is specified to be a Multi-exchange Index in the Final Terms (a) for the purposes of determining whether a Market Disruption Event has occurred: (i) in respect of any Component, the Scheduled Closing Time on the Exchange in respect of such Component, and (ii) in respect of any options contracts or future contracts on the relevant Index, the close of trading on the Related Exchange; and (b) in all other circumstances, the time at which the official closing level of the relevant Index is calculated and published by the Index Sponsor.

6.6 Phoenix with memory

- **"Calculation Amount"** means the amount specified as such in the Final Terms.
- **"Fixed Interest Rate"** means the percentage specified as such in the Final Terms.

- **"Initial Valuation Date"** means, in respect of an Underlying Asset, the date specified for such Underlying Asset in the Final Terms, provided that:
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset' and such date is not a Scheduled Trading Day, the Initial Valuation Date shall be the next following Scheduled Trading Day; or
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of' and (A) 'Initial Valuation Date: Individual Pricing', if such date is not a Scheduled Trading Day in respect of that Underlying Asset, the Initial Valuation Date in respect of that Underlying Asset shall be the next following Scheduled Trading Day in respect of that Underlying Asset; or (B) 'Initial Valuation Date: Common Pricing', if such day is not also a Common Scheduled Trading Day, the Initial Valuation Date in respect of each Underlying Asset shall be the next following Common Scheduled Trading Day.
- **"Interest Barrier"** means, in respect of an Underlying Asset and an Interest Observation Period ending on an Interest Valuation Date, the Interest Barrier Percentage applicable in respect of such Interest Observation Period multiplied by the Initial Price of such Underlying Asset.
- **"Interest Barrier Percentage"** means, in relation to an Interest Observation Period ending on an Interest Valuation Date, the relevant percentage specified as such in the Final Terms.
- **"Interest Observation Period"** means each period from but excluding one Interest Valuation Date to and including the immediately following Interest Valuation Date except for the first Interest Observation Period which shall commence on, but exclude, the Initial Valuation Date (or, where there is more than one Initial Valuation Date, the latest Initial Valuation Date to occur) and end on, and include, the first Interest Valuation Date.
- **"Interest Payment Condition"** means, in respect of an Interest Observation Period ending on an Interest Valuation Date:
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset', the market price or level of the Underlying Asset is at or above the corresponding Interest Barrier at any time on any Observation Date during such Interest Observation Period; or
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of', the market price or level of every Underlying Asset is at or above its corresponding Interest Barrier at any time on any Observation Date during such Interest Observation Period.
- **"Interest Payment Date"** means, in relation to an Interest Valuation Date, the corresponding date specified in the Final Terms, subject to adjustment in accordance with the Business Day Convention (if applicable).
- **"Interest Valuation Date"** means each date specified as such in the Final Terms, or, if such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Observation Date"** means, in respect of an Interest Observation Period, each date specified as such in the Final Terms, or, where no such dates are specified, each Scheduled Trading Day in such Interest Observation Period, or, in either case if such date is not a Scheduled Trading Day (if the Final Terms specifies

the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.

6.10 Phoenix One Touch – Continuous with memory

(a) Interest Type and Application

Where the Final Terms specifies 'Interest Type' to be 'Phoenix One Touch – Continuous with memory', then this General Condition 6.10 will apply to Securities.

(b) Interest Amount

(i) If the Determination Agent determines that the Interest Payment Condition is satisfied during the relevant Interest Observation Period, the "**Interest Amount**" per Calculation Amount payable on the related Interest Payment Date in respect of the Interest Valuation Date falling at the end of such Interest Observation Period shall be calculated as follows:

$$[\text{Fixed Interest Rate} \times \text{Calculation Amount}] + [Y \times \text{Fixed Interest Rate} \times \text{Calculation Amount}]$$

(ii) Otherwise, no interest amount is payable on such Interest Payment Date.

The Interest Amount payable on each Interest Payment Date (if any) shall be subject to neither of the following having occurred prior to the corresponding Interest Valuation Date: (i) an Automatic Redemption (Autocall) Event, or (ii) any other redemption or purchase and cancellation of the Securities.

(c) Relevant defined terms

The following terms as used above have the following meanings:

- "**Calculation Amount**" means the amount specified as such in the Final Terms.
- "**Fixed Interest Rate**" means the percentage specified as such in the Final Terms.
- "**Initial Valuation Date**" means, in respect of an Underlying Asset, the date specified for such Underlying Asset in the Final Terms, provided that:
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset' and such date is not a Scheduled Trading Day, the Initial Valuation Date shall be the next following Scheduled Trading Day; or
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of' and (A) 'Initial Valuation Date: Individual Pricing', if such date is not a Scheduled Trading Day in respect of that Underlying Asset, the Initial Valuation Date in respect of that Underlying Asset shall be the next following Scheduled Trading Day in respect of that Underlying Asset; or (B) 'Initial Valuation Date: Common Pricing', if such day is not also a Common Scheduled Trading Day, the Initial Valuation Date in respect of each Underlying Asset shall be the next following Common Scheduled Trading Day.
- "**Interest Barrier**" means, in respect of an Underlying Asset and an Interest Observation Period ending on an Interest Valuation Date, the Interest Barrier Percentage applicable in respect of such Interest Observation Period multiplied by the Initial Price of such Underlying Asset.

- **"Interest Barrier Percentage"** means, in relation to an Interest Observation Period ending on an Interest Valuation Date, the relevant percentage specified as such in the Final Terms.
- **"Interest Observation Period"** means each period from but excluding one Interest Valuation Date to and including the immediately following Interest Valuation Date except for the first Interest Observation Period which shall commence on, but exclude, the Initial Valuation Date (or, where there is more than one Initial Valuation Date, the latest Initial Valuation Date to occur) and end on, and include, the first Interest Valuation Date.
- **"Interest Payment Condition"** means, in respect of an Interest Observation Period ending on an Interest Valuation Date:
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset', the market price or level of the Underlying Asset is at or above the corresponding Interest Barrier at any time on any Observation Date during such Interest Observation Period; or
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of', the market price or level of every Underlying Asset is at or above its corresponding Interest Barrier at any time on any Observation Date during such Interest Observation Period.
- **"Interest Payment Date"** means, in relation to an Interest Valuation Date, the corresponding date specified in the Final Terms, subject to adjustment in accordance with the Business Day Convention (if applicable).
- **"Interest Valuation Date"** means each date specified as such in the Final Terms, or, if such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Observation Date"** means, in respect of an Interest Observation Period, each date specified as such in the Final Terms, or, where no such dates are specified, each Scheduled Trading Day in such Interest Observation Period, or, in either case if such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Y"** means the number of previous Interest Valuation Dates in respect of which no interest was payable (after which interest shall be considered to have been payable in respect of such previous Interest Valuation Date(s)).

6.11 Phoenix No Touch – Daily without memory

(a) Interest Type and Application

Where the Final Terms specifies 'Interest Type' to be 'Phoenix No Touch – Daily without memory', then this General Condition 6.11 will apply to the Securities.

(b) Interest Amount

- (i) If a 'No Interest Event' occurs during the relevant Interest Observation Period: no interest is payable on the related Interest Payment Date falling at the end of such Interest Observation Period;

- (ii) Otherwise, the "**Interest Amount**" per Calculation Amount payable on such Interest Payment Date shall be calculated as follows:

$$\text{Fixed Interest Rate} \times \text{Calculation Amount}$$

The Interest Amount payable on an Interest Payment Date (if any) shall be subject to neither of the following having occurred prior to the corresponding Interest Valuation Date: (i) an Automatic Redemption (Autocall) Event, or (ii) any other redemption or purchase and cancellation of the Securities.

(c) **Relevant defined terms**

The following terms as used above have the following meanings:

- "**Calculation Amount**" means the amount specified as such in the Final Terms.
- "**Fixed Interest Rate**" means the percentage specified as such in the Final Terms.
- "**Initial Valuation Date**" means, in respect of an Underlying Asset, the date specified for such Underlying Asset in the Final Terms, provided that:
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset' and such date is not a Scheduled Trading Day, the Initial Valuation Date shall be the next following Scheduled Trading Day; or
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of' and (A) 'Initial Valuation Date: Individual Pricing', if such date is not a Scheduled Trading Day in respect of that Underlying Asset, the Initial Valuation Date in respect of that Underlying Asset shall be the next following Scheduled Trading Day in respect of that Underlying Asset; or (B) 'Initial Valuation Date: Common Pricing', if such day is not also a Common Scheduled Trading Day, the Initial Valuation Date in respect of each Underlying Asset shall be the next following Common Scheduled Trading Day.
- "**Interest Barrier**" means, in respect of an Underlying Asset and an Interest Observation Period ending on an Interest Valuation Date, the Interest Barrier Percentage applicable in respect of such Interest Observation Period multiplied by the Initial Price of such Underlying Asset.
- "**Interest Barrier Percentage**" means, in relation to an Interest Observation Period ending on an Interest Valuation Date, the relevant percentage specified as such in the Final Terms.
- "**Interest Observation Period**" means each period from but excluding one Interest Valuation Date to and including the immediately following Interest Valuation Date except for the first Interest Observation Period which shall commence on, but exclude, the Initial Valuation Date (or, where there is more than one Initial Valuation Date, the latest Initial Valuation Date to occur) and end on, and include, the first Interest Valuation Date.
- "**Interest Payment Date**" means, in relation to an Interest Valuation Date, the corresponding date specified in the Final Terms, subject to adjustment in accordance with the Business Day Convention (if applicable).
- "**Interest Valuation Date**" means each date specified as such in the Final Terms, or, if such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying

Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.

- **"No Interest Event"** means, in respect of an Interest Observation Period ending on an Interest Valuation Date:
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset', the Valuation Price of the Underlying Asset is below the corresponding Interest Barrier on any Scheduled Trading Day during such Interest Observation Period; or
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of', the Valuation Price of any Underlying Asset is below its corresponding Interest Barrier on any Scheduled Trading Day during such Interest Observation Period.
- **"Valuation Price"** means, in respect of any relevant Scheduled Trading Day and an Underlying Asset, the price or level of such Underlying Asset at the Valuation Time on such day.
- **"Valuation Time"** means, in respect of an Underlying Asset, the time specified as such in the Final Terms or, if no such time is specified,
 - (i) if the Underlying Asset is not specified to be a Multi-exchange Index in the Final Terms, the Scheduled Closing Time on the relevant Exchange on the relevant Scheduled Trading Day in relation to such Underlying Asset. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.
 - (ii) if the Underlying Asset is specified to be a Multi-exchange Index in the Final Terms (a) for the purposes of determining whether a Market Disruption Event has occurred: (i) in respect of any Component, the Scheduled Closing Time on the Exchange in respect of such Component, and (ii) in respect of any options contracts or future contracts on the relevant Index, the close of trading on the Related Exchange; and (b) in all other circumstances, the time at which the official closing level of the relevant Index is calculated and published by the Index Sponsor.

6.12 **Phoenix No Touch – Daily with memory**

(a) **Interest Type and Application**

Where the Final Terms specifies 'Interest Type' to be 'Phoenix No Touch – Daily with memory', then this General Condition 6.12 will apply to the Securities.

(b) **Interest Amount**

- (i) If a 'No Interest Event' occurs during the relevant Interest Observation Period, no interest amount is payable on the related Interest Payment Date falling at the end of such Interest Observation Period;
- (ii) Otherwise, the **"Interest Amount"** per Calculation Amount payable on such Interest Payment Date shall be calculated as follows:

$$[\text{Fixed Interest Rate} \times \text{Calculation Amount}] + [Y \times \text{Fixed Interest Rate} \times \text{Calculation Amount}]$$

The Interest Amount payable on an Interest Payment Date (if any) shall be subject to neither of the following having occurred prior to the corresponding

Interest Valuation Date: (i) an Automatic Redemption (Autocall) Event, or (ii) any other redemption or purchase and cancellation of the Securities.

(c) **Relevant defined terms**

The following terms as used above have the following meanings:

- **"Calculation Amount"** means the amount specified as such in the Final Terms.

 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset' and such date is not a Scheduled Trading Day, the Initial Valuation Date shall be the next following Scheduled Trading Day; or
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of' and (A) 'Initial Valuation Date: Individual Pricing', if such date is not a Scheduled Trading Day in respect of that Underlying Asset, the Initial Valuation Date in respect of that Underlying Asset shall be the next following Scheduled Trading Day in respect of that Underlying Asset; or (B) 'Initial Valuation Date: Common Pricing', if such day is not also a Common Scheduled Trading Day, the Initial Valuation Date in respect of each Underlying Asset shall be the next following Common Scheduled Trading Day.
- **"Interest Barrier"** means, in respect of an Underlying Asset and an Interest Observation Period ending on an Interest Valuation Date, the Interest Barrier Percentage applicable in respect of such Interest Observation Period multiplied by the Initial Price of such Underlying Asset.
- **"Interest Barrier Percentage"** means, in relation to an Interest Observation Period ending on an Interest Valuation Date, the relevant percentage specified as such in the Final Terms.
- **"Interest Observation Period"** means each period from but excluding one Interest Valuation Date to and including the immediately following Interest Valuation Date except for the first Interest Observation Period which shall commence on, but exclude, the Initial Valuation Date (or, where there is more than one Initial Valuation Date, the latest Initial Valuation Date to occur) and end on, and include, the first Interest Valuation Date.
- **"Interest Payment Date"** means, in relation to an Interest Valuation Date, the corresponding date specified in the Final Terms, subject to adjustment in accordance with the Business Day Convention (if applicable).
- **"Interest Valuation Date"** means each date specified as such in the Final Terms, or, if such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"No Interest Event"** means, in respect of an Interest Valuation Date and an Interest Observation Period ending on an Interest Valuation Date:
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset', the market price or level of the Underlying Asset is below the corresponding Interest Barrier at any time on any Scheduled Trading Day during such Interest Observation Period; or
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of', the market price or level of any Underlying Asset is below its

corresponding Interest Barrier at any time on any Scheduled Trading Day during such Interest Observation Period.

6.14 **Phoenix No Touch – Continuous with memory**

(a) **Interest Type and Application**

Where the Final Terms specifies 'Interest Type' to be 'Phoenix One Touch – Continuous with memory', then this General Condition 6.14 will apply to the Securities.

(b) **Interest Amount**

- (i) if a 'No Interest Event' occurs during the relevant Interest Observation Period, no interest amount is payable on the related Interest Payment Date falling at the end of such Interest Observation Period ;
- (ii) otherwise, the "**Interest Amount**" per Calculation Amount payable on such Interest Payment Date shall be calculated as follows:

$$[\text{Fixed Interest Rate} \times \text{Calculation Amount}] + [Y \times \text{Fixed Interest Rate} \times \text{Calculation Amount}]$$

The Interest Amount payable on an Interest Payment Date (if any) shall be subject to neither of the following having occurred prior to the corresponding Interest Valuation Date: (i) an Automatic Redemption (Autocall) Event, or (ii) any other redemption or purchase and cancellation of the Securities.

(c) **Relevant defined terms**

The following terms as used above have the following meanings:

- "**Calculation Amount**" means the amount specified as such in the Final Terms.
- "**Fixed Interest Rate**" means the percentage specified as such in the Final Terms.
- "**Initial Valuation Date**" means, in respect of an Underlying Asset, the date specified for such Underlying Asset in the Final Terms, provided that:
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset' and such date is not a Scheduled Trading Day, the Initial Valuation Date shall be the next following Scheduled Trading Day; or
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of' and (A) 'Initial Valuation Date: Individual Pricing', if such date is not a Scheduled Trading Day in respect of that Underlying Asset, the Initial Valuation Date in respect of that Underlying Asset shall be the next following Scheduled Trading Day in respect of that Underlying Asset; or (B) 'Initial Valuation Date: Common Pricing', if such day is not also a Common Scheduled Trading Day, the Initial Valuation Date in respect of each Underlying Asset shall be the next following Common Scheduled Trading Day.
- "**Interest Barrier**" means, in respect of an Underlying Asset and an Interest Observation Period ending on an Interest Valuation Date, the Interest Barrier Percentage applicable in respect of such Interest Observation Period multiplied by the Initial Price of such Underlying Asset.
- "**Interest Barrier Percentage**" means, in relation to an Interest Observation Period ending on an Interest Valuation Date, the relevant percentage specified as such in the Final Terms.

- **"Interest Observation Period"** means each period from but excluding one Interest Valuation Date to and including the immediately following Interest Valuation Date except for the first Interest Observation Period which shall commence on, but exclude, the Initial Valuation Date (or, where there is more than one Initial Valuation Date, the latest Initial Valuation Date to occur) and end on, and include, the first Interest Valuation Date.
- **"Interest Payment Date"** means, in relation to an Interest Valuation Date, the corresponding date specified in the Final Terms, subject to adjustment in accordance with the Business Day Convention (if applicable).
- **"Interest Valuation Date"** means each date specified as such in the Final Terms, or, if such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"No Interest Event"** means, in respect of an Interest Valuation Date and an Interest Observation Period ending on an Interest Valuation Date:
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset', the market price or level of the Underlying Asset is below the corresponding Interest Barrier at any time on any Scheduled Trading Day during such Interest Observation Period; or
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of', the market price or level of any Underlying Asset is below its corresponding Interest Barrier at any time on any Scheduled Trading Day during such Interest Observation Period.
- **"Y"** means the number of previous Interest Valuation Dates in respect of which no interest was payable (after which interest shall be considered to have been payable in respect of such previous Interest Valuation Date(s)).

6.15 **Range Accrual**

(a) **Application**

Where the Final Terms specifies 'Interest Type' to be 'Range Accrual', then this General Condition 6.15 will apply to the Securities.

(b) **Interest Amount**

The **"Interest Amount"** per Calculation Amount payable on an Interest Payment Date shall be calculated on each Interest Valuation Date in respect of the Interest Observation Period ending on such Interest Valuation Date as follows:

$$n/N \times \text{Fixed Interest Rate} \times \text{Calculation Amount}$$

The Interest Amount payable on an Interest Payment Date shall be subject to neither of the following having occurred prior to the corresponding Interest Valuation Date: (i) an Automatic Redemption (Autocall) Event, or (ii) any other redemption or purchase and cancellation of the Securities.

(c) **Relevant defined terms**

The following terms as used above have the following meanings:

- **"Calculation Amount"** means the amount specified as such in the Final Terms.

- **"Fixed Interest Rate"** means the percentage specified as such in the Final Terms.
- **"Initial Valuation Date"** means, in respect of an Underlying Asset, the date specified for such Underlying Asset in the Final Terms, provided that:
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset' and such date is not a Scheduled Trading Day, the Initial Valuation Date shall be the next following Scheduled Trading Day; or
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of' and (A) 'Initial Valuation Date: Individual Pricing', if such date is not a Scheduled Trading Day in respect of that Underlying Asset, the Initial Valuation Date in respect of that Underlying Asset shall be the next following Scheduled Trading Day in respect of that Underlying Asset; or (B) 'Initial Valuation Date: Common Pricing', if such day is not also a Common Scheduled Trading Day, the Initial Valuation Date in respect of each Underlying Asset shall be the next following Common Scheduled Trading Day.
- **"Interest Observation Period"** means each period from but excluding one Interest Valuation Date to and including the immediately following Interest Valuation Date except for the first Interest Observation Period which shall commence on, but exclude, the Initial Valuation Date (or, where there is more than one Initial Valuation Date, the latest Initial Valuation Date to occur) and end on, and include, the first Interest Valuation Date.
- **"Interest Payment Date"** means, in relation to an Interest Valuation Date, the corresponding date specified in the Final Terms, subject to adjustment in accordance with the Business Day Convention (if applicable).
- **"Interest Valuation Date"** means each date specified as such in the Final Terms, or, if such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Lower Barrier"** means, in respect of an Underlying Asset and an Interest Observation Period ending on an Interest Valuation Date, the Lower Barrier Percentage applicable in respect of such Interest Observation Period multiplied by the Initial Price of such Underlying Asset.
- **"Lower Barrier Percentage"** means, in respect of an Interest Observation Period ending on an Interest Valuation Date, the percentage specified (if applicable, as specified for such Interest Valuation Date) as such in the Final Terms.
- **"n"** means:
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset', the number of Observation Dates in the relevant Interest Observation Period that the Valuation Price of the Underlying Asset is:
 - (A) greater than or equal to the corresponding Lower Barrier; and
 - (B) if the Final Terms specifies 'Upper Barrier' to be 'Applicable': less than or equal to the corresponding Upper Barrier; or
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of', the number of Observation Dates in the relevant Interest

Observation Period that the Valuation Price of every Underlying Asset is:

- (A) greater than or equal to its corresponding Lower Barrier; and
 - (B) if the Final Terms specifies 'Upper Barrier' to be 'Applicable': less than or equal to its corresponding Upper Barrier.
- "N" means the number of scheduled Observation Dates in the relevant Interest Observation Period.
 - "**Observation Date**" means, in respect of an Interest Observation Period, each date specified as such in the Final Terms, or, where no such dates are specified, each Scheduled Trading Day in such Interest Observation Period, or, in either case if such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
 - "**Upper Barrier**" means, if applicable, in respect of an Underlying Asset and an Interest Observation Period ending on an Interest Valuation Date, the Upper Barrier Percentage applicable in respect of such Interest Observation Period multiplied by the Initial Price of such Underlying Asset.
 - "**Upper Barrier Percentage**" means, if applicable, in respect of an Interest Observation Period ending on an Interest Valuation Date, the percentage specified (if applicable, as specified for such Interest Valuation Date) as such in the Final Terms.
 - "**Valuation Price**" means, in respect of any relevant Scheduled Trading Day and an Underlying Asset, the price or level of such Underlying Asset at the Valuation Time on such day.
 - "**Valuation Time**" means, in respect of an Underlying Asset, the time specified as such in the Final Terms or, if no such time is specified,
 - (i) if the Underlying Asset is not specified to be a Multi-exchange Index in the Final Terms, the Scheduled Closing Time on the relevant Exchange on the relevant Observation Date in relation to such Underlying Asset. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.
 - (ii) if the Underlying Asset is specified to be a Multi-exchange Index in the Final Terms (a) for the purposes of determining whether a Market Disruption Event has occurred: (i) in respect of any Component, the Scheduled Closing Time on the Exchange in respect of such Component, and (ii) in respect of any options contracts or future contracts on the relevant Index, the close of trading on the Related Exchange; and (b) in all other circumstances, the time at which the official closing level of the relevant Index is calculated and published by the Index Sponsor.

6.16 **Knock-out**

(a) **Interest Type and Application**

Where the Final Terms specifies 'Interest Type' to be 'Knock-out', then this General Condition 6.16 will apply to the Securities.

(b) **Interest Amount**

- (i) If a Knock-out has not occurred in relation to the relevant Interest Valuation Date, the "**Interest Amount**" per Calculation Amount payable with respect to the related Interest Valuation Date shall be calculated as follows:

$$\text{Fixed Interest Rate} \times \text{Calculation Amount}$$

- (ii) otherwise, no interest amount is payable on such Interest Payment Date.

The Interest Amount payable with respect to an Interest Valuation Date (if any) shall be subject to neither of the following having occurred prior to such Interest Valuation Date: (i) an Automatic Redemption (Autocall) Event, or (ii) any other redemption or purchase and cancellation of the Securities.

(c) **Relevant defined terms**

For the purposes of this General Condition 6.16, the following terms as used above have the following meanings (and any other defined terms shall have the meaning set out in General Condition 35.1 (*Definitions*)):

- "**Calculation Amount**" means the amount specified as such in the Final Terms.
- "**Fixed Interest Rate**" means the percentage specified as such in the Final Terms.
- "**Initial Valuation Date**" means, in respect of an Underlying Asset, the date specified for such Underlying Asset in the Final Terms, provided that:
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset' and such date is not a Scheduled Trading Day, the Initial Valuation Date shall be the next following Scheduled Trading Day; or
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of' and (A) 'Initial Valuation Date: Individual Pricing', if such date is not a Scheduled Trading Day in respect of that Underlying Asset, the Initial Valuation Date in respect of that Underlying Asset shall be the next following Scheduled Trading Day in respect of that Underlying Asset; or (B) 'Initial Valuation Date: Common Pricing', if such day is not also a Common Scheduled Trading Day, the Initial Valuation Date in respect of each Underlying Asset shall be the next following Common Scheduled Trading Day.
- "**Interest Payment Date**" means, in relation to an Interest Valuation Date, the corresponding date specified in the Final Terms, subject to adjustment in accordance with the Business Day Convention (if applicable).
- "**Interest Valuation Date**" means each date specified as such in the Final Terms, or, if such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- "**Knock-out**" means, in respect of an Interest Valuation Date:
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset', the Valuation Price of the Underlying Asset is less than the Knock-out Barrier on any Scheduled Trading Day from (but excluding) the Initial Valuation Date to (and including) such Interest Valuation Date;
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of', the Valuation Price of any Underlying Asset is less than its

Knock-out Barrier on any Scheduled Trading Day from (but excluding) the Initial Valuation Date to (and including) such Interest Valuation Date.

- **"Knock-out Barrier"** means, in respect of an Underlying Asset, the Knock-out Barrier Percentage multiplied by the Initial Price of such Underlying Asset.
- **"Knock-out Barrier Percentage"** means the percentage specified as such in the Final Terms.
- **"Valuation Price"** means, in respect of any relevant Scheduled Trading Day and an Underlying Asset, the price or level of such Underlying Asset at the Valuation Time on such day.
- **"Valuation Time"** means, in respect of an Underlying Asset, the time specified as such in the Final Terms or, if no such time is specified,
 - (i) if the Underlying Asset is not specified to be a Multi-exchange Index in the Final Terms, the Scheduled Closing Time on the relevant Exchange on the relevant Scheduled Trading Day, in relation to such Underlying Asset. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.
 - (ii) if the Underlying Asset is specified to be a Multi-exchange Index in the Final Terms (a) for the purposes of determining whether a Market Disruption Event has occurred: (i) in respect of any Component, the Scheduled Closing Time on the Exchange in respect of such Component, and (ii) in respect of any options contracts or future contracts on the relevant Index, the close of trading on the Related Exchange; and (b) in all other circumstances, the time at which the official closing level of the relevant Index is calculated and published by the Index Sponsor.

7. Automatic Redemption (Autocall)

7.1 Application

This General Condition 7 applies to all Securities for which the Final Terms specifies 'Automatic Redemption (Autocall)' to be 'Applicable'.

7.2 Autocall Cash Settlement Amount following an Automatic Redemption (Autocall) Event

If an Automatic Redemption (Autocall) Event occurs on an Autocall Valuation Date, then, provided that no redemption or purchase and cancellation of the Securities has occurred prior to the relevant Autocall Redemption Date, each Security will be redeemed (in whole) on the Autocall Redemption Date corresponding to such Autocall Valuation Date at a cash amount per Calculation Amount in the Settlement Currency, determined in accordance with the following (the "**Autocall Cash Settlement Amount**"):

$$100\% \times \text{Calculation Amount}$$

7.3 Relevant defined terms

The following terms as used above have the following meanings:

- **"Autocall Barrier"** means, in respect of an Underlying Asset and an Autocall Valuation Date, the Autocall Barrier Percentage applicable in respect of such Autocall Valuation Date multiplied by the Initial Price of such Underlying Asset.
- **"Autocall Barrier Percentage"** means, in relation to an Autocall Valuation Date, the relevant percentage specified as such in the Final Terms.

- **"Automatic Redemption (Autocall) Event"** means, in respect of an Autocall Valuation Date:
 - (a) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset', the Valuation Price of the Underlying Asset on such Autocall Valuation Date is at or above the corresponding Autocall Barrier; or
 - (b) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of', the Valuation Price of every Underlying Asset on such Autocall Valuation Date is at or above its corresponding Autocall Barrier.
- **"Autocall Redemption Date"** means each date specified as such in the Final Terms.
- **"Autocall Valuation Date"** means each date specified as such in the Final Terms, or, if such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Averaging-in Dates"** means, if the Final Terms specifies 'Averaging-in' to be 'Applicable', each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Calculation Amount"** means the amount specified as such in the Final Terms.
- **"Initial Price"** means, in respect of an Underlying Asset:
 - (a) if the Final Terms specifies 'Averaging-in' to be 'Applicable', the arithmetic average of the Valuation Prices of such Underlying Asset on each of the Averaging-in Dates; or
 - (b) if the Final Terms specifies 'Min Lookback-in' to be 'Applicable', the minimum Valuation Price of such Underlying Asset observed on each of the Lookback-in Dates; or
 - (c) if the Final Terms specifies 'Max Lookback-in' to be 'Applicable', the maximum Valuation Price of such Underlying Asset observed on each of the Lookback-in Dates; or
 - (d) if the Final Terms specifies a price or level for such Underlying Asset, such price or level; or
 - (e) if none of items (a) to (d) applies, the Valuation Price of such Underlying Asset on the Initial Valuation Date.
- **"Initial Valuation Date"** means, in respect of an Underlying Asset, the date specified for such Underlying Asset in the Final Terms, provided that:
 - (a) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset' and such date is not a Scheduled Trading Day, the Initial Valuation Date shall be the next following Scheduled Trading Day; or
 - (b) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of' and (i) 'Initial Valuation Date: Individual Pricing', if such date is not a Scheduled Trading Day in respect of that Underlying Asset, the Initial Valuation Date in respect of that Underlying Asset shall be the next following Scheduled Trading Day in respect of that Underlying Asset; or (ii) 'Initial Valuation Date: Common Pricing', if such day is not also a Common Scheduled Trading Day,

the Initial Valuation Date in respect of each Underlying Asset shall be the next following Common Scheduled Trading Day.

- **"Lookback-in Dates"** means, if either 'Max Lookback-in' or 'Min Lookback-in' is applicable, each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Valuation Price"** means, in respect of any relevant Scheduled Trading Day and an Underlying Asset, the price or level of such Underlying Asset at the Valuation Time on such day.
- **"Valuation Time"** means, in respect of an Underlying Asset, the time specified as such in the Final Terms or, if no such time is specified,
 - (a) if the Underlying Asset is not specified to be a Multi-exchange Index in the Final Terms, the Scheduled Closing Time on the relevant Exchange on the Valuation Date, Lookback Date or Averaging Date, as the case may be, in relation to such Underlying Asset. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.
 - (b) if the Underlying Asset is specified to be a Multi-exchange Index in the Final Terms (a) for the purposes of determining whether a Market Disruption Event has occurred: (i) in respect of any Component, the Scheduled Closing Time on the Exchange in respect of such Component, and (ii) in respect of any options contracts or future contracts on the relevant Index, the close of trading on the Related Exchange; and (b) in all other circumstances, the time at which the official closing level of the relevant Index is calculated and published by the Index Sponsor.

8. **Final redemption**

(a) **Redemption Type**

The Final Terms will indicate whether the Redemption Type that the Securities will pay is:

- Vanilla Barrier;
- European Barrier;
- American Barrier;
- Call;
- Bull-Bear – European Barrier;
- Bull-Bear – American Barrier; or
- Put Spread.

(b) **Certain information to be found in the Final Terms**

The Final Terms will contain provisions applicable to the final redemption provisions and must be read in conjunction with this General Condition 8 for full information on the manner in which the Final Cash Settlement Amount will be calculated. In particular, the Final Terms will specify the following information items where relevant to the particular Securities:

- the Calculation Amount;
- the Vanilla Barrier Type;
- the American Barrier Type;
- the Lower Strike Price Percentage;

- the Strike Price Percentage;
- the Initial Valuation Date;
- the Final Valuation Date;
- the Knock-in Barrier Percentage;
- the Final Barrier Percentage;
- the Knock-in Barrier Period Start Date;
- the Knock-in Barrier Period End Date;
- the Lookback-in Dates;
- the Lookback-out Dates;
- the Averaging-in Dates;
- the Averaging-out Dates;
- the Underlying Performance Type;
- whether the Trigger Event Type is 'Daily' or 'Continuous';
- the Cap; and
- the Participation.

(c) **Application of cash proceeds to purchase and deliver Underlying Asset Provisions**

If the relevant final redemption provision in General Condition 8 provides that 'Application of cash proceeds to purchase and deliver Underlying Asset Provisions' apply, rather than pay the applicable Final Cash Settlement Amount to the Holders, the Issuer shall instead redeem each Security on the Scheduled Redemption Date by applying the Final Cash Settlement Amount to purchase Underlying Asset(s) in an amount equal to the Final Physical Delivery Entitlement and delivering such amount to Holders (subject to General Condition 5 (*Settlement*)), together with paying the Residual Cash Amount (if any) to Holders.

The following terms used above have the following meaning:

- **"Final Physical Delivery Entitlement"** means, in respect of an Underlying Asset, the number of units of such Underlying Asset equal to:
 - (i) if the Settlement Currency is the same as the Underlying Asset Currency, the Final Cash Settlement Amount divided by the Final Valuation Price; or
 - (ii) if the Settlement Currency is not the same as the Underlying Asset Currency, the Final Cash Settlement Amount multiplied by the Entitlement Exchange Rate and further divided by the Final Valuation Price,

provided that any resulting fraction of an Underlying Asset (the **"Fractional Amount"**) shall be excluded from the Final Physical Delivery Entitlement.

- **"Residual Cash Amount"** means a cash amount in the Settlement Currency rounded to the nearest unit of such currency equal to the Fractional Amount (expressed as a decimal amount) resulting from the calculation of the related Final Physical Delivery Entitlement multiplied by the Final Valuation Price of the Underlying Asset (if applicable, converted to the Settlement Currency at the Entitlement Exchange Rate).

8.1 **Vanilla Barrier**

(a) **Application**

This General Condition 8.1 applies only to those Securities for which the Final Terms specifies the 'Redemption Type' to be 'Vanilla Barrier'.

(b) **Cash Settlement**

If the Final Terms specifies 'Settlement Method' to be 'Cash', then provided that neither an Automatic Redemption (Autocall) Event nor any other redemption or purchase and cancellation of the Securities has occurred prior to the Scheduled Redemption Date, each Security will be redeemed by the Issuer on the Scheduled Redemption Date at the "**Final Cash Settlement Amount**" which will be a cash amount per Calculation Amount in the Settlement Currency determined in accordance with the following:

(i) if:

(A) the Final Terms specifies 'Vanilla Barrier Type' to be 'Autocall' and:

- (1) Final Valuation Price \geq Final Barrier; OR
- (2) Final Valuation Price \geq Strike Price,

OR

(B) the Final Terms specifies 'Vanilla Barrier Type' to be 'Reverse Convertible' and:

- (1) Final Valuation Price \geq Strike Price,

then:

$$100\% \times \text{Calculation Amount}$$

(ii) otherwise:

$$\left(\frac{\text{Final Valuation Price}}{\text{Strike Price}} \right) \times \text{Calculation Amount}$$

(c) **Cash or Physical Settlement**

If the Final Terms specifies 'Settlement Method' to be 'Cash or Physical', then provided that neither an Automatic Redemption (Autocall) Event nor any other redemption or purchase and cancellation of the Securities has occurred prior to the Scheduled Redemption Date, each Security will be redeemed by the Issuer on the Scheduled Redemption Date by payment of the Final Cash Settlement Amount, determined in accordance with the following:

(i) if:

(A) the Final Terms specifies 'Vanilla Barrier Type' to be 'Autocall' and:

- (1) Final Valuation Price \geq Final Barrier; OR
- (2) Final Valuation Price \geq Strike Price,

OR

(B) the Final Terms specifies 'Vanilla Barrier Type' to be 'Reverse Convertible' and:

- (1) Final Valuation Price \geq Strike Price,

then, the Issuer will pay the Final Cash Settlement Amount, which will be a cash amount per Calculation Amount in the Settlement Currency equal to:

$$100\% \times \text{Calculation Amount}$$

(ii) otherwise, the Issuer will pay the Final Cash Settlement Amount, which amount will be a cash amount per Calculation Amount in the Settlement Currency

determined in accordance with the following, subject to the Application of cash proceeds to purchase and deliver the Underlying Asset Provisions:

$$\left(\frac{\text{Final Valuation Price}}{\text{Strike Price}} \right) \times \text{Calculation Amount}$$

(d) **Underlying Performance Type: 'Single Asset' or 'Worst-of'**

- (i) If the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset': the Final Barrier (if applicable), Final Valuation Price and Strike Price to be considered for the purposes of paragraphs (b) and (c) above shall be, as applicable, the Final Barrier, Final Valuation Price or Strike Price of the sole Underlying Asset.

OR

- (ii) If the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of': the Final Barrier (if applicable), Final Physical Delivery Entitlement, Final Valuation Price and Strike Price to be considered for the purposes of paragraphs (b) and (c) above shall be, as applicable, the Final Barrier, Final Valuation Price or Strike Price of the Worst Performing Underlying Asset.

(e) **Relevant defined terms**

The following terms as used above have the following meanings:

- "**Averaging-in Dates**" means, if the Final Terms specifies 'Averaging-in' to be 'Applicable', each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- "**Averaging-out Dates**" means, if the Final Terms specifies 'Averaging-out' to be 'Applicable', each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- "**Calculation Amount**" means the amount specified as such in the Final Terms.
- "**Entitlement Exchange Rate**" means the prevailing exchange rate at the Valuation Time on the Final Valuation Date expressed as the number of units of the Underlying Asset Currency equivalent to one unit of the Settlement Currency.
- "**Final Barrier**" means, in respect of an Underlying Asset and the Final Valuation Date, the Final Barrier Percentage multiplied by the Initial Price of such Underlying Asset.
- "**Final Barrier Percentage**" means, in relation to the Final Valuation Date, the relevant percentage specified as such in the Final Terms.
- "**Final Valuation Date**" means the date specified as such in the Final Terms, or, if such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.

- **"Final Valuation Price"** means, in respect of an Underlying Asset:
 - (i) if the Final Terms specifies 'Averaging-out' to be 'Applicable', the arithmetic average of the Valuation Prices of such Underlying Asset on each of the Averaging-out Dates; or
 - (ii) if the Final Terms specifies 'Min Lookback-out' to be 'Applicable', the minimum Valuation Price of such Underlying Asset observed on each of the Lookback-out Dates; or
 - (iii) if the Final Terms specifies 'Max Lookback-out' to be 'Applicable', the maximum Valuation Price of such Underlying Asset observed on each of the Lookback-out Dates; or
 - (iv) if none of items (i) to (iii) applies, the Valuation Price of such Underlying Asset on the Final Valuation Date.

- **"Initial Price"** means, in respect of an Underlying Asset:
 - (i) if the Final Terms specifies 'Averaging-in' to be 'Applicable', the arithmetic average of the Valuation Prices of such Underlying Asset on each of the Averaging-in Dates; or
 - (ii) if the Final Terms specifies 'Min Lookback-in' to be 'Applicable', the minimum Valuation Price of such Underlying Asset observed on each of the Lookback-in Dates; or
 - (iii) if the Final Terms specifies 'Max Lookback-in' to be 'Applicable', the maximum Valuation Price of such Underlying Asset observed on each of the Lookback-in Dates; or
 - (iv) if the Final Terms specifies a price or level for such Underlying Asset, such price or level; or
 - (v) if none of items (i) to (iv) applies, the Valuation Price of such Underlying Asset on the Initial Valuation Date.

- **"Initial Valuation Date"** means, in respect of an Underlying Asset, the date specified for such Underlying Asset in the Final Terms; provided that:
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset' and such date is not a Scheduled Trading Day, the Initial Valuation Date shall be the next following Scheduled Trading Day; or
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of' and (A) 'Initial Valuation Date: Individual Pricing', if such date is not a Scheduled Trading Day in respect of that Underlying Asset, the Initial Valuation Date in respect of that Underlying Asset shall be the next following Scheduled Trading Day in respect of that Underlying Asset; or (B) 'Initial Valuation Date: Common Pricing', if such day is not also a Common Scheduled Trading Day, the Initial Valuation Date in respect of each Underlying Asset shall be the next following Common Scheduled Trading Day.

- **"Lookback-in Dates"** means, if either 'Max Lookback-in' or 'Min Lookback-in' is applicable, each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.

- **"Lookback-out Dates"** means, if either 'Max Lookback-out' or 'Min Lookback-out' is applicable, each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Strike Price"** means, in respect of an Underlying Asset, the Strike Price Percentage multiplied by the Initial Price of such Underlying Asset.
- **"Strike Price Percentage"** means the percentage specified as such in the Final Terms.
- Symbol "≥" means greater than or equal to. For example, $X \geq Y$ means component X is greater than or equal to component Y.
- **"Valuation Price"** means, in respect of any relevant Scheduled Trading Day and an Underlying Asset, the price or level of such Underlying Asset at the Valuation Time on such day.
- **"Valuation Time"** means, in respect of an Underlying Asset, the time specified as such in the Final Terms or, if no such time is specified,
 - (i) if the Underlying Asset is not specified to be a Multi-exchange Index in the Final Terms, the Scheduled Closing Time on the relevant Exchange on the Valuation Date, Lookback Date or Averaging Date, as the case may be, in relation to such Underlying Asset. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.
 - (ii) if the Underlying Asset is specified to be a Multi-exchange Index in the Final Terms (a) for the purposes of determining whether a Market Disruption Event has occurred: (i) in respect of any Component, the Scheduled Closing Time on the Exchange in respect of such Component, and (ii) in respect of any options contracts or future contracts on the relevant Index, the close of trading on the Related Exchange; and (b) in all other circumstances, the time at which the official closing level of the relevant Index is calculated and published by the Index Sponsor.
- **"Worst Performing Underlying Asset"** means the Underlying Asset with the lowest performance calculated as follows:

$$\frac{V_{\text{Final}}}{V_{\text{Initial}}}$$

where:

" V_{Final} " is the Final Valuation Price of the relevant Underlying Asset; and

" V_{Initial} " is the Initial Price of the relevant Underlying Asset,

provided that where more than one Underlying Asset has the same lowest performance, the Determination Agent shall select which of the Underlying Assets with the same lowest performance shall be the Worst Performing Underlying Asset.

8.2 European Barrier

(a) Application

This General Condition 8.2 applies only to those Securities for which the Final Terms specifies 'Redemption Type' to be 'European Barrier'.

(b) **Cash Settlement**

If the Final Terms specifies 'Settlement Method' to be 'Cash', then provided that neither an Automatic Redemption (Autocall) Event nor any other redemption or purchase and cancellation of the Securities has occurred prior to the Scheduled Redemption Date, each Security will be redeemed by the Issuer on the Scheduled Redemption Date at the "**Final Cash Settlement Amount**" which will be a cash amount per Calculation Amount in the Settlement Currency determined in accordance with the following:

(i) if:

Final Valuation Price \geq Knock-in Barrier Price,

then:

$$100\% \times \text{Calculation Agent}$$

(ii) otherwise:

$$\left(\frac{\text{Final Valuation Price}}{\text{Strike Price}} \right) \times \text{Calculation Amount}$$

(c) **Cash or Physical Settlement**

If the Final Terms specifies 'Settlement Method' to be 'Cash or Physical', then provided that neither an Automatic Redemption (Autocall) Event nor any other redemption or purchase and cancellation of the Securities has occurred prior to the Scheduled Redemption Date, each Security will be redeemed by the Issuer on the Scheduled Redemption Date by payment of the Final Cash Settlement Amount, determined in accordance with the following:

(i) if Final Valuation Price \geq Knock-in Barrier Price,

then, the Issuer will pay the Final Cash Settlement Amount, which will be a cash amount per Calculation Amount in the Settlement Currency equal to:

$$100\% \times \text{Calculation Amount}$$

(ii) otherwise, the Issuer will pay the Final Cash Settlement Amount, which amount will be a cash amount per Calculation Amount in the Settlement Currency determined in accordance with the following, subject to the Application of cash proceeds to purchase and deliver the Underlying Asset Provisions:

$$\left(\frac{\text{Final Valuation Price}}{\text{Strike Price}} \right) \times \text{Calculation Amount}$$

(d) **Underlying Performance Type: 'Single Asset' or 'Worst-of'**

(i) If the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset': the Final Physical Delivery Entitlement, Final Valuation Price, Knock-in Barrier Price and Strike Price to be considered for the purposes of paragraphs (b) and (c) above shall be, as applicable, the Final Physical Delivery Entitlement, Final Valuation Price, Knock-in Barrier Price or Strike Price of the sole Underlying Asset. OR

(ii) If the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of': the Final Physical Delivery Entitlement, Final Valuation Price, Knock-in Barrier Price and Strike Price to be considered for the purposes of paragraphs (b) and (c) above shall be, as applicable, the Final Physical Delivery Entitlement, Final

Valuation Price, Knock-in Barrier Price or Strike Price of the Worst Performing Underlying Asset.

(e) **Relevant defined terms**

The following terms as used above have the following meanings:

- **"Averaging-in Dates"** means, if the Final Terms specifies 'Averaging-in' to be 'Applicable', each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Averaging-out Dates"** means, if the Final Terms specifies 'Averaging-out' to be 'Applicable', each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Calculation Amount"** means the amount specified as such in the Final Terms.
- **"Entitlement Exchange Rate"** means the prevailing exchange rate at the Valuation Time on the Final Valuation Date expressed as the number of units of the Underlying Asset Currency equivalent to one unit of the Settlement Currency.
- **"Final Valuation Date"** means the date specified as such in the Final Terms, or, if such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Final Valuation Price"** means, in respect of an Underlying Asset:
 - (i) if the Final Terms specifies 'Averaging-out' to be 'Applicable', the arithmetic average of the Valuation Prices of such Underlying Asset on each of the Averaging-out Dates; or
 - (ii) if the Final Terms specifies 'Min Lookback-out' to be 'Applicable', the minimum Valuation Price of such Underlying Asset observed on each of the Lookback-out Dates; or
 - (iii) if the Final Terms specifies 'Max Lookback-out' to be 'Applicable', the maximum Valuation Price of such Underlying Asset observed on each of the Lookback-out Dates; or
 - (iv) if none of items (i) to (iii) applies, the Valuation Price of such Underlying Asset on the Final Valuation Date.
- **"Initial Price"** means, in respect of an Underlying Asset:
 - (i) if the Final Terms specifies 'Averaging-in' to be 'Applicable', the arithmetic average of the Valuation Prices of such Underlying Asset on each of the Averaging-in Dates; or

- (ii) if the Final Terms specifies 'Min Lookback-in' to be 'Applicable', the minimum Valuation Price of such Underlying Asset observed on each of the Lookback-in Dates; or
 - (iii) if the Final Terms specifies 'Max Lookback-in' to be 'Applicable', the maximum Valuation Price of such Underlying Asset observed on each of the Lookback-in Dates; or
 - (iv) if the Final Terms specifies a price or level for such Underlying Asset, such price or level; or
 - (v) if none of items (i) to (iv) applies, the Valuation Price of such Underlying Asset on the Initial Valuation Date.
- **"Initial Valuation Date"** means, in respect of an Underlying Asset, the date specified for such Underlying Asset in the Final Terms; provided that:
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset' and such date is not a Scheduled Trading Day, the Initial Valuation Date shall be the next following Scheduled Trading Day; or
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of' and (A) 'Initial Valuation Date: Individual Pricing', if such date is not a Scheduled Trading Day in respect of that Underlying Asset, the Initial Valuation Date in respect of that Underlying Asset shall be the next following Scheduled Trading Day in respect of that Underlying Asset; or (B) 'Initial Valuation Date: Common Pricing', if such day is not also a Common Scheduled Trading Day, the Initial Valuation Date in respect of each Underlying Asset shall be the next following Common Scheduled Trading Day.
- **"Knock-in Barrier Percentage"** means the percentage specified as such in the Final Terms.
- **"Knock-in Barrier Price"** means, in respect of an Underlying Asset, the Knock-in Barrier Percentage multiplied by the Initial Price of such Underlying Asset.
- **"Lookback-in Dates"** means, if either 'Max Lookback-in' or 'Min Lookback-in' is applicable, each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Lookback-out Dates"** means, if either 'Max Lookback-out' or 'Min Lookback-out' is applicable, each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Strike Price"** means, in respect of an Underlying Asset, the Strike Price Percentage multiplied by the Initial Price of such Underlying Asset.
- **"Strike Price Percentage"** means the percentage specified as such in the Final Terms.

- Symbol "≥" means greater than or equal to. For example, $X \geq Y$ means component X is greater than or equal to component Y.
- "**Valuation Price**" means, in respect of any relevant Scheduled Trading Day and an Underlying Asset, the price or level of such Underlying Asset at the Valuation Time on such day.
- "**Valuation Time**" means, in respect of an Underlying Asset, the time specified as such in the Final Terms or, if no such time is specified,
 - (i) if the Underlying Asset is not specified to be a Multi-exchange Index in the Final Terms, the Scheduled Closing Time on the relevant Exchange on the Valuation Date, Lookback Date or Averaging Date, as the case may be, in relation to such Underlying Asset. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.
 - (ii) if the Underlying Asset is specified to be a Multi-exchange Index in the Final Terms (a) for the purposes of determining whether a Market Disruption Event has occurred: (i) in respect of any Component, the Scheduled Closing Time on the Exchange in respect of such Component, and (ii) in respect of any options contracts or future contracts on the relevant Index, the close of trading on the Related Exchange; and (b) in all other circumstances, the time at which the official closing level of the relevant Index is calculated and published by the Index Sponsor.
- "**Worst Performing Underlying Asset**" means the Underlying Asset with the lowest performance calculated as follows:

$$\frac{V_{\text{Final}}}{V_{\text{Initial}}}$$

where:

" V_{Final} " is the Final Valuation Price of the relevant Underlying Asset; and

" V_{Initial} " is the Initial Price of the relevant Underlying Asset,

provided that where more than one Underlying Asset has the same lowest performance, the Determination Agent shall select which of the Underlying Assets with the same lowest performance shall be the Worst Performing Underlying Asset.

8.3 American Barrier

(a) Application

This General Condition 8.3 applies only to those Securities for which the Final Terms specifies the 'Redemption Type' to be 'American Barrier'.

(b) Cash Settlement

If the Final Terms specifies 'Settlement Method' to be 'Cash', then provided that neither an Automatic Redemption (Autocall) Event nor any other redemption or purchase and cancellation of the Securities has occurred prior to the Scheduled Redemption Date, each Security will be redeemed by the Issuer on the Scheduled Redemption Date at the "**Final Cash Settlement Amount**" which will be a cash amount per Calculation Amount in the Settlement Currency determined in accordance with the following:

- (i) if:

(A) if the Final Terms specifies 'American Barrier Type' to be 'Autocall' and:

- (1) Final Valuation Price \geq Final Barrier; OR
- (2) a Trigger Event has not occurred; OR
- (3) Final Valuation Price \geq Strike Price,

OR

(B) the Final Terms specifies 'American Barrier Type' to be 'Reverse Convertible' and:

- (1) a Trigger Event has not occurred; OR
- (2) Final Valuation Price \geq Strike Price,

then:

$$100\% \times \text{Calculation Amount}$$

(ii) otherwise:

$$\left(\frac{\text{Final Valuation Price}}{\text{Strike Price}} \right) \times \text{Calculation Amount}$$

(c) Cash or Physical Settlement

If the Final Terms specifies 'Settlement Method' to be 'Cash or Physical', then provided that neither an Automatic Redemption (Autocall) Event nor any other redemption or purchase and cancellation of the Securities has occurred prior to the Scheduled Redemption Date, each Security will be redeemed by the Issuer on the Scheduled Redemption Date by payment of the Final Cash Settlement Amount, determined in accordance with the following:

(i) if:

(A) if the Final Terms specifies 'American Barrier Type' to be 'Autocall' and:

- (1) Final Valuation Price \geq Final Barrier; OR
- (2) a Trigger Event has not occurred; OR
- (3) Final Valuation Price \geq Strike Price,

OR

(B) the Final Terms specifies 'American Barrier Type' to be 'Reverse Convertible' and:

- (1) a Trigger Event has not occurred; OR
- (2) Final Valuation Price \geq Strike Price,

then, the Issuer will pay the Final Cash Settlement Amount, which will be a cash amount per Calculation Amount in the Settlement Currency equal to:

$$100\% \times \text{Calculation Amount}$$

(ii) otherwise, the Issuer will pay the Final Cash Settlement Amount, which amount will be a cash amount per Calculation Amount in the Settlement Currency

determined in accordance with the following, subject to the Application of cash proceeds to purchase and deliver the Underlying Asset Provisions:

$$\left(\frac{\text{Final Valuation Price}}{\text{Strike Price}} \right) \times \text{Calculation Amount}$$

(d) **Underlying Performance Type: 'Single Asset' or 'Worst-of'**

- (i) If the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset': the Final Barrier (if applicable), Final Physical Delivery Entitlement, Final Valuation Price and Strike Price to be considered for the purposes of paragraphs (b) and (c) above shall be, as applicable, the Final Barrier, Final Physical Delivery Entitlement, Final Valuation Price or Strike Price of the sole Underlying Asset; OR
- (ii) If the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of': the Final Barrier (if applicable), Final Physical Delivery Entitlement, Final Valuation Price and Strike Price to be considered for the purposes of paragraphs (b) and (c) above shall be, as applicable, the Final Barrier, Final Physical Delivery Entitlement, Final Valuation Price or Strike Price of the Worst Performing Underlying Asset.

(e) **Relevant defined terms**

The following terms as used above have the following meanings:

- "**Averaging-in Dates**" means, if the Final Terms specifies 'Averaging-in' to be 'Applicable', each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- "**Averaging-out Dates**" means, if the Final Terms specifies 'Averaging-out' to be 'Applicable', each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- "**Calculation Amount**" means the amount specified as such in the Final Terms.
- "**Entitlement Exchange Rate**" means the prevailing exchange rate at the Valuation Time on the Final Valuation Date expressed as the number of units of the Underlying Asset Currency equivalent to one unit of the Settlement Currency.
- "**Final Barrier**" means, in respect of an Underlying Asset and the Final Valuation Date, the Final Barrier Percentage multiplied by the Initial Price of such Underlying Asset.
- "**Final Barrier Percentage**" means, in relation to the Final Valuation Date, the relevant percentage specified as such in the Final Terms.
- "**Final Valuation Date**" means the date specified as such in the Final Terms, or, if such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to

- be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Final Valuation Price"** means, in respect of an Underlying Asset:
 - (i) if the Final Terms specifies 'Averaging-out' to be 'Applicable', the arithmetic average of the Valuation Prices of such Underlying Asset on each of the Averaging-out Dates; or
 - (ii) if the Final Terms specifies 'Min Lookback-out' to be 'Applicable', the minimum Valuation Price of such Underlying Asset observed on each of the Lookback-out Dates; or
 - (iii) if the Final Terms specifies 'Max Lookback-out' to be 'Applicable', the maximum Valuation Price of such Underlying Asset observed on each of the Lookback-out Dates; or
 - (iv) if none of items (i) to (iii) applies, the Valuation Price of such Underlying Asset on the Final Valuation Date.
 - **"Initial Price"** means, in respect of an Underlying Asset:
 - (i) if the Final Terms specifies 'Averaging-in' to be 'Applicable', the arithmetic average of the Valuation Prices of such Underlying Asset on each of the Averaging-in Dates; or
 - (ii) if the Final Terms specifies 'Min Lookback-in' to be 'Applicable', the minimum Valuation Price of such Underlying Asset observed on each of the Lookback-in Dates; or
 - (iii) if the Final Terms specifies 'Max Lookback-in' to be 'Applicable', the maximum Valuation Price of such Underlying Asset observed on each of the Lookback-in Dates; or
 - (iv) if the Final Terms specifies a price or level for such Underlying Asset, such price or level; or
 - (v) if none of items (i) to (iv) applies, the Valuation Price of such Underlying Asset on the Initial Valuation Date.
 - **"Initial Valuation Date"** means, in respect of an Underlying Asset, the date specified for such Underlying Asset in the Final Terms; provided that,
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset' and such date is not a Scheduled Trading Day, the Initial Valuation Date shall be the next following Scheduled Trading Day; or
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of' and (A) 'Initial Valuation Date: Individual Pricing', if such date is not a Scheduled Trading Day in respect of that Underlying Asset, the Initial Valuation Date in respect of that Underlying Asset shall be the next following Scheduled Trading Day in respect of that Underlying Asset; or (B) 'Initial Valuation Date: Common Pricing', if such day is not also a Common Scheduled Trading Day, the Initial Valuation Date in respect of each Underlying Asset shall be the next following Common Scheduled Trading Day.
 - **"Knock-in Barrier Percentage"** means the percentage specified as such in the Final Terms.
 - **"Knock-in Barrier Period End Date"** means the date specified as such in the Final Terms.

- **"Knock-in Barrier Period Start Date"** means the date specified as such in the Final Terms.
 - **"Knock-in Barrier Price"** means, in respect of an Underlying Asset, the Knock-in Barrier Percentage multiplied by the Initial Price of such Underlying Asset.
 - **"Lookback-in Dates"** means, if either 'Max Lookback-in' or 'Min Lookback-in' is applicable, each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
 - **"Lookback-out Dates"** means, if either 'Max Lookback-out' or 'Min Lookback-out' is applicable, each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
 - **"Strike Price"** means, in respect of an Underlying Asset, the percentage multiplied by the Initial Price of such Underlying Asset.
 - **"Strike Price Percentage"** means the percentage specified as such in the Final Terms.
 - Symbol " \geq " means greater than or equal to. For example, $X \geq Y$ means component X is greater than or equal to component Y.
 - **"Trigger Event"** means:
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset':
 - (A) if the Final Terms specifies the 'Trigger Event Type' to be 'Daily', then a Trigger Event shall be deemed to have occurred if the Valuation Price of the Underlying Asset is below its Knock-in Barrier Price on any Scheduled Trading Day from and including the Knock-in Barrier Period Start Date, to and including the Knock-in Barrier Period End Date; or
 - (B) if the Final Terms specifies the 'Trigger Event Type' to be 'Continuous', then a Trigger Event shall be deemed to have occurred if the market price or level of the Underlying Asset is below its Knock-in Barrier Price at any time on any Scheduled Trading Day from and including the Knock-in Barrier Period Start Date, to and including the Knock-in Barrier Period End Date.
- OR:
- (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of':
 - (A) if the Final Terms specifies the 'Trigger Event Type' to be 'Daily', then a Trigger Event shall be deemed to have occurred if the Valuation Price of any Underlying Asset is below its Knock-in Barrier Price on any Scheduled Trading Day from and including

the Knock-in Barrier Period Start Date, to and including the Knock-in Barrier Period End Date; or

- (B) if the Final Terms specifies the 'Trigger Event Type' to be 'Continuous', then a Trigger Event shall be deemed to have occurred if the market price or level of any Underlying Asset is below its Knock-in Barrier Price at any time on any Scheduled Trading Day from and including the Knock-in Barrier Period Start Date, to and including the Knock-in Barrier Period End Date.
- **"Valuation Price"** means, in respect of any relevant Scheduled Trading Day and an Underlying Asset, the price or level of such Underlying Asset at the Valuation Time on such day.
 - **"Valuation Time"** means, in respect of an Underlying Asset, the time specified as such in the Final Terms or, if no such time is specified,
 - (i) if the Underlying Asset is not specified to be a Multi-exchange Index in the Final Terms, the Scheduled Closing Time on the relevant Exchange on the Valuation Date, Lookback Date or Averaging Date, as the case may be, in relation to such Underlying Asset. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.
 - (ii) if the Underlying Asset is specified to be a Multi-exchange Index in the Final Terms (a) for the purposes of determining whether a Market Disruption Event has occurred: (i) in respect of any Component, the Scheduled Closing Time on the Exchange in respect of such Component, and (ii) in respect of any options contracts or future contracts on the relevant Index, the close of trading on the Related Exchange; and (b) in all other circumstances, the time at which the official closing level of the relevant Index is calculated and published by the Index Sponsor.
 - **"Worst Performing Underlying Asset"** means the Underlying Asset with the lowest performance calculated as follows:

$$\frac{V_{\text{Final}}}{V_{\text{Initial}}}$$

where:

" V_{Final} " is the Final Valuation Price of the relevant Underlying Asset; and

" V_{Initial} " is the Initial Price of the relevant Underlying Asset,

provided that where more than one Underlying Asset has the same lowest performance, the Determination Agent shall select which of the Underlying Assets with the same lowest performance shall be the Worst Performing Underlying Asset.

8.4 Call

(a) Application

This General Condition 8.4 applies only to those Securities for which the Final Terms specifies 'Redemption Type' to be 'Call'.

(b) Cash Settlement

If the Final Terms specifies 'Settlement Method' to be 'Cash', then provided that neither an Automatic Redemption (Autocall) Event nor any other redemption or purchase and

cancellation of the Securities has occurred prior to the Scheduled Redemption Date, each Security will be redeemed by the Issuer on the Scheduled Redemption Date at the "Final Cash Settlement Amount" which will be a cash amount per Calculation Amount in the Settlement Currency determined in accordance with the following:

- (i) if Final Valuation Price \geq Initial Price, then:
 - (A) if the Final Terms specifies 'Cap' to be 'Not Applicable', then:

$$[100\% \times CA] + [Participation \times ((FVP/IP) - 1) \times CA]; \text{ OR}$$
 - (B) if the Final Terms specifies 'Cap' to be 'Applicable', then:

$$[100\% \times CA] + [\text{Min} (Participation \times ((FVP/IP) - 1), \text{Cap}) \times CA]$$
- (ii) otherwise, if:
 - (A) Initial Price $>$ Final Valuation Price; AND
 - (B) Final Valuation Price \geq Strike Price,
 then:

$$100\% \times \text{Calculation Amount}$$
- (iii) otherwise, if Final Valuation Price $<$ Strike Price, then:

$$\left(\frac{\text{Final Valuation Price}}{\text{Strike Price}} \right) \times \text{Calculation Amount}$$

(c) Cash or Physical Settlement

If the Final Terms specifies 'Settlement Method' to be 'Cash or Physical', then provided that neither an Automatic Redemption (Autocall) Event nor any other redemption or purchase and cancellation of the Securities has occurred prior to the Scheduled Redemption Date, each Security will be redeemed by the Issuer on the Scheduled Redemption Date by payment of the Final Cash Settlement Amount, determined in accordance with the following:

- (i) if Final Valuation Price \geq Initial Price, then the Issuer will pay the Final Cash Settlement Amount which will be a cash amount per Calculation Amount in the Settlement Currency equal to:
 - (A) if the Final Terms specifies 'Cap' to be 'Not Applicable', then:

$$[100\% \times CA] + [Participation \times ((FVP/IP) - 1) \times CA]$$
 - (B) if the Final Terms specifies 'Cap' to be 'Applicable', then:

$$[100\% \times CA] + [\text{Min} (Participation \times ((FVP/IP) - 1), \text{Cap}) \times CA]$$
- (ii) otherwise, if:
 - (A) Initial Price $>$ Final Valuation Price; AND
 - (B) Final Valuation Price \geq Strike Price,

then, the Issuer will pay the Final Cash Settlement Amount which will be a cash amount per Calculation Amount in the Settlement Currency equal to:

$$100\% \times \text{Calculation Amount}$$

- (iii) otherwise, if, Final Valuation Price < Strike Price, then the Issuer will pay the Final Cash Settlement Amount, which amount will be a cash amount per Calculation Amount in the Settlement Currency determined in accordance with the following, subject to the Application of cash proceeds to purchase and deliver the Underlying Asset Provisions:

$$\left(\frac{\text{Final Valuation Price}}{\text{Strike Price}} \right) \times \text{Calculation Amount}$$

(d) **Underlying Performance Type: 'Single Asset' or 'Worst-of'**

- (i) If the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset': the Final Physical Delivery Entitlement, Final Valuation Price or FVP, Initial Price or IP and Strike Price to be considered for the purposes of paragraphs (b) and (c) above shall be, as applicable, the Final Physical Delivery Entitlement, Final Valuation Price or FVP, Initial Price or IP or Strike Price of the sole Underlying Asset; OR
- (ii) If the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of': the Final Physical Delivery Entitlement, Final Valuation Price or FVP, Initial Price or IP and Strike Price to be considered for the purposes of paragraphs (b) and (c) above shall be, as applicable, the Final Physical Delivery Entitlement, Final Valuation Price or FVP, Initial Price or IP or Strike Price of the Worst Performing Underlying Asset.

(e) **Relevant defined terms**

The following terms as used above have the following meanings:

- **"Averaging-in Dates"** means, if the Final Terms specifies 'Averaging-in' to be 'Applicable', each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Averaging-out Dates"** means, if the Final Terms specifies 'Averaging-out' to be 'Applicable', each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Calculation Amount"** or **"CA"** means the amount specified as the 'Calculation Amount' in the Final Terms.
- **"Cap"** means, if applicable, the percentage specified as such in the Final Terms.
- **"Entitlement Exchange Rate"** means the prevailing exchange rate at the Valuation Time on the Final Valuation Date expressed as the number of units of the Underlying Asset Currency equivalent to one unit of the Settlement Currency.
- **"Final Valuation Date"** means the date specified as such in the Final Terms, or, if such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.

- **"Final Valuation Price" or "FVP"** means, in respect of an Underlying Asset:
 - (i) if the Final Terms specifies 'Averaging-out' to be 'Applicable', the arithmetic average of the Valuation Prices of such Underlying Asset on each of the Averaging-out Dates; or
 - (ii) if the Final Terms specifies 'Min Lookback-out' to be 'Applicable', the minimum Valuation Price of such Underlying Asset observed on each of the Lookback-out Dates; or
 - (iii) if the Final Terms specifies 'Max Lookback-out' to be 'Applicable', the maximum Valuation Price of such Underlying Asset observed on each of the Lookback-out Dates; or
 - (iv) if none of items (i) to (iii) applies, the Valuation Price of such Underlying Asset on the Final Valuation Date.

- **"Initial Price" or "IP"** means, in respect of an Underlying Asset:
 - (i) if the Final Terms specifies 'Averaging-in' to be 'Applicable', the arithmetic average of the Valuation Prices of such Underlying Asset on each of the Averaging-in Dates; or
 - (ii) if the Final Terms specifies 'Min Lookback-in' to be 'Applicable', the minimum Valuation Price of such Underlying Asset observed on each of the Lookback-in Dates; or
 - (iii) if the Final Terms specifies 'Max Lookback-in' to be 'Applicable', the maximum Valuation Price of such Underlying Asset observed on each of the Lookback-in Dates; or
 - (iv) if the Final Terms specifies a price or level for such Underlying Asset, such price or level; or
 - (v) if none of items (i) to (iv) applies, the Valuation Price of such Underlying Asset on the Initial Valuation Date.

- **"Initial Valuation Date"** means, in respect of an Underlying Asset, the date specified for such Underlying Asset in the Final Terms; provided that,
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset' and such date is not a Scheduled Trading Day, the Initial Valuation Date shall be the next following Scheduled Trading Day; or
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of' and (A) 'Initial Valuation Date: Individual Pricing', if such date is not a Scheduled Trading Day in respect of that Underlying Asset, the Initial Valuation Date in respect of that Underlying Asset shall be the next following Scheduled Trading Day in respect of that Underlying Asset; or (B) 'Initial Valuation Date: Common Pricing', if such day is not also a Common Scheduled Trading Day, the Initial Valuation Date in respect of each Underlying Asset shall be the next following Common Scheduled Trading Day.

- **"Lookback-in Dates"** means, if either 'Max Lookback-in' or 'Min Lookback-in' is applicable, each of the dates specified as such in the Final Terms or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.

- **"Lookback-out Dates"** means, if either 'Max Lookback-out' or 'Min Lookback-out' is applicable, each of the dates specified as such in the Final Terms or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Min"**, followed by a bracket, means the lesser of the amount separated by a comma within the bracket. For example, Min (X, Y) means the lesser of X and Y.
- **"Participation"** means the percentage specified as such in the Final Terms.
- **"Strike Price"** means, in respect of an Underlying Asset, the Strike Price Percentage multiplied by the Initial Price of such Underlying Asset.
- **"Strike Price Percentage"** means the percentage specified as such in the Final Terms.
- Symbols:
 - **">"** means greater than. For example, $X > Y$ means component X is greater than component Y.
 - **"≥"** means greater than or equal to. For example, $X \geq Y$ means component X is greater than or equal to component Y.
 - **"<"** means less than. For example, $X < Y$ means component X is less than component Y.
- **"Valuation Price"** means, in respect of any relevant Scheduled Trading Day and an Underlying Asset, the price or level of such Underlying Asset at the Valuation Time on such day.
- **"Valuation Time"** means, in respect of an Underlying Asset, the time specified as such in the Final Terms or, if no such time is specified,
 - (i) if the Underlying Asset is not specified to be a Multi-exchange Index in the Final Terms, the Scheduled Closing Time on the relevant Exchange on the Valuation Date, Lookback Date or Averaging Date, as the case may be, in relation to such Underlying Asset. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.
 - (ii) if the Underlying Asset is specified to be a Multi-exchange Index in the Final Terms (a) for the purposes of determining whether a Market Disruption Event has occurred: (i) in respect of any Component, the Scheduled Closing Time on the Exchange in respect of such Component, and (ii) in respect of any options contracts or future contracts on the relevant Index, the close of trading on the Related Exchange; and (b) in all other circumstances, the time at which the official closing level of the relevant Index is calculated and published by the Index Sponsor.
- **"Worst Performing Underlying Asset"** means the Underlying Asset with the lowest performance calculated as follows:

$$\frac{V_{\text{Final}}}{V_{\text{Initial}}}$$

where:

" V_{Final} " is the Final Valuation Price of the relevant Underlying Asset; and

" V_{Initial} " is the Initial Price of the relevant Underlying Asset,

provided that where more than one Underlying Asset has the same lowest performance, the Determination Agent shall select which of the Underlying Assets with the same lowest performance shall be the Worst Performing Underlying Asset.

8.5 **Bull-Bear – European Barrier**

(a) **Application**

This General Condition 8.5 applies only to those Securities for which the Final Terms specifies 'Redemption Type' to be 'Bull-Bear – European Barrier'.

(b) **Cash Settlement**

If the Final Terms specifies 'Settlement Method' to be 'Cash', then provided that neither an Automatic Redemption (Autocall) Event nor any other redemption or purchase and cancellation of the Securities has occurred prior to the Scheduled Redemption Date, each Security will be redeemed by the Issuer on the Scheduled Redemption Date at the "**Final Cash Settlement Amount**" which will be a cash amount per Calculation Amount in the Settlement Currency determined in accordance with the following:

(i) if Final Valuation Price \geq Strike Price, then:

(A) if the Final Terms specifies 'Cap' to be 'Not Applicable', then:

$$[100\% \times CA] + [\text{Participation} \times ((FVP/IP) - 1) \times CA]; \text{ OR}$$

(B) if the Final Terms specifies 'Cap' to be 'Applicable', then:

$$[100\% \times CA] + [\text{Min}(\text{Participation} \times ((FVP/IP) - 1), \text{Cap}) \times CA]$$

(ii) otherwise, if:

(A) Strike Price $>$ Final Valuation Price; AND

(B) Final Valuation Price \geq Knock-in Barrier Price,

then:

$$[100\% \times CA] + [((SP - FVP)/IP) \times CA]$$

(iii) otherwise, if Final Valuation Price $<$ Knock-in Barrier Price, then:

$$\left(\frac{\text{Final Valuation Price}}{\text{Strike Price}} \right) \times \text{Calculation Amount}$$

(c) **Cash or Physical Settlement**

If the Final Terms specifies 'Settlement Method' to be 'Cash or Physical', then provided that neither an Automatic Redemption (Autocall) Event nor any other redemption or purchase and cancellation of the Securities has occurred prior to the Scheduled Redemption Date, each Security will be redeemed by the Issuer on the Scheduled Redemption Date by payment of the Final Cash Settlement Amount, determined in accordance with the following:

- (i) if Final Valuation Price \geq Strike Price, then the Issuer will pay the Final Cash Settlement Amount which will be a cash amount per Calculation Amount in the Settlement Currency equal to:

- (A) if the Final Terms specifies 'Cap' to be 'Not Applicable', then:

$$[100\% \times CA] + [Participation \times ((FVP - SP)/IP) \times CA]; \text{ OR}$$

- (B) if the Final Terms specifies 'Cap' to be 'Applicable', then:

$$[100\% \times CA] + [\text{Min} (Participation \times ((FVP - SP)/IP), \text{Cap}) \times CA]$$

- (ii) otherwise, if:

- (A) Strike Price $>$ Final Valuation Price; AND

- (B) Final Valuation Price $>$ Knock-in Barrier Price,

then, the Issuer will pay the Final Cash Settlement Amount which will be a cash amount per Calculation Amount in the Settlement Currency equal to:

$$[100\% \times CA] + [((SP - FVP)/IP) \times CA]$$

- (iii) otherwise, if Final Valuation Price $<$ Knock-in Barrier Price, then the Issuer will pay the Final Cash Settlement Amount, which amount will be a cash amount per Calculation Amount in the Settlement Currency determined in accordance with the following, subject to the Application of cash proceeds to purchase and deliver the Underlying Asset Provisions:

$$\left(\frac{\text{Final Valuation Price}}{\text{Strike Price}} \right) \times \text{Calculation Amount}$$

(d) **Underlying Performance Type: 'Single Asset' or 'Worst-of'**

- (i) If the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset': the Final Physical Delivery Entitlement, Final Valuation Price or FVP, Initial Price or IP, Knock-in Barrier Price and Strike Price or SP to be considered for the purposes of paragraphs (b) and (c) above shall be, as applicable, the Final Physical Delivery Entitlement, Final Valuation Price or FVP, Initial Price or IP, Knock-in Barrier Price or Strike Price or SP of the sole Underlying Asset. OR

- (ii) If the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of': the Final Physical Delivery Entitlement, Final Valuation Price or FVP, Initial Price or IP, Knock-in Barrier Price and Strike Price or SP to be considered for the purposes of paragraphs (b) and (c) above shall be, as applicable, the Final Physical Delivery Entitlement, Final Valuation Price or FVP, Initial Price or IP, Knock-in Barrier Price or Strike Price or SP of the Worst Performing Underlying Asset.

(e) **Relevant defined terms**

The following terms as used above have the following meanings:

- "**Averaging-in Dates**" means, if the Final Terms specifies 'Averaging-in' to be 'Applicable', each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.

- **"Averaging-out Dates"** means, if the Final Terms specifies 'Averaging-out' to be 'Applicable', each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Calculation Amount"** or **"CA"** means the amount specified as the 'Calculation Amount' in the Final Terms.
- **"Cap"** means, if applicable, the percentage specified as such in the Final Terms.
- **"Entitlement Exchange Rate"** means the prevailing exchange rate at the Valuation Time on the Final Valuation Date expressed as the number of units of the Underlying Asset Currency equivalent to one unit of the Settlement Currency.
- **"Final Valuation Date"** means the date specified as such in the Final Terms, or, if such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Final Valuation Price"** or **"FVP"** means, in respect of an Underlying Asset:
 - (i) if the Final Terms specifies 'Averaging-out' to be 'Applicable', the arithmetic average of the Valuation Prices of such Underlying Asset on each of the Averaging-out Dates; or
 - (ii) if the Final Terms specifies 'Min Lookback-out' to be 'Applicable', the minimum Valuation Price of such Underlying Asset observed on each of the Lookback-out Dates; or
 - (iii) if the Final Terms specifies 'Max Lookback-out' to be 'Applicable', the maximum Valuation Price of such Underlying Asset observed on each of the Lookback-out Dates; or
 - (iv) if none of items (i) to (iii) applies, the Valuation Price of such Underlying Asset on the Final Valuation Date.
- **"Initial Price"** or **"IP"** means, in respect of an Underlying Asset:
 - (i) if the Final Terms specifies 'Averaging-in' to be 'Applicable', the arithmetic average of the Valuation Prices of such Underlying Asset on each of the Averaging-in Dates; or
 - (ii) if the Final Terms specifies 'Min Lookback-in' to be 'Applicable', the minimum Valuation Price of such Underlying Asset observed on each of the Lookback-in Dates; or
 - (iii) if the Final Terms specifies 'Max Lookback-in' to be 'Applicable', the maximum Valuation Price of such Underlying Asset observed on each of the Lookback-in Dates; or
 - (iv) if the Final Terms specifies a price or level for such Underlying Asset, such price or level; or
 - (v) if none of items (i) to (iv) applies, the Valuation Price of such Underlying Asset on the Initial Valuation Date.

- **"Initial Valuation Date"** means, in respect of an Underlying Asset, the date specified for such Underlying Asset in the Final Terms; provided that:
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset' and such date is not a Scheduled Trading Day, the Initial Valuation Date shall be the next following Scheduled Trading Day; or
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of' and (A) 'Initial Valuation Date: Individual Pricing', if such date is not a Scheduled Trading Day in respect of that Underlying Asset, the Initial Valuation Date in respect of that Underlying Asset shall be the next following Scheduled Trading Day in respect of that Underlying Asset; or (B) 'Initial Valuation Date: Common Pricing', if such day is not also a Common Scheduled Trading Day, the Initial Valuation Date in respect of each Underlying Asset shall be the next following Common Scheduled Trading Day.
- **"Knock-in Barrier Percentage"** means the percentage specified as such in the Final Terms.
- **"Knock-in Barrier Price"** means, in respect of an Underlying Asset, the Knock-in Barrier Percentage multiplied by the Initial Price of such Underlying Asset.
- **"Lookback-in Dates"** means, if either 'Max Lookback-in' or 'Min Lookback-in' is applicable, each of the dates specified as such in the Final Terms or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Lookback-out Dates"** means, if either 'Max Lookback-out' or 'Min Lookback-out' is applicable, each of the dates specified as such in the Final Terms or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Min"**, followed by a bracket, means the lesser of the amounts separated by a comma within the bracket. For example, 'Min (X, Y)' means the lesser of X and Y.
- **"Participation"** means the percentage specified as such in the Final Terms.
- **"Strike Price"** or **"SP"** means, in respect of an Underlying Asset, the Strike Price Percentage multiplied by the Initial Price of such Underlying Asset.
- **"Strike Price Percentage"** means the percentage specified as such in the Final Terms.
- Symbols:
 - **">"** means greater than. For example, $X > Y$ means component X is greater than component Y.
 - **"≥"** means greater than or equal to. For example, $X \geq Y$ means component X is greater than or equal to component Y.

- "<" means less than. For example, $X < Y$ means component X is less than component Y.
- **"Valuation Price"** means, in respect of any relevant Scheduled Trading Day and an Underlying Asset, the price or level of such Underlying Asset at the Valuation Time on such day.
- **"Valuation Time"** means, in respect of an Underlying Asset, the time specified as such in the Final Terms or, if no such time is specified,
 - (i) if the Underlying Asset is not specified to be a Multi-exchange Index in the Final Terms, the Scheduled Closing Time on the relevant Exchange on the Valuation Date, Lookback Date or Averaging Date, as the case may be, in relation to such Underlying Asset. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.
 - (ii) if the Underlying Asset is specified to be a Multi-exchange Index in the Final Terms (a) for the purposes of determining whether a Market Disruption Event has occurred: (i) in respect of any Component, the Scheduled Closing Time on the Exchange in respect of such Component, and (ii) in respect of any options contracts or future contracts on the relevant Index, the close of trading on the Related Exchange; and (b) in all other circumstances, the time at which the official closing level of the relevant Index is calculated and published by the Index Sponsor.
- **"Worst Performing Underlying Asset"** means the Underlying Asset with the lowest performance calculated as follows:

$$\frac{V_{\text{Final}}}{V_{\text{Initial}}}$$

where:

" V_{Final} " is the Final Valuation Price of the relevant Underlying Asset; and

" V_{Initial} " is the Initial Price of the relevant Underlying Asset,

provided that where more than one Underlying Asset has the same lowest performance, the Determination Agent shall select which of the Underlying Assets with the same lowest performance shall be the Worst Performing Underlying Asset.

8.6 **Bull-Bear – American Barrier**

(a) **Application**

This General Condition 8.6 applies only to those Securities for which the 'Redemption Type' to be 'Bull-Bear – American Barrier'.

(b) **Cash Settlement**

If the Final Terms specifies 'Settlement Method' to be 'Cash', then provided that neither an Automatic Redemption (Autocall) Event nor any other redemption or purchase and cancellation of the Securities has occurred prior to the Scheduled Redemption Date, each Security will be redeemed by the Issuer on the Scheduled Redemption Date at the "Final Cash Settlement Amount" which will be a cash amount per Calculation Amount in the Settlement Currency determined by the Determination Agent in accordance with the following:

- (i) if Final Valuation Price \geq Strike Price, then:

- (A) if the Final Terms specifies 'Cap' to be 'Not Applicable', then:

$$[100\% \times CA] + [Participation \times ((FVP - SP)/IP) \times CA];$$
 OR
- (B) if the Final Terms specifies 'Cap' to be 'Not Applicable', then:

$$[100\% \times CA] + [Min (Participation \times ((FVP - SP)/IP), Cap) \times CA]$$
- (ii) otherwise, if:
- (A) Final Valuation Price < Strike Price; AND
- (B) a Trigger Event has not occurred,
- then:

$$[100\% \times Calculation Amount] + [(SP - FVP)/IP \times Calculation Amount]$$
- (iii) otherwise, if:
- (A) Final Valuation Price < Strike Price; AND
- (B) a Trigger Event has occurred,
- then:

$$(FVP/SP) \times Calculation Amount$$
- (c) **Cash or Physical Settlement**
- If the Final Terms specifies 'Settlement Method' to be 'Cash or Physical', then provided that neither an Automatic Redemption (Autocall) Event nor any other redemption or purchase and cancellation of the Securities has occurred prior to the Scheduled Redemption Date, each Security will be redeemed by the Issuer on the Scheduled Redemption Date by payment of the Final Cash Settlement Amount, determined in accordance with the following:
- (i) if Final Valuation Price \geq Strike Price, then the Issuer will pay the Final Cash Settlement Amount which will be a cash amount per Calculation Amount in the Settlement Currency equal to:
- (A) if the Final Terms specifies 'Cap' to be 'Not Applicable', then:

$$[100\% \times CA] + [Participation \times ((FVP - SP)/IP) \times CA];$$
 OR
- (B) if the Final Terms specifies 'Cap' to be 'Applicable', then:

$$[100\% \times CA] + [Min (Participation \times ((FVP - SP)/IP), Cap) \times CA];$$
 OR
- (ii) otherwise, if:
- (A) Final Valuation Price < Strike Price; AND
- (B) a Trigger Event has not occurred,
- then, the Issuer will pay the Final Cash Settlement Amount, which will be a cash amount per Calculation Amount in the Settlement Currency equal to:

$$[100\% \times CA] + [((SP - FVP)/IP) \times CA]$$

- (iii) otherwise, if:
- (A) Final Valuation Price < Strike Price; AND
- (B) and a Trigger Event has occurred,

then, the Issuer will pay the Final Cash Settlement Amount, which amount will be a cash amount per Calculation Amount in the Settlement Currency determined in accordance with the following, subject to the Application of cash proceeds to purchase and deliver the Underlying Asset Provisions:

$$\left(\frac{\text{Final Valuation Price}}{\text{Strike Price}} \right) \times \text{Calculation Amount}$$

(d) **Underlying Performance Type: 'Single Asset' or 'Worst-of'**

- (i) If the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset': the Final Physical Delivery Entitlement, Final Valuation Price or FVP, Initial Price or IP and Strike Price or SP to be considered for the purposes of paragraphs (b) and (c) above shall be, as applicable, the Final Physical Delivery Entitlement, Final Valuation Price or FVP, Initial Price or IP or Strike Price or SP of the sole Underlying Asset; OR
- (ii) If the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of': the Final Physical Delivery Entitlement, Final Valuation Price or FVP, Initial Price or IP and Strike Price or SP to be considered for the purposes of paragraphs (b) and (c) above shall be, as applicable, the Final Physical Delivery Entitlement, Final Valuation Price or FVP, Initial Price or IP or Strike Price or SP of the Worst Performing Underlying Asset.

(e) **Relevant defined terms**

The following terms as used above have the following meanings:

- **"Averaging-in Dates"** means, if the Final Terms specifies 'Averaging-in' to be 'Applicable', each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Averaging-out Dates"** means, if the Final Terms specifies 'Averaging-out' to be 'Applicable', each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Calculation Amount"** or **"CA"** means the amount specified as the 'Calculation Amount' in the Final Terms.
- **"Cap"** means, if applicable, the percentage specified as such in the Final Terms.
- **"Entitlement Exchange Rate"** means the prevailing exchange rate at the Valuation Time on the Final Valuation Date expressed as the number of units of the Underlying Asset Currency equivalent to one unit of the Settlement Currency.

- **"Final Valuation Date"** means the date specified as such in the Final Terms, or, if such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Final Valuation Price" or "FVP"** means, in respect of an Underlying Asset:
 - (i) if the Final Terms specifies 'Averaging-out' to be 'Applicable', the arithmetic average of the Valuation Prices of such Underlying Asset on each of the Averaging-out Dates; or
 - (ii) if the Final Terms specifies 'Min Lookback-out' to be 'Applicable', the minimum Valuation Price of such Underlying Asset observed on each of the Lookback-out Dates; or
 - (iii) if the Final Terms specifies 'Max Lookback-out' to be 'Applicable', the maximum Valuation Price of such Underlying Asset observed on each of the Lookback-out Dates; or
 - (iv) if none of items (i) to (iii) applies, the Valuation Price of such Underlying Asset on the Final Valuation Date.
- **"Initial Price" or "IP"** means, in respect of an Underlying Asset:
 - (i) if the Final Terms specifies 'Averaging-in' to be 'Applicable', the arithmetic average of the Valuation Prices of such Underlying Asset on each of the Averaging-in Dates; or
 - (ii) if the Final Terms specifies 'Min Lookback-in' to be 'Applicable', the minimum Valuation Price of such Underlying Asset observed on each of the Lookback-in Dates; or
 - (iii) if the Final Terms specifies 'Max Lookback-in' to be 'Applicable', the maximum Valuation Price of such Underlying Asset observed on each of the Lookback-in Dates; or
 - (iv) if the Final Terms specifies a price or level for such Underlying Asset, such price or level; or
 - (v) if none of items (i) to (iv) applies, the Valuation Price of such Underlying Asset on the Initial Valuation Date.
- **"Initial Valuation Date"** means, in respect of an Underlying Asset, the date specified for such Underlying Asset in the Final Terms; provided that,
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset' and such date is not a Scheduled Trading Day, the Initial Valuation Date shall be the next following Scheduled Trading Day; or
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of' and (A) 'Initial Valuation Date: Individual Pricing', if such date is not a Scheduled Trading Day in respect of that Underlying Asset, the Initial Valuation Date in respect of that Underlying Asset shall be the next following Scheduled Trading Day in respect of that Underlying Asset; or (B) 'Initial Valuation Date: Common Pricing', if such day is not also a Common Scheduled Trading Day, the Initial Valuation Date in respect of each Underlying Asset shall be the next following Common Scheduled Trading Day.

- **"Knock-in Barrier Percentage"** means the percentage specified as such in the Final Terms.
- **"Knock-in Barrier Period End Date"** means the date specified as such in the Final Terms.
- **"Knock-in Barrier Period Start Date"** means the date specified as such in the Final Terms.
- **"Knock-in Barrier Price"** means, in respect of an Underlying Asset, the Knock-in Barrier Percentage multiplied by the Initial Price of such Underlying Asset.
- **"Lookback-in Dates"** means, if either 'Max Lookback-in' or 'Min Lookback-in' is applicable, each of the date specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Lookback-out Dates"** means, if either 'Max Lookback-out' or 'Min Lookback-out' is applicable, each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Min"**, followed by a bracket, means the lesser of the amount separated by a comma within the bracket. For example, 'Min (X, Y)' means the lesser of X and Y.
- **"Participation"** means the percentage specified as such in the Final Terms.
- **"Strike Price"** or **"SP"** means, in respect of an Underlying Asset, the Strike Price Percentage multiplied by the Initial Price of such Underlying Asset.
- **"Strike Price Percentage"** means the percentage specified as such in the Final Terms.
- Symbols:
 - **">"** means greater than. For example, $X > Y$ means component X is greater than component Y.
 - **" \geq "** means greater than or equal to. For example, $X \geq Y$ means component X is greater than or equal to component Y.
 - **"<"** means less than. For example, $X < Y$ means component X is less than component Y.
- **"Trigger Event"** means:
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset':
 - (A) if the Final Terms specifies the 'Trigger Event Type' to be 'Daily', then a Trigger Event shall be deemed to have occurred if the Valuation Price of the Underlying Asset is below its Knock-in Barrier Price on any Scheduled Trading Day, from and including

the Knock-in Barrier Period Start Date, to and including the Knock-in Barrier Period End Date; or

- (B) if the Final Terms specifies the 'Trigger Event Type' to be 'Continuous', then a Trigger Event shall be deemed to have occurred if the market price or level of the Underlying Asset is below its Knock-in Barrier Price at any time on any Scheduled Trading Day, from and including the Knock-in Barrier Period Start Date, to and including the Knock-in Barrier Period End Date.

OR:

- (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of':

- (A) if the Final Terms specifies the 'Trigger Event Type' to be 'Daily', then a Trigger Event shall be deemed to have occurred if the Valuation Price of any Underlying Asset is below its Knock-in Barrier Price on any Scheduled Trading Day from and including the Knock-in Barrier Period Start Date, to and including the Knock-in Barrier Period End Date; or

- (B) if the Final Terms specifies the 'Trigger Event Type' to be 'Continuous', then a Trigger Event shall be deemed to have occurred if the market price or level of any Underlying Asset is below its Knock-in Barrier Price at any time on any Scheduled Trading Day from and including the Knock-in Barrier Period Start Date, to and including the Knock-in Barrier Period End Date.

- **"Valuation Price"** means, in respect of any relevant Scheduled Trading Day and an Underlying Asset, the price or level of such Underlying Asset at the Valuation Time on such day.

- **"Valuation Time"** means, in respect of an Underlying Asset, the time specified as such in the Final Terms or, if no such time is specified,

- (i) if the Underlying Asset is not specified to be a Multi-exchange Index in the Final Terms, the Scheduled Closing Time on the relevant Exchange on the Valuation Date, Lookback Date or Averaging Date, as the case may be, in relation to such Underlying Asset. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.

- (ii) if the Underlying Asset is specified to be a Multi-exchange Index in the Final Terms (a) for the purposes of determining whether a Market Disruption Event has occurred: (i) in respect of any Component, the Scheduled Closing Time on the Exchange in respect of such Component, and (ii) in respect of any options contracts or future contracts on the relevant Index, the close of trading on the Related Exchange; and (b) in all other circumstances, the time at which the official closing level of the relevant Index is calculated and published by the Index Sponsor.

- **"Worst Performing Underlying Asset"** means the Underlying Asset with the lowest performance calculated as follows:

$$\frac{V_{\text{Final}}}{V_{\text{Initial}}}$$

where:

" V_{Final} " is the Final Valuation Price of the relevant Underlying Asset; and

" V_{Initial} " is the Initial Price of the relevant Underlying Asset,

provided that where more than one Underlying Asset has the same lowest performance, the Determination Agent shall select which of the Underlying Assets with the same lowest performance shall be the Worst Performing Underlying Asset.

8.7 Put Spread

(a) Application

This General Condition 8.7 applies only to those Securities for which the 'Redemption Type' to be 'Put Spread'.

(b) Cash Settlement

If the Final Terms specifies 'Settlement Method' to be 'Cash', then provided that neither an Automatic Redemption (Autocall) Event nor any other redemption or purchase and cancellation of the Securities has occurred prior to the Scheduled Redemption Date, each Security will be redeemed by the Issuer on the Scheduled Redemption Date at the "**Final Cash Settlement Amount**" which will be a cash amount per Calculation Amount in the Settlement Currency determined by the Determination Agent in accordance with the following:

(i) if:

(A) Final Valuation Price \geq Final Barrier; OR

(B) Final Valuation Price \geq Strike Price,

then:

$$100\% \times \text{Calculation Amount}$$

(ii) otherwise, if:

(A) Strike Price $>$ Final Valuation Price; AND

(B) Final Valuation Price \geq Lower Strike Price,

then:

$$\left(\frac{\text{Final Valuation Price}}{\text{Strike Price}} \right) \times \text{Calculation Amount}$$

(iii) otherwise, if Final Valuation Price $<$ Lower Strike Price, then:

$$\text{Lower Strike Price Percentage} \times \text{Calculation Amount}$$

(c) Cash or Physical Settlement

If the Final Terms specifies 'Settlement Method' to be 'Cash or Physical', then provided that neither an Automatic Redemption (Autocall) Event nor any other redemption or purchase and cancellation of the Securities has occurred prior to the Scheduled Redemption Date, each Security will be redeemed by the Issuer on the Scheduled Redemption Date by payment of the Final Cash Settlement Amount, determined in accordance with the following:

(i) if:

(A) Final Valuation Price \geq Final Barrier; OR

- (B) Final Valuation Price \geq Strike Price,

then the Issuer will pay the Final Cash Settlement Amount which will be a cash amount per Calculation Amount in the Settlement Currency equal to:

$$100\% \times \text{Calculation Amount}$$

- (ii) otherwise, if:

- (A) Strike Price $>$ Final Valuation Price; AND
 (B) Final Valuation Price \geq Lower Strike Price,

then the Issuer will pay the Final Cash Settlement Amount, which amount will be a cash amount per Calculation Amount in the Settlement Currency determined in accordance with the following, subject to the Application of cash proceeds to purchase and deliver the Underlying Asset Provisions:

$$\left(\frac{\text{Final Valuation Price}}{\text{Strike Price}} \right) \times \text{Calculation Amount}$$

- (iii) otherwise, if Final Valuation Price $<$ Lower Strike Price, then the Issuer will pay the Final Cash Settlement Amount which will be a cash amount per Calculation Amount in the Settlement Currency equal to:

$$\text{Lower Strike Price Percentage} \times \text{Calculation Amount}$$

(d) **Underlying Performance Type: Single Asset or 'Worst-of'**

- (i) If the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset': the Final Barrier, Final Physical Delivery Entitlement, Final Valuation Price, Initial Price, Lower Strike Price and Strike Price to be considered for the purposes of paragraphs (b) and (c) above shall be, as applicable, the Final Barrier, Final Physical Delivery Entitlement, Final Valuation Price, Initial Price, Lower Strike Price or Strike Price of the sole Underlying Asset; OR
- (ii) If the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of': the Final Barrier, Final Physical Delivery Entitlement, Final Valuation Price, Initial Price, Lower Strike Price and Strike Price to be considered for the purposes of paragraphs (b) and (c) above shall be, as applicable, the Final Barrier, Final Physical Delivery Entitlement, Final Valuation Price, Initial Price, Lower Strike Price or Strike Price of the Worst Performing Underlying Asset.

(e) **Relevant defined terms**

The following terms as used above have the following meanings:

- "**Averaging-in Dates**" means, if the Final Terms specifies 'Averaging-in' to be 'Applicable', each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- "**Averaging-out Dates**" means, if the Final Terms specifies 'Averaging-out' to be 'Applicable', each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.

be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.

- **"Calculation Amount"** or **"CA"** means the amount specified as the 'Calculation Amount' in the Final Terms.
- **"Entitlement Exchange Rate"** means the prevailing exchange rate at the Valuation Time on the Final Valuation Date expressed as the number of units of the Underlying Asset Currency equivalent to one unit of the Settlement Currency.
- **"Final Barrier"** means, in respect of an Underlying Asset and the Final Valuation Date, the Final Barrier Percentage multiplied by the Initial Price of such Underlying Asset.
- **"Final Barrier Percentage"** means, in relation to the Final Valuation Date, the relevant percentage specified as such in the Final Terms.
- **"Final Valuation Date"** means the date specified as such in the Final Terms, or, if such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Final Valuation Price"** means, in respect of an Underlying Asset:
 - (i) if the Final Terms specifies 'Averaging-out' to be 'Applicable', the arithmetic average of the Valuation Prices of such Underlying Asset on each of the Averaging-out Dates; or
 - (ii) if the Final Terms specifies 'Min Lookback-out' to be 'Applicable', the minimum Valuation Price of such Underlying Asset observed on each of the Lookback-out Dates; or
 - (iii) if the Final Terms specifies 'Max Lookback-out' to be 'Applicable', the maximum Valuation Price of such Underlying Asset observed on each of the Lookback-out Dates; or
 - (iv) none of items (i) to (iii) applies, the Valuation Price of such Underlying Asset on the Final Valuation Date.
- **"Initial Price"** means, in respect of an Underlying Asset:
 - (i) if the Final Terms specifies 'Averaging-in' to be 'Applicable', the arithmetic average of the Valuation Prices of such Underlying Asset on each of the Averaging-in Dates; or
 - (ii) if the Final Terms specifies 'Min Lookback-in' to be 'Applicable', the minimum Valuation Price of such Underlying Asset observed on each of the Lookback-in Dates; or
 - (iii) if the Final Terms specifies 'Max Lookback-in' to be 'Applicable', the maximum Valuation Price of such Underlying Asset observed on each of the Lookback-in Dates; or
 - (iv) if the Final Terms specifies a price or level for such Underlying Asset, such price or level; or
 - (v) if none of items (i) to (iv) applies, the Valuation Price of such Underlying Asset on the Initial Valuation Date.

- **"Initial Valuation Date"** means, in respect of an Underlying Asset, the date specified for such Underlying Asset in the Final Terms; provided that,
 - (i) if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset' and such date is not a Scheduled Trading Day, the Initial Valuation Date shall be the next following Scheduled Trading Day; or
 - (ii) if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of' and (A) 'Initial Valuation Date: Individual Pricing', if such date is not a Scheduled Trading Day in respect of that Underlying Asset, the Initial Valuation Date in respect of that Underlying Asset shall be the next following Scheduled Trading Day in respect of that Underlying Asset; or (B) 'Initial Valuation Date: Common Pricing', if such day is not also a Common Scheduled Trading Day, the Initial Valuation Date in respect of each Underlying Asset shall be the next following Common Scheduled Trading Day.
- **"Lookback-in Dates"** means, if either 'Max Lookback-in' or 'Min Lookback-in' is applicable, each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Lookback-out Dates"** means, if either 'Max Lookback-out' or 'Min Lookback-out' is applicable, each of the dates specified as such in the Final Terms, or, if any such date is not a Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Single Asset') or Common Scheduled Trading Day (if the Final Terms specifies the 'Underlying Performance Type' to be 'Worst-of'), the next following Scheduled Trading Day or Common Scheduled Trading Day as applicable.
- **"Lower Strike Price"** means, in relation to an Underlying Asset, the Lower Strike Price Percentage multiplied by the Initial Price of such Underlying Asset.
- **"Lower Strike Price Percentage"** means the percentage specified as such in the Final Terms.
- **"Strike Price"** means, in respect of an Underlying Asset, the Strike Price Percentage multiplied by the Initial Price of such Underlying Asset.
- **"Strike Price Percentage"** means the percentage specified as such in the Final Terms.
- Symbols:
 - ">" means greater than. For example, $X > Y$ means component X is greater than component Y.
 - "≥" means greater than or equal to. For example, $X \geq Y$ means component X is greater than or equal to component Y.
 - "<" means less than. For example, $X < Y$ means component X is less than component Y.
- **"Valuation Price"** means, in respect of any relevant Scheduled Trading Day and an Underlying Asset, the price or level of such Underlying Asset at the Valuation Time on such day.

- **"Valuation Time"** means, in respect of an Underlying Asset, the time specified as such in the Final Terms or, if no such time is specified,
 - (a) if the Underlying Asset is not specified to be a Multi-exchange Index in the Final Terms, the Scheduled Closing Time on the relevant Exchange on the Valuation Date, Lookback Date or Averaging Date, as the case may be, in relation to such Underlying Asset. If the relevant Exchange closes prior to its Scheduled Closing Time and the specified Valuation Time is after the actual closing time for its regular trading session, then the Valuation Time shall be such actual closing time.
 - (b) if the Underlying Asset is specified to be a Multi-exchange Index in the Final Terms (a) for the purposes of determining whether a Market Disruption Event has occurred: (i) in respect of any Component, the Scheduled Closing Time on the Exchange in respect of such Component, and (ii) in respect of any options contracts or future contracts on the relevant Index, the close of trading on the Related Exchange; and (b) in all other circumstances, the time at which the official closing level of the relevant Index is calculated and published by the Index Sponsor.
- **"Worst Performing Underlying Asset"** means the Underlying Asset with the lowest performance calculated as follows:

$$\frac{V_{\text{Final}}}{V_{\text{Initial}}}$$

where:

" V_{Final} " is the Final Valuation Price of the relevant Underlying Asset; and

" V_{Initial} " is the Initial Price of the relevant Underlying Asset,

provided that where more than one Underlying Asset has the same lowest performance, the Determination Agent shall select which of the Underlying Assets with the same lowest performance shall be the Worst Performing Underlying Asset.

9. Nominal Call Event

9.1 Application

This General Condition 9 applies to those Securities for which 'Nominal Call Event' is specified to apply in the Final Terms.

9.2 Exercise

If a Nominal Call Event occurs, the Issuer may, by giving not less than 15 Business Days' irrevocable notice to Holders (such notice, an "**Early Redemption Notice**" and the date on which it is delivered, the "**Call Notice Delivery Date**"), redeem all of the Securities in whole (but not in part) by paying the Optional Cash Settlement Amount on the Optional Cash Redemption Date, provided that: (a) the Call Notice Delivery Date is within the Issuer Option Exercise Period; and (b) no redemption or purchase and cancellation of the Securities occurs prior to (or is due to occur on) the Optional Cash Redemption Date.

This General Condition is subject to General Condition 3 (*Calculations and publication*), General Condition 4 (*Payments and deliveries*) and General Condition 5 (*Settlement*).

9.3 Relevant defined terms

The following terms as used above shall have the following meanings:

- **"Issuer Option Exercise Period"** means the period from, and including, the Issue Date, to, and including, the date which is 16 Business Days prior to the Final Valuation Date.
- **"Nominal Call Event"** means, with respect to a Series, that on any day the outstanding Aggregate Nominal Amount or outstanding Number of such Securities is less than the Nominal Call Threshold Amount (or the Settlement Currency equivalent thereof).
- **"Nominal Call Threshold Amount"** means an amount equal to the Nominal Call Threshold Percentage, multiplied by the Aggregate Nominal Amount or aggregate Number of Securities as at the first Issue Date of such Securities (or the equivalent amount in the currency of the Securities).
- **"Nominal Call Threshold Percentage"** means 10 per cent or such other percentage specified as such in the Final Terms (which shall not be greater than 10 per cent).
- **"Optional Cash Redemption Date"** means, in relation to a Nominal Call Event in respect of the Securities, the date falling 15 Business Days after the Call Notice Delivery Date.
- **"Optional Cash Settlement Amount"** means, in respect of each Security, an amount in the Settlement Currency equal to the market value of such Security on the Call Notice Delivery Date. Such amount shall be determined by the Determination Agent by reference to such factors as the Determination Agent considers to be appropriate including, without limitation:
 - (i) market prices or values for the Underlying Asset(s) and other relevant economic variables (such as interest rates and, if applicable, exchange rates) at the relevant time;
 - (ii) the remaining life of the Securities had they remained outstanding to scheduled maturity;
 - (iii) the value at the relevant time of any minimum redemption or cancellation amount which would have been applicable had the Securities remained outstanding to scheduled maturity and/or any scheduled early redemption date;
 - (iv) internal pricing models; and
 - (v) prices at which other market participants might bid for securities similar to the Securities,

provided that, where the Final Terms specifies 'Unwind Costs' to be 'Not Applicable', the Determination Agent shall not take into account deductions for any costs, charges, fees, accruals, losses and expenses, which are incurred by the Issuer or its Affiliates relating to the unwinding of any Hedge Positions and/or related funding arrangements, when determining such market value.

D. EQUITY LINKED CONDITIONS, DISRUPTION EVENTS AND TAXES AND EXPENSES

10. Index modification, cancellation, disruption or adjustment event

The following provisions of this General Condition 10 will apply to Securities for which the Underlying Asset (or one of the Underlying Assets) is an Index.

10.1 Index Adjustment Events

If,

- (a) on or prior to any date on which the level of an Index is to be calculated, including, without limitation, any Averaging Date, Lookback Date or Valuation Date (a

"Determination Date"), the relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating that Index or in any other way materially modifies that Index (other than a modification prescribed in that formula or method to maintain that Index in the event of changes in constituent stock and capitalisation and other routine events) (an **"Index Modification"**) or permanently cancels the Index and no successor Index exists (an **"Index Cancellation"**); or

- (b) on any Determination Date in respect of any Index, the Index Sponsor fails to calculate and announce a relevant Index (an **"Index Disruption"** and, together with an Index Modification and an Index Cancellation, an **"Index Adjustment Event"**),

then the Determination Agent shall on each relevant Determination Date determine if such Index Adjustment Event has a material effect on the relevant Securities and, if so, shall calculate the level of that Index by using, in lieu of a published level for the relevant Index, the level for that Index as at that Determination Date in accordance with the formula for and method of calculating that Index last in effect prior to that Index Adjustment Event, but using only those Components that constituted the relevant Index immediately prior to that Index Adjustment Event (other than those Components that have since ceased to be listed on any relevant Exchange), provided that:

- (A) in the case of Index Cancellation, if a Pre-nominated Index has been specified in the Final Terms in respect of the cancelled Index, the cancelled Index shall be replaced by such Pre-nominated Index with effect from the date as determined by the Determination Agent and the Pre-nominated Index will be deemed to be the Index with effect from such date. The Determination Agent may make such adjustments, if any, to any one or more of the Conditions or other terms of the Securities, including without limitation, any Condition or term relevant to the settlement or payment under the Securities, as the Determination Agent determines appropriate to account for such replacement (including, without limitation, any adjustment which the Determination Agent determines is appropriate in order to reduce or eliminate to the extent reasonably practicable any transfer of economic value from the Issuer to the Holders or vice versa as a result of such replacement, including as a result of a different term structure or methodology); and
- (B) In the event that the Determination Agent determines that it is unable, or can no longer continue, to calculate such Index (or, in the case of Index Cancellation, the cancelled Index is not replaced by a Pre-nominated Index), the Determination Agent may deem such Index Adjustment Event to constitute an Additional Disruption Event for the purposes of these provisions and shall take any necessary action in accordance with the applicable provisions of General Condition 14 (*Adjustment or early redemption following an Additional Disruption Event*), as the case may be, in respect of the Securities.

10.2 **Successor Index Sponsor or Substitution of Index with substantially similar calculation**

If an Index is (a) not calculated and announced by the Index Sponsor but is calculated and announced by a successor sponsor (the **"Successor Index Sponsor"**) acceptable to the Determination Agent or (b) replaced by a successor index (the **"Successor Index"**) using, in the determination of the Determination Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of that Index, then (i) the index as calculated and announced by the Successor Index Sponsor or (ii) the Successor Index will be deemed to be the Index.

10.3 **Correction of an Index**

If the level of an Index published on any Determination Date and used or to be used by the Determination Agent to determine any relevant Index value is subsequently corrected and the correction is published by the Index Sponsor or a Successor Index Sponsor no later than the second Exchange Business Day prior to the next date upon which any payment shall be made by the Issuer, the Determination Agent shall recalculate the amount that is payable, using such corrected level of the relevant Index and, to the extent necessary, will adjust any relevant

terms of the Securities to account for such correction. The Determination Agent shall notify the Holders of (a) that correction, (b) the amount, if any, that is payable as a result of that correction and (c) any adjustment being made.

10.4 **Manifest Error in Index Calculation**

Notwithstanding anything to the contrary herein, if on any Determination Date there is, in the reasonable opinion of the Determination Agent, a manifest error in the calculation of an Index by the relevant Index Sponsor (as manifested in the level of such Index published by such Index Sponsor), the Determination Agent may calculate the level of such Index for such date in lieu of using the level published on such date by such Index Sponsor. Such calculation will be determined in accordance with the methodology and formula for calculating the relevant Index used by the relevant Index Sponsor last in effect prior to the manifest error occurring. Where the Determination Agent calculates the level of an Index in accordance with this paragraph, it shall give notice to the Holder(s) of the Index level so calculated no later than five Business Days after the relevant Determination Date.

If the relevant Index Sponsor continues to calculate the relevant Index with manifest error for more than three Scheduled Trading Days, then the Determination Agent may make such adjustments to the terms of the Security as it may determine, including, without limitation, selecting an alternative index to replace the relevant Index (provided that such alternative index is substantially similar to the Index being replaced) and/or replicating the constituents of the relevant Index and/or continuing to calculate the relevant Index in accordance with the methodology and formula for calculating such Index used by the relevant Index Sponsor last in effect prior to the manifest error occurring and/or adjusting the constituents and weightings of such Index. Where the Determination Agent makes any adjustment(s) in accordance with this paragraph, it shall give notice to the Holder(s) as soon as is reasonably practicable after making such adjustment(s).

Where a correction to the level of an Index is published by the Index Sponsor as described in General Condition 10.3 (*Correction of an Index*) after the Determination Agent has calculated the level of such Index pursuant to this General Condition 10.4 (*Manifest Error in Index Calculation*), the Determination Agent may recalculate any amount to be paid, using such corrected level in accordance with the provisions of General Condition 10.4 (*Manifest Error in Index Calculation*) after the correction to the level of the relevant Index is published by the relevant Index Sponsor. Where a correction to the level of an Index is published by the relevant Index Sponsor after an adjustment has been made to the terms of the Security in accordance with the preceding paragraph, General Condition 10.3 (*Correction of an Index*) shall not apply and the terms of such adjustment shall prevail.

11. **Share adjustments or disruptions**

The following provisions of this General Condition 11 will apply to Securities for which the Underlying Asset (or one of the Underlying Assets) is a Share.

11.1 **Potential Adjustment Events**

The Determination Agent may at any time determine that a Potential Adjustment Event has occurred. Following such determination, the Determination Agent will then determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Shares and, if so, will (a) make the corresponding adjustment(s), relevant to the settlement, payment or other terms of the Securities as the Determination Agent determines appropriate to account for the diluting or concentrative effect of such Potential Adjustment Event (the "**Adjustment(s)**") and (b) determine the effective date(s) of the Adjustment(s). The Determination Agent may (but need not) determine the appropriate Adjustment(s) by reference to the Adjustment(s) in respect of such Potential Adjustment Event made by an options exchange to options on the relevant Shares traded on that options exchange.

Any Adjustment shall take into account the economic cost of any taxes, duties, levies, fees or registration payable by or on behalf of the Issuer or any of its relevant Affiliates or a foreign investor charged on subscription, acquisition or receipt of any Shares or other securities

received as a result of the Potential Adjustment Event, such calculations to be determined and carried out by the Determination Agent.

Notwithstanding the above, the Issuer may, alternatively, on giving notice to the Holders, elect, in lieu of the Determination Agent making an Adjustment in respect of a Potential Adjustment Event, to deliver to each Holder one or more additional Securities (the "**Adjustment Event Securities**") and/or pay to each Holder a cash amount (the "**Adjustment Event Amount**") to account for the diluting or concentrative effect of such Potential Adjustment Event. Where the Issuer elects to deliver Adjustment Event Securities, such Adjustment Event Securities will be issued on the same (or substantially the same) terms as the relevant Securities as the Determination Agent may determine. In such notice the Issuer will set out the amount of Securities to be delivered and/or cash to be paid and the manner in which such delivery and/or payment is to be made.

11.2 **Merger Events, Nationalisation, Insolvency, Insolvency Filing, Delisting and Tender Offers**

Following the occurrence of any Merger Event, Nationalisation, Insolvency, Insolvency Filing, Delisting or Tender Offer, such event shall constitute an Additional Disruption Event and the applicable provisions of General Condition 14 (*Adjustment or early redemption following an Additional Disruption Event*) shall apply.

11.3 **Substitution of Shares**

(a) **If the Final Terms specifies 'Substitution of Shares' to be 'Substitution of Shares–Standard':**

- (i) If any Share shall be affected by an Extraordinary Event (the "**Affected Shares**"), then without prejudice to the rights that the Issuer has under the Securities (as described above), the Issuer shall have the option to substitute the Affected Shares with substitute shares (the "**Substitute Shares**") as selected by the Determination Agent as at the Announcement Date or the Tender Offer Date or such other date as the Determination Agent may deem appropriate, as the case may be.
- (ii) The Substitute Shares shall have such criteria as the Determination Agent deems appropriate, including, but not limited to, the following:
 - (A) the Substitute Shares shall belong to a similar economic sector as the Share Company of the Affected Shares; and
 - (B) the issuer of the Substitute Shares shall be of a similar international standing and creditworthiness as the Share Company of the Affected Shares.
- (iii) The Initial Price of the Substitute Shares shall be determined in accordance with the following:

$$\text{Initial Price} = \text{Substitute Price} \times (\text{Affected Share(k)} / \text{Affected Share(j)})$$

where:

- "**Affected Share(j)**" means the last closing price per Share of the Affected Shares on or prior to the Announcement Date or the Tender Offer Date (as the case may be);
- "**Affected Share(k)**" means the 'Initial Price', per Share of the relevant Affected Shares as specified in the Final Terms; and
- "**Substitute Price**" means the official closing price per Share of the relevant Substitute Shares as at the Valuation Time on the dates on which the Affected Share(j) is determined or, if such date is not a Scheduled

Trading Day on the relevant Exchange in respect of the Substitute Shares, the following Scheduled Trading Day of the Substitute Shares.

- (iv) The Determination Agent shall notify the Holders as soon as practicable after the selection of the relevant Substitute Shares.
 - (v) If the Final Terms specifies the 'Settlement Method' to be 'Cash or Physical', 'Entitlement Substitution' may be specified in the Final Terms to apply with respect to a Series.
- (b) **If the Final Terms specifies 'Substitution of Shares' to be 'Substitution of Shares – ETF underlying':**
- (i) On the occurrence of an Extraordinary Event, without prejudice to the rights that the Issuer has under the Securities (including, for the avoidance of doubt, the right to make appropriate adjustments or redeem all of the Securities in accordance with General Condition 14 (*Adjustment or early redemption following an Additional Disruption Event*)), the Issuer shall determine whether to substitute the relevant Share with such shares, units or other interests of an exchange traded fund or other financial security, index or instrument (each a "**Replacement Security**") that the Determination Agent determines is comparable to the relevant discontinued Share (or discontinued Replacement Security) as at the Announcement Date or the Tender Offer Date or such other date as the Determination Agent may deem appropriate, as the case may be, and such Replacement Security shall be deemed to be the relevant Share for all purposes of the Securities after the substitution.
 - (ii) Upon the substitution by the Determination Agent of a Replacement Security, the Determination Agent may adjust any variable in the terms of the Securities (including, without limitation, any variable relating to the price of the shares, units or other interests in the relevant Share, the number of such shares, units or other interests outstanding, created or redeemed or any dividend or other distribution made in respect of such shares, units or other interests) as, in the judgement of the Determination Agent, may be, and for such time as may be, necessary to render the Replacement Security comparable to the shares or other interests of the relevant discontinued Share (or discontinued Replacement Security) for purposes of the Securities.
 - (iii) Upon any substitution by the Determination Agent of a Replacement Security, the Determination Agent shall notify the Holders as soon as practicable after the selection of the Replacement Security.
 - (iv) In the event that (A) the Issuer determines not to substitute the Share in accordance with paragraph (a) above or this paragraph (b), as may be applicable, or (B) the Determination Agent determines that it cannot substitute the Affected Share in accordance with paragraph (a) above or cannot determine a Replacement Security in accordance with this paragraph (b), the Issuer may determine that such event is an Additional Disruption Event and shall make appropriate adjustments or redeem all of the Securities of the relevant Series in whole in accordance with General Condition 14 (*Adjustment or early redemption following an Additional Disruption Event*).

12. Consequences of Disrupted Days

12.1 Valuation Dates

If, in the opinion of the Determination Agent, any Valuation Date is a Disrupted Day in respect of any Underlying Asset, then:

- (a) **if there is only one Underlying Asset:**

the Valuation Date shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the original date that, but for the Disrupted Days, would have been the Valuation Date (the "**Scheduled Valuation Date**") is a Disrupted Day, in which case the eighth Scheduled Trading Day shall be deemed to be the Valuation Date, notwithstanding the fact that it is a Disrupted Day, and the Determination Agent shall determine:

- (i) in the case of any Underlying Asset that is a Share, the relevant exchange traded or quoted price (the "**Traded Price**") for such Share that would have prevailed as of the Valuation Time on the eighth Scheduled Trading Day but for that Disrupted Day; or
- (ii) in the case of any Underlying Asset that is an Index, the level of the Index as at the Valuation Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating the Index last in effect prior to the occurrence of the first Disrupted Day using the Traded Price as at the Valuation Time on that eighth Scheduled Trading Day of each security comprised in the Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that eighth Scheduled Trading Day, the Traded Price for the relevant security as at the Valuation Time on that eighth Scheduled Trading Day).

(b) **if there is more than one Underlying Asset:**

the Valuation Date for each Underlying Asset not affected by the occurrence of a Disrupted Day shall be the Scheduled Valuation Date, and the Valuation Date for each Underlying Asset affected by the occurrence of a Disrupted Day shall be the first succeeding Scheduled Trading Day that is not a Disrupted Day, unless each of the eight Scheduled Trading Days immediately following the Scheduled Valuation Date is a Disrupted Day, in which case the eighth Scheduled Trading Day shall be deemed to be the Valuation Date for the relevant Underlying Asset, notwithstanding the fact that it is a Disrupted Day, and the Determination Agent shall determine:

- (i) in the case of any Underlying Asset that is a Share, the Traded Price for such Share that would have prevailed as of the Valuation Time on that eighth Scheduled Trading Day but for that Disrupted Day; or
- (ii) in the case of any Underlying Asset that is an Index, the level of that Index as at the Valuation Time on that eighth Scheduled Trading Day in accordance with the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using the Traded Price as at the Valuation Time on that eighth Scheduled Trading Day of each security comprised in that Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that eighth Scheduled Trading Day, the Traded Price for the relevant security as at the Valuation Time on that eighth Scheduled Trading Day).

12.2 **Averaging Dates and Lookback Dates**

If, in the opinion of the Determination Agent, any Averaging Date or Lookback Date (for the purposes of this General Condition 12.2, a "**Reference Date**") is a Disrupted Day in respect of any Underlying Asset, then:

(a) **if there is only one Underlying Asset:**

- (i) if the Final Terms specifies 'Omission' to be 'Applicable', such date will be deemed not to be a Reference Date for the purposes of determining the relevant level, price or amount, provided that, if, through the operation of this provision, no Reference Date would occur in respect of such Underlying Asset, then the provisions of the definition of 'Valuation Date' and General Condition 12.1

- (*Valuation Dates*) (as applicable) will apply for the purposes of determining the relevant level, price or amount on the final Reference Date as if such Reference Date were a Valuation Date that was a Disrupted Day; or
- (ii) if the Final Terms specifies 'Postponement' to be 'Applicable', the provisions of General Condition 12.1 (*Valuation Dates*) (as applicable) will apply for the purposes of determining the relevant level, price or amount on that Reference Date as if such Reference Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Reference Date would fall on a day that already is or is deemed to be a Reference Date; or
 - (iii) if the Final Terms specifies 'Modified Postponement' to be 'Applicable', then the Reference Date shall be the first succeeding Valid Date (as defined below). If the first succeeding Valid Date has not occurred as at the Valuation Time on the eighth Scheduled Trading Day immediately following the original date that, but for the occurrence of another Reference Date or Disrupted Day, would have been the final Reference Date, then (A) that eighth Scheduled Trading Day shall be deemed to be the Reference Date (irrespective of whether that eighth Scheduled Trading Day is already a Reference Date) and (B) the Determination Agent shall determine the relevant level or price for that Reference Date in accordance with General Condition 12.1 (*Valuation Dates*) (as applicable). For the purposes of this paragraph (iii), "**Valid Date**" means a Scheduled Trading Day that is not a Disrupted Day and on which another Reference Date does not or is not deemed to occur.
- (b) **if there is more than one Underlying Asset, the Reference Date for each Underlying Asset not affected by the occurrence of a Disrupted Day shall be the original date that, but for the occurrence of a Disrupted Day, would have been the Reference Date for all Underlying Assets (the "Scheduled Reference Date") and for each Underlying Asset affected by the occurrence of a Disrupted Day:**
- (i) if the Final Terms specifies 'Omission' to be 'Applicable', such date will be deemed not to be a Reference Date for the purposes of determining the relevant level, price or amount for each Underlying Asset affected by the occurrence of a Disrupted Day, provided that, if, through the operation of this provision, no Reference Date would occur in respect of such Underlying Asset, then the provisions of the definition of 'Valuation Date' and General Condition 12.1 (*Valuation Dates*) (as applicable) will apply for the purposes of determining the relevant level, price or amount of such Underlying Asset on the final Reference Date as if such Reference Date were a Valuation Date that was a Disrupted Day; or
 - (ii) if the Final Terms specifies 'Postponement' to be 'Applicable', then the provisions of General Condition 12.1 (*Valuation Dates*) (as applicable) will apply for the purposes of determining the relevant level, price or amount of such Underlying Asset on that Reference Date as if such Reference Date were a Valuation Date that was a Disrupted Day irrespective of whether, pursuant to such determination, that deferred Reference Date would fall on a day that already is or is deemed to be a Reference Date; or
 - (iii) if the Final Terms specifies 'Modified Postponement' to be 'Applicable', then the Reference Date shall be the first succeeding Valid Date (as defined below). If the first succeeding Valid Date has not occurred as at the Valuation Time on the eighth Scheduled Trading Day immediately following the final Scheduled Reference Date, then (A) that eighth Scheduled Trading Day shall be deemed to be the Reference Date (irrespective of whether that eighth Scheduled Trading Day is already a Reference Date for such Underlying Asset) and (B) the Determination Agent shall determine the relevant level or price for such Underlying Asset on that Reference Date in accordance with General Condition 12.1 (*Valuation Dates*) (as applicable). For the purposes of this paragraph (iii), "**Valid Date**" means a Scheduled Trading Day that is not a Disrupted Day for an

Underlying Asset and on which another Reference Date does not or is not deemed to occur.

13. **Adjustments**

If the Issuer requests that the Determination Agent determine whether an appropriate adjustment can be made in accordance with General Condition 12 (*Consequences of Disrupted Days*), the Issuer shall not be obliged to make any adjustment that it does not think is appropriate and none of the Determination Agent, the Issuer or any other party shall be liable for the Issuer making or failing to make any such adjustment.

In particular, notwithstanding that an adjustment is required to be made by the provisions set out in this Section D: EQUITY LINKED CONDITIONS, DISRUPTION EVENTS AND TAXES AND EXPENSES in respect of any event affecting a Share Company or its Shares, or an Index or its Index Sponsor, the Issuer reserves the right not to make that adjustment if, at the time the adjustment is to be made pursuant thereto, an option or future on the relevant Share or Index is traded on any Futures or Options Exchange and no adjustment is made by that Futures or Options Exchange to the entitlement under that traded option or future in respect of that event.

The Issuer will give, or procure that there is given, notice as soon as practicable of any adjustment and of the date from which such adjustment is effective.

14. **Adjustment or early redemption following an Additional Disruption Event**

(a) If an Additional Disruption Event occurs:

- (i) the Determination Agent shall determine whether an appropriate adjustment can be made to the Conditions and/or any other provisions relating to the Securities to account for the economic effect of such Additional Disruption Event on the Securities which would produce a commercially reasonable result and preserve substantially the economic effect to the Holders of a holding of the relevant Security. If the Determination Agent determines that an appropriate adjustment or adjustments can be made, the Issuer shall determine the effective date of such adjustment(s), notify the Holders of such adjustment(s) and take the necessary steps to effect such adjustment(s); or
- (ii) if the Determination Agent determines that no adjustment that could be made pursuant to paragraph (i) above would produce a commercially reasonable result and preserve substantially the economic effect to the Holders of a holding of the relevant Security, the Determination Agent will notify the Issuer of such determination and no adjustment(s) shall be made pursuant to paragraph (i) above. In such event, the Issuer may, on giving irrevocable notice to the Holders of not less than a number of Business Days equal to the Early Redemption Notice Period Number, redeem all of the Securities of the relevant Series on the date specified by it in the notice (the "**Early Cash Redemption Date**") and pay to each Holder, in respect of each Security held by it, an amount equal to the Early Cash Settlement Amount on such date (provided that the Issuer may also, prior to such redemption of the Securities, make any adjustment(s) to the Conditions or any other provisions relating to the Securities as appropriate in order to (when considered together with the redemption of the Securities) account for the effect of such Additional Disruption Event on the Securities).

15. **FX Disruption Event**

If the Final Terms specifies 'FX Disruption Event' to be 'Applicable', upon the occurrence of an FX Disruption Event, the Issuer may take any one or more of the following actions:

- (a) deduct from any payments to be made in respect of the Securities an amount calculated by the Determination Agent as representing a cost, expense, charge and/or deduction arising in connection with such FX Disruption Event(s) or under any other adjustment with respect thereto; and/or

- (b) make payment of the relevant Settlement Amount and/or any other amount payable by the Issuer pursuant to the Conditions in the Specified Currency instead of the Settlement Currency, the amount payable in the Specified Currency being determined by the Determination Agent; and/or
- (c) postpone or adjust any Valuation Date or the relevant payment date for any amount payable by the Issuer pursuant to the Conditions until, in the determination of the Determination Agent, an FX Disruption Event is no longer subsisting; and/or
- (d) (in the case of a Price Source Disruption) specify and adopt:
 - (i) an appropriate alternative fallback or alternative price or rate source or method of determination selected by the Determination Agent (which may (or may not) be by reference to dealer poll or such other publication page or service as may replace the relevant page or service for the purpose of displaying a foreign exchange rate comparable or equivalent); or
 - (ii) a replacement of any one or more relevant currencies, as the case may be; and/or
- (e) deem such event to be an Additional Disruption Event for the purpose of these provisions and take any necessary action in accordance with the applicable provisions of General Condition 14 (*Adjustment or early redemption following an Additional Disruption Event*), as the case may be, in respect of the Securities.

Upon the occurrence of an FX Disruption Event, the Issuer shall give notice as soon as practicable to the Holders, stating the occurrence of the FX Disruption Event, giving details thereof and the action proposed to be taken in relation thereto. Where 'FX Disruption Event' applies, and an event is both a Currency Disruption Event and an FX Disruption Event, such event shall be deemed to be an FX Disruption Event.

16. Administrator/Benchmark Event

If an Administrator/Benchmark Event occurs in respect of the Securities, then:

- (a) If the Administrator/Benchmark Event has occurred in respect of an Underlying Asset and a Pre-nominated Index has been specified in the Final Terms in respect of such Underlying Asset, the relevant Underlying Asset shall be replaced by such Pre-nominated Index with effect from the date as determined by the Determination Agent and the Pre-nominated Index will be deemed to be the Underlying Asset with effect from such date. The Determination Agent may make such adjustments that it determines to be appropriate, if any, to any one or more of the Conditions or other terms of the Securities, including without limitation, any Condition or term relevant to the settlement or payment under the Securities, as the Determination Agent determines appropriate to account for such replacement (including, without limitation, any adjustment which the Determination Agent determines is appropriate in order to reduce or eliminate to the extent reasonably practicable any transfer of economic value from the Issuer to the Holders or vice versa as a result of such replacement, including as a result of a different term structure or methodology); or
- (b) Otherwise than in the circumstances of (a) above, an Additional Disruption Event shall be deemed to have occurred for the purposes of these provisions and the Determination Agent shall adjust, redeem, cancel and/or take any other necessary action in accordance with the applicable provisions of General Condition 14 (*Adjustment or early redemption following an Additional Disruption Event*), as the case may be, in respect of the Securities.

17. Local Jurisdiction Taxes and Expenses

If the Final Terms specifies 'Local Jurisdiction Taxes and Expenses' to be 'Applicable' in relation to any Securities:

- (a) the Issuer shall deduct from amounts payable to (or from any further Securities or other assets deliverable to) a Holder all Local Jurisdiction Taxes and Expenses, not previously deducted from amounts paid (or further Securities or assets delivered) to such Holder, as the Determination Agent shall determine are attributable to such Securities; or
- (b) the Issuer may request that the Determination Agent determines whether an appropriate adjustment can be made to the Conditions and any other provisions relating to the Securities to account for such Local Jurisdiction Taxes and Expenses. If the Determination Agent determines that such adjustment(s) can be made, the Issuer shall determine the effective date of such adjustment(s) and take the necessary steps to effect such adjustment(s). The Issuer shall notify Holders of any such adjustment(s), as soon as reasonably practicable after the nature and effective date of the adjustments are determined. If the Determination Agent determines that no adjustment that could be made would produce a commercially reasonable result, it shall notify the Issuer of such determination and no adjustment(s) shall be made and paragraph (a) above shall apply to the Securities.

For the avoidance of doubt, the Issuer shall not be liable for any Local Jurisdiction Taxes and Expenses and Holders shall be liable to pay any Local Jurisdiction Taxes and Expenses attributable to their Securities, and, unless an adjustment is made in accordance with this General Condition 16, any such Local Jurisdiction Taxes and Expenses shall be deducted from the Cash Settlement Amount or any other amount payable to (or from any further Securities or other assets deliverable to) a Holder in respect of the Securities. This Local Jurisdiction Taxes and Expenses provision shall apply in addition to any other rights the Issuer may have in relation to Taxes, Settlement Expenses and/or conditions to settlement as set out in the Conditions.

18. **Indicative amounts**

If the Final Terms provides that the Securities are being offered by way of a Public Offer, the Final Terms may specify an indicative amount, an indicative minimum amount, or an indicative maximum amount, or any combination of the foregoing, as applicable, in relation to any Specified Product Value which is not fixed or determined at the commencement of the Offer Period. If so specified in the Final Terms, references in these Conditions to such Specified Product Value shall be construed as the amount, level, percentage, price, rate or value (as applicable) determined based on market conditions by the Issuer on or around the end of the Offer Period, and is expected to be the indicative amount specified in the Final Terms (if so specified) but may be different from such indicative amount, and:

- (a) if an indicative minimum amount is provided in the Final Terms, the Specified Product Value will not be less than (or equal to) such indicative minimum amount; or
- (b) if an indicative maximum amount is provided in the Final Terms, the Specified Product Value will not be more than (or equal to) such indicative maximum amount; or
- (c) if both an indicative minimum amount and indicative maximum amount is provided in the Final Terms, the Specified Product Value will not be less than (or equal to) such indicative minimum amount and will not be more than (or equal to) such indicative maximum amount.

Notice of the relevant Specified Product Value will be published prior to the Issue Date when such Specified Product Value is fixed or determined by the Issuer on or around the end of the Offer Period and the relevant amount, level, percentage, price, rate or value specified in such notice will be deemed to be the Specified Product Value.

For these purposes, "**Specified Product Value**" means any amount, level, percentage, price, rate or value (including, but not limited to, the Participation, Interest Barrier Percentage, Lower Barrier Percentage, Upper Barrier Percentage, Knock-out Barrier Percentage, Margin, Autocall Barrier Percentage, Final Barrier Percentage, Strike Price Percentage or Knock-in Barrier Percentage, Fixed Interest Rate, Minimum Interest Rate, Maximum Interest Rate,

Lower Strike Price Percentage, and Cap) which is specified in these Conditions as the amount, level, percentage, price, rate or value (as applicable) to be provided in the Final Terms (or phrases of similar import).

19. **Effect of adjustments**

All determinations made by the Determination Agent pursuant to this Section D: EQUITY LINKED CONDITIONS, DISRUPTION EVENTS AND TAXES AND EXPENSES shall be conclusive and binding on the Holders, the Issue and Paying Agent and the Issuer, except in the case of manifest error.

20. **Depository Receipt Provisions**

20.1 **Partial Lookthrough Depository Receipt Provisions**

Where the Final Terms specifies 'Partial Lookthrough Depository Receipt Provisions' to be 'Applicable' in respect of a Share, then the provisions set out below shall apply, and, in relation to such Share, the other General Conditions shall be deemed to be amended and modified as set out in this General Condition 20.1.

- (a) The definition of 'Potential Adjustment Event' shall be amended so that it reads as follows:

"Potential Adjustment Event" means any of the following or a declaration by the Share Company of the terms of any of the following:

- (i) a subdivision, consolidation or reclassification of the relevant Shares and/or Underlying Share (unless resulting in a Merger Event), or a free distribution or dividend of any such Shares and/or Underlying Share to existing holders by way of bonus, capitalisation or similar issue;
- (ii) a distribution, issue or dividend to existing holders of the relevant Shares and/or Underlying Share of (i) additional Shares and/or Underlying Share, or (ii) other share capital or securities granting the right to payment of dividends and/or the proceeds of dissolution, liquidation or termination of the Share Company or Underlying Share Company, as appropriate, equally or proportionately with such payments to holders of such Shares and/or Underlying Share, or (iii) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Share Company or Underlying Share Company, as appropriate, as a result of a spin-off or other similar transaction, or (iv) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Determination Agent;
- (iii) in respect of a Share and/or Underlying Share, an amount per Share and/or Underlying Share which the Determination Agent determines should be characterised as an extraordinary dividend;
- (iv) a call by the Share Company or Underlying Share Company, as appropriate, in respect of the relevant Shares and/or Underlying Share that are not fully paid;
- (v) a repurchase by the Share Company or Underlying Share Company, as appropriate, or any of its subsidiaries of the relevant Shares and/or Underlying Share whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
- (vi) in respect of the Share Company or Underlying Share Company, as appropriate, an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of the Share Company or Underlying Share Company, as appropriate, pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred

stock, warrants, debt instruments or stock rights at a price below their market value, provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights;

- (vii) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Shares and/or Underlying Share; or
 - (viii) the making of any amendment or supplement to the terms of the Deposit Agreement, provided that an event under (i) to (vii) (inclusive) above in respect of the Underlying Share shall not constitute a Potential Adjustment Event unless, in the opinion of the Determination Agent, such event has a diluting or concentrative effect on the theoretical value of the Shares.'
- (b) If the Determination Agent determines that:
- (i) an event under (i) to (vii) (inclusive) of the definition of 'Potential Adjustment Event' has occurred in respect of any Underlying Share, the Determination Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Shares; or
 - (ii) an event under (viii) of the definition of 'Potential Adjustment Event' has occurred, the Determination Agent will determine whether such Potential Adjustment Event has an economic effect on the Securities;

and, in each case, the Determination Agent will make the corresponding adjustment(s), if any, to one or more of any variable relevant to the exercise, settlement, payment or other terms of the Securities as the Determination Agent determines appropriate to account for (x) in respect of an event under (i) to (vii) (inclusive) of the definition of 'Potential Adjustment Event', that diluting or concentrative effect, and (y) in respect of an event under (viii) of the definition of 'Potential Adjustment Event', such economic effect on the Securities, as the case may be (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share) following the Potential Adjustment Event. The Determination Agent may (amongst other factors) have reference to any adjustment made by the Depository under the Deposit Agreement.

Any adjustment to the terms of the Securities following a Potential Adjustment Event shall take into account the economic cost of any taxes, duties, levies, fees or registration payable by or on behalf of the Issuer or any of its relevant Affiliates or a foreign investor charged on subscription, acquisition or receipt of any Shares or other securities received as a result of the Potential Adjustment Event, such calculations to be determined and carried out by the Determination Agent in good faith.

Notwithstanding the above, the Issuer may, alternatively, on giving notice to the Holders, elect, in lieu of the Determination Agent making an Adjustment in respect of a Potential Adjustment Event, to deliver to each Holder one or more additional Securities (the "**Adjustment Event Securities**") and/or pay to each Holder a cash amount (the "**Adjustment Event Amount**") to account for the diluting or concentrative effect of such Potential Adjustment Event. Where the Issuer elects to deliver Adjustment Event Securities, such Adjustment Event Securities will be issued on the same (or substantially the same) terms as the relevant Securities as the Determination Agent may determine. In such notice the Issuer will set out the amount of Securities to be delivered and/or cash to be paid and the manner in which such delivery and/or payment is to be made.

For the purpose of this General Condition 20.1, General Condition 11.1 (*Potential Adjustment Events*) will not apply.

If the Determination Agent determines that no adjustment that it could make will produce a commercially reasonable result, it shall notify the Issuer (where applicable) and the Holders that the relevant consequence shall be the early redemption of the

Securities, in which case, on such date as selected by the Determination Agent in its reasonable commercial discretion, the Issuer shall redeem the Securities upon prior notice made to the Holders, and the Issuer will cause to be paid to each Holder in respect of each Security held by it an amount equal to the Early Cash Settlement Amount (as defined in General Condition 35 (*Definitions and Interpretation*)).

- (c) The definitions of 'Merger Event' and 'Tender Offer' shall be amended so that (x) all references to 'Shares' shall be deleted and replaced with the words 'Shares and/or the Underlying Share'; and (y) all references to 'Share Company' shall be deleted and replaced with the words 'Share Company or Underlying Share Company, as appropriate'. If the Determination Agent determines that a Merger Event or Tender Offer has occurred in respect of an Underlying Share, then where the Determination Agent makes an adjustment to the Securities in connection with a Merger Event or Tender Offer, the Determination Agent may (amongst other factors) have reference to any adjustment made by the Depository under the Deposit Agreement.
- (d) The definitions of 'Nationalisation', 'Insolvency' and 'Delisting' shall be amended so that (x) all references to 'Shares' shall be deleted and replaced with the words 'Shares and/or the Underlying Share'; and (y) all references to 'Share Company' shall be deleted and replaced with the words 'Share Company or Underlying Share Company, as appropriate'.

If any of 'Nationalisation', 'Insolvency' or 'Delisting' occurs in respect of the Underlying Share or the Underlying Share Company, then the consequence of such events shall be interpreted consistently.

Notwithstanding anything to the contrary in the definition of 'Delisting', a Delisting shall not occur in respect of the Underlying Share if the Underlying Share is immediately re-listed, re-traded or re-quoted on an exchange or quotation system regardless of the location of such exchange or quotation system.

- (e) The definition of 'Insolvency Filing' shall be amended so that (x) all references to 'Shares' shall be deleted and replaced with the words 'Shares and/or the Underlying Share'; and (y) all references to 'Share Company' shall be deleted and replaced with the words 'Share Company or Underlying Share Company, as appropriate'.

If 'Insolvency Filing' occurs in respect of the Underlying Share or the Underlying Share Company, then the consequence of such event shall be interpreted consistently.

- (f) The definition of 'Announcement Date' to add at the end thereof the following:

'(c) in the case of a termination of the Deposit Agreement, the date of the first public announcement by the Depository that the Deposit Agreement is (or will be) terminated.'

20.2 Full Lookthrough Depository Receipt Provisions

Where the Final Terms specifies 'Full Lookthrough Depository Receipt Provisions' to be 'Applicable' in respect of a Share, then the provisions set out below shall apply, and, in relation to such Share, the other General Conditions shall be deemed to be amended and modified as set out in this General Condition 20.2.

- (a) The definition of 'Potential Adjustment Event' shall be amended so that it reads as follows:

"Potential Adjustment Event" means any of the following or a declaration by the Share Company of the terms of any of the following:

- (i) a subdivision, consolidation or reclassification of the relevant Shares and/or Underlying Share (unless resulting in a Merger Event), or a free distribution or dividend of any such Shares and/or Underlying Share to existing holders by way of bonus, capitalisation or similar issue;

- (ii) a distribution, issue or dividend to existing holders of the relevant Shares and/or Underlying Share of (i) additional Shares and/or Underlying Share, or (ii) other share capital or securities granting the right to payment of dividends and/or the proceeds of dissolution, liquidation or termination of the Share Company or Underlying Share Company, as appropriate, equally or proportionately with such payments to holders of such Shares and/or Underlying Share, or (iii) share capital or other securities of another issuer acquired or owned (directly or indirectly) by the Share Company or Underlying Share Company, as appropriate, as a result of a spin-off or other similar transaction, or (iv) any other type of securities, rights or warrants or other assets, in any case for payment (cash or other consideration) at less than the prevailing market price as determined by the Determination Agent;
 - (iii) in respect of a Share and/or Underlying Share, an amount per Share and/or Underlying Share which the Determination Agent determines should be characterised as an extraordinary dividend;
 - (iv) a call by the Share Company or Underlying Share Company, as appropriate, in respect of the relevant Shares and/or Underlying Share that is not fully paid;
 - (v) a repurchase by the Share Company or Underlying Share Company, as appropriate, or any of its subsidiaries of the relevant Shares and/or Underlying Share whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise;
 - (vi) in respect of the Share Company or Underlying Share Company, as appropriate, an event that results in any shareholder rights being distributed or becoming separated from shares of common stock or other shares of the capital stock of the Share Company or Underlying Share Company, as appropriate, pursuant to a shareholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value, provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights;
 - (vii) any other event that may have a diluting or concentrative effect on the theoretical value of the relevant Shares and/or Underlying Share; or
 - (viii) the making of any amendment or supplement to the terms of the Deposit Agreement, provided that an event under (i) to (vii) (inclusive) above in respect of the Underlying Share shall not constitute a Potential Adjustment Event unless, in the opinion of the Determination Agent, such event has a diluting or concentrative effect on the theoretical value of the Shares.'
- (b) If the Determination Agent determines that:
- (i) an event under (i) to (vii) (inclusive) of the definition of 'Potential Adjustment Event' has occurred in respect of any Underlying Share, the Determination Agent will determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Shares; or
 - (ii) an event under (viii) of the definition of 'Potential Adjustment Event' has occurred, the Determination Agent will determine whether such Potential Adjustment Event has an economic effect on the Securities;

and, in each case, the Determination Agent will make the corresponding adjustment(s), if any, to one or more of any variable relevant to the exercise, settlement, payment or other terms of the Securities as the Determination Agent determines appropriate to account for (x) in respect of an event under (i) to (vii) (inclusive) of the definition of 'Potential Adjustment Event', that diluting or concentrative effect, and (y) in respect of an event under (viii) of the definition of 'Potential Adjustment Event', such economic

effect on the Securities, as the case may be (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relative to the relevant Share) following the Potential Adjustment Event. The Determination Agent may (among other factors) have reference to any adjustment made by the Depository under the Deposit Agreement.

Any adjustment to the terms of the Securities following a Potential Adjustment Event shall take into account the economic cost of any taxes, duties, levies, fees or registration payable by or on behalf of the Issuer or any of its relevant Affiliates or a foreign investor charged on subscription, acquisition or receipt of any Shares or other securities received as a result of the Potential Adjustment Event, such calculations to be determined and carried out by the Determination Agent in good faith.

Notwithstanding the above, the Issuer may, alternatively, on giving notice to the Holders, elect, in lieu of the Determination Agent making an Adjustment in respect of a Potential Adjustment Event, to deliver to each Holder one or more additional Securities (the "**Adjustment Event Securities**") and/or pay to each Holder a cash amount (the "**Adjustment Event Amount**") to account for the diluting or concentrative effect of such Potential Adjustment Event. Where the Issuer elects to deliver Adjustment Event Securities, such Adjustment Event Securities will be issued on the same (or substantially the same) terms as the relevant Securities as the Determination Agent may determine. In such notice the Issuer will set out the amount of Securities to be delivered and/or cash to be paid and the manner in which such delivery and/or payment is to be made.

For the purpose of this General Condition 20.2, General Condition 11.1 (*Potential Adjustment Events*) will not apply.

If the Determination Agent determines that no adjustment that it could make will produce a commercially reasonable result, it shall notify the Issuer (where applicable) and the Holders that the relevant consequence shall be the early redemption of the Securities, in which case, on such date as selected by the Determination Agent in its reasonable commercial discretion, the Issuer shall redeem the Securities upon prior notice made to the Holders, and the Issuer will cause to be paid to each Holder in respect of each Security held by it an amount equal to the Early Cash Settlement Amount (as defined in General Condition 35 (*Definitions and Interpretation*)).

- (c) The definitions of 'Merger Event' and 'Tender Offer' shall be amended so that (x) all references to 'Shares' shall be deleted and replaced with the words 'Shares and/or the Underlying Share'; and (y) all references to 'Share Company' shall be deleted and replaced with the words 'Share Company or Underlying Share Company, as appropriate'. If the Determination Agent determines that a Merger Event or Tender Offer has occurred in respect of an Underlying Share, then where the Determination Agent makes an adjustment to the Securities in connection with a Merger Event or Tender Offer, the Determination Agent may (amongst other factors) have reference to any adjustment made by the Depository under the Deposit Agreement.
- (d) The definitions of 'Nationalisation', 'Insolvency' and 'Delisting' shall be amended so that (x) all references to 'Shares' shall be deleted and replaced with the words 'Shares and/or the Underlying Share'; and (y) all references to 'Share Company' shall be deleted and replaced with the words 'Share Company or Underlying Share Company, as appropriate'.

If any of 'Nationalisation', 'Insolvency' or 'Delisting' occurs in respect of the Underlying Share or the Underlying Share Company, then the consequence of such events shall be interpreted consistently.

- (e) The definition of 'Insolvency Filing' shall be amended so that (x) all references to 'Shares' shall be deleted and replaced with the words 'Shares and/or the Underlying Share'; and (y) all references to 'Share Company' shall be deleted and replaced with the words 'Share Company or Underlying Share Company, as appropriate'.

If 'Insolvency Filing' occurs in respect of the Underlying Share or the Underlying Share Company, then the consequence of such event shall be interpreted consistently.

- (f) The definition of 'Announcement Date' to add at the end thereof the following:
- '(c) in the case of a termination of the Deposit Agreement, the date of the first public announcement by the Depository that the Deposit Agreement is (or will be) terminated.'
- (g) For the purpose of determining whether a Market Disruption Event has occurred in respect of the Share, the following amendments shall be deemed to be made to the General Conditions:
- (i) each reference in the definition of 'Exchange Business Day', 'Scheduled Closing Time', 'Scheduled Trading Day', 'Trading Disruption', 'Exchange Disruption', 'Early Closure' and 'Disrupted Day', to the 'Exchange' shall be deemed to include a reference to the primary exchange or quotation system on which the Underlying Share is traded; and
- (ii) the definition of 'Market Disruption Event', 'Trading Disruption' and 'Exchange Disruption' shall be amended so that (x) all references to 'Shares' shall be deleted and replaced with the words 'Shares and/or the Underlying Share'; and (y) all references to 'Share Company' shall be deleted and replaced with the words 'Share Company or Underlying Share Company, as appropriate'. If the event described in such provisions occurs in respect of the Underlying Share or the Underlying Share Company, then the consequence of such event shall be interpreted consistently.

E. GENERAL PROVISIONS

21. Events of Default

If any of the following events occurs and is continuing (each an "**Event of Default**") and unless the Event of Default shall have been cured by the Issuer or waived by the Holders prior to receipt by the Issue and Paying Agent or the Issuer, as the case may be, of a notice from Holders as referred to below, a Holder, may give notice to the Issuer and the Issue and Paying Agent (and, in respect of any Security that is not a CREST Security) or to the Issuer (in respect of any CREST Security) that such Security is, and in all cases such Security shall immediately become, due and payable at, in respect of each Calculation Amount for such Security, the Early Cash Settlement Amount (and, notwithstanding that if the Final Terms specifies 'Cash or Physical Settlement' as the 'Settlement Method', cash settlement shall be deemed to apply as if the Final Terms specifies 'Cash' as the 'Settlement Method'):

- (a) the Issuer does not pay any Optional Cash Settlement Amount, Autocall Cash Settlement Amount, Early Cash Settlement Amount or Final Cash Settlement Amount, as applicable, in respect of the Securities when the same is due and payable and such failure continues for 30 calendar days;
- (b) any interest has not been paid within 14 calendar days of the due date for payment. The Issuer shall not, however, be in default if such sums were not paid in order to comply with a mandatory law, regulation or order of any court of competent jurisdiction. Where there is doubt as to the validity or applicability of any such law, regulation or order, the Issuer will not be in default if it acts on the advice given to it during such 14-calendar-day period by independent legal advisers; or
- (c) the Issuer fails to deliver any Entitlement on the due date for delivery and such failure to deliver has not been remedied within 30 calendar days of notice of such failure having been given to the Issuer by any Holder, provided that an Event of Default shall not occur under this General Condition 21(c) if (i) any of the conditions to settlement to be satisfied by the Holder have not been so satisfied as at the due date for delivery or (ii) the Issuer has elected to pay the Disruption Cash Settlement Price or Alternate Cash Amount pursuant to General Condition 5.1(b) (*Settlement Disruption Event*) or General Condition 5.1(c) (*Alternate Cash Amount*); or

- (d) the Issuer breaches any term and condition of the Securities in a way that is materially prejudicial to the interests of the Holders, and that breach has not been remedied within 30 calendar days of the Issuer having received notice thereof from Holders holding at least one quarter in outstanding nominal amount or number, as the case may be, of the relevant Series demanding remedy; or
- (e) an order is made or an effective resolution is passed for the winding-up of the Issuer (otherwise than in connection with a scheme of reconstruction, merger or amalgamation).

For the purposes of calculating any Early Cash Settlement Amount at any time following an Event of Default, the Determination Agent will ignore the effect of such Event of Default upon the market value of the Securities.

22. Agents

22.1 Appointment of Agents

The Agents act solely as agents of the Issuer and do not assume any obligation or relationship of agency or trust for or with any Holder. The Issuer reserves the right to vary or terminate the appointment of the Agents and to appoint additional or other Agents, provided that the Issuer shall at all times maintain:

- (a) an Issue and Paying Agent;
- (b) a Registrar and a Transfer Agent in relation to Registered Securities;
- (c) one or more Determination Agent(s) where these General Conditions so require;
- (d) Paying Agents having specified offices in at least two major European cities;
- (e) such other agents as may be required by any stock exchange on which the Securities may be listed; and
- (f) a CREST Agent so long as any CREST Securities are outstanding and in accordance with the Relevant Rules.

Notice of any termination of appointment and of any changes to the specified office of any Agent will be given to Holders.

22.2 Determinations by the Determination Agent

Unless otherwise specified, all determinations, considerations, decisions, elections and calculations in the Conditions shall be made by the Determination Agent (which will be Barclays Bank PLC, unless otherwise specified in the Final Terms). In respect of each such determination, consideration, decision, election and calculation, this General Condition 22.2 shall apply.

In making such determinations, considerations, decisions, elections and calculations, the Determination Agent may take into account the impact on the Issuer's hedging arrangements. In all circumstances the Determination Agent shall make such determinations and calculations in good faith and in a commercially reasonable manner, and (save in the case of manifest or proven error) such determinations and calculations shall be final and binding on the Issuer, the Agents and the Holders.

22.3 Responsibility of the Issuer and the Agents

Neither the Issuer nor any Agent shall be held responsible for any loss or damage, resulting from any legal enactment (domestic or foreign), the intervention of a public authority (domestic or foreign), an act of war, strike, blockade, boycott or lockout or any other similar event or circumstance. The reservation in respect of strikes, blockades, boycotts and lockouts shall also apply if any of such parties itself takes such measures or becomes the subject of

such measures. Where the Issuer or any of the Agents is prevented from effecting payment or delivery due to such event, payment or delivery may be postponed until the time the event or circumstance impeding payment has ceased, and shall have no obligation to pay or deliver any additional amounts in respect of such postponement.

22.4 **Waiver of performance for the Determination Agent and Issuer for determinations or other actions not in compliance with the Benchmark Regulation**

Notwithstanding anything else in the Conditions, if, in respect of the Securities, it (i) is or would be unlawful at any time under the Benchmark Regulation or (ii) would contravene any applicable licensing requirements, in each case, for the Determination Agent or Issuer (as applicable) to make a determination or carry out some other action which it would otherwise be obliged to do under the Conditions, then the Determination Agent and Issuer (as applicable) shall not be obliged to make such determination or carry out such other action and shall be excused performance thereof without incurring any liability whatsoever to Holders.

23. **Taxation**

The Issuer is not liable for, or otherwise obliged to pay amounts in respect of, any Taxes borne by a Holder. A Holder must pay all Taxes arising from or payable in connection with all payments relating to the Securities and all payments in respect of the Securities shall be made free and clear of, and without withholding or deduction for, any present or future Taxes of whatever nature imposed, levied, collected, withheld or assessed by or within the Bank Jurisdiction (or any authority or political subdivision thereof or therein having power to tax) unless such withholding or deduction is required by law.

In that event, the appropriate withholding or deduction shall be made and the Issuer shall pay such additional amounts ("**Additional Amounts**") as may be necessary in order that the net amounts receivable by the relevant Holder shall equal the respective amounts that would have been receivable by such Holder in the absence of such withholding or deduction. Notwithstanding the above, no Additional Amounts shall be payable with respect to any Security:

- (a) to, or to a third party on behalf of, a Holder who is liable for such Taxes in respect of such Securities by reason of his having a connection with the Bank Jurisdiction other than the mere holding of the relevant Security or Coupon; or
- (b) to, or to a third party on behalf of, a Holder who could lawfully avoid (but has not so avoided) such deduction or withholding by complying or procuring that any third party complies with any statutory requirements or by making or procuring that any third party makes a declaration of non-residence or other similar claim for exemption to any tax authority in the place where the relevant Security or Coupon is presented for payment; or
- (c) presented for payment more than 30 calendar days after the Relevant Date, except to the extent that the Holder would have been entitled to an Additional Amount on presenting such Security for such payment on the last day of such 30-day period; or
- (d) where such withholding or deduction is required by FATCA or the rules of the US Internal Revenue Code of 1986, as amended (the "**Code**"), including without limitation, in respect of dividends, dividend equivalent payments, (including without limitation under section 871(m) of the Code), or amounts realised on the disposition of certain direct or indirect interests in US real property. For this purpose, "**FATCA**" means sections 1471 through 1474 of the Code, any final, current or future regulations or official interpretations thereof, any agreement entered into pursuant to section 1471(b) of the Code, or any US or non-US fiscal or regulatory legislation, rules or practices adopted pursuant to any inter-governmental agreement entered into in connection with the implementation of such sections of the Code; or
- (e) (except in the case of Registered Securities or CREST Securities) presented for payment by or on behalf of a Holder who would have been able to avoid such

withholding or deduction by presenting the relevant Security or Coupon to another Paying Agent without such deduction or withholding; or

- (f) in relation to Definitive Bearer Securities, unless it is proved, to the satisfaction of the Issue and Paying Agent or the Paying Agent to whom the Security or Coupon is presented or, in respect of CREST Securities, to the satisfaction of the Issuer, that the Holder is unable to avoid such withholding or deduction by satisfying any applicable certification, identification or reporting requirements or by making a declaration of non-residence or other similar claim for exemptions to the relevant tax authorities.

24. **Prescription**

Claims for payment of principal shall become void unless made within ten years and claims for interest shall become void unless made within five years of the appropriate Relevant Date.

25. **Early redemption for Unlawfulness or Impracticability**

If the Issuer determines in good faith and in a reasonable manner that the performance of any of its absolute or contingent obligations under the Securities has become, or there is a substantial likelihood that it will become, unlawful or a physical impracticability, in whole or in part, as a result of (a) any change in financial, political or economic conditions or foreign exchange rates or (b) compliance in good faith by the Issuer or any relevant subsidiaries or Affiliates with any applicable present or future law, rule, regulation, judgment, order or directive of any governmental, administrative or judicial authority or power or in interpretation thereof, the Issuer may, at its option, redeem or terminate the Securities by giving notice to Holders.

If the Issuer redeems the Securities pursuant to this General Condition 25, then the Issuer will, if and to the extent permitted by applicable law, pay to each Holder, in respect of each Security held by it, an amount equal to the Early Cash Settlement Amount on the Early Cash Redemption Date.

26. **Replacement of Securities (other than CREST Securities)**

Should any Security or Coupon in respect of any Series be lost, stolen, mutilated, defaced or destroyed, it may, subject to all applicable laws, regulations and any Relevant Stock Exchange or any other relevant authority requirements, be replaced at the specified office of the Issue and Paying Agent, in the case of Bearer Securities, or the Registrar, in the case of Registered Securities, or of such other Paying Agent or Transfer Agent, if the Issuer designates such and gives notice of the designation to Holders. The replacement of any Security or Coupon shall be subject to payment by the claimant of the fees, expenses and Taxes incurred in connection therewith and on such terms as to evidence, security and indemnity and otherwise as the Issuer may require.

27. **Notices**

27.1 **To Holders**

All notices to Holders will be given in writing and deemed to have been duly given and valid:

- (a) **in the case of Definitive Bearer Securities**, if published in a daily newspaper of general circulation in England (which is expected to be the Financial Times) and will be deemed to have been given on the date of first publication;
- (b) **in the case of listed Securities**, if given in accordance with the rules and regulations of the Relevant Stock Exchange or other relevant authority and will be deemed to have been given on the first date of transmission or publication;
- (c) **if publication pursuant to paragraphs (a) or (b) above is not practicable**, if published in another leading English language daily newspaper with circulation in Europe on the date of first publication;

- (d) **in the case of Registered Securities**, if mailed to the relevant Holders of such Registered Securities at their respective designated addresses appearing in the Register and will be deemed delivered on the third weekday (being a day other than a Saturday or a Sunday) after the date of mailing;
- (e) **in the case of Cleared Securities**, if given to the Relevant Clearing System provided that any publication or other requirements required pursuant to General Condition 27.1(b) above shall also be complied with if applicable. In such cases, notices will be deemed given on the first date following the day of transmission to the applicable Relevant Clearing System; and/or
- (f) **in the case of CREST Securities**, if mailed to the relevant Holders of such CREST Securities at their respective designated addresses appearing in the Record on the second CREST Business Day immediately prior to despatch of such notice and will be deemed delivered on the third weekday (being a day other than a Saturday or a Sunday) after the date of mailing or, in substitution for mailing, if given to the Operator in which case it will be deemed delivered on the first date following the day of transmission to the Operator (regardless of any subsequent mailing).

Failure to give notice where required will not invalidate any determination, calculation or correction, as applicable.

Holders of the Securities shall be deemed for all purposes to have notice of the contents of any notice given to holders of Bearer Securities.

27.2 **To the Issuer and the Agents**

In respect of any Series, all notices to the Issuer and/or the Agents must be sent to the address specified for each such entity in the Master Agency Agreement or to such other person or place as shall be specified by the Issuer and/or the Agent by notice given to Holders. Any notice determined not to be valid, effective, complete and in proper form shall be null and void unless the Issuer and the Relevant Clearing System, or, in respect of CREST Securities, the Issuer and the Operator, agree otherwise. This provision shall not prejudice any right of the person delivering the notice to deliver a new or corrected notice. The Issuer, Operator, Paying Agent, Registrar or Transfer Agent shall use all reasonable endeavours promptly to notify any Holder submitting a notice if it is determined that such notice is not valid, effective, complete or in the proper form.

28. **Substitution**

The Issuer shall be entitled at any time, without the consent of the Holders, to substitute any other entity, the identity of which shall be determined by the Issuer, to act as issuer in respect of Securities then outstanding pursuant to the Programme (the "**New Bank Issuer**"), provided that (a) the New Bank Issuer's long-term unsecured, unsubordinated and unguaranteed debt obligations are rated at least the same as Barclays Bank PLC's long-term rating at the date on which the substitution is to take effect or the New Bank Issuer has an equivalent long-term rating from another internationally recognised rating agency and (b) no Event of Default as set out in General Condition 21 (*Events of Default*) shall occur as a result thereof. Any such substitution shall take effect upon giving notice to the Holders of each Series then outstanding, the UK Listing Authority and any other Relevant Stock Exchange and the relevant Agents.

In the event of any such substitution, any reference in the Conditions to the Issuer shall be construed as a reference to the New Bank Issuer. In connection with such right of substitution, the Issuer shall not be obliged to have regard to the consequences of the exercise of such right for individual Holders resulting from their being for any purpose domiciled or resident in, or otherwise connected with or subject to the jurisdiction of, any particular territory, and no Holder shall be entitled to claim from the Issuer or the New Bank Issuer any indemnification or payment in respect of any tax consequence of any such substitution upon such Holder.

29. **Modifications and Meetings of Holders**

29.1 **Modifications without consent of Holders**

The Conditions of the Securities of any Series and/or the Master Agency Agreement and/or the Deed of Covenant may be amended by the Issuer in each case without the consent of the Holders if, in the reasonable opinion of the Issuer, the amendment (a) is of a formal, minor or technical nature, (b) is made to correct a manifest or proven error or omission, (c) is made to comply with mandatory provisions of the law of the Bank Jurisdiction, and/or in order to comply with the amendments to any applicable laws and regulations, or (in the case of CREST Securities and on condition that Holders of CREST Securities are given prior notice where reasonably practicable) any change in any of the CREST Requirements, (d) is made to cure, correct or supplement any defective provision contained herein and/or (e) will not materially and adversely affect the interests of the Holders. Any such modification shall be binding on the Holders and any such modification shall take effect by notice to the Holders.

29.2 Modifications requiring the consent of the Holders

(a) Consent by written resolution

In addition to the powers described in paragraph (b) and paragraph (c) below, in order to modify and amend the Master Agency Agreement and the Securities (including the General Conditions) relating to a Series, a resolution in writing signed by or on behalf of the Holders of not less than 90 per cent in Aggregate Nominal Amount of Securities at the time outstanding or number, as applicable, shall be as effective as an Extraordinary Resolution duly passed at a meeting of Holders of Securities of the relevant Series. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Holders. Any such resolution shall be binding on all Holders of Securities of that Series, whether signing the resolution or not.

(b) Majority Consent

Subject as provided in paragraph (c) below, the Master Agency Agreement contains provisions for convening meetings of the Holders to consider any matter affecting their interests, including the amendment of the Master Agency Agreement and/or of any of the Conditions relating to a Series.

Such a meeting may be convened by the Issuer or Holders holding not less than 10 per cent in Aggregate Nominal Amount of the Securities at the time outstanding (in the case of Notes) or Number of Securities (in the case of Certificates). At least 21 calendar days' notice (exclusive of the day on which the notice is given and of the day on which the meeting is to be held) specifying the date, time and place of the meeting shall be given to Holders.

Except for the purposes of passing an Extraordinary Resolution, a quorum shall be two or more persons holding or representing a clear majority in Aggregate Nominal Amount or Number of Securities, as applicable, of the Securities held or represented. Any such resolution duly passed shall be binding on all Holders of Securities of that Series, whether present or not.

(c) Consent by Extraordinary Resolution

An Extraordinary Resolution will need to be passed in respect of any of the following modifications:

- (i) to amend the dates of maturity or redemption of any Securities, or any date for payment of interest on any Securities, or to extend the date for expiration, settlement or payment of any Coupon in relation to a Security;
- (ii) to reduce or cancel the nominal amount of any Entitlement or any premium payable on redemption of the Securities;
- (iii) to reduce the rate or rates of interest in respect of the Securities or to vary the method or basis of calculating the rate or rates or amount of interest or the basis for calculating any Interest Amount or Coupon in respect of the Securities;

- (iv) to reduce any minimum and/or maximum rate of interest, or maximum and/or minimum Tradable Amount;
- (v) to vary any method of, or basis for, calculating any Settlement Amount or Entitlement (other than as provided for in the Conditions);
- (vi) to vary the currency or currencies of payment or denomination of the Securities; or
- (vii) to modify the provisions concerning the quorum required at any meeting of Holders or the majority required to pass the Extraordinary Resolution.

The quorum required to pass an Extraordinary Resolution shall be two or more persons holding or representing not less than 75 per cent or at any adjourned meeting not less than 25 per cent in nominal amount or number, as applicable, for the time being outstanding. Any Extraordinary Resolution duly passed shall be binding on all the Holders of the relevant Series, regardless of whether they are present at the meeting.

The Holder of a Permanent Global Security shall (unless such Permanent Global Security represents only one Security) be treated as being two persons for the purposes of any quorum requirements of a meeting of Holders and, at any such meeting, the Holder of a Permanent Global Security shall be treated as having one vote in respect of each integral currency unit of the Settlement Currency of the Security, in the case of Notes, or in respect of each integral currency unit of the applicable Calculation Amount, in the case of Certificates.

30. Further issues

The Issuer shall be at liberty from time to time, without the consent of the Holders, to create and issue further Securities so as to form a single Series with the Securities of any particular Series.

31. Purchases and cancellations

The Issuer and any of its subsidiaries may at any time purchase Securities (provided that all unmatured Coupons relating thereto are attached thereto or surrendered therewith) in the open market or otherwise at any price.

All Securities so purchased may be held, surrendered for cancellation, or reissued or resold, and Securities so reissued or resold shall for all purposes be deemed to form part of the original Series, all in accordance with applicable laws and regulations.

Notwithstanding anything to the contrary above, all CREST Securities so purchased by the Issuer or any of its subsidiaries may be cancelled by agreement between the Issuer and the CREST Agent, provided that such cancellation shall be in accordance with the CREST Requirements in effect at the relevant time.

32. Governing law and jurisdiction

32.1 Governing law

The Securities, Coupons and the Master Agency Agreement and any non-contractual obligations arising out of or in connection with them are governed by and shall be construed in accordance with English law.

32.2 Jurisdiction

The courts of England are to have exclusive jurisdiction to settle any disputes that may arise out of or in connection with any Securities, Coupons and/or the Master Agency Agreement and accordingly any legal action or proceedings arising out of or in connection with them shall be brought in such courts.

33. **Contracts (Rights of Third Parties) Act 1999**

In respect of any Securities which are governed by English law, no person shall have any right to enforce any term or condition of the Securities under the Contracts (Rights of Third Parties) Act 1999.

34. **Severability**

Should any one or more of the provisions contained in the Conditions be or become invalid, the validity of the remaining provisions shall not be affected in any way.

35. **Definitions and Interpretation**

35.1 **Definitions**

In the Conditions, unless the context otherwise requires, the following terms shall have the respective meanings set out below:

"**Account Bank**" means, in relation to a payment denominated in a particular currency, a bank in the principal financial centre for such currency or, where the relevant payment is denominated in euro, in a city in which banks have access to the TARGET System.

"**Accountholder**" has the meaning given to it in General Condition 1.4(a) (*Title to Securities (other than CREST Securities)*).

"**Additional Amounts**" has the meaning given to it in General Condition 23 (*Taxation*).

"**Additional Business Centre**" means each centre specified as such in the Final Terms.

"**Additional Disruption Event**" means:

- (a) unless the Final Terms specifies it to be 'Not Applicable', each of a Change in Law, Currency Disruption Event, Hedging Disruption, Issuer Tax Event, and Extraordinary Market Disruption;
- (b) if the Securities are Share Linked Securities and in each case if the Final Terms specifies it to be 'Applicable', each of Increased Cost of Hedging, Affected Jurisdiction Hedging Disruption, Affected Jurisdiction Increased Cost of Hedging, Increased Cost of Stock Borrow, Loss of Stock Borrow, Foreign Ownership Event and Fund Disruption Event;
- (c) if the Securities are Index Linked Securities and if so designated by the Determination Agent in accordance with General Condition 10.1 (*Index Adjustment Events*), an Index Adjustment Event;
- (d) if the Securities are Share Linked Securities, each of a Merger Event, Nationalisation, Insolvency, Insolvency Filing, Delisting and Tender Offer;
- (e) if so designated by the Determination Agent in accordance with General Condition 16 (*Administrator/Benchmark Event*), an Administrator/Benchmark Event;
- (f) if so designated by the Determination Agent in accordance with General Condition 15(e) (*FX Disruption Event*), an FX Disruption Event; and
- (g) if the Securities are CREST Securities, at any time the Securities cease to be held in uncertificated form and/or accepted for clearance through CREST, or notice is received by or on behalf of the Issuer that the CREST Securities will cease to be held in uncertificated form and cleared through CREST and/or CREST is closed for business for a continuous period of 14 calendar days (other than by reason of holidays, statute or otherwise) or announces an intention permanently to cease business or does in fact do so.

"Adjustment(s)" has the meaning given to it in General Condition 11.1 (*Potential Adjustment Events*).

"Adjustment Event Amount" has the meaning given to it in General Condition 11.1 (*Potential Adjustment Events*).

"Adjustment Event Securities" has the meaning given to it in General Condition 11.1 (*Potential Adjustment Events*).

"Administrator/Benchmark Event" means, in respect of any Securities and a Relevant Benchmark, the occurrence or existence, as determined by the Determination Agent, of any of the following events in respect of such Relevant Benchmark:

- (a) a **"Non-Approval Event"**, being any of the following:
 - (i) any authorisation, registration, recognition, endorsement, equivalence decision or approval in respect of the Relevant Benchmark or the administrator or sponsor of the Relevant Benchmark is not obtained;
 - (ii) the Relevant Benchmark or the administrator or sponsor of the Relevant Benchmark is not included in an official register; or
 - (iii) the Relevant Benchmark or the administrator or sponsor of the Relevant Benchmark does not fulfil any other legal or regulatory requirement applicable to the Securities or the Relevant Benchmark,

in each case, if required in order for the Issuer or the Determination Agent to perform its or their respective obligations in respect of the Securities in compliance with the Benchmark Regulation. For the avoidance of doubt, a Non-Approval Event shall not occur if the Relevant Benchmark or the administrator or sponsor of the Relevant Benchmark is not included in an official register because its authorisation, registration, recognition, endorsement, equivalence decision or approval is suspended if, at the time of such suspension, the continued provision and use of the Relevant Benchmark is permitted in respect of the Securities under the Benchmark Regulation during the period of such suspension;

- (b) a **"Rejection Event"**, being the relevant competent authority or other relevant official body rejects or refuses any application for authorisation, registration, recognition, endorsement, an equivalence decision, approval or inclusion in any official register which, in each case, is required in relation to the Relevant Benchmark or the administrator or sponsor of the Relevant Benchmark for the Issuer or the Determination Agent to perform its or their respective obligations in respect of the Securities in compliance with the Benchmark Regulation; or
- (c) a **"Suspension/Withdrawal Event"**, being any of the following:
 - (i) the relevant competent authority or other relevant official body suspends or withdraws any authorisation, registration, recognition, endorsement, equivalence decision or approval in relation to the Relevant Benchmark or the administrator or sponsor of the Relevant Benchmark which is required in order for the Issuer or the Determination Agent to perform its or their respective obligations in respect of the Securities in compliance with the Benchmark Regulation; or
 - (ii) the Relevant Benchmark or the administrator or sponsor of the Relevant Benchmark is removed from any official register where inclusion in such register is required in order for the Issuer or the Determination Agent to perform its or their respective obligations in respect of the Securities in compliance with the Benchmark Regulation.

For the avoidance of doubt, a Suspension/Withdrawal Event shall not occur if such authorisation, registration, recognition, endorsement, equivalence decision or approval is

suspended or where inclusion in any official register is withdrawn if, at the time of such suspension or withdrawal, the continued provision and use of the Relevant Benchmark is permitted in respect of the Securities under the Benchmark Regulation during the period of such suspension or withdrawal.

"**Affected Assets**" has the meaning given to it in General Condition 5.1(b) (*Settlement Disruption Event*).

"**Affected Entitlement Components**" has the meaning given to it in General Condition 5.1(c) (*Alternate Cash Amount*).

"**Affected Jurisdiction**" means, if the Final Terms specifies 'Affected Jurisdiction Hedging Disruption' and/or 'Affected Jurisdiction Increased Cost of Hedging' to be 'Applicable', the jurisdiction of the Hedge Positions as specified in the Final Terms.

"**Affected Jurisdiction Hedging Disruption**" means that the Issuer and/or any of its Affiliates is unable, after using commercially reasonable efforts, to either (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk (or any other relevant price risk including, but not limited to, the currency risk) of entering into and performing its obligations with respect to the Securities or (b) freely realise, recover, receive, repatriate, remit or transfer the proceeds of Hedge Positions or the Securities between accounts within the Affected Jurisdiction or from accounts within the Affected Jurisdiction to accounts outside of the Affected Jurisdiction.

"**Affected Jurisdiction Increased Cost of Hedging**" means that the Issuer and/or any of its Affiliates would incur a materially increased (as compared with circumstances existing on the Trade Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (a) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity price risk (or any other relevant price risk including, but not limited to, the currency risk) of entering into and performing its obligations with respect to the Securities, or (b) realise, recover or remit the proceeds of Hedge Positions or the Securities between accounts within the Affected Jurisdiction or from accounts within the Affected Jurisdiction to accounts outside the Affected Jurisdiction.

"**Alternate Cash Amount**" means, in respect of each Security, an amount in the Settlement Currency equal to the *pro rata* proportion of the market value of the Affected Entitlement Components on or about the Alternate Cash Amount Settlement Date. Such amount shall be determined by the Determination Agent by reference to such factors as the Determination Agent considers to be appropriate including, without limitation:

- (a) market prices or values for the Underlying Asset(s) and other relevant economic variables (such as interest rates and, if applicable, exchange rates) at the relevant time;
- (b) the remaining term of the Securities had they remained outstanding to scheduled maturity or expiry and/or any scheduled early redemption or exercise date;
- (c) the value at the relevant time of any minimum redemption or cancellation amount which would have been payable had the Securities remained outstanding to scheduled maturity or expiry and/or any scheduled early redemption or exercise date;
- (d) internal pricing models; and
- (e) prices at which other market participants might bid for securities similar to the Securities,
- (f) provided that, where the Final Terms specifies 'Unwind Costs' to be 'Not Applicable', the Determination Agent shall not take into account deductions for any costs, charges, fees, accruals, losses and expenses, which are incurred by the Issuer or its Affiliates relating to the unwinding of any Hedge Positions and/or related funding arrangements, when determining such amount.

"Alternate Cash Amount Settlement Date" means such date as the Issuer may determine.

"Announcement Date" means (a) in respect of a Merger Event or Nationalisation or Delisting, the date of the first public announcement of a firm intention, in the case of a Merger Event, to merge or to make an offer and, in the case of a Nationalisation, to nationalise (whether or not amended or on the terms originally announced) and, in the case of a Delisting, the date of the first public announcement by the Exchange that the relevant shares will cease to be listed, traded or publicly quoted that leads to the Merger Event or the Nationalisation or Delisting, as the case may be, and (b) in respect of an Insolvency, the date of the first public announcement of the termination, dissolution or institution of a proceeding, presentation of a petition or passing of a resolution (or other analogous procedure in any jurisdiction) that leads to the Insolvency.

"**Day Count Fraction Conventions**" means, in respect of the calculation of an amount of interest on any Security for an Interest Calculation Period, if the Final Terms specifies the 'Day Count Fraction' to be:

- (a) 'Actual/Actual (ICMA)' or 'Act/Act (ICMA)', a fraction equal to 'number of days accrued/number of days in year', as such terms are used in Rule 251 of the statutes, by-laws, rules and recommendations of the International Capital Market Association (the "**ICMA Rule Book**"), calculated in accordance with Rule 251 of the ICMA Rule Book as applied to non-US-dollar denominated straight and convertible bonds issued after 31 December 1998, as though the interest coupon on a bond were being calculated for a

coupon period corresponding to the Interest Calculation Period in respect of which payment is being made;

- (b) 'Actual/Actual' or 'Actual/Actual (ISDA)', the actual number of calendar days in the Interest Calculation Period divided by 365 (or, if any portion of that Interest Calculation Period falls in a leap year, the sum of (i) the actual number of calendar days in that portion of the Interest Calculation Period falling in a leap year divided by 366 and (ii) the actual number of calendar days in that portion of the Interest Calculation Period falling in a non-leap year divided by 365);
- (c) 'Actual/365 (Fixed)', the actual number of calendar days in the Interest Calculation Period divided by 365;
- (d) 'Actual/360', the actual number of calendar days in the Interest Calculation Period divided by 360;
- (e) '30/360', '360/360' or 'Bond Basis', the number of calendar days in the Interest Calculation Period in respect of which payment is being made divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \left(\frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360} \right)$$

where:

'Y1' is the year, expressed as a number, in which the first day of the Interest Calculation Period falls;

'Y2' is the year, expressed as a number, in which the day immediately following the last day included in the Interest Calculation Period falls;

'M1' is the calendar month, expressed as a number, in which the first day of the Interest Calculation Period falls;

'M2' is the calendar month, expressed as a number, in which the day immediately following the last day included in the Interest Calculation Period falls;

'D1' is the first calendar day, expressed as a number, of the Interest Calculation Period unless such number would be 31, in which case D1 will be 30; and

'D2' is the calendar day, expressed as a number, immediately following the last day included in the Interest Calculation Period unless such number would be 31 and D1 is greater than 29, in which case D2 will be 30;

- (f) '30E/360' or 'Eurobond Basis', the number of calendar days in the Interest Calculation Period in respect of which payment is being made divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \left(\frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360} \right)$$

where:

'Y1' is the year, expressed as a number, in which the first day of the Interest Calculation Period falls;

'Y2' is the year, expressed as a number, in which the day immediately following the last day included in the Interest Calculation Period falls;

'M1' is the calendar month, expressed as a number, in which the first day of the Interest Calculation Period falls;

'M2' is the calendar month, expressed as a number, in which the day immediately following the last day included in the Interest Calculation Period falls;

'D1' is the first calendar day, expressed as a number, of the Interest Calculation Period unless such number would be 31, in which case D1 will be 30; and

'D2' is the calendar day, expressed as a number, immediately following the last day included in the Interest Calculation Period unless such number would be 31, in which case D2 will be 30;

- (g) '30E/360 (ISDA)', the number of calendar days in the Interest Calculation Period in respect of which payment is being made divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \left(\frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360} \right)$$

where:

'Y1' is the year, expressed as a number, in which the first day of the Interest Calculation Period falls;

'Y2' is the year, expressed as a number, in which the day immediately following the last day included in the Interest Calculation Period falls;

'M1' is the calendar month, expressed as a number, in which the first day of the Interest Calculation Period falls;

'M2' is the calendar month, expressed as a number, in which the day immediately following the last day included in the Interest Calculation Period falls;

'D1' is the first calendar day, expressed as a number, of the Interest Calculation Period unless (i) that day is the last day of February or (ii) such number would be 31, in which case D1 will be 30; and

'D2' is the calendar day, expressed as a number, immediately following the last day included in the Interest Calculation Period unless (i) that day is the last day of February but not the Scheduled Redemption Date or (ii) such number would be 31, in which case D2 will be 30.

FORM OF FINAL TERMS

The Final Terms for each Series will include such of the following information as is applicable with respect to such Securities.

[PROHIBITION OF SALES TO EEA RETAIL INVESTORS: The Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA Retail Investor**"). For these purposes, an EEA Retail Investor means a person in the European Economic Area who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended from time to time, "**MiFID**"); (ii) a customer within the meaning of the Insurance Mediation Directive (Directive 2002/92/EC (as amended from time to time)) ("**IMD**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID; or (iii) not a qualified investor as defined in Directive 2003/71/EC (as amended from time to time, including by Directive 2010/73/EU, the "**Prospectus Directive**"). Consequently no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to EEA Retail Investors has been prepared and therefore offering or selling the Securities or otherwise making them available to any EEA Retail Investor may be unlawful under the PRIIPs Regulation.]

[ANNEX – INDEX DISCLAIMER[S]]

[●]

SUMMARY

[●]

CLEARANCE AND SETTLEMENT

Book-Entry Ownership

Bearer Securities

The Issuer may make applications to Euroclear and/or Clearstream for acceptance in their respective book-entry systems in respect of any Series of Bearer Securities. In respect of Bearer Securities, a Temporary Global Security and/or a Permanent Global Security in bearer form without Coupons may be deposited with a common depository for Euroclear and/or Clearstream or an alternative clearing system as agreed between the Issuer and the Managers. Transfers of interests in such Temporary Global Securities or Permanent Global Securities will be made in accordance with the normal Euromarket debt securities operating procedures of Euroclear and Clearstream or, if appropriate, the alternative clearing system.

Registered Securities

The Issuer may make applications to Euroclear and/or Clearstream for acceptance in their respective book-entry systems in respect of the Securities to be represented by a Global Security. Each Global Security deposited with a common depository for, and registered in the name of, a nominee of Euroclear and/or Clearstream will have an ISIN and a Common Code.

All Registered Securities will initially be in the form of Global Securities. Definitive Securities will only be available, in the case of Securities initially represented by a Global Security, in amounts or numbers specified in the Final Terms.

Transfers of Registered Securities

Transfers of interests in Global Securities within Euroclear and Clearstream will be in accordance with the usual rules and operating procedures of the relevant clearing system.

Beneficial interests in a Global Security may only be held through Euroclear or Clearstream.

Definitive Securities

Registration of title to Registered Securities in a name other than a common depository or its nominee for Clearstream and Euroclear will be permitted only in the circumstances set out in General Condition 1 (*Form, title and transfer*). In such circumstances, the Issuer will cause sufficient individual Securities to be executed and delivered to the Registrar for completion, authentication and despatch to the relevant Holder(s). A person having an interest in a Global Security must provide the Registrar with a written order containing instructions and such other information as the Issuer and the Registrar may require to complete, execute and deliver such Definitive Securities.

GENERAL INFORMATION APPLICABLE TO CREST SECURITIES AND CDIS

CREST Securities

CREST Securities may be issued and held in uncertificated registered form in accordance with the Uncertificated Regulations and, as such, are dematerialised and not constituted by any physical document of title. Securities which are CREST Securities shall be specified as such in the Final Terms.

CREST Securities issued pursuant to the Programme will be cleared through CREST and are participating securities for the purposes of the Uncertificated Regulations. The Operator is in charge of maintaining the Operator register of corporate securities. Title to the CREST Securities is recorded and will pass on registration in the Operator register of corporate securities. As at the date of this Base Prospectus, the relevant Operator for the purposes of the Uncertificated Regulations is Euroclear UK & Ireland Limited.

The address of Euroclear UK & Ireland Limited is 33 Cannon Street, London EC4M 5SB, United Kingdom.

CDI Securities

Investors may hold indirect interests in Cleared Securities issued pursuant to the Programme by holding CDIs through CREST. CDIs represent indirect interests in the Underlying Securities to which they relate and holders of CDIs will not be the legal owners of the Underlying Securities.

CDIs may be issued by the CREST Depository and held through CREST in dematerialised uncertificated form in accordance with the CREST Deed Poll. CDIs in respect of Underlying Securities will be constituted and issued to investors pursuant to the terms of the CREST Deed Poll.

Following their delivery into Euroclear (directly or through another clearing system using bridging arrangements with Euroclear), interests in Underlying Securities may be delivered, held and settled in CREST by means of the creation of dematerialised CDIs representing the interests in the relevant Underlying Securities. Interests in the Underlying Securities will be credited to the CREST nominee's account with Euroclear and the CREST nominee will hold such interests as nominee for the CREST Depository which will issue CDIs to the relevant CREST participants.

Each CDI will be treated as one Underlying Security, for the purposes of determining all rights and obligations and all amounts payable in respect thereof. The CREST Depository will pass on to holders of CDIs any interest or other amounts received by it as holder of the Underlying Securities on trust for such CDI holder. CDI holders will also be able to receive from the CREST Depository notices of meetings of holders of Underlying Securities and other relevant notices issued by the Issuer.

Transfers of interests in Underlying Securities by a CREST participant to a participant of Euroclear or another Relevant Clearing System will be effected by cancellation of the CDIs and transfer of an interest in such Securities underlying the CDIs to the account of the relevant participant with Euroclear or such other Relevant Clearing System. The CDIs will have the same securities identification number as the ISIN of the Underlying Securities and will not require a separate listing on the Official List of the UK Listing Authority.

The rights of the holders of CDIs will be governed by the arrangements between CREST, the Relevant Clearing System and the Issuer, including the CREST Deed Poll (in the form contained in Chapter 3 of the CREST International Manual (which forms part of the CREST Manual)) executed by the CREST Depository. These rights may be different from those of holders of Securities which are not represented by CDIs.

The attention of investors in CDIs is drawn to the terms of the CREST Deed Poll, the CREST Manual and the CREST Rules, copies of which are available from Euroclear UK & Ireland Limited at 33 Cannon Street, London EC4M 5SB or by calling +442078490000 or from the Euroclear UK & Ireland Limited website at www.euroclear.com/site/public/EUI.

TAXATION**1. General taxation information**

The information provided below does not purport to be a complete overview of tax law and practice currently applicable to the Securities. Transactions involving Securities (including purchases, transfers and/or redemptions), the accrual or receipt of any interest or premium payable on the Securities, the delivery of any entitlement and the death of a holder of any Security may have tax consequences for investors which may depend, amongst other things, upon the tax residence and/or status of the investor. Investors are therefore advised to consult their own tax advisers as to the tax consequences of transactions involving Securities and the effect of any tax laws in any jurisdiction in which they may be tax resident or otherwise liable to tax. In particular, no representation is made as to the manner in which payments under the Securities would be characterised by any relevant taxing authority.

The following overviews do not consider the tax treatment of payments or deliveries in respect of Underlying Assets. The taxation provisions applicable to such items may be different (and in some cases significantly different) from those described in the overview below.

Purchasers and/or sellers of Securities may be required to pay stamp taxes and other charges in addition to the issue price or purchase price (if different) of the Securities and in connection with the transfer or delivery of any Underlying Asset.

Investors are referred to General Condition 4.6 (*Taxes, Settlement Expenses and conditions to settlement*) and General Condition 5 (*Settlement*).

Terms defined in the sections below are defined for the purpose of the relevant section only.

2. United Kingdom taxation

The comments below are of a general nature based on current United Kingdom tax law and HM Revenue & Customs ("HMRC") published practice and are an overview of the understanding of the Issuer of current law and practice in the United Kingdom relating only to certain aspects of United Kingdom taxation. They are not intended to be exhaustive. They relate only to persons who are the beneficial owners of Securities and do not apply to certain classes of taxpayers (such as persons carrying on a trade of dealing in Securities, certain professional investors and persons connected with the Issuer) to whom special rules may apply.

Investors who may be subject to tax in a jurisdiction other than the United Kingdom or who may be unsure as to their tax position should seek their own professional advice.

2.1 Withholding tax**(a) Payments of interest by the Issuer only**

The Issuer, provided that it continues to be a bank within the meaning of section 991 of the Income Tax Act 2007 (the "Act"), and provided that the interest on Securities is paid in the ordinary course of its business within the meaning of section 878 of the Act, will be entitled to make payments of interest without withholding or deduction for or on account of United Kingdom tax.

(b) Payments of interest in respect of Securities which are Quoted Eurobonds

Payments of interest under Securities may be made without withholding or deduction for or on account of United Kingdom tax if they constitute 'quoted Eurobonds'. Securities will constitute quoted Eurobonds, provided that such Securities carry a right to interest, and are and remain either:

- (i) listed on a 'recognised stock exchange' (designated as such by HMRC), as defined in section 1005 of the Act. The London Stock Exchange is a

recognised stock exchange. Securities will satisfy this requirement if they are admitted to trading on the relevant recognised stock exchange, and are (in the case of the UK) included in the Official List of the UK Listing Authority or (in a country outside the UK where there is a recognised stock exchange) are officially listed in accordance with provisions corresponding to those generally applicable in EEA states; or

- (ii) admitted to trading on a multilateral trading facility (as defined by Article 4.1.22 of Directive 2014/65/EU) operated by an EEA-regulated recognised stock exchange. A recognised stock exchange (designated as such by HMRC) regulated in an EEA state will be an 'EEA-regulated recognised stock exchange'.

Provided, therefore, that Securities are and remain so listed, interest on such Securities will be payable without withholding or deduction for or on account of United Kingdom tax whether or not the Issuer carries on a banking business in the United Kingdom and whether or not the interest is paid in the ordinary course of its business.

(c) **Payments of interest to certain holders**

Interest on Securities may also be paid without withholding or deduction for or on account of United Kingdom tax where, at the time the payment is made, the Issuer reasonably believes that either:

- (i) the person beneficially entitled to the interest payable on such Securities is within the charge to United Kingdom corporation tax as regards the payment of such interest; or
- (ii) the payment is made to one of the classes of exempt bodies or persons set out in section 936 of the Act,

provided that HMRC has not given a direction (in circumstances where it has reasonable grounds to believe that such payment of interest will not be an 'excepted payment' at the time the payment is made) that the interest should be paid under deduction of tax.

(d) **Securities with a maturity of less than 365 calendar days**

Interest on Securities having a maturity of less than one year from the date of issue and which are not issued under arrangements, the effect of which is to render such Securities part of a borrowing with a total term of a year or more, may also be paid without deduction for or on account of United Kingdom income tax.

(e) **Qualifying private placement**

Additionally, certain holders of unlisted Securities might be able to benefit (assuming all the relevant conditions have been met) from the United Kingdom's qualifying private placement regime to ensure that there is no United Kingdom tax withheld on payments of interest on such unlisted Securities.

(f) **Other withholdings**

In other cases, an amount may have to be withheld from payments of interest on Securities for or on account of United Kingdom income tax at the basic rate, subject to the availability of other exemptions or reliefs or to any direction to the contrary from HMRC in respect of such relief as may be available under an applicable double taxation treaty.

In addition, an amount for or on account of United Kingdom income tax at the basic rate may have to be withheld on payments on Securities where such

payments do not constitute interest for United Kingdom tax purposes but instead constitute either annual payments or, in the case of Securities which are capable of physical settlement, manufactured payments for United Kingdom tax purposes, in each case subject to the availability of exemptions (which will differ from those set out above) or reliefs or subject to any direction to the contrary from HMRC in respect of such relief as may be available under an applicable double taxation treaty.

(g) Exemption for payments on derivatives

There is a complete exemption from the withholdings set out above for those Securities where the Issuer's UK taxable profits and losses in relation to that particular Security are calculated in accordance with Part 7 Corporation Tax Act 2009.

(h) Interpretation

The references to 'interest' above mean 'interest' as understood in United Kingdom tax law and in particular any premium element of the redemption amount of any Securities redeemable at a premium may constitute a payment of interest subject to the withholding tax provisions discussed above. In certain cases, the same could be true for amounts of discount where Securities are issued at a discount. The statements above do not take any account of any different definitions of 'interest' or 'principal' which may prevail under any other law or which may be created by the terms and conditions of the Securities or any related documentation.

2.2 United Kingdom Stamp Duty and Stamp Duty Reserve Tax ("SDRT")

(a) Issue

No UK stamp duty or SDRT should generally be payable on the issue of Securities save where all three of the conditions in (i), (ii) and (iii) below are met:

- (i) the Securities do not constitute exempt loan capital (see below);
- (ii) the Securities are not covered by Article 5(2) of the Capital Duties Directive (Council Directive 2008/7/EC); and
- (iii) there is a provision for physical settlement.

Where those three conditions are all met, the issue of such Securities could, in certain cases, attract stamp duty at 0.5 per cent or, if issued to an issuer of depositary receipts or a clearance service (or their nominees) (see below) SDRT at 1.5 per cent on issue.

Securities will constitute 'exempt loan capital' if the Securities constitute 'loan capital' (as defined in section 78 Finance Act 1986) and do not carry (and in the case of (ii)-(iv) below have never carried) any one of the following four rights:

- (i) a right for the holder of the securities to opt for conversion into shares or other securities or to acquire shares or other securities, including loan capital of the same description;
- (ii) a right to interest the amount of which exceeds a reasonable commercial return on the nominal amount of the capital;
- (iii) a right to interest the amount of which falls or has fallen to be determined to any extent by reference to the results of, or of any part of, a business or to the value of any property; or

(iv) a right on repayment to an amount which exceeds the nominal amount of the capital and is not reasonably comparable with what is generally repayable (in respect of a similar nominal amount of capital) under the terms of issue of loan capital listed in the Official List of the London Stock Exchange.

(b) **Transfer of Securities**

Transfers of interests in Securities held through a clearance service do not attract UK stamp duty or SDRT provided that no section 97A election has been made.

Where Securities do not comprise exempt loan capital and are not held through a clearance service, then agreements to transfer such Securities may attract SDRT at 0.5 per cent of the chargeable consideration.

In addition, stamp duty at 0.5 per cent may arise in respect of any document transferring any Security that does not comprise exempt loan capital. However, where a liability to stamp duty is paid within six years of a liability to SDRT arising the liability to SDRT will be cancelled or repaid as appropriate.

(c) **Redemption or Settlement of Securities**

Stamp duty at 0.5 per cent may arise on physical settlement in certain cases. Where such stamp duty is payable, it may be charged at the higher rate of 1.5 per cent in respect of any document transferring or agreement to transfer Securities to a depository receipts system or clearance service.

(d) **Clearance services**

For these purposes, the clearing systems run by Euroclear Bank and Clearstream Luxembourg constitute a 'clearance service' however the CREST system run by Euroclear UK & Ireland does not.

3. **United States taxation**

The following is an overview of certain of the material US federal income tax consequences of the acquisition, ownership and disposition of Securities by a non-US holder that has no connection with the United States other than owning Securities. For purposes of this section, a "**non-US holder**" is a beneficial owner of Securities that is: (i) a non-resident alien individual for US federal income tax purposes; (ii) a foreign corporation for US federal income tax purposes; or (iii) an estate or trust the income of which is not subject to US federal income tax on a net income basis. If the investor is not a non-US holder, he/she should consult his/her tax adviser with regard to the US federal income tax treatment of an investment in Securities. In addition, this section does not apply to Securities that have a term of 30 years or more or that have no term.

This overview is based on interpretations of the Internal Revenue Code of 1986, as amended (the "**Code**"), Treasury regulations issued thereunder, and rulings and decisions currently in effect (or in some cases proposed), all of which are subject to change. Any of those changes may be applied retroactively and may adversely affect the US federal income tax consequences described herein. Investors considering the purchase of Securities should consult their own tax advisers concerning the application of US federal income tax laws to their particular situations as well as any consequences of the purchase, beneficial ownership and disposition of Securities arising under the laws of any other taxing jurisdiction.

INVESTORS SHOULD CONSULT THEIR TAX ADVISERS AS TO THE US FEDERAL, STATE, LOCAL AND OTHER TAX CONSEQUENCES TO THEM OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF SECURITIES.

3.1 US federal tax treatment of non-US holders

In general and subject to the discussion in the following paragraphs, payments on the Securities to a non-US holder that has no connection with the United States other than owning Securities and gain realised on the sale, exchange, redemption or other disposition of the Securities by a non-US holder that has no connection with the United States other than holding Securities generally will not be subject to US federal income or withholding tax, provided the non-US holder complies with any applicable tax identification and certification requirements.

It is possible that Securities that do not guarantee a return of principal ("**Non-Principal-Protected Securities**") could be treated as forward or derivative contracts for US federal income tax purposes. The IRS released a notice in 2007 that may affect the taxation of non-US holders of Non-Principal-Protected Securities. According to the notice, the IRS and the Treasury Department are actively considering whether, among other issues, the holder of instruments such as Non-Principal-Protected Securities should be required to accrue ordinary income on a current basis. It is not possible to determine what guidance they will ultimately issue, if any. It is possible, however, that under such guidance, non-US holders of such Securities will ultimately be required to accrue income currently and that non-US holders of such Securities could be subject to withholding tax on deemed income accruals and/or other payments made in respect of such Securities. In addition, alternative treatments of Non-Principal-Protected Securities are possible under US federal income tax law. Under one such alternative characterisation, it is possible that an investor could be treated as owning the Underlying Asset of such Securities.

Although unlikely, the IRS might seek to treat Securities that do guarantee a return of principal as units comprised of two (or more) financial instruments, one of which would be taxed as if it were a Non-Principal Protected Security in which case the concerns described in the immediately preceding paragraph might apply.

In the case of Securities that are linked to one or more assets characterised as 'US real property interests' (as such term is defined in section 897(c) of the Code), non-US holders of Securities may be subject to special rules governing the ownership and disposition of US real property interests. Prospective non-US holders of Securities should consult their own tax advisers regarding the possible alternative treatments of the Securities.

Under section 871(m) of the Code and regulations thereunder ("**Section 871(m)**"), actual or deemed payments on financial instruments that reference one or more US corporations may be treated as 'dividend equivalent' payments that are subject to US withholding tax at a rate of 30 per cent. Generally, a 'dividend equivalent' is a payment that is directly or indirectly contingent upon a US source dividend or is determined by reference to a US source dividend, including a payment that implicitly takes into account such a dividend. For financial instruments issued on or after 1 January 2017 but prior to 1 January 2021, regulations and guidance under Section 871(m) provide that dividend equivalent payments will be subject to withholding if the instrument has a 'delta' of one with respect to either an underlying US stock or a US stock component of an underlying index or basket. For financial instruments issued on or after 1 January 2021, regulations and guidance under Section 871(m) provide that dividend equivalent payments on (1) a 'simple' financial instrument that has a delta of 0.8 or greater with respect to an underlying US stock or a US stock component of an underlying index or basket and (2) a 'complex' financial instrument that meets the 'substantial equivalence' test with respect to an underlying US stock or a US stock component of an underlying index or basket, will be subject to withholding tax under Section 871(m). An issue of Securities that references an index or basket that is treated as a 'qualified index' will not be subject to withholding under Section 871(m), even if such Securities meet, as applicable, the delta or substantial equivalence test. In general, a qualified index is a diverse, passive, and widely used index that satisfies the technical requirements prescribed by regulations.

The delta of a financial instrument generally is defined as the ratio of the change in the fair market value of the instrument to a small change in the fair market value of the number of shares of the underlying US corporation, determined either as of the pricing or issue date of the instrument, in accordance with applicable regulations. A financial instrument generally will be treated as having a delta of one if it provides for 100 per cent participation in all of the appreciation and depreciation of one or more underlying US stocks. Very broadly, the substantial equivalence test analyses whether a financial instrument has a correlation to the applicable underlying US stock that is at least as great as that of a simple financial instrument with a delta of at least 0.8.

The Final Terms will indicate if the Issuer has determined that the particular issue of Securities is expected to be subject to withholding under Section 871(m). Any determination by the Issuer on the application of Section 871(m) to a particular Security generally is binding on Holders, but is not binding on the IRS. The Section 871(m) regulations require complex calculations to be made with respect to Securities referencing shares of US corporations and their application to a specific issue of Securities may be uncertain. Accordingly, even if the Issuer determines that a Security is not subject to Section 871(m), the IRS could assert that the Holder is liable for Section 871(m) tax in respect of such Security, including where the IRS concludes that the delta or substantial equivalence with respect to the Security was determined more than 14 days prior to the Security's issue date.

In addition, a Security may be treated as reissued for purposes of Section 871(m) upon a significant modification of the terms of the Security. In certain circumstances, a rebalancing or adjustment to the components of an underlying index or basket may result in the deemed reissuance of the Security, in particular where the rebalancing or adjustment is made other than pursuant to certain defined rules, or involves the exercise of discretion. In that case, a Security that was not subject to withholding under Section 871(m) at issuance may become subject to withholding at the time of the deemed reissuance. In addition, a Security that in isolation is not subject to Section 871(m) may nonetheless be subject to Section 871(m) if the non-US holder has engaged, or engages, in other transactions in respect of an underlying US stock or component of an underlying index or basket. In such situations, such non-US holders could be subject to Section 871(m) tax even if the Issuer does not withhold in respect of the Security. Further, a non-US holder may be required, including by custodians and other withholding agents with respect to the Security, to make representations regarding the nature of any other positions with respect to US stock directly or indirectly referenced (including components of any index or basket) by such Security. A non-US holder that enters, or has entered, into other transactions in respect of a US stock, component of an underlying index or basket, or the Securities should consult its own tax advisor regarding the application of Section 871(m) to the Securities and such other transactions.

If an issue of Securities is determined to be subject to US withholding tax under Section 871(m), information regarding the amount of each dividend equivalent, the delta of the Securities, the amount of any tax withheld and deposited, the estimated dividend amount (if applicable), and any other information required under Section 871(m), will be provided, communicated, or made available to Holders in a manner permitted by applicable regulations. Withholding on payments will be based on actual dividends on the underlying US stock or, if otherwise notified by the Issuer in accordance with applicable regulations, on estimated dividends used in pricing the Securities. Where an issue of Securities that references estimated dividend amounts also provides for any additional payments to reflect actual dividends on the underlying US stock, withholding tax will also apply to any additional payments.

If the Issuer determines that a Security is subject to withholding under Section 871(m), it will withhold tax in respect of the actual (or estimated, as described above) dividends that are paid on the underlying US stock. In addition, US tax may be withheld on any portion of a payment or deemed payment (including, if appropriate, the payment of the purchase price) that is a dividend equivalent. Such withholding may occur at the time a dividend is paid on the relevant US stock (or, in certain cases, at the close of the quarter

upon which the dividend is paid). Upon remitting the taxes withheld to the IRS, any increase in value of the relevant asset, index or basket or distributions to Holders in respect of a dividend equivalent will reflect the amount of the dividend net of the withholding described above.

Other than in very limited circumstances described below, the rate of any withholding generally will not be reduced even if the non-US holder is otherwise eligible for a reduction under an applicable treaty, although the non-US holder may be able to claim a refund for any excess amounts withheld by filing a US tax return. However, non-US holders may not receive the necessary information to properly claim a refund for any withholding in excess of the applicable treaty-based amount. In addition, the IRS may not credit a non-US holder with withholding taxes remitted in respect of your Security for purposes of claiming a refund. Finally, a non-US holder's resident tax jurisdiction may not permit the holder to take a credit for US withholding taxes related to the dividend equivalent amount. For certain issues of Securities that are subject to withholding under Section 871(m), if the Issuer determines in its sole discretion that it is able to make payments at a reduced rate of withholding under an applicable treaty, a non-US holder eligible for treaty benefits may be able to claim such a reduced rate. To claim a reduced treaty rate for withholding, a non-US holder generally must provide a valid IRS Form W-8BEN, IRS Form W-8BEN-E, or an acceptable substitute form on which the non-US holder certifies, under penalty of perjury, its status as a non-US person and its entitlement to the lower treaty rate. However, there can be no assurances that the Issuer will be able to make payments on a Security at a reduced rate of withholding, even where a non-US holder furnishes the appropriate certification. Where the Issuer has determined that an issue of Securities is subject to withholding under Section 871(m), the Final Terms will indicate whether the Issuer intends to withhold at the rate of 30 per cent without regard to any reduced rate that may apply under a treaty or if the rate of withholding tax may be subject to reduction under an applicable treaty. In any case where withholding applies, the Issuer will not pay any additional amounts with respect to amounts withheld. Holders should consult with their tax advisors regarding the application of Section 871(m) to their Securities.

3.2 Foreign Account Tax Compliance Withholding

Under FATCA the Issuer (and any intermediary in the chain of payment) may require each holder of a Security to provide certifications and identifying information about itself and certain of its owners. The failure to provide such information, or the failure of certain non-US financial institutions to comply with FATCA, may compel the Issuer (or an intermediary) to withhold a 30 per cent tax on payments (including redemption payments and gross proceeds) to such holders and neither the Issuer nor any other person will pay any additional amounts with respect to such withholding. Any such withholding would not begin earlier than 1 January 2019, except in the case of US-source payments, which are currently subject to FATCA withholding. US-source payments generally should be limited to dividend equivalent payments and interests in 'US real property interests' (although there can be no assurance the IRS may not seek to treat other payments that reference US securities as US source income). "FATCA" means sections 1471 through 1474 of the Code, any final current or future regulations or official interpretations thereof, any agreement entered into pursuant to section 1471(b) of the Code, or any US or non-US fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such sections of the Code.

No Gross Up

The Issuer will not make any additional payments to holders of Securities to compensate them for any taxes withheld in respect of FATCA or any US withholding tax, including, without limitation, in respect of dividends, dividend equivalent payments, and direct and indirect interests in US real property.

PURCHASE AND SALE

Pursuant to the Master Subscription Agreement dated 6 June 2018 (as amended, supplemented and/or restated from time to time, the "**Master Subscription Agreement**"), each Manager (being, at the date of this Base Prospectus, each of Barclays Bank PLC and Barclays Capital Inc. in their respective capacities as a Manager) has agreed with the Issuer the basis on which it may from time to time agree to purchase Securities. Any such agreement will extend to those matters stated under '*Summary*' and '*Terms and Conditions of the Securities*'. In the Master Subscription Agreement, the Issuer has agreed to reimburse the relevant Manager for certain of its expenses in connection with the Securities issued pursuant to the Programme.

No representation is made that any action has been or will be taken by the Issuer or the Managers in any jurisdiction that would permit a public offering of any of the Securities or possession or distribution of the Base Prospectus or any other offering material or any Final Terms in relation to any Securities in any country or jurisdiction where action for that purpose is required (other than actions by the Issuer to meet the requirements of the Prospectus Directive (until such time as the Prospectus Directive and any relevant implementing measures in a relevant Member State are repealed) and (from 21 July 2019) the Prospectus Regulation for offerings contemplated in this Base Prospectus and/or the Final Terms). No offers, sales, resales or deliveries of any Securities, or distribution of any offering material relating to any Securities, may be made in or from any jurisdiction and/or to any individual or entity except in circumstances which will result in compliance with any applicable laws and regulations and which will not impose any obligation on the Issuer and/or the Managers.

Subject to the restrictions and conditions set out in this Base Prospectus, the categories of potential investors to which the Securities are intended to be offered are retail and institutional investors in the United Kingdom.

Selling Restrictions

European Economic Area

If the Final Terms in respect of the Securities specifies "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", in relation to each Member State of the European Economic Area (including, for this purpose, the United Kingdom), each Manager has represented and agreed, and each further Manager appointed pursuant to the Programme will be required to represent and agree, that it has not made and will not make an offer of Securities which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to the public in that Member State except that it may make an offer of such Securities to the public in that Member State:

- (a) if the Issuer expressly specifies that an offer of those Securities may be made other than pursuant to Article 3(2) of the Prospectus Directive and (from 21 July 2019) Article 1(4) of the Prospectus Regulation in that Member State (a "**Public Offer**"), following the date of publication of a prospectus in relation to such Securities which has been approved by the competent authority in that Member State or, where appropriate, approved in another Member State and notified to the competent authority in that Member State, provided that any such prospectus has subsequently been completed by the Final Terms contemplating such Public Offer, in accordance with the Prospectus Directive, in the period beginning and ending on the dates specified in such prospectus or Final Terms, as applicable, and the Issuer has consented in writing to its use for the purpose of that Public Offer;
- (b) at any time to any legal entity which is a qualified investor as defined in the Prospectus Directive;
- (c) to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Directive), subject to obtaining the prior consent of the relevant Manager or Managers nominated by the Issuer for any such offer; or
- (d) in any other circumstances falling within Article 3(2) of the Prospectus Directive and (from 21 July 2019) Article 1(4) of the Prospectus Regulation,

provided that no such offer of Securities referred to in (b) to (d) above shall require the Issuer or any Manager to publish a prospectus or a supplement to a prospectus pursuant to, respectively, Article 3

and Article 16 of the Prospectus Directive and (from 21 July 2019) Article 3(1) and Article 23 of the Prospectus Regulation.

For the purposes of this section 'European Economic Area' the expression 'an offer of Securities to the public' in relation to any Securities in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe for the Securities (i) until the Prospectus Directive and any relevant implementing measures in a relevant member state are repealed, as the same may be varied in that Member State and by any measure implementing the Prospectus Directive in that Member State (and the expression "Prospectus Directive" means Directive 2003/71/EC of the European Parliament and of the Council as amended from time to time including by Directive 2010/73/EU of the European Parliament and of the Council and includes any relevant implementing measure in the Member State) and (ii) from 21 July 2019, as set out in the Prospectus Regulation (and the expression "**Prospectus Regulation**" means Regulation (EU) 2017/1129, as amended from time to time).

Each Manager has represented and agreed, and each further Manager appointed under this Programme will be required to represent and agree, in relation to any offering of Securities for which Directive 2014/65/EU (as amended from time to time, "**MiFID**") applies any commission or fee received from the Issuer complies with the applicable rules set out in MiFID.

Prohibition of sales to EEA Retail Investors

Unless the Final Terms in respect of the Securities specifies "Prohibition of Sales to EEA Retail Investors" as "Not Applicable", each Manager has represented and agreed, and each further manager appointed under the Programme will be required to represent and agree, that it has not offered, sold or otherwise made available and will not offer, sell or otherwise make available any Securities which are the subject of the offering contemplated by this Base Prospectus as completed by the Final Terms in relation thereto to any EEA Retail Investor. For the purposes of this provision:

- (a) the expression "EEA Retail Investor" means a person in the European Economic Area who is one (or more) of the following:
 - (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended from time to time, "**MiFID**") ; or
 - (ii) a customer within the meaning of Directive 2002/92/EC (as amended, the "**Insurance Mediation Directive**") where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or
 - (iii) not a qualified investor as defined in the Prospectus Directive; and
- (b) the expression an "offer" includes the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe the Securities.

United Kingdom

Any offeror of Securities will be required to represent and agree, that:

- (a) *Financial Promotion*: it has only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of section 21 of the FSMA) received by it in connection with the issue or sale of any Securities in circumstances in which section 21(1) of the FSMA would not, if it was not an authorised person, apply to the Issuer; and
- (b) *General Compliance*: it has complied and will comply with all applicable provisions of the FSMA and the Financial Conduct Authority Handbook with respect to anything done by it in relation to any Securities in, from or otherwise involving the United Kingdom.

United States of America

US Tax Selling Restrictions

Securities issued in bearer form for US tax purposes ("**Bearer Instruments**") with respect to which the Final Terms specifies that they are subject to US Treasury Regulation section 1.163.5(e)(2)(i)(D) (the "**D Rules**") may not be offered, sold or delivered within the United States or its possessions or to a United States person except as permitted under the D Rules.

The Issuer and each Manager has represented and agreed (and each additional Manager named in a set of Final Terms will be required to represent and agree) that in addition to the relevant US Securities Selling Restrictions set out below:

- (a) except to the extent permitted under the D Rules, (x) it has not offered or sold, and during a 40-calendar-day restricted period it will not offer or sell, Bearer Instruments to a person who is within the United States or its possessions or to a United States person and (y) such Manager has not delivered and agrees that it will not deliver within the United States or its possessions definitive Bearer Instruments that will be sold during the restricted period;
- (b) it has and agrees that throughout the restricted period it will have in effect procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Bearer Instruments are aware that Bearer Instruments may not be offered or sold during the restricted period to a person who is within the United States or its possessions or to a United States person (except to the extent permitted under the D Rules);
- (c) if it is a United States person, it is acquiring the Bearer Instruments for purposes of resale in connection with their original issuance, and if it retains Bearer Instruments for its own account, it will do so in accordance with the requirements of the D Rules;
- (d) with respect to each affiliate or distributor that acquires Bearer Instruments from a Manager for the purpose of offering or selling such Bearer Instruments during the restricted period, the Manager either repeats and confirms the representations and agreements contained in sub-clauses (a), (b) and (c) above on such affiliate's or distributor's behalf or agrees that it will obtain from such affiliate or distributor for the benefit of the Issuer and each Manager the representations and agreements contained in such sub-clauses; and
- (e) it has not entered into and agrees that it will not enter into any written contract (other than confirmation or other notice of the transaction) pursuant to which any other party to the contract (other than one of its affiliates or another Manager) has offered or sold, or during the restricted period will offer or sell, any Bearer Instruments except where pursuant to the contract the relevant Manager has obtained or will obtain from that party, for the benefit of the Issuer and each Manager, the representations contained in, and that party's agreement to comply with, the provisions of sub-clauses (a), (b), (c) and (d).

Terms used in the paragraphs above shall, unless the context otherwise requires, have the meanings given to them by the Internal Revenue Code and the US Treasury Regulations thereunder, including the D Rules.

To the extent that the Final Terms relating to Bearer Instruments specify that the Securities are subject to US Treasury Regulation section 1.163-5(c)(2)(i)(C) (the "**C Rules**"), such Bearer Instruments must be issued and delivered outside the United States and its possessions in connection with their original issuance by an issuer that (directly or indirectly through its agents) does not significantly engage in interstate commerce with respect to the issuance. Each Manager has represented and agreed (and each additional Manager named in a set of Final Terms will be required to represent and agree) that: (i) it has not offered, sold or delivered, and will not offer, sell or deliver, directly or indirectly, any such Bearer Instruments within the United States or its possessions within the United States or its possessions; (ii) it has not communicated, and will not communicate, directly or indirectly, with a prospective purchaser if either of them is within the United States or its possessions; and (iii) it will not otherwise involve its US office in the offer and sale of such Bearer instruments.

Terms used in this paragraph have the meanings given to them by the Code and regulations thereunder, including the C Rules.

U.S. persons

The Issuer makes no representation regarding the characterisation of the Securities for US federal income tax purposes. The Securities may not be a suitable investment for U.S. persons and other persons subject to net income taxation in the United States.

Non U.S. persons

A non U.S. person with no connection with the United States other than owning a Security generally will not be subject to withholding tax on payments on the Security provided that such person complies with any applicable tax identification and certification requirements.

US Securities Selling Restrictions

The Securities and in certain cases, the Entitlements have not been and will not be registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States, and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons, except in certain transactions exempt from the registration requirements of the Securities Act and applicable state securities laws. Trading in the Securities and the Entitlements has not been approved by the US Commodities Futures Trading Commission under the Commodity Exchange Act and the rules and regulations promulgated thereunder. Terms used in this section (*US Securities Selling Restrictions*) shall, unless the context otherwise requires, have the meanings given to them by Regulation S.

Each Manager has represented and agreed (and each further Manager named in the Final Terms will be required to represent and agree) that it has not offered and sold and will not offer or sell Securities (i) as part of their distribution at any time or (ii) otherwise until 40 calendar days after the completion of the distribution of an identifiable tranche of which such Securities are part, as determined and certified to the Agent by such Manager (in the case of a non-syndicated issue) or the relevant lead manager (in the case of a syndicated issue, who shall notify the managers when all managers participating in that syndicated issue have so certified in respect of the Securities purchased by or through it), within the United States or to, or for the account or benefit of, U.S. persons, and it will have sent to each Manager to which it sells Securities during the Distribution Compliance Period a confirmation or other notice setting out the restrictions on offers and sales of the Securities within the United States or to, or for the account or benefit of, U.S. persons. Neither of such Manager nor its affiliates, nor any persons acting on its or their behalf, have engaged or will engage in any directed selling efforts (as defined in Regulation S) with respect to the Securities, and such Manager, its affiliates and all persons acting on its or their behalf have complied and will comply with any applicable offering restrictions requirement of Regulation S.

In addition, until 40 calendar days after the completion of the distribution of an identifiable tranche of Securities, any offer or sale of Securities or Entitlements within the United States by any dealer (whether or not participating in the offering of such Securities or Entitlements) may violate the registration requirements of the Securities Act.

The Securities, and, as applicable, the Entitlements are being offered and sold outside the United States to non-U.S. persons in reliance on Regulation S.

The Base Prospectus has been prepared by the Issuer for use in connection with the offer and sale of Securities, and, as applicable, the Entitlements outside the United States and for the listing of Securities on the Relevant Stock Exchange. The Issuer and the Managers reserve the right to reject any offer to purchase the Securities, in whole or in part, for any reason. The Base Prospectus does not constitute an offer to any person in the United States or to any U.S. person. Distribution of the Base Prospectus by any non-U.S. person outside the United States is unauthorised, and any disclosure without the prior written consent of the Issuer of any of its contents to any of such U.S. person or other person within the United States is prohibited.

General

The selling restrictions may be modified by the agreement of the Issuer and the relevant Manager, including following a change in a relevant law, regulation or directive.

No action has been taken in any jurisdiction that would permit a public offering of any of the Securities, or possession or distribution of the Base Prospectus or any other offering material or any Final Terms, in any country or jurisdiction where action for that purpose is required.

Each Manager has agreed that it will comply with all relevant laws, regulations and directives, and obtain all relevant consents, approvals or permissions, in each jurisdiction in which it purchases, offers, sells or delivers Securities or has in its possession or distributes the Base Prospectus, any other offering material or any Final Terms, and neither the Issuer nor any Manager shall have responsibility therefor.

US Retirement Plan Selling Restrictions

The Securities and any beneficial interest therein may not be sold or transferred to (i) any employee benefit plan, as defined in Section 3(3) of the US Employee Retirement Income Security Act of 1974, as amended ("**ERISA**"), that is subject to Part 4 of Subtitle B of Title I of ERISA, (ii) any plan, as defined in Section 4975(e)(1) of the Code, that is subject to Section 4975 of the Code, (iii) any governmental plan (as defined in Section 3(32) of ERISA), church plan (as defined in Section 3(33) of ERISA) or non-U.S. plan (as described in Section 4(b)(4) of ERISA) that is subject to any law, rule or regulation that is substantially similar to Part 4 of Subtitle B of Title I of ERISA or Section 4975 of the Code ("**Similar Law**"), or (iv) any entity the underlying assets of which are treated as assets of a plan described in (i), (ii) or (iii) for purposes of Part 4 of Subtitle B of Title I of ERISA, Section 4975 of the Code or any Similar Law (each of (i), (ii) (iii) and (iv) a "**Benefit Plan Investor**"), or to any person acting on behalf of or investing the assets of a Benefit Plan Investor. Each person that acquires Securities or any beneficial interest therein shall, by its acquisition thereof, be deemed to have continuously represented, warranted and covenanted throughout the period it holds the Securities or beneficial interest that it is not, and is not acting on behalf of or investing the assets of, a Benefit Plan Investor.

IMPORTANT LEGAL INFORMATION

Public Offers and Consent

Public Offers

Certain tranches of Securities may, subject as provided below, be subsequently resold, finally placed or otherwise offered by financial intermediaries in circumstances where there is no exemption from the requirement to publish a prospectus under the Prospectus Directive or the Prospectus Regulation. Any such resale, placement or offer is referred to in this Base Prospectus as a 'Public Offer'. Any person making or intending to make a Public Offer of Securities must do so only with the consent of the Issuer and subject to and in accordance with the relevant conditions to such consent - see '*Consent to the use of this Base Prospectus*' below.

Other than as set out immediately below, neither the Issuer nor any of the Managers has authorised (nor do they authorise or consent to the use of this Base Prospectus (or Final Terms) in connection with) the making of any Public Offer of Securities by any person in any circumstances. Any such unauthorised offers are not made on behalf of the Issuer or any of the Managers or Authorised Offerors (as defined below) and none of the Issuer or any of the Managers or Authorised Offerors has any responsibility or liability for the actions of any person making such offers. Any Public Offer made without the consent of the Issuer is unauthorised and none of the Issuer or any of the Managers or Authorised Offerors accepts any responsibility or liability for the actions of the persons making any such unauthorised offer. Any persons to whom an offer of any Securities is made should enquire whether a financial intermediary is an Authorised Offeror.

Consent to the use of this Base Prospectus

In connection with a Public Offer of Securities as described in the Final Terms, the Issuer consents or (in the case of (ii) (*General Consent*)) offers to grant its consent to the use of this Base Prospectus (as supplemented from time to time) and Final Terms (and accepts responsibility for the information contained in this Base Prospectus (as supplemented from time to time) and Final Terms in relation to any person who purchases Securities in such Public Offer made by an Authorised Offeror) by or to (as applicable) each of the following financial intermediaries, in each case subject to compliance by such financial intermediary with the Conditions to Consent (as described below) (each, an "**Authorised Offeror**"):

- (a) **Specific Consent:** each financial intermediary which either:
 - (i) is expressly named as an Initial Authorised Offeror in the Final Terms; or
 - (ii) is expressly named as an Authorised Offeror on the Issuer's website (<https://www.home.barclays/prospectuses-and-documentation/structured-securities/final-terms.html>) (in which case, its name and address will be published on the Issuer's website); and
- (b) **General Consent:** if Part B of the Final Terms specifies 'General Consent' as applicable, each financial intermediary which both:
 - (i) is authorised to make such offers under MiFID; and
 - (ii) accepts the offer by the Issuer by publishing on its website the following statement (with the information in square brackets duly completed with the relevant information) (the "**Acceptance Statement**"):

*'We, [specify name of financial intermediary], refer to the offer of [specify title of securities] (the "**Securities**") described in the Final Terms dated [specify date] (the "**Final Terms**") published by Barclays Bank PLC (the "**Issuer**"). In consideration of the Issuer offering to grant its consent to our use of the Base Prospectus (as defined in the Final Terms) in connection with the Public Offer of the Securities in the Public Offer Jurisdiction(s) during the Offer Period and subject to and in accordance with the conditions set out in the Final Terms and Base Prospectus, we accept the offer by the*

Issuer. We confirm that we are authorised under MiFID to make, and are using the Base Prospectus in connection with, the Public Offer accordingly. Terms used herein and otherwise not defined shall have the same meaning as given to such terms in the Base Prospectus and Final Terms.'

The consent of the Issuer referred to in (i) and (ii) above is subject to compliance by the relevant financial intermediary with the following conditions (the "**Conditions to Consent**"):

- (a) **Public Offer Jurisdiction(s):** the Public Offer is only made in the United Kingdom, as specified in the Final Terms (the "**Public Offer Jurisdiction(s)**");
- (b) **Offer Period:** the Public Offer is only made during the offer period specified in the Final Terms (the "**Offer Period**"); and
- (c) **Other:** each of the other conditions (if any) provided in the Final Terms.

The consent referred to above relates to Offer Periods occurring within 12 months from the date of this Base Prospectus.

The Issuer may give consent to one or more additional Authorised Offerors in respect of a Public Offer after the date of the Final Terms, discontinue or change the Offer Period, and/or remove or add conditions to consent and, if it does so, such information will be published at <https://www.home.barclays/prospectuses-and-documentation/structured-securities/final-terms.html>. Any new information with respect to Authorised Offerors unknown at the time of the approval of this Base Prospectus or the filing of the Final Terms will be published and can be found at <https://www.home.barclays/prospectuses-and-documentation/structured-securities/final-terms.html>.

Neither the Issuer nor any Manager has any responsibility for any of the actions of any Authorised Offeror, including their compliance with applicable conduct of business rules or other local regulatory requirements or other securities law requirements in relation to an offer.

Any offer or sale of Securities to an investor by an Authorised Offeror will be made in accordance with any terms and other arrangements in place between such Authorised Offeror and such investor, including as to price, allocations and settlement arrangements. It will be the responsibility of the applicable financial intermediary at the time of such offer to provide the investor with that information and neither the Issuer, nor any Manager or other Authorised Offeror has any responsibility or liability for such information.

Any Authorised Offeror falling within (ii) (General Consent) above using this Base Prospectus in connection with a Public Offer is required, for the duration of the relevant Offer Period, to publish on its website the Acceptance Statement.

Hyper-links to websites

For the avoidance of doubt, the content of any website to which a hyper-link is provided shall not form part of this Base Prospectus.

Ratings

The credit ratings included or referred to in this Base Prospectus or any document incorporated by reference are, for the purposes of Regulation (EC) No 1060/2009 on credit rating agencies (the "**CRA Regulation**"), issued by Fitch Ratings Limited ("**Fitch**"), Moody's Investors Service Ltd. ("**Moody's**") and S&P Global Ratings Europe Limited, UK Branch ("**Standard & Poor's**"), each of which is established in the European Union and has been registered under the CRA Regulation.

As of the date of this Base Prospectus, the short-term unsecured obligations of the Issuer are rated A-1 by Standard & Poor's¹, P-1 by Moody's², and F1 by Fitch³ and the long-term obligations of the Issuer are rated A by Standard & Poor's⁴, A2 by Moody's⁵, and A by Fitch^{6, 7}.

¹ Notes on Issuer ratings: The information in these footnotes has been extracted from information made available by each rating agency referred to below. The Issuer confirms that such information has been accurately reproduced and that, so far as it is aware, and is able to ascertain from

information published by such rating agencies, no facts have been omitted which would render the reproduced information inaccurate or misleading.

² A short-term obligation rated 'A-1' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rating categories. However, the obligor's capacity to meet its financial commitment on the obligation is satisfactory.

³ 'P-1' Issuers (or supporting institutions) rated Prime-1 have a superior ability to repay short-term debt obligations.

⁴ An 'F1' rating indicates the highest short-term credit quality and the strongest intrinsic capacity for timely payment of financial commitments; it may have an added '+' to denote any exceptionally strong credit feature.

⁵ An obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher-rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong. The ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

⁶ Obligations rated 'A' are considered upper-medium grade and are subject to low credit risk. Note: Moody's appends numerical modifiers 1, 2 and 3 to each generic rating classification from 'Aa' through 'Caa'. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

⁷ An 'A' rating indicates high credit quality and denotes expectations of low default risk. The capacity for payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to adverse business or economic conditions than is the case for higher ratings.

Securities with offer periods continuing beyond the validity of the 2017 GSSP Base Prospectus 2

The Offer Period (as defined in the relevant Final Terms) of the 2017 GSSP Base Prospectus 2 Securities (as defined below) extends beyond the validity of the 2017 GSSP Base Prospectus 2 (as defined in 'Information Incorporated by Reference' above). Following the expiry of the 2017 GSSP Base Prospectus 2 and the approval of this Base Prospectus the offering of the 2017 GSSP Base Prospectus 2 Securities will continue under this Base Prospectus. The terms and conditions of the securities from the 2017 GSSP Base Prospectus 2 or such other base prospectus as specified in the Final Terms (and in each case which are incorporated by reference into this Base Prospectus) will continue to apply to the 2017 GSSP Base Prospectus 2 Securities.

For the purposes hereof, "**2017 GSSP Base Prospectus 2 Securities**" means:

There shall be no Securities extending beyond the validity of the 2017 GSSP Base Prospectus 2.

GENERAL INFORMATION

Significant change statement

There has been no significant change in the financial or trading position of the Bank Group since 30 June 2018.

Material adverse change statement

There has been no material adverse change in the prospects of the Issuer since 31 December 2017.

Legal proceedings

Save as disclosed under (i) Note 17 (*Legal, competition and regulatory matters*) to the condensed consolidated interim financial statements of the Issuer on pages 40 to 50 of the 2018 Interim Results Announcement and (ii) the October Announcement, there are no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the Issuer is aware), which may have or have had during the 12 months preceding the date of this Base Prospectus, a significant effect on the financial position or profitability of the Issuer and/or the Bank Group.

Authorisation and consents

The issue of Securities pursuant to this Base Prospectus under the Programme has been duly authorised by the Chief Finance Officer of the Issuer, exercising the delegated authority of the Board of Directors of the Issuer, on 16 November 2018.

The Issuer has obtained all necessary consents, approvals and authorisations in connection with establishing and updating this Programme and will obtain all such consents, approvals and authorisations in connection with the issue and performance of each Security or Series issued pursuant to this Programme.

Use of proceeds

The Issuer intends to apply the net proceeds from the sale of any Securities either for hedging purposes or for general corporate purposes unless otherwise specified in the Final Terms relating to a particular Security or Series. If, in respect of any particular issue of Securities, there is a particular identified use of proceeds, this will be specified in the Final Terms.

Base Prospectus and supplements

This Base Prospectus may be used for a period of one year from its date in connection with a public offer of Securities in the EU, or for the listing and for any admission to trading of a Series. A revised Base Prospectus will be prepared in connection with the listing of any Series issued after such period unless all consents necessary are obtained for an extension of such period.

If at any time the Issuer shall be required to prepare a supplement to the Base Prospectus pursuant to section 87 of the FSMA, or to give effect to the provisions of Article 16(1) of the Prospectus Directive, the Issuer will prepare and make available an appropriate supplement to this Base Prospectus or a further base prospectus which, in respect of any subsequent issue of Securities to be offered to the public or to be admitted to trading on the Regulated Market of the London Stock Exchange, or of any other Relevant Stock Exchange, shall constitute a supplement to the base prospectus as required by the FCA and section 87 of the FSMA.

Listing and admission to trading

Applications may be made for the listing on the Official List of the UK Listing Authority and may be made for the admission to trading on the Regulated Market of the London Stock Exchange.

Relevant Clearing Systems

The Securities issued pursuant to the Programme may be accepted for clearance through Euroclear, Clearstream and any other Relevant Clearing System as set out in the Final Terms. The appropriate common code for each Series allocated by Euroclear and Clearstream will be set out in the Final

Terms, together with the International Securities Identification Number (the "ISIN") for that Series. Transactions will be effected for settlement in accordance with the Relevant Rules.

The address of Euroclear is 1 Boulevard du Roi Albert II, B-1210 Brussels, Belgium, and the address of Clearstream is 42 Avenue JF Kennedy, L-1855 Luxembourg. The address of any additional clearing system will be set out in the Final Terms.

Documents available

For as long as this Base Prospectus remains in effect or any Securities remain outstanding, copies of the following documents will, when available, be made available during usual business hours on a weekday (Saturdays, Sundays and public holidays excepted) for inspection and, in the case of (b), (c), (h) and (i) below, shall be available for collection free of charge at the registered office of the Issuer and at <https://www.home.barclays.com/barclays-investor-relations/results-and-reports/results.html>, <https://www.home.barclays/prospectuses-and-documentation/structured-securities/prospectuses.html> and <https://www.home.barclays/prospectuses-and-documentation/structured-securities/final-terms.html> (as applicable) and at the specified office of the Issue and Paying Agent. The Final Terms, in respect of any Series, shall also be available at the specified office of the relevant Paying Agents or Transfer Agents and, in respect of CREST Securities, at the specified office of the CREST Agent.

- (a) the constitutional documents of the Issuer;
- (b) the documents set out in the '*Information Incorporated by Reference*' section of this Base Prospectus;
- (c) all future annual reports and semi-annual and quarterly financial statements of the Issuer;
- (d) the Master Subscription Agreement;
- (e) the Master Agency Agreement;
- (f) the Deed of Covenant;
- (g) the current Base Prospectus in respect of the Programme and any future supplements thereto;
- (h) any Final Terms issued in respect of Securities admitted to listing, trading and/or quotation by any listing authority, stock exchange, and/or quotation system since the most recent base prospectus was published; and
- (i) any other future documents and/or announcements issued by the Issuer.

Post-issuance information

The Issuer does not intend to provide any post-issuance information in relation to any of the Securities or the performance of any Underlying Asset or any other underlying relating to Securities, except if required by any applicable laws and regulations.

Issue Price

Securities will be issued by the Issuer at the Issue Price specified in the Final Terms. The Issue Price will be determined by the Issuer in consultation with the relevant Manager at the time of the relevant offer and will depend, amongst other things, on prevailing market conditions at that time. The offer price of such Securities will be the Issue Price or such other price as may be agreed between an investor and the Authorised Offeror making the offer of the Securities to such investor. The Issuer will not be party to arrangements between an investor and an Authorised Offeror, and the investor will need to look to the relevant Authorised Offeror to confirm the price at which such Authorised Offeror is offering the Securities to such Investor.

Temporary ISIN and Temporary Common Code

Any Temporary ISIN or Temporary Common Code specified in the Final Terms will apply until such time as the Relevant Clearing System recognises the Securities of the relevant Tranche to be fungible with any other Tranches of the relevant Series.

Index Disclaimers

The following Index Disclaimers apply to Securities in respect of which the Underlying Asset(s) are specified to include one or more of the FTSE[®] 100 Index; EURO STOXX 50[®] Index or S&P 500[®] Index. Where the Underlying Asset(s) include any other equity indices, the relevant index disclaimers will be set out in the Final Terms.

FTSE[®] 100 Index

The Securities are not in any way sponsored, endorsed, sold or promoted by FTSE International Limited ("FTSE") or by the London Stock Exchange Plc (the "Exchange") or by The Financial Times Limited ("FT") and neither FTSE nor the Exchange nor FT makes any warranty or representation whatsoever, expressly or impliedly, either as to the results to be obtained from the use of the FTSE[®] 100 Index (the "Index") and/or the figure at which the said Index stands at any particular time on any particular day or otherwise. The Index is compiled and calculated by FTSE. However, neither FTSE nor the Exchange nor FT shall be liable (whether in negligence or otherwise) to any person for any error in the Index and neither FTSE nor the Exchange nor FT shall be under any obligation to advise any person of any error therein.

'FTSE[®]', 'FT-SE[®]' and 'Footsie[®]' are trademarks of the London Stock Exchange Plc and The Financial Times Limited and are used by FTSE International Limited under licence. 'All-World', 'All-Share' and 'All-Small' are trademarks of FTSE International Limited.

EURO STOXX 50[®] Index

STOXX and its licensors (the "Licensors") have no relationship to the Issuer, other than the licensing of the EURO STOXX 50[®] Index and the related trademarks for use in connection with the Securities.

STOXX and its Licensors do not:

- Sponsor, endorse, sell or promote the Securities.
- Recommend that any person invest in the Securities or any other securities.
- Have any responsibility or liability for or make any decisions about the timing, amount or pricing of Securities.
- Have any responsibility or liability for the administration, management or marketing of the Securities.
- Consider the needs of the Securities or the owners of the Securities in determining, composing or calculating the EURO STOXX 50[®] Index or have any obligation to do so.

STOXX and its Licensors will not have any liability in connection with the Securities. Specifically

STOXX and its Licensors do not make any warranty express or implied and disclaim any and all warranty about:

Under no circumstances will STOXX or its Licensors be liable for any lost profits or indirect, punitive, special or consequential damages or losses, even if STOXX or its Licensors knows that they might occur.

The licensing agreement between the Issuer and STOXX is solely for their benefit and not for the benefit of the owners of the Securities or any other third parties.

S&P[®] 500 Index

The Securities are not sponsored, endorsed, sold or promoted by Standard & Poor's Financial Services LLC ("**S&P**"), its affiliates or their third party licensors. Neither S&P, its affiliates nor their third party licensors make any representation or warranty, express or implied, to the owners of the Securities or any member of the public regarding the advisability of investing in securities generally or in the Securities particularly or the ability of the S&P 500[®] Index (the "**Index**") to track general stock market performance. S&P's and its third party licensors' only relationship to the Issuer is the licensing of certain trademarks, service marks and trade names of S&P and/or its third party licensors and for the providing of calculation and maintenance services related to the Index. Neither S&P, its affiliates nor their third party licensors are responsible for and have not participated in the determination of the prices and amount of the Securities or the timing of the issuance or sale of the Securities or in the determination or calculation of the equation by which the Securities are to be converted into cash. S&P has no obligation or liability in connection with the administration, marketing or trading of the Securities.

NEITHER S&P, ITS AFFILIATES NOR THEIR THIRD PARTY LICENSORS GUARANTEE THE ADEQUACY, ACCURACY, TIMELINESS OR COMPLETENESS OF THE INDEX OR ANY DATA INCLUDED THEREIN OR ANY COMMUNICATIONS, INCLUDING, BUT NOT LIMITED TO, ORAL OR WRITTEN COMMUNICATIONS (INCLUDING ELECTRONIC COMMUNICATIONS) WITH RESPECT THERETO. S&P, ITS AFFILIATES AND THEIR THIRD PARTY LICENSORS SHALL NOT BE SUBJECT TO ANY DAMAGES OR LIABILITY FOR ANY ERRORS, OMISSIONS OR DELAYS THEREIN. S&P MAKES NO EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR USE WITH RESPECT TO ITS TRADEMARKS, THE INDEX OR ANY DATA INCLUDED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT WHATSOEVER SHALL S&P, ITS AFFILIATES OR THEIR THIRD PARTY LICENSORS BE LIABLE FOR ANY INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE OR CONSEQUENTIAL DAMAGES, INCLUDING, BUT NOT LIMITED TO, LOSS OF PROFITS, TRADING LOSSES, LOST TIME OR GOODWILL, EVEN IF THEY HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, WHETHER IN CONTRACT, TORT, STRICT LIABILITY OR OTHERWISE.

Standard & Poor's[®] and S&P[®] are registered trademarks of Standard & Poor's Financial Services LLC and have been licensed for use by the Issuer.
